BOOKS IN CHROMATOGRAPHY

Journal of Chromatography Library

■ Volume 1: **Chromatography of Antibiotics**
by G.H. Wagman and M.J. Weinstein
1973. 247 pages. U.S.$ 26.95/Dfl. 65.00.
ISBN 0-444-41106-2

■ Volume 2: **Extraction Chromatography**
edited by T. Braun and G. Ghersini
1975. about 590 pages. U.S.$ 54.25/Dfl. 130.00.
ISBN 0-444-99878-0

■ Volume 3: **Liquid Column Chromatography**
edited by Z. Deyl, K. Macek and J. Janák
1975. 1198 pages. U.S.$ 120.95/Dfl. 290.00.
ISBN 0-444-41156-9

■ Volume 4: **Detectors in Gas Chromatography**
by J. Sevčík
1975. about 280 pages. Price to be announced.
ISBN 0-444-99-857-8

Chromatography of Environmental Hazards

by Lawrence Fishbein

■ Volume 1: **Carcinogens, Mutagens and Teratogens**
1972. 507 pages. U.S.$ 56.25/Dfl. 135.00.
ISBN 0-444-40948-3

■ Volume 2: **Metals, Gaseous and Industrial Pollutants**
1973. 649 pages. U.S.$ 62.50/Dfl. 150.00.
ISBN 0-444-41059-7

■ Volume 3: **Pesticides**
1975. about 840 pages. U.S.$ 108.50/Dfl. 260.00.
ISBN 0-444-41158-5

■ Volume 4: **Drugs**
1976. In preparation

Bibliography of Electrophoresis 1968-1972. And Survey of Applications

edited by Z. Deyl, J. Kopecký, J. Janák, M. Bažíková and R. Helmr
Supplementary Volume No. 3. Published in connection with the Journal of Chromatography
1975. about 850 pages. Price to be announced.
ISBN 0-444-41225-5

Bibliography of Paper and Thin-Layer Chromatography 1970-1973. And Survey of Applications

edited by K. Macek, I.M. Hais, J. Kopecký, V. Sedivec, J. Čarpenter and J. Chmelík
Supplementary Volume No. 2. Published in connection with the Journal of Chromatography
1976. about 700 pages. Price to be announced.
ISBN 0-444-41299-9

Advances in Chromatography 1974

edited by A. Zlatkis and C.S. Tuan
1974. 788 pages. U.S.$ 66.75/Dfl. 160.00.
ISBN 0-444-41267-0

Pharmaceutical Applications of Thin-Layer and Paper Chromatography

edited by K. Macek
1972. 759 pages. U.S.$ 104.25/Dfl. 250.00.
ISBN 0-444-40923-8

Practical Manual of Gas Chromatography

edited by J. Janák
1969. 407 pages. U.S.$ 41.75/Dfl. 100.00.
ISBN 0-444-40677-8

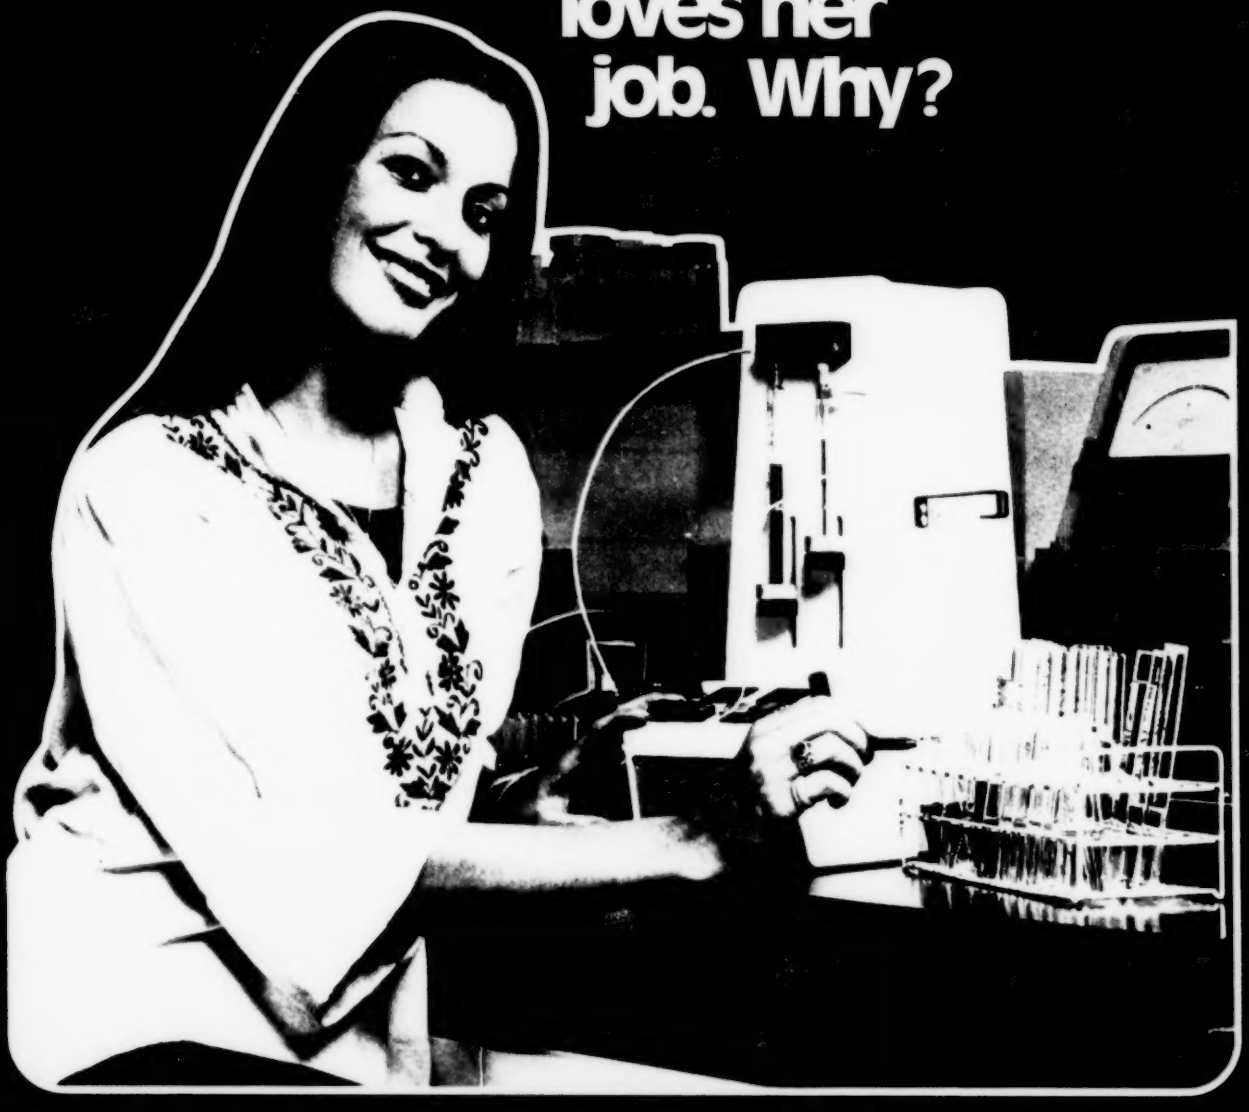
AN EXTENSIVE BROCHURE GIVING FULL DETAILS OF ALL THESE TITLES IS AVAILABLE FROM THE PUBLISHER

ELSEVIER SCIENTIFIC PUBLISHING COMPANY

P.O. Box 211, Amsterdam, The Netherlands.

Distributed in the U.S.A. and Canada by
AMERICAN ELSEVIER PUBLISHING COMPANY, INC.,
52 Vanderbilt Ave., New York, N.Y. 10017

Mary Jones loves her job. Why?



She has got the most advanced digital diluter you ever saw.
In a fully inert system samples from 1 µl to 10 ml may be diluted with a solvent-volume up to 10 ml. Digital volume settings for each one of the syringes change volumes in no time between 1% and 99% of the syringe volume.

The most modern digital electronics guarantee accurate and reproducible results.
The diluter even may be easily converted into a dual dispenser.
Don't you still understand Mary, write for more detailed information to Micromesure, P.O. Box 205, The Hague 2076, Holland.

HAMILTON

Make sure you specify Whatman – specialists in HPLC media technology.

And now.....

Gel filtration and Affinity chromatography even in 6M GuHCl, organic solvents, 8M urea, 3M KSCN at pH3, pH12, 80°C

CROSS-LINKED SEPHAROSE is a new beaded agarose chromatographic medium with exceptional stability and extremely low non-specific adsorption. It can be used with confidence in the most extreme dissociating media including strong solutions of urea, guanidine hydrochloride and chaotropic salts. Sepharose CL can also be used in organic solvents.

You can sterilize Sepharose CL repeatedly by autoclaving at 110°C - 120°C. Cross-linked Sepharose is available in three types: Sepharose® CL-2B, CL-4B and CL-6B.

Ask for the free booklet with data and details of new techniques, from your supplier of Sephadex®, Sepharose® and other separation media.

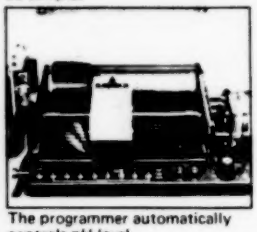
The auto sampler accepts up to 60 samples



The programmer automatically controls pH level

The chromatograph column requires only small quantities of sample and buffer solutions

represents a completely new approach to the analysis of amino acids

- Chromaspek will complete a protein hydrolysate run in 1 hour
- A physiological run such as plasma can be completed in 2 hours—Urine takes only 5 hours
- Chromaspek requires only two, easily prepared, buffer solutions—both stable at normal ambient temperatures
- The pH level is governed by controlled mixing of these through a flexible gradient programmer
- This unique programmer automatically varies the pH, smoothly and rapidly throughout the analytical cycle, thereby avoiding steps and buffer peaks
- Peaks of less than 500 picamoles can be measured
- A 60 position auto sampler allows the instrument to be left unattended over an entire weekend
- The chromatograph column is unusually narrow requiring only small sample volumes and low buffer flow rates
- Chromaspek has low operating costs.

PUBLISHER's NOTE

This issue of the Journal of Chromatography contains cumulative author and subject indexes covering volumes 51–100. In each entry, the volume number is placed in parenthese before the page number. The correspondence between volume number and year of publication is indicated as follows:

Volume No.	*Year*
46–53	1970
54–63	1971
64–74	1972
75–87	1973
88–100	1974

SUBJECT INDEX

VOLUMES 51–100

A

Abate
Alkali-flame GC of ---- (59) 161
ABH blood group
Gel filtration of --- substances. I. Fractionation of ABH substances of human saliva (55) 337
ABH blood group
Gel filtration of --- substances. II. Individual gel chromatographic patterns of ABH substances in the saliva of secretors and non-secretors (55) 351
ABH blood group
Gel filtration of --- substances. III. ABH gel filtration pattern of solubilised red cell stroma (55) 365
ABH blood group
Gel filtration of --- substances. IV. Fractions 4 and 5 of ABH substances in human red cells and their secretion patterns in saliva (84) 335
Absorption
Quantitative analysis on thin-layer chromatograms. Theory of ---- and fluorescent densitometry (78) 7
Accuracy in GC
Study of the effects of instrument variables on --- and precision in GC. I. Contribution of the method of peak measurement (92) 257
Accuracy in GC
Study of the effects of instrument variables on --- and precision in GC. II. Errors associated with the injection of liquid samples by microlitre syringes (97) 115
Acenaphthene
Rapid-scanning spectrophotometry as a new detection system in chromatography (83) 357
Acetaldehyde
Direct GC estimation of lower alcohols, ---, acetone and diacetyl in milk products (53) 363
Acetaldoxime
GC separation and IR identification of *syn*- and *anti*- --- (64) 371
Acetamides
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of phenothiazine and related drugs (74) 35
Acetate ester production
Petrochemical analytical problems. III. GC control of --- using porous polymer bead columns (93) 413
Acetic acid
Degradation of Sephadex G-150 by 50% formic and --- (58) 285
Acetic acid
GC separation and detection of C_1 to C_3 monocarboxylic acids as the *p*-substituted benzyl esters (52) 63
Acetic acid
Hydrogen-treated graphitized carbon blacks. Adsorption of --- and propylamine by GC (77) 277
Acetoin
Application of ion-exclusion and ion-exchange techniques in preparing 2,3-dihydroxy-methylbutanamide and 2,3-dihydroxy-2-methylbutanoic acid from --- via the cyanohydrin synthesis (74) 265
Acetone
Direct GC estimation of lower alcohols, acetaldehyde, --- and diacetyl in milk products (53) 363
Acetophenone
Reactions on aluminium oxides. IV. Conversions of --- on aluminium oxide (74) 129
3α-Acetoxylithocholic acid (5β)-methyl ester
Reactions on alumina oxides. VI. Conversions of --- on alumina oxide (79) 364
Acetylacetone
Distribution coefficients of --- and tris(acetylacetonato)chromium(III) in the Merckogel OR-2000–chloroform system (92) 291

N-Acetyl-*p*-aminobenzoic acid
High-performance LC method for the determination of *p*-aminobenzoic acid and some of its metabolites (99) 635
N-Acetyl-*p*-aminohippuric acid
High-performance LC method for the determination of *p*-aminobenzoic acid and some of its metabolites (99) 635
N-Acetyl-*p*-aminophenol
GLC of --- (paracetamol) in plasma and urine (59) 289
1-Acetyl biuret
PC and reflecting-integral densitometric quantitative analysis of the mixture 1-acetyl- and 1,5-diacetyl biuret with its cyclization product 2,4-dioxo-6-methyl-tetrahydro-*s*-triazin (69) 219
Acetylcholinesterase
Affinity chromatography of triton-solubilized brain --- (92) 349
Acetylcholinesterase
Ion-exclusion effects on the chromatography of --- and other proteins on agarose columns at low ionic strength (92) 127
Acetylenes
GLC properties of ten synthetic chloro- --- (88) 289
Acetyl esters
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of phenothiazine and related drugs (74) 35
Acetylmethadol
GLC method for the quantitative determination of --- and its metabolites in human urine (82) 315
6-(O-Acetyl)morphine
Application of high-speed LC to the analysis of morphine, heroin, --- and methadone (87) 95
Acids
Application of a statistical method to counter-current distribution of --- and bases and their separation by discontinuous change of pH (92) 1
Acids
Automated chromatography of aromatic ---, aldehydes and alcohols with an amino acid analyser (59) 53
Acids
GC separation and detection of C_1 to C_3 monocarboxylic --- as the *p*-substituted benzyl esters (52) 63
Acids
Industrial analytical applications of rapid ion-exchange separations of weak organic --- (55) 309
Acids
Quantitative GC determination of β-hydroxybutyric --- with application to eggs (51) 423
Acids
Quantitative GLC determination of aromatic aldehydes and --- from nitrobenzene oxidation of lignin (51) 167
Acids
Relations between the structure and the chromatographic behaviour of poly-functional ---: group constants and correlations "R_M–pK_a" (76) 441
Acids
TLC of phosphoric monoacids. Relationships between the chromatographic behaviour of acids, their molecular structure and the composition of the solvent system (88) 109
Acids, aromatic
Chromatography of --- and aldehydes and phenols on cross-linked polyvinyl-pyrrolidone (93) 189
Acid dyes
Separation and detection of water-soluble --- on polyamide thin layers (73) 173
Acids, fatty, *see* Fatty acids
Acids, organic
Versatile and sensitive method for the detection of organic acids and organic phosphates on paper chromatograms (94) 294
Acidic compounds
Rapid esterification for GC (88) 229
Aconitic acids
Specific, fluorimetric identification of citric and --- simultaneously (73) 290
Acridone alkaloids
TLC of --- (72) 421
Acrosin
Partial purification of bovine --- by affinity chromatography (92) 445
Acrylamide
Quantitative electrophoresis in polyacrylamide gels of 2–40% (64) 147
Acrylamide–agarose gel beads
Use of --- and plates in the study of serum proteins (92) 137

Acrylamide gels
Apparatus to facilitate the preparation of continuous and gradient disc — — (62) 383
Acrylamide gels
Scanning of — — by an inexpensive accessory apparatus for a spectrophotometer (85) 147
Acrylic resin
Chromatographic separation of phenols using an — — (79) 107
Acrylonitriles
GLC of 2-substituted 3-(5-phenyl-2-furyl) — — (64) 358
Actinomycins
Reversed-phase high-pressure LC of — — (86) 246
Activity coefficients
Apiezon L as a stationary phase for the determination of — — by liquid–liquid chromatography (97) 15
Activity coefficients
Application of GLC to the determination of the temperature dependence of the excess partial molar enthalpy of mixing at infinite dilution (100) 202
Activity coefficients
Determination of — — and thermodynamic quantities by GLC (81) 19
Activity coefficients
GC determination of — — and thermodynamic parameters of solutions of gaseous hydrocarbons in squalane under subcritical conditions (94) 25
Activity coefficients
Study on the reliability of the excess enthalpies calculated from GLC retention data (65) 241
Activity coefficients
Theoretical investigation of the excess free energy of binary *n*-alkane systems (99) 193
N-Acyl amino acid
GLC of — — alkyl esters (54) 205
Acylation
— — with bis(acylamides). N-Methyl-bis-(trifluoroacetamide) and bis(trifluoroacetamide), two new reagents for trifluoroacetylation (78) 273
Acyl-leucines
GLC separation of oxazolin-5-one derivatives of an amino acid (69) 366
N-Acyl-O-methyl derivatives
Chromatographic resolution of molecular species of phosphatidylethanolamine as — — (80) 233
3-Acylpyrenes
GLC and TLC of some 3- and 3,X-substituted pyrenes (80) 259
Adamantane derivatives
GC characterization of 2-thia — — (89) 319
Adenine
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Adenine
GLC of the purine and pyrimidine bases (61) 45
Adenine
Sensitive method for the detection of — — compounds separated by PC or TLC (55) 413
Adenine
Separation and determination of nanomole amounts of some purines, uric acid and uric acid riboside by two-dimensional PC (100) 95
Adenine
TLC of — — and its metabolites (52) 496
Adenines
TLC of cyclic adenosine 3′,5′-monophosphate on tetraborate-impregnated silica gel layers (52) 171
Adenine nucleotides
Determination of myocardial acid-soluble — — on anion-exchange thin layers (64) 378
Adenosine
Contributions of anion-exchange TLC to the study of free nucleotides in tissues (71) 127
Adenosine
Determination of acid-soluble nucleosides and bases in myocardium by thin-layer methods (79) 360
Adenosine
Rapid and sensitive measurement of 7-methylguanosine and N^6-isopentenyl derivatives of — — by cation-exchange chromatography (59) 188
Adenosine
Separation and determination of nanomole amounts of some purines, uric acid and uric acid riboside by two-dimensional PC (100) 95

Adenosine derivatives
LC analysis of nucleosides, purine base-modified ——— and 3',5'-cyclic AMP (76) 477
Adenosine diphosphate
Improvement of a routine method for the quantitative determination of adenosine triphosphate and its degradation products in *post mortem* muscles (88) 168
Adenosine diphosphate
Quantitative TLC of ATP and the products of its degradation in meat tissue (90) 105
Adenosine monophosphate
Improvement of a routine method for the quantitative determination of adenosine triphosphate and its degradation products in *post mortem* muscles (88) 168
3',5'-Adenosine monophosphate
PC combined with phosphodiesterase treatment in the determination of radioactively labelled cyclic ——— (67) 139
Adenosine monophosphate
Quantitative TLC of ATP and the products of its degradation in meat tissue (90) 105
Adenosine 3',5'-monophosphate
TLC of cyclic ——— on tetraborate-impregnated silica gel layers (52) 171
Adenosine-5'-triphosphate, *see also* ATP
Adenosine triphosphate
Improvement of a routine method for the quantitative determination of ——— and its degradation products in *post mortem* muscles (88) 168
Adenosine triphosphate
Quantitative TLC of ATP and the products of its degradation in meat tissue (90) 105
Adenylyl sulphate
Rapid chromatographic method for the separation of nucleotide sulphates (69) 426
Adipic acid
Amino acid analysis of elastin — a rapid method (71) 361
Adiponitrile
GLC analysis of small amounts of formamide (61) 145
Adiponitrite
Separation of *cis*- and *trans*-1,2-diamino-cyclohexane via trifluoroacetylation. The use of ethyl trifluoroacetate as trifluoroacetylating agent (63) 370
Adrenaline
Direct quantitative evaluation of thin-layer chromatograms by remission- and fluorescence measurements. Part 6. Determination of ———, noradrenaline and dopamine from urine (56) 271
Adrenaline
Nature of some solvent-derived artifact spots observed during the chromatography of ——— (51) 525
Adrenaline
TLC and GC separation of 4-hydroxy-3-methoxy- and 3-hydroxy-4-methoxy-mandelic acid (84) 187
Adrenochrome
Chemistry of the aminochromes. XIX. The reactions of ———, adrenolutin and 5,6-dihydroxy-1-methylindole with some silylating agents (81) 57
Adrenocortical steroids
Chromatography of ——— on silicic acid columns (53) 225
Adrenolutin
Chemistry of the aminochromes. XIX. The reactions of adrenochrome, ——— and 5,6-dihydroxy-1-methylindole with some silylating agents (81) 57
Adsorbents
Achievement of reproducible separations by the application of standardized sorbents in specified systems (78) 77
Adsorbents
——— for GSC prepared by epitaxial modification of clay minerals with quaternary ammonium ions (58) 31
Adsorbent
Adsorption of inorganic anions on hydrous oxides (94) 313
Adsorbents
Affinity chromatography (91) 261
Adsorbents
Characterization of silica gel by its pore system and activity (78) 63
Adsorbents
Chromafol® — a new material in flat-bed chromatography (78) 93
Adsorbents
Chromatographic properties of type X zeolites containing alkali metal cations (58) 47

Adsorbents
Comparison of TLC – – –, supports and developing units (52) 291
Adsorbents
Critical operating parameters of the fluid grading method (84) 225
Adsorbents
Effect of the carrier gas velocity on the retention volume in GC on Porapak sorbents (19) 59
Adsorbents
Estimation of the surface area of – – – from the third gas solid virial coefficient (72) 221
Adsorbents
Flat-bed separation of tar substances on Sorbofol® (78) 101
Adsorbents
GC properties of a modified, wide-pore silica gel (78) 228
Adsorbents
GC on monolayers (58) 19
Adsorbents
GLC/GSC of hydrogen-bonding compounds (62) 462
Adsorbents
Influence of Silica Gel G on the quantitative analysis of lipid phosphorus (78) 89
Adsorbents
Interaction of Porapak R with water and methanol (65) 255
Adsorbents
Intermolecular interactions in GC separations on zeolites (58) 39
Adsorbent
Kaolinite, an – – in GSC (93) 217
Adsorbents
Mass transfer coefficients in GC on porous polymers of the Porapak type (91) 51
Adsorbents
Novel, polymer-deactivated – – as supports in GLC (89) 369
Adsorbents
Precisely deactivated – – applied to the separation of chlorinated hydrocarbons (70) 168
Adsorbents
Preparation and use of surface-modified – – – in clean-up techniques for pesticide residue analysis (90) 198
Adsorbents
Preparation of – – – for biospecific affinity chromatography. I. Attachment of group-containing ligands to insoluble polymers by means of bifunctional oxiranes (90) 87
Adsorbents
Quantitative TLC with the use of different types of – – – (78) 55
Adsorbents
Relationships between the solute, solvent and – – – in TLC. III. Relationship between the molecular structure of the solvent and the migration of solute on the layer. Application to the chromatography of neutral organophosphorus compounds (76) 381
Adsorbents
Retention behaviour during separations on polar sorbents containing ether groups (58) 61
Adsorbents
Silica gel as an insoluble carrier for the preparation of selective chromatographic – – –. The preparation of 8-hydroxyquinoline substituted silica gel for the chelation chromatography of some trace metals (76) 455
Adsorbents
Silochroms as – – – and supports in LC (80) 167
Adsorbents
Silver complexes as – – – in GSC (57) 313
Adsorbents
Study of the sorption properties of the "spherosils" (65) 249
Adsorbents
TLC on alumina – sintered glass plates (86) 57
Adsorbent effects
Kinetic model for GLC with – – – (78) 251
Adsorbent heterogeneity
Investigations of – – – by GC. I. Investigation of adsorption mechanism on heterogeneous surfaces (92) 9
Adsorbent heterogeneity
Investigations of – – – by GC. II. Evaluation of the energy distribution function (92) 25
Adsorbents, salt crystal
Separation of aromatic and sulphur-containing hydrocarbons on pure and dispersed chlorides and sulphates of a series of bivalent metals (91) 699

Adsorbent surface
Problems of selectivity and efficiency in LSC (91) 187
Adsorption
Active surface sites and deactivation of Chromosorb 102 (60) 319
Adsorption
--- behaviour of aromatic nitro compounds on Sephadex LH-20 (95) 159
Adsorption
--- of organic molecules on esterified silica gel. I. Heat of adsorption as a key to a model of adsorption (80) 1
Adsorption
--- of organic molecules on esterified silica gel. II. Demonstration of the adsorption hypothesis by means of the surface model (80) 15
Adsorption
Aqueous two-phase system of dextran/hydroxypropyldextran as a model in --- studies of Sephadex gels (63) 420
Adsorption
Determination of differential heats of -- by GSC (61) 207
Adsorption
GLC study of the -- properties of a stationary phase containing a mixture of squalane and Bentone 34 (89) 295
Adsorption
Influence of static and dynamic effects on the reproducibility of retention data in GLC (80) 25
Adsorption
Investigations of the retention mechanism in partition GLC (91) 67
Adsorption
Non-equilibrium effects in the branched-chain peak broadening phenomenon in GC on Porapak P (84) 7
Adsorption
Study on the possibility of determining the third gas–solid virial coefficient in physical --- by GC (66) 1
Adsorption
Theoretical approach to GSC applied to the slow attainment of --- equilibrium and to the Langmuir isotherm (94) 1
Adsorption affinity
Relationships between solute, solvent and adsorbent in TLC. II. Relationships between the molecular structure of compounds and their ---. Respective contributions of inductive steric effects in neutral organophosphorus compounds (68) 143
Adsorption affinity
TLC temperature effects; application to quantitative measurements; correlations between structure and chromatographic behaviour (84) 241
Adsorption chromatography
Two-component solvent systems in --- on silica gels with different specific surface areas (93) 177
Adsorption constants
Adsorption phenomena in GLC (65) 227
Adsorption constants
Chromatographic -- and π electron delocalization energies. Correlation of values (62) 73
Adsorption, influence of
Identification of GC zones in practical GLC. --- on relative retention (98) 477 (review)
Adsorption isotherms
Chromatographic method for the determination of -- at high adsorbate concentrations (93) 464
Adsorption isotherms
Contribution to the measurement of --- by the pulse chromatograph technique (81) 9
Adsorption isotherms
Determination of --- of the components of binary gas mixtures by GC (79) 1
Adsorption isotherms
New method for the determination of simultaneous -- in gas-solid systems by means of GC (71) 173
Adsorption isotherm
On the mechanism of support surface adsorption in GLC systems (74) 3
Adsorption mechanism
Investigations of adsorbent heterogeneity by GC. I. Investigation of --- on heterogeneous surfaces (92) 9
Adsorption mechanisms
Non-aqueous solvent chromatography. IV. Effects of solvents and ion-exchange resins on --- and their application in high-speed LC (88) 87
Adsorption phenomena
--- in GLC (65) 227
Adsorption phenomena
Contribution of solution and --- in

gas–liquid partition chromatography systems in which infinite dilution of solute may be assumed (67) 21
Adsorption TLC
Investigations on the adsorption process in TLC by using two-component mobile phases (93) 167
Adsorptive properties
Influence of silanization on ––– of supports in gas–liquid partition chromatography (72) 5
Adsorptivity
Influence of the molecular structure of aromatic hydrocarbons on their ––– on alumina (91) 649
Aerosol
Analytical studies of pyrethrin formulations by GC. II. Isolation of the pyrethrins from water-based formulations (72) 51
Aerosol irritant projectors
GC–MS method for analysis of the contents of ––– (80) 155
Affinity chromatography (91) 267
Affinity chromatography
Modified agarose derivative for –––. Application to purification of human α-fetoprotein (87) 239
Affinity chromatography
Preparation of adsorbents for biospecific –––. I. Attachment of group-containing ligands to insoluble polymers by means of bifunctional oxiranes (90) 87
Affinity chromatography
Preparation of a glycopeptide–Sepharose for ––– (75) 114
Aflatoxin
––– detection by high-speed LC and mass spectrometry (84) 402
Aflatoxins
Note on the estimation of ––– by TLC (65) 456
Agar
Agar derivatives for chromatography, electrophoresis and gel-bound enzymes. I. Desulphated and reduced cross-linked ––– and agarose in spherical bead form (60) 167
Agar
––– derivatives for chromatography, electrophoresis and gel-bound enzymes. II. Charge-free agar (66) 347
Agar
Some new methods for the preparation of agarose (61) 73
Agar–agar
TLC of amino acids with ––– as binder (69) 402
Agar, charge-free
Agar derivatives for chromatography, electrophoresis and gel-bound enzymes. II. Charge-free agar (66) 347
Agarose
Affinity chromatography in the purification of glutathione reductase (77) 191
Agarose
Agar derivatives for chromatography, electrophoresis and gel-bound enzymes. I. Desulphated and reduced cross-linked agar and ––– in spherical bead form (60) 167
Agarose
Agar derivatives for chromatography, electrophoresis and gel-bound enzymes. II. Charge-free agar (66) 347
Agarose
Increased resolution of polymers through longitudinal compression of agarose gel columns (52) 494
Agarose
Some new methods for the preparation of ––– (61) 73
Agarose derivative
Modified ––– for affinity chromatography. Application to purification of human α-fetoprotein (87) 239
Agarose gels
Electroosmotic flow in ––– and the value of agarose as stabilising agent in gel electrofocusing (54) 405
Agarose gels
Preparation of cyanogen bromide-activated ––– (86) 53
Aglycones
Evaluation of several solvent systems in the TLC separation of cardiotonic ––– and glycosides from cholesterol, phytosterols and their esters (73) 279
Aglycones
Phytochemistry of the *Salicaceae*. III. A GLC procedure for the identification of plant phenols (71) 427
Aglycones
Separation of plant glycosides and ––– using TLC and electrophoresis (53) 399

Agmatine derivatives
Separation of some ––– by paper electrophoresis and PC (95) 254
$AgNO_3$–N-methylacetamide stationary phase
Thermodynamics of interactions of hexenes with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Air
Determination of carbon monoxide in ––– in the parts per billion range by means of a helium detector (77) 125
Air particulates
Recent advances in the GC and LC of fluorescent compounds. I. A direct gas-phase isolation and injection system for the analysis of polynuclear arenes in ––– by GLC (99) 697
Air pollutants
Sampling of ––– with support-bonded chromatographic phases (62) 15
Air pollutants
Use of high-efficiency packed columns for GSC. V. Micropacked columns (90) 239
Air pollution
Application of the method of chromatographic equilibration to ––– studies. The determination of minute amounts of halothane in the atmosphere of an operating theatre (64) 15
Air pollution
Determination of aza-heterocyclic compounds in atmospheric dust by a combination of TLC and GC (84) 371
Air pollution
Improved chromatographic evaluation of alkanes in atmospheric dust samples (86) 234
Air pollution
Separation of polynuclear aza-heterocyclics by high-speed LC on a chemically bonded stationary phase (71) 451
Alanine
GLC of amino acid derivatives. The effect of substituents (78) 211
β-Alanine
TLC of L-carnosine and ––– (63) 459
Albumin
Use of simple concentration gradients for the fractionation of human serum proteins on DEAE-cellulose, with especial reference to the isolation of ––––, prealbumin, haemopexin and transferrin (84) 87
Alclofenac
GC determination of 4-allyloxy-3-chlorophenylacetic acid (–––) and its metabolites (62) 135
Alcohols
Analysis of some β-branched primary ––– and α-branched carboxylic acids by combined capillary GC and MS (91) 775
Alcohols
Automated chromatography of aromatic acids, aldehydes and ––– with an amino acid analyser (59) 53
Alcohols
Calibration of tightly cross-linked gel filtration media for determination of the size of low molecular weight, non-interacting solutes (54) 43
Alcohols
Chromatographic behaviour and the structure of secondary aliphatic –– (65) 311
Alcohols
Chromatographic examination of the *p*-nitrobenzoates and α-naphthylurethans of lower aliphatic –– (72) 391
Alcohols
Chromatography of ––– and sugars on Fe(III)-loaded cation-exchange resin (68) 267
Alcohols
Direct GC estimation of lower ––, acetaldehyde, acetone and diacetyl in milk products (53) 363
Alcohols
GC of derivatives of heterocyclic phosphorus-containing compounds. Detection of small amounts of ––– with the thermionic detector (82) 279
Alcohols
High-pressure LC of polyhydric ––– on silica gel columns (100) 233
Alcohols
Ion-exchange chromatography of aldehydes, ketones, ethers, ––––, polyols and saccharides (98) 55 (review)
Alcohols
Method for the esterification of carboxylic acids in GC analysis (82) 291
Alcohol
New uses for molecular-size exclusion chromatography (83) 125

Alcohols
Preparative GC resolution of 3,3-dimethyl-2-butanol and other ——— (51) 407
Alcohols
Retention index–structure relationships for ——— using factor analysis (69) 249
Alcohols
Separation of the four butyl alcohol isomers on a cation-exchange resin column (57) 424
Alcohols
Study of the strontium and barium halides as column packings in GSC (53) 477
Alcohols
TLC behaviour of the acetates of some polyfunctional diterpene ——— of toxicological interest (87) 443
Alcohol
Use of precolumn reactions for the selective removal of compounds bearing ——— or carbonyl functional groups in the GC analysis of mixtures (64) 25
Alcohol dehydrogenase isozymes
Method of high resolution immuno-electrophoresis for the ——— (67) 385
Alcohols, polyhydric
Gel chromatography: the effect of temperature on partitioning (87) 17
Aldadiene
GC determination of levels of ——— in human plasma and urine following therapeutic doses of spironolactone (55) 249
Aldaric acids
Separation of dicarboxylic hydroxy acids by anion-exchange chromatography and GC (57) 353
Aldehydes
Automated chromatography of aromatic acids, ——— and alcohols with an amino acid analyser (59) 53
Aldehydes
Evaluation of polyalkylimines as specific carbonyl abstractors in GC (99) 319
Aldehydes
Free fatty acid phase high resolution capillary columns (61) 334
Aldehydes
Identification of peaks in GC by the use of subtractor columns. II. The action of free fatty acid phase on ——— (66) 249
Aldehydes
Ion-exchange chromatography of ———, ketones, ethers, alcohols, polyols and saccharides (98) 55 (review)
Aldehydes
Method for analyzing volatile alkanals from autoxidizing fats (76) 125
Aldehydes
Quantitative GLC determination of aromatic ——— and acids from nitrobenzene oxidation of lignin (51) 167
Aldehydes, aromatic
Chromatography of aromatic acids and ——— and phenols on cross-linked polyvinylpyrrolidone (93) 189
Aldehyde groups
Chromatographic separation of aldehyde-containing compounds from bovine elastin (78) 371
Alditols
GLC of some partially methylated ——— as their trimethylsilyl ethers (73) 29
Alditols
GLC analysis of permethylated ——— and aldonic acids (87) 163
Alditols
Partition chromatography of cyclitols on ion-exchange resins (85) 93
Alditol acetates
Comments on GLC and MS of methylated ——— (72) 13
Alditol acetate
Quantitative determination of carbohydrates in cellulosic materials by GLC. Automatic integration of ——— peak areas (54) 9
Aldol condensation
Determination of ε-hydroxynorleucine and "reduced aldol condensate" by standard amino acid chromatography (79) 337
Aldonic acids
GLC analysis of permethylated alditols and ——— (87) 163
Aldonic acids
Separation of oligomeric ——— by anion-exchange chromatography (83) 45
Aldonic acids and lactones
Separation of aldonic, deoxyaldonic, hexuronic and hexaric lactones and acids using thermostable open tubular glass capillary columns (88) 149

Aldononitrile acetates
GC determination of neutral sugars from glycoproteins and acid mucopolysaccharides as --- (86) 205
Aldononitrile acetates
Separation of --- of neutral sugars by GLC and its application to polysaccharides (77) 222
Aldosterone
Disturbance factor in the radio-immunoassay of --- from urine (84) 165
Aldosterone
High-pressure LC of corticosteroids (76) 244
Aldosterone
Quantitative determination of corticosteroids from plasma by high-pressure LC (84) 396
Aldosterone
TLC of steroid derivatives for radioimmunoassay (69) 151
Aldoximes
Chromatographic behaviour and chemical structure of aromatic --- (76) 185
Aldoximes
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
threo-Aleuritic acid
Chromatographic separation of the alkaline hydrolysis products of Shellac (84) 51
Alginic acid
Polyacrylamide gel electrophoresis of --- (89) 99
Alicyclic sulphides
GC retention data of some aliphatic and --- (52) 69
Aliphatic alcohols
Chromatographic examination of the *p*-nitrobenzoates and α-naphthylurethans of lower --- (72) 391
Aliphatic amines on cobalt and alumina
Contribution to the measurement of adsorption isotherms by the pulse chromatograph technique (81) 9
Aliphatic compounds
GC identification of saturated ---. II. Compounds developed in two directions (100) 73
Aliphatic compounds
TLC on silica gel as a method for assigning the relative configurations to some aliphatic diastereomeric compounds (54) 383
Aliphatic esters
GC of homologous esters. Part V. Retention of --- on non-polar, donor and acceptor stationary phases (60) 33
Aliphatic esters
Topology-information relationship between the structures of saturated --- and their retention times in GC (68) 19
Aliphatic esters
Topology-information relationship between the structures of ketones and saturated --- and their retention times in GC (77) 255
Aliphatic fatty acids
Additivity of retention data for ethylenic functions in ---. I. Apiezon L (86) 73
Aliphatic fatty acids
Additivity of retention data for ethylenic functions in ---. II. Polar liquid phases (86) 83
Aliphatic saturated compounds
Identification of --- by means of GC. I. Compounds developed in one direction (84) 275
Aliphatic side-chains
Pyrolytic and MS fragmentation of --- in alkylresorcinols (69) 59
Aliphatic sulphides
GLC retention data of some --- and alicyclic sulphides (52) 69
Alkali earth metals
Effect of resin cross-linking on the cation-exchange separation of --- and alkaline earth metals on sulphonic cation exchangers (71) 507
Alkali flame detector
Comparative GC response of organophosphorus compounds containing nitrogen and nitrogen compounds with --- and electrolytic conductivity detector (70) 37
Alkali flame detector
Negative response (52) 47
Alkali flame detector
Spectral response of the --- (61) 35
Alkali flame ionization detector
Detection of boron and the response of some boronate derivatives of carbohydrates with an --- (82) 410
Alkali flame ionisation detector
Evaluation of the --- and the Coulson

electrolytic conductivity detector in the analysis of N-nitrosamines in foods (76) 307
Alkali flame ionisation detector
Response of the ——— to silicon, tin and lead compounds (59) 429
Alkali ions
Preparation and properties of ion exchangers based on macrocyclic polyethers (96) 89
Alkali metals
Synthesis, ion-exchange behaviour and analytical applications of stannous ferrocyanide. Separation of Mg–Ca, Mg–Ba, Mn–Co, Mn–Ni and Y–Th (65) 547
Alkali metal ions
PC identification of the ———. Eluents with H_2S (93) 485
Alkali metal salts
——— of benzenesulphonic acid as stationary phases in GC (71) 534
Alkaline earth ions
Preparation and properties of ion exchangers based on macrocyclic polyethers (96) 89
Alkaline earth metals
Effect of resin cross-linking on the cation-exchange separation of alkali and ——— on sulphonic cation exchangers (71) 507
Alkaline earth metal ions
Effect of sample concentration on the gel chromatographic behaviour of ——— on Sephadex columns (52) 329
Alkaloids
Analytical studies on ergot —— and their derivatives. I. Separation of ergot ——— of the ergotoxine and ergotamine groups by TLC (87) 433
Alkaloids
Cactus ———. XVII. TLC of Dansylated non-phenolic β-phenethylamines (73) 277
Alkaloids
Detection of esters as hydroxamates after separation by paper electrophoresis (56) 87
Alkaloids
GC determination of ibogaine in biological fluids (71) 154
Alkaloids
GC of ergot ——— (61) 339
Alkaloids
High-speed LC of ———. I (100) 227
Alkaloids
High-speed LC of ———. II (100) 231
Alkaloids
Identification of catecholamine-derived ——— in mammals by GC and MS (99) 567
Alkaloids
Identification of substances by TLC in one solvent on a range of layers (63) 448
Alkaloids
Isolation and identification of morphine from *postmortem* tissues (65) 507
Alkaloids
Photodensitometric *in situ* evaluation of *Secale cornutum* —— (72) 139
Alkaloids
Preliminary investigation of the high-speed LC of some ergot —— (77) 425
Alkaloids
Quantitative analysis of tobacco ——— by GC (73) 243
Alkaloids
Quantitative analysis of tropane —— in pharmaceutical preparations (55) 417
Alkaloids
Quantitative GC determination of the major —— in gum opium (89) 76
Alkaloids
Quantitative TLC of ergot ——— (64) 327
Alkaloids
Reaction TLC: the reduction of tropinone (57) 315
Alkaloids
Separation of Rauwolfia —— by TLC (80) 101
Alkaloids
Separation of some indolylalkylamines from their metho cation derivatives using neutral polystyrene resin. Application to the ——— of *Phalaris tuberosa* (*gramineae*) (87) 187
Alkaloids
Separation of some oxindole ——— using high-efficiency LC (81) 150
Alkaloids
Simple, rapid TLC drug screening procedure (95) 75
Alkaloids
Strychnos ———. XXVII. Separation and characterisation of isostrychnine in *Strychnos nux vomica* L. seeds (88) 416
Alkaloids
Technique for the transfer of ——— from thin-layer plates to potassium bromide discs for spectroscopy (73) 274

Alkaloids
TLC of acridone ——— (72) 421
Alkaloids
TLC of belladonna ——— and derivatives. The use of a highly sensitive detection reagent (68) 161
Alkaloids
TLC of lysergide and other ergot ——— (72) 351
Alkaloids
TLC of Thalictrum species ——— (59) 222
Alkaloids
TLC on silica gel sintered plates (74) 73
Alkaloids
TLC separation of quinoline ——— (100) 218
Alkaloids
Thin-layer electrophoresis of ——— (60) 371
Alkanals
Method for analyzing volatile ——— from autoxidizing fats (76) 125
Alkanes
Correlations between physical properties of halogenated ——— and their GC behaviour on polar and non-polar stationary phases. Linear chloro-, bromo- and iodoalkanes (76) 293
Alkanes
Correlation between physical properties of halogenated ——— and their GC behaviour on polar and non-polar stationary phases. II. Branched-chain chloro-, bromo- and iodoalkanes (79) 33
Alkanes
Direct coupling of high-resolution open-hole glass tubular columns to a mass spectrometer for biochemical applications (91) 385
Alkanes
GC separations of ——— on urea inclusion compounds with *n*-alkanes as stationary phases (91) 303
Alkanes
GPC elution behaviour of branched ——— (55) 73
Alkanes
Improved chromatographic evaluation of ——— in atmospheric dust samples (86) 234
Alkanes
Improved column for dependanizer and isoprene feed stream analysis (92) 69
Alkanes
Intermolecular interactions in GC separations on zeolites (58) 39
Alkanes
Method for the identification of branched-chain paraffins by calculation of their retention index values on the basis of molecular structure and physical properties (76) 31
Alkanes
Molecular statistical calculation of retention volumes in gas adsorption chromatography (58) 55
Alkanes
Plasma chromatography of the *n*-alkyl halides (87) 137
Alkanes
Open tubular column GC of dehydrogenation products of C_6–C_{10} *n*-———. Separation and identification of mixtures of C_6–C_{10} straight-chain ———, alkenes and aromatics (51) 75
Alkanes
Radiolysis products as reference substances in GC (52) 227
Alkanes
Separation and identification of dihalocyclo- ——— by GC (55) 231
n-Alkane
Theoretical investigation of the excess free energy of binary ——— systems (99) 193
Alkanes
Use of vanadium(II), manganese(II), and cobalt(II) chlorides as packings to separate ———, alkenes and alkynes by GC (59) 13
Alkenes
Capillary GC of linear ——— on squalane. Separation and identification of *n*-pentadecenes and *n*-hexadecenes (91) 613
1-Alkenes
Chromatographic behaviour and the structure of secondary aliphatic alcohols (65) 311
Alkenes
Determination of complex association constants from GC data. II. Complexes of silver ions with substituted ——— in ethylene glycol at 40°C (76) 115

Alkenes
Determination of the boiling points of straight-chain C_{12} ––– from their GC retention indices (71) 243
Alkenes
Identification of straight-chain undecenes by capillary GC on squalane (65) 137
Alkenes
Open tubular column GC of dehydrogenation products of C_6–C_{10} *n*-alkanes. Separation and identification of mixtures of C_6–C_{10} straight-chain alkanes, ––– and aromatics (51) 75
Alkenes
Use of vanadium(II), manganese(II), and cobalt(II) chlorides as packings to separate alkanes, ––– and alkynes by GC (59) 13
Alkenylpyridines
Relative retentions of C_1–C_{15} alkyl- and ––– over different columns and at various temperatures (64) 1
Alkoxy-lipids
Chromatographic analysis of ––– (98) 129 (review)
Alkoxysilanes
GC investigation of organometallic compounds and their carbon analogues. I. Determination, calculation and correlation of Kováts' retention indices for tetra- ––– (88) 295
Alkoxysilanes
GC investigation of organometallic compounds and their carbon analogues. II. Improved method for calculating retention indices of tetra- ––– (88) 311
Alkylamines
Separation and identification of some isomeric ––– as their trifluoroacetyl derivatives (82) 373
Alkylamines
Separation of some indolyl –– from their metho cation derivatives using neutral polystyrene resin. Application to the alkaloids of *Phalaris tuberosa* (*gramineae*) (87) 187
Alkyl astatides
Relative retentions of some –––, iodides and bromides on dinonyl phthalate (84) 175
Alkylbenzenes
GC identification of the main aromatic hydrocarbons from the catalytic dehydrogenation of *n*-undecane (65) 143
Alkylbenzenes
Kováts retention indices in the identification of ––– degradation products (91) 677
Alkylbenzenes
Mechanisms of the thermal degradation of ––– (91) 659
Alkylbenzene sulphonates
Separation and determination of linear ––– and alkylsulphates by salting-out chromatography (66) 153
Alkylbenzene sulphonates
Separation and determination of linear and branched chain ––– by salting-out chromatography (51) 211
Alkylbenzenesulphonic acids
Petrochemical analytical problems. IV. GLC–MS investigation of the desulphonation of dodecylbenzenesulphonic acids (94) 330
Alkyl 2-benzimidazolecarbamates
Fungitoxic ––– and some TLC detection reagents (93) 491
Alkyl bromides
Relative retentions of some alkyl astatides, iodides and ––– on dinonyl phthalate (84) 175
Alkylene oxide
Analysis of ––– –fatty alcohol condensates by GLC (84) 43
O-Alkylglycerolipids
Radioisotopes – Introduction. Detection and chromatographic resolution of – labeled lipid intermediates formed in enzyme systems (78) 141
n-Alkyl halides
Plasma chromatography of the ––– (87) 137
O-Alkylhydroxylamines
Separation of ––– by GC (76) 464
Alkyl iodides
Correlations between molecular structure and physical properties of ––– and their retention indices (58) 127
Alkyl iodides
GC of –––. II. Influence of structure on retention time and sensitivity to electron capture detector (54) 157
Alkyl iodides
Relative retentions of some alkyl astatides, ––– and bromides on dinonyl phthalate (84) 175
Alkylmercury
Detection of mercury and ––– compounds by reversed-phase TLC (51) 283

Alkylmercury compounds
GLC–MS of organomercury compounds (76) 471
Alkyl methylphosphonofluoridates
GC separation of diastereoisomeric ––– and related compounds (54) 151
Alkylphenols
Analysis of non-ionic surfactants of the ––– type in the presence of mineral oil by means of LC (91) 549
Alkylphenols
Separation of monohydric ––– by GC (89) 309
Alkylphosphonates
Derivatives for the characterization of alkyl and amino––– by GC and GC–MS (79) 65
Alkylphosphoric acids
Qualitative and quantitative determinations of mono- and di––– and their salts by GC (78) 281
3-Alkylpyrenes
GLC and TLC of some 3- and 3,X-substituted pyrenes (80) 259
Alkylpyridines
Relative retentions of C_1–C_{15} ––– and alkenylpyridines over different columns and at various temperatures (64) 1
Alkylquinone
TLC of mono- and dinitrophenylazoalkylphenols (––– mono- and dinitrophenylhydrazones) (76) 487
Alkylresorcinols
Pyrolytic and MS fragmentation of aliphatic side-chains in ––– (69) 59
Alkylsulfate
Separation and determination of ––– and soap by salting-out chromatography (71) 93
Alkylsulphates
Separation and determination of linear alkylbenzene sulphonates and ––– by salting-out chromatography (66) 153
Alkynes
Use of vanadium(II), manganese(II), and cobalt(II) chlorides as packings to separate alkanes, alkenes and ––– by GC (59) 13
Allylbenzene derivatives
Metabolism of naturally occurring propenylbenzene derivatives. II. Separation and identification of tertiary aminopropiophenones by combined GLC and chemical ionization MS (73) 43
4-Allyloxy-3-chlorophenylacetic acid
GC determination of ––– (Alclofenac) and its metabolites (62) 135
1-(*o*-Allyloxyphenoxy)-3-isopropylamino-2-propanol
Determination of low levels of Oxprenolol in blood or plasma by GLC (88) 173
Alumina
Surface-modified ––– for hydrocarbon separations (65) 467
Alumina layers
TLC of quaternary ammonium salts on ––– (74) 297
Alumina–sintered glass plates
TLC on ––– (86) 57
Alumina stationary phases
GSC on modified –––. I. Behaviour of aromatic hydrocarbons (60) 406
Aluminium
Reaction for identification of Al^{3+}, Ga^{3+}, In^{3+}, Tl^{+} separated by PC (54) 289
Aluminium(III)
Thin-layer gel chromatography of polymeric hydrolysis products of metal ions (76) 280
Aluminium oxide
Rapid LC on ––– (66) 382
Aluminium oxides
Reactions on –––. IV. Conversions of acetophenone on aluminium oxide (74) 129
Aluminium tubing
Reduction of tailing due to ––– used for GC columns (80) 124
Amalgams
Redox flat-bed techniques. A study of papers loaded with ––– (90) 215
Amanita phalloides
Chromatographic analysis of toxins from ––– (53) 545
Amanita phalloides
Chromatography of Amanita toxins. II. New method for the identification of Amanita toxins by means of TLC (64) 317
Amanita phalloides
Quantitative chromatographic analysis of toxins in single mushrooms of ––– (79) 257

Amanita toxins
Chromatography of ———. II. New method for the identification of ——— by means of TLC (64) 317
Amanita toxin
Chromatography of ———. III. Detection of amantadine with phosphoric acid (76) 499
Amanitin
Chromatographic analysis of toxins from *Amanita phalloides* (53) 545
Amantadine
Chromatography of amanita toxin. III. Detection of ——— with phosphoric acid (76) 499
Amantadine
GC method for the determination of ——— in human plasma (74) 31
Amantadine-N-trichloroacetyl derivative
GC method for the determination of amantadine in human plasma (74) 31
Amberlite CG-50
Sorption equilibria between proteins and cation exchangers (89) 239
Ametrine
Determination of ——— and atrazine residues in soil by TLC (80) 137
Amicar
Rapid chromatographic technique for the determination of ε-aminocaproic acid in physiological fluids (86) 173
Amides
Identification of aromatic ——— by reaction PC (86) 279
Amides
Improved one-column program for the analysis of free amino acids and ——— in plant extracts (94) 283
Amides
Improvement of the starch–iodide method for detection of imides and other NH-containing compounds on thin-layer chromatograms (54) 284
Amides
Separation and identification of primary and secondary aliphatic amines as *p*-(N,N-dimethylamino)-benzene-*p'*-azo-benzamides by PC and TLC (72) 145
Amides
Separation of 1-dimethylamino-naphthalene-5-sulphonylamides by gel chromatography (59) 367
Amidic acids
TLC separation of phosphorus acids, pyroacids, ——— and diamides (92) 207
Amines
Accelerated chromatographic analysis of primary mono- and diamines in an amino acid analyser (56) 137
Amines
Accelerated ion-exchange chromatography of some biogenic ——— (60) 195
Amines
Analysis of biogenic ——— and their metabolites by GC–chemical ionization MS (99) 575
Amines
Analysis of certain ——— in tissues and body fluids as their Dansyl derivatives (82) 137
Amines
Antioxidants and stabilizers. XLVII. Behaviour of amine antioxidants and antiozonants and model compounds in GPC (88) 99
Amines
Argentation TLC with silver oxide. II. ———, unsaturated and aromatic carboxylic acids (52) 500
Amines
Cactus alkaloids. XVII. TLC of Dansylated non-phenolic β-phenethyl-amines (73) 277
Amines
Characteristics of donor–acceptor properties of ——— and cyclic nitrogen-containing substances determined by their retention on stationary phases of different types (95) 91
Amines
Chromatographic and electrophoretic behaviour of primary mono- and diamines on layers of weak and strong ion exchangers (79) 129
Amine
Chromatography of biogenic ——— metabolites and related compounds on lipophilic Sephadex. II. The catechol-amines and their 3-O-methylated derivatives (52) 87
Amines
Detection of primary aryl ——— on thin-layer chromatograms by diazotisation and coupling. Comparison of a new reagent with existing methods (77) 357

Amines
5-Di-*n*-butylaminonaphthalene-1-sulphonyl chloride – a new reagent for fluorescence labelling of ——, amino acids and peptides (84) 95
Amines
Double-spot formation in the TLC of pure fenfluramine hydrochloride and some other —— in the presence of organic solvents (79) 243
Amines
GC analysis of —— separated as urethane derivatives (90) 157
Amines
GC and MS of some isomeric cyclic —— as their trifluoroacetyl derivatives (70) 141
Amines
GC of 2,4-dinitrophenyl derivatives of —— (88) 373
Amines
GC of some poly—— on three porous polymer columns (88) 33
Amines
GLC studies of electron-donor–acceptor systems. VI. 2,4,7-Trinitrofluorenone as a complexing additive to the stationary phase (61) 7
Amines
Gel chromatographic separation of hydrocarbons, —— and phenols on a polystyrene gel column. Preparative fractionation of cigarette smoke condensate for biological experiments (67) 299
Amines
Identification and quantitation of —— by TLC (63) 97
Amines
Metabolism of dialkyldithiocarbamates. I. Determination of —— using a reaction with isocyanates followed by GC identification of the urea derivatives formed (94) 65
Amines
Metabolism of phenylureas. I. TLC separation and identification of aliphatic hydroxylamines in the presence of aliphatic —— (84) 117
Amines
Micro method for the quantitative estimation of putrescine in tissues (62) 121
Amines
Perfluorobenzene derivatives as derivatising agents for the GC of primary and secondary —— using electron capture detection (66) 255
Amines
Photochemical reaction for the PC characterisation of —— of the structure $(R,R')CH-NH_2$ (56) 311
Amines
Preliminary studies in the analysis of biological —— by means of glass capillary columns. I. Studies with model compounds (91) 425
Amines
Reversed-phase extraction chromatography using Br^--containing eluents (69) 181
Amines
Revised method for PC study of urinary phenolic —— (61) 197
Amines
Separation and identification of some isomeric alkyl—— as their trifluoroacetyl derivatives (82) 373
Amines
Separation of *cis*- and *trans*-1,2-diaminocyclohexane via trifluoroacetylation. The use of ethyl trifluoroacetate as trifluoroacetylating agent (63) 370
Amines
Separation of fluorescamine derivatives of aliphatic diamines and polyamines by high-speed LC (96) 250
Amines
Separation of O-alkylhydroxylamines by GC (76) 464
Amines
Simple method for the separation of primary mono- and di—— using a standard amino acid analyzer (82) 379
Amines
Solvent effect in the use of chloranil as a reagent in the identification of aromatic —— on silica gel thin layers (56) 59
Amines
Studies of the isopropylation of amino acids and —— by GC–MS (78) 343
Amines
TLC of —— as 4-dimethylamino-3,5-dinitrobenzoyl amides (61) 166
Amines
TLC of aromatic —— on cadmium acetate impregnated silica gel thin layers (72) 413

Amines
TLC of aromatic ——— on cadmium sulphate-impregnated silica gel thin layers (60) 144
Amines
TLC of aromatic ——— on silica gel thin layers impregnated with manganese salts (87) 565
Amines
TLC of the 2,4-dinitrophenyl derivatives of simple steam volatile ——— and its application to the separation of plant amines (71) 119
Amines
Tryptamines. I. The chromatography of melatonin (61) 225
Amines
Use of ammonia as the carrier gas in GLC (54) 422
Amines, aliphatic
Microquantitative determination of ——— with 7-chloro-4-nitrobenzo-2-oxa-1,3-diazole (90) 141
Amine antioxidants
Antioxidants and stabilizers. XLVII. Behaviour of ——— and antiozonants and model compounds in GPC (88) 99
Amines, aromatic
Chromatographic and electrophoretic behaviour of primary ——— on anion-exchange thin layers (90) 331
Amines, biogenic
New solvent system for the TLC separation of the Dansyl derivatives of some ——— (90) 178
Amine groups
Characterisation of drugs containing tertiary ——— by application of the Hofmann degradation reaction and GLC (73) 73
Aminoacetone
Separation of aminoketones in biological fluids by TLC (70) 179
2-Aminoacetophenone
GC analysis of tryptophan metabolites (55) 291
Amino acids
Accelerated amino acid analysis with lithium citrate buffers. The effect of resin cross-linkage on elution patterns and the avoidance of microbial contamination of columns (62) 373
Amino acids
Accelerated analysis of ——— in plasma: A 5¼-hour program (61) 149
Amino acids
Accelerated CC of free basic ——— encountered in blood plasma or serum (76) 482
Amino acid
Accelerated operation of a three-sample ——— analyzer (87) 419
Amino acids
Accelerated single column procedure for the programmed analysis of naturally-occurring ——— of collagen and basement membrane (90) 350
Amino acids
Acetylation of phenylthiohydantoins of ——— (86) 117
Amino acids
Adsorption on neutral polystyrene resin. A simple method for extraction of 2,4-dinitrophenyl derivatives from aqueous solution and for decoloration of protein hydrolysates (54) 215
Amino acids
Amino acid analysis. Hydrolysis, ion-exchange cleanup, derivatization, and quantitation by GLC (94) 113
Amino acids
Amino acid analysis in the presence of glucosamine with lithium salt containing buffers on a single ion-exchange column (94) 307
Amino acids
Amino acid analysis of elastin — a rapid method (71) 361
Amino acids
——— analysis: The reduction of ninhydrin reagent with titanous chloride (59) 178
Amino acids
——— separation on SE-Sephadex C-25 (90) 354
Amino acids
Analysis of acetylated and trifluoroacetylated phenylthiohydantoin ——— by GC (63) 386
Amino acids
Anomalous behaviour of ——— on thin-layer chromatograms in the presence of trichloroacetic acid (64) 103
Amino acids
Application of GLC to analysis of

carbon-14 biosynthetically labelled compounds (91) 497

Amino acid
Application of thin-layer electrophoresis and chromatoelectrophoresis on Sephadex G-25 to the analysis of ––– and peptide composition of biological fluids (53) 329

Amino acids
Applications of a GLC method for ––– analysis. A system for analysis of nanogram amounts (55) 267

Amino acid
Buffer preservative failure and modification of in-line buffer filter for automated step-change ––– analysers (52) 152

Amino acids
Chromatographic and electrophoretic behaviour of aminophosphonic acids on layers of cation exchangers (52) 421

Amino acids
Chromatographic behaviour of aromatic ––– on thin layers of anion and cation exchangers (88) 331

Amino acid
Chromatographic separation of β-methyldiaminopropionic acid in hydrolysates of modified phosphoproteins in an ––– analyzer (70) 162

Amino acids
Chromatography of cysteine and glutathione derivatives on a Dowex 1/Sephadex mixed-bed column (59) 181

Amino acids
Chromatography of dinitrophenyl ––– and heterocyclic bases on thin layers of protein (54) 65

Amino acids
Chromatography of plant constituents on cross-linked dextrans in phenol–acetic acid–water mixtures (54) 433

Amino acids
CC of ––– with fluorescence detection (83) 353

Amino acids
CC separation of dansyl ––– (69) 129

Amino acids
Comparative ––– colour constants from hydrindantin–ninhydrin reagents produced with Ni–Pt and $SnCl_2$ reducing agents (57) 152

Amino acids
Comparative analysis of extraction procedures and chromatographic methods on rat brain ––– (69) 333

Amino acids
Comparative determination of protein ––– in plant materials by automated cation exchange and GLC of the amino acid N-heptafluorobutyryl, *n*-propyl esters (97) 175

Amino acids
Complete GLC separation of the twenty protein ––– (57) 209

Amino acids
Complete resolution of enantiomeric *tert.*-leucine derivatives by GLC (66) 141

Amino acids
Derivatization of ––– with 1,3-dichlorotetrafluoroacetone and its use in GC (91) 475

Amino acids
Detection of non-protein ––– in the presence of protein amino acids. II (64) 178

Amino acids
Detection of several non-protein ––– in the presence of protein ––– (54) 428

Amino acids
Detection of sub-nanomole amounts of phenylthiohydantoins of ––– (90) 362

Amino acids
Determination of branched-chain N-methyl ––– (84) 361

Amino acids
Determination of dinitrophenylene ––– in structural proteins by chromatography on nylon powder columns (61) 263

Amino acids
Determination of ε-hydroxynorleucine and "reduced aldol condensate" by standard ––– chromatography (79) 337

Amino acids
Determination of lysine and ornithine using acid ninhydrin (71) 564

Amino acids
Determination of metabolites of tyrosine and of tryptophan and related compounds by GLC (55) 297

Amino acids
Determination of N-methyl––– and their optical purity with an amino acid analyser (52) 251

Amino acids
Determination of parameters in dextran gel filtration (74) 59

Amino acids
Determination of some ––– by GC of derivatives (78) 333

Amino acids
L-2,4-Diaminobutyric acid as a standard in the estimation of lysine in maize samples (63) 409

Amino acids
5-Di-*n*-butylaminonaphthalene-1-sulphonyl chloride – a new reagent for fluorescence labelling of amines, ––– and peptides (84) 95

Amino acids
Effect of ionic strength on poly(D-Asp-L-Lys) in Sephadex gel filtration (51) 543

Amino acids
Effect of the conditions of preparation of cation-exchange resins on their resolution efficiency in ion-exchange chromatography of ––– (60) 256

Amino acid
Effect of the pH of the –– test solution on ion-exchange chromatography in a lithium cycle (71) 363

Amino acids
Effect of salts on the derivatisation and chromatography of –– (53) 195

Amino acids
Evaluation of a simple TLC screening test for ––– abnormalities (56) 316

Amino acids
Evaluation of the GC analysis of plasma –– (55) 281

Amino acids
Excessive baseline drifts during liquid ion-exchange chromatography of ––– (57) 150

Amino acids
Experience with an electrolytic "ninhydrin reactor" (53) 373

Amino acid
Experimental study of ––– degradation under open flask hydrolytic conditions (52) 405

Amino acids
Fluorophotometric assay of ––– by using automated ligand exchange chromatography and pyridoxal–zinc(II) reagent (77) 434

α-Amino acids
GC behaviour of amino acid oxazolidinones. Response to flame ionization and electron capture detectors (91) 483

Amino acids
GC–MS studies of the isopropylation of ––– (68) 259

Amino acids
Gaseous formaldehyde: A sensitive chromatographic detection reagent for tryptophanyl-dipeptides (59) 209

Amino acids
GLC analysis of tryptophan in proteins (76) 77

Amino acid
GLC and MS of ––– thiohydantoins and their use in protein sequencing (87) 499

Amino acids
GLC behaviour of N-trifluoroacetyl *n*-butyl esters of various S-substituted cysteines (94) 189

Amino acid
GLC of N-acyl ––– alkyl esters (54) 205

Amino acids
GLC of –––. A solution to the histidine problem (99) 495

Amino acids
GLC of ––– in biological substances (53) 171

Amino acids
GLC of N-heptafluorobutyryl isobutyl esters of ––– (97) 19

Amino acids
GLC of the N(O)-heptafluorobutyrates of the isoamyl esters of ––––. I. Separation and quantitative determination of the constituent ––– of proteins (76) 91

Amino acids
GLC of trifluoroacetylated amino acid methyl esters. Determination of their molar responses with the flame ionization detector (71) 223

Amino acids
GLC of N-trifluoroacetyl *n*-butyl esters of –––. A comparison of high-performance and acid-washed Chromosorb W as the support material (90) 370

Amino acids
GLC of twenty protein ––– on a single column (60) 134

Amino acid
GLC separation of oxazolin-5-one derivatives of an ––– (69) 366

Amino acids
GLC studies on the twenty protein –––: a single column separation (76) 63

Amino acids
Hydrolysis of proteins (52) 393

Amino acids
Identification of ——— in picomole amounts as their 5-dibutylamino-naphthalene-1-sulphonyl derivatives (97) 286
Amino acids
Identification of Dansyl ——— using a single solvent and a layer composed of three sorbents (67) 368
Amino acids
Identification of phenylthiohydantoins of ——— by TLC (79) 344
Amino acids
Identification of polymyxin B sulphate (52) 154
Amino acids
Improved CC determination of N^{ϵ}-methylated lysine in physiological fluids (76) 252
Amino acids
Improved method of plasma deproteination with sulphosalicylic acid for determining ——— and related compounds (74) 255
Amino acids
Improved method of separating glucosaminitol from galactosaminitol and their amino sugars on an amino acid analyser (51) 314
Amino acids
Improved one-column program for the analysis of free ——— and amides in plant extracts (94) 283
Amino acid
Improved quantification of imino acids poorly resolved by automated ——— methods (61) 152
Amino acids
Improved simple method for chromatography of blood ——— (97) 284
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. III. Detection and identification by selective staining (51) 267
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. IV. The quantitative determination of ——— in urine (55) 377
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. V. The quantitative determination of urea in urine (60) 103
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. VI. The characterization of small peptides by TLC and ion-exchange chromatography (65) 397
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. VII. A simple technique for the estimation of blood urea and of its clearance from plasma (67) 325
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. Part VIII. The characterization of leucyl and isoleucyl dipeptides by TLC and ion-exchange chromatography (79) 187
Amino acids
Improved technique for the analysis of ——— and related compounds on thin layers of cellulose. IX. The characterization of some histidyl, prolyl and lysyl dipeptides by TLC and ion-exchange chromatography (92) 355
Amino acids
Influence of peptides on the analysis of ——— by TLC and ion-exchange chromatography (78) 181
Amino acids
Ion-exchange chromatography of physiological sulphuric ——— on a highly crosslinked resin (72) 93
Amino acids
Ion-exchange PC resolution of some racemic DL——— on alginate (93) 393
Amino acids
Isotachophoresis. The separation of ——— (52) 415
Amino acids
Layer pre-loading in partition TLC of ——— (82) 53
Amino acids
Ligand chromatography as a novel method for the investigation of mixed complexes: stereoselective effects in α-——— copper(II) complexes (60) 280
α-Amino acids
Ligand-exchange chromatography of racemates. Resolution of ——— (91) 493

Amino acids
Method for determining the N-terminal residue of proteins fixed in polyacrylamide gels (62) 115
Amino acids
Methods for extraction and purification of free — — and proteins of vegetable tissues (61) 349
Amino acids
Methods for the quantitative analysis of sulphur-containing compounds in physiological fluids (72) 105
Amino acids
Miniature TLC of phenylthiohydantoin — —. Application of automatic Edman degradation (80) 140
Amino acids
Mixed lithium–sodium gradient buffer system for single-column — — chromatography (78) 349
Amino acid
Modified gradient elution procedure for single column — — analysis (54) 425
Amino acids
Modified pyridine–formic acid gradient for automated CC of — — and small peptides (59) 434
α-Amino acids
Molecular interactions in a unique solvent–solute system (71) 193
Amino acids
Multi-sample quantification of — — and imino acids with a single analytical system (59) 321
Amino acids
Nanogram and picogram method for — — analysis by GLC (57) 193
Amino acids
New fluorescence method for the detection of hexosamines and their separation by means of TLC (90) 181
Amino acids
New reagent for detecting tryptophan, indole, and indole-3-acetic acid in TLC (67) 371
Amino acids
PC of metal complexes of some phosphonic — — (77) 239
Amino acids
Paper electrophoresis of binary mixtures of copper(II) histidinate and copper(II) complexes of other — —. The nature of the "third spot" (54) 103
Amino acids
Partition coefficients of — —, nucleobases, nucleosides and nucleotides in a saline solvent system (78) 381
Amino acids
Procedure for the automatic analysis of all — — in elastin hydrolyzates on a routine basis (79) 335
Amino acids
Programs for use with the automatic amino acid analyser to identify, compute and correlate amino acid concentrations in biological samples (89) 61
Amino acids
Purification of plant extracts for ion-exchange chromatography of free — — (87) 169
Amino acids
Quantitative GLC of non-protein — — in the presence of the twenty protein amino acids (73) 35
Amino acid
Resolution of — — diastereomers by means of packed column GC (63) 259
Amino acids
Search for — — in Apollo 11 and 12 lunar fines (59) 305
Amino acids
Selective staining test for the sensitive detection of some rare — — (74) 152
Amino acids
Semi-automatic device for multiple sample application to TLC plates (70) 174
Amino acids
Separation of — — from untreated urine on thin layers of silica gel (96) 148
Amino acids
Separation of amino sugars and — — in glycoproteins and biological fluids on resin-coated chromatoplates (84) 204
Amino acids
Separation of basic — — and related compounds on Aminex A5 resin and elution with a lithium buffer (63) 411
Amino acids
Separation of iodo — — and iodide by PC with aqueous solvents (67) 373
Amino acids
Separation of iodo compounds in serum by chromatography on Sephadex columns (72) 83

Amino acids
Identification of --- in picomole amounts as their 5-dibutylamino-naphthalene-1-sulphonyl derivatives (97) 286
Amino acids
Identification of Dansyl --- using a single solvent and a layer composed of three sorbents (67) 368
Amino acids
Identification of phenylthiohydantoins of --- by TLC (79) 344
Amino acids
Identification of polymyxin B sulphate (52) 154
Amino acids
Improved CC determination of N^{ϵ}-methylated lysine in physiological fluids (76) 252
Amino acids
Improved method of plasma deproteination with sulphosalicylic acid for determining --- and related compounds (74) 255
Amino acids
Improved method of separating glucosaminitol from galactosaminitol and their amino sugars on an amino acid analyser (51) 314
Amino acids
Improved one-column program for the analysis of free --- and amides in plant extracts (94) 283
Amino acid
Improved quantification of imino acids poorly resolved by automated --- methods (61) 152
Amino acids
Improved simple method for chromatography of blood --- (97) 284
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. III. Detection and identification by selective staining (51) 267
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. IV. The quantitative determination of --- in urine (55) 377
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. V. The quantitative determination of urea in urine (60) 103
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. VI. The characterization of small peptides by TLC and ion-exchange chromatography (65) 397
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. VII. A simple technique for the estimation of blood urea and of its clearance from plasma (67) 325
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. Part VIII. The characterization of leucyl and isoleucyl dipeptides by TLC and ion-exchange chromatography (79) 187
Amino acids
Improved technique for the analysis of --- and related compounds on thin layers of cellulose. IX. The characterization of some histidyl, prolyl and lysyl dipeptides by TLC and ion-exchange chromatography (92) 355
Amino acids
Influence of peptides on the analysis of --- by TLC and ion-exchange chromatography (78) 181
Amino acids
Ion-exchange chromatography of physiological sulphuric --- on a highly crosslinked resin (72) 93
Amino acids
Ion-exchange PC resolution of some racemic DL--- on alginate (93) 393
Amino acids
Isotachophoresis. The separation of --- (52) 415
Amino acids
Layer pre-loading in partition TLC of --- (82) 53
Amino acids
Ligand chromatography as a novel method for the investigation of mixed complexes: stereoselective effects in α-amino --- copper(II) complexes (60) 280
α-Amino acids
Ligand-exchange chromatography of racemates. Resolution of --- (91) 493

Amino acids
Method for determining the N-terminal residue of proteins fixed in polyacrylamide gels (62) 115
Amino acids
Methods for extraction and purification of free ——— and proteins of vegetable tissues (61) 349
Amino acids
Methods for the quantitative analysis of sulphur-containing compounds in physiological fluids (72) 105
Amino acids
Miniature TLC of phenylthiohydantoin ———. Application of automatic Edman degradation (80) 140
Amino acids
Mixed lithium–sodium gradient buffer system for single-column ——— chromatography (78) 349
Amino acid
Modified gradient elution procedure for single column ——— analysis (54) 425
Amino acids
Modified pyridine–formic acid gradient for automated CC of ——— and small peptides (59) 434
α-Amino acids
Molecular interactions in a unique solvent–solute system (71) 193
Amino acids
Multi-sample quantification of ——— and imino acids with a single analytical system (59) 321
Amino acids
Nanogram and picogram method for ——— analysis by GLC (57) 193
Amino acids
New fluorescence method for the detection of hexosamines and their separation by means of TLC (90) 181
Amino acids
New reagent for detecting tryptophan, indole, and indole-3-acetic acid in TLC (67) 371
Amino acids
PC of metal complexes of some phosphonic ——— (77) 239
Amino acids
Paper electrophoresis of binary mixtures of copper(II) histidinate and copper(II) complexes of other ———. The nature of the "third spot" (54) 103
Amino acids
Partition coefficients of ———, nucleobases, nucleosides and nucleotides in a saline solvent system (78) 381
Amino acids
Procedure for the automatic analysis of all ——— in elastin hydrolyzates on a routine basis (79) 335
Amino acids
Programs for use with the automatic amino acid analyser to identify, compute and correlate amino acid concentrations in biological samples (89) 61
Amino acids
Purification of plant extracts for ion-exchange chromatography of free ——— (87) 169
Amino acids
Quantitative GLC of non-protein ——— in the presence of the twenty protein amino acids (73) 35
Amino acid
Resolution of ——— diastereomers by means of packed column GC (63) 259
Amino acids
Search for ——— in Apollo 11 and 12 lunar fines (59) 305
Amino acids
Selective staining test for the sensitive detection of some rare ——— (74) 152
Amino acids
Semi-automatic device for multiple sample application to TLC plates (70) 174
Amino acids
Separation of ——— from untreated urine on thin layers of silica gel (96) 148
Amino acids
Separation of amino sugars and ——— in glycoproteins and biological fluids on resin-coated chromatoplates (84) 204
Amino acids
Separation of basic ——— and related compounds on Aminex A5 resin and elution with a lithium buffer (63) 411
Amino acids
Separation of iodo ——— and iodide by PC with aqueous solvents (67) 373
Amino acids
Separation of iodo compounds in serum by chromatography on Sephadex columns (72) 83

Amino acids
Separation of isomeric lysine derivatives by ion-exchange chromatography (56) 171
Amino acids
Separation of neutral ---, dipeptides and oligopeptides into classes. Application to urine (66) 261
Amino acids
Separation of oligopeptides and --- by chromatography on the ion-exchange resin, Chelex X-100 (54) 231
Amino acids
Separation of peptides and --- in urine (51) 491
Amino acids
Separation of peptides from --- by ligand-exchange chromatography (87) 513
Amino acids
Simple and rapid chromatographic adsorption procedure for the isolation of arginine (90) 359
Amino acids
Simple apparatus for derivatizing --- to their corresponding N-trifluoroacetyl *n*-butyl esters (62) 138
Amino acids
Simple method for the separation of primary mono- and diamines using a standard --- analyzer (82) 379
Amino acids
Single column --- analysis using an ammonia filtration system and a new buffer (76) 255
Amino acid
Single column --- analysis using lithium buffers and an ammonia filtration system (63) 404
Amino acids
Sodium chloride in buffers for --- analysis. Application to the analysis of lysine in maize samples (89) 84
Amino acids
Specific assay of hydroxyproline by GC (87) 155
Amino acids
Sterilization of ninydrin (63) 403
Amino acids
Studies of the isopropylation of --- and amines by GC–MS (78) 343
Amino acids
Study of the relationship between the chromatographic mobilities of peptides and their constituent --- on paper and thin layers of cellulose (64) 305
Amino acids
Study on kinetics of TLC of --- on silica gel (67) 329
Amino acids
Submicro-determination of --- by a single-column analysis in a 4-hour run using automated buffer gradient mixing (85) 35
Amino acids
Subnanomole detection of phenylthiohydantoins of --- after TLC (97) 289
Amino acids
Tetrazole analogues of --- and peptides. II. PC and TLC of tetrazole analogues of --- (51) 310
Amino acids
Theoretical study of the paper electrophoretic separation of low molecular weight substances. I. Application to --- and peptides (59) 401
Amino acids
TLC detection of iodide contamination in aromatic --- on two-layer plates (57) 163
Amino acids
TLC of --- in blood (95) 122
Amino acids
TLC of --- with agar–agar as binder (69) 402
Amino acids
TLC of methylthiohydantoin --- (90) 226
Aminobutyrate chloride
TLC of methyl N-trimethyl-γ- --- and related compounds (90) 230
Amino acids
TLC on silica gel sintered plates (74) 73
Amino acids
TLC separation of diphenylindonyl-substituted thiohydantoin derivatives of --- (75) 129
Amino acids
TLC separation of the diphenylindenone-sulphonyl derivatives of --- (71) 111
Amino acids
TLC separation of the Z and E rotational isomers of α-N-nitroso-N-alkyl--- (95) 223
Amino acids
N-Trifluoroacetyl-L-norvalyl-L-norvaline

cyclohexyl ester as a stationary phase and its interaction with asymmetric solutes (67) 227
Amino acids
Trimethylsilylation of ---. Derivatization and chromatography (57) 219
Amino acids
Trimethylsilylation of ---. Effect of solvents on derivatisation using bis(trimethyl)trifluoroacetamide (53) 201
Amino acid
Use of a bacterial L---- decarboxylase for the control of the degree of racemisation of -- mixtures obtained from protein hydrolysates (54) 225
Amino acids
Use of --- as stationary phases in GC. II. Polyglutamate (93) 233
Amino acids
Use of neutral polystyrene resin for rapid desalting and fractionation of non-polar --- and non-polar oligopeptides (61) 81
Amino acids
Use of Toluidine Blue for sequential staining of urinary --- chromatograms (57) 165
Amino acids
Utilisation of 1-dimethylaminonaphthalene-5-sulphonyl chloride for quantitative determination of free --- and partial analysis of primary structure of proteins (51) 441
Amino acids, acidic
Separation of --- by an autoanalyser technique (62) 144
Amino acid analysers
Buffer preservative failure and modification of in-line buffer filter for automated step-change --- (52) 152
Amino acid analyser
Modification of a single column --- to improve resolution and sensitivity (89) 350
Amino acid analyser
Programs for use with the automatic --- to identify, compute and correlate amino acid concentrations in biological samples (89) 61
Amino acid analysers, automated
Analysis of data from amino acid and other automated analysers. I. Use of data loggers with magnetic tape cassettes (96) 235
Amino acid analysis
Accelerated --- with lithium citrate buffers. The effect of resin cross-linkage on elution patterns and the avoidance of microbial contamination of columns (62) 373
Amino acid analysis
---: The humin problem (68) 123
Amino acid analysis
Basic computer program for --- data (93) 99
Amino acid analysis
Computer program for --- (68) 111
Amino acid analyzer
Accelerated operation of a three-sample --- (87) 419
Amino acid analyzer
Interfacing a programmable electronic calculator with an automatic -- (86) 37
Amino acid analyzers
Simple procedure for cleaning Teflon coils in --- (71) 159
Amino acid chromatograms
Computer technique for the analysis of --- (92) 113
Amino acid chromatograms
New method for the computation of --- (68) 103
Amino acid chromatograms
Use of an external standard in the quantitative evaluation of --- using the Technicon system (63) 402
Amino acid copper(II) complexes
Ligand chromatography as a novel method for the investigation of mixed complexes: stereoselective effects in α---- (60) 280
Amino acid derivatives
GLC of ---. The effect of substituents (78) 211
Amino acid derivatives
Resolution of Dansyl leucine and Dansyl isoleucine (76) 268
Amino acid enantiomers
GLC resolution of several protein --- on a packed column (75) 13
Amino acid enantiomers
New derivatives for the GC resolution of --- (100) 180
Amino acid hydantoins
TLC of --- (80) 199

Amino acid metabolism
TLC in the examination of ---- and renal function (78) 193
Amino acid methyl esters
GLC of Schiff bases of --- (76) 236
Amino acid mixtures
Step-change *versus* gradient lithium buffers for single column chromatography of complex -- (78) 221
Amino acid, non-protein
GLC of mimosine (62) 141
Amino acid profiles
Determination of --- in biological samples by GC (95) 189
Amino acid, protein
GLC of mimosine (62) 141
Amino acids, N-terminal
Chromatographic methods in the analysis of protein structure. Methods for identification of --- in peptides and proteins. Part B (70) 221 (review)
Aminoacyl-tRNA
Simplified methylalbumin Kieselguhr CC of -- (56) 154
α-Amino adipic acid
Amino acid analysis of elastin -- a rapid method (71) 361
Amino alcohols
Case of inversion in the elution order of diastereoisomeric cyclic --- (63) 389
Amino alcohols
Studies on the metabolism of diethylpropion. I. Analytical procedure (71) 39
Aminoalkylphosphonates
Derivatives for the characterization of alkyl- and --- by GC and GC–MS (79) 65
Aminoaromatic products
GC analysis of γ-irradiated aniline for --- (56) 201
Aminobenzene derivatives
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
p-Aminobenzoic acid
High-performance LC method for the determination of --- and some of its metabolites (99) 635
p-Aminobenzoic acid
Quantitative analysis of water-soluble vitamins in multicomponent pharmaceutical forms. Determination of tablets and granules (77) 389
Aminobenzoquinones
Chromatography of iodoaminophenols and iodoaminobenzoquinones (74) 138
Aminobiphenyls
GC analysis of γ-irradiated aniline for aminoaromatic products (56) 201
γ-Aminobutyric acid
Rapid method for the quantitative analysis of --- in hypothalamus homogenates by ligand-exchange chromatography (71) 567
ε-Aminocaproic acid
Rapid chromatographic technique for the determination of ---- in physiological fluids (86) 173
ε-Aminocapronitrile
Separation of *cis*- and *trans*-1,2-diaminocyclohexane via trifluoroacetylation. The use of ethyl trifluoroacetate as trifluoroacetylating agent (63) 370
7-Aminocephalosporanic acid
Novel TLC system and its application to the separation of some cephalosporin compounds (76) 509
Aminochromes
Chemistry of the ----. XIX. The reactions of adrenochrome, adrenolutin and 5,6-dihydroxy-1-methylindole with some silylating agents (81) 57
Aminodichloroboranes
TLC behavior of some ---- (85) 132
o-Aminodiphenyl
TLC detection of glycolaldehyde using a fluorescence reaction with --- (66) 87
2-Aminoethylphosphonic acid
Separation of ciliatine and phosphorylethanolamine (59) 185
S-(2-Aminoethyl)-2-thiopseudourea
TLC of salts of --- and its transformation products (67) 193
p-Aminohippuric acid
High-performance LC method for the determination of *p*-aminobenzoic acid and some of its metabolites (99) 635
2-Amino-N-isopropyl benzamide
Separation of bentazon and some related compounds by TLC (76) 272
Aminoketones
Separation of --- in biological fluids by TLC (70) 179
Amino ketones
Studies on the metabolism of diethylpropion. I. Analytical procedure (71) 39

δ-Aminolaevulinic acid
Quantitative analysis of ——— in native urine samples by TLC (85) 109
δ-Aminolaevulinic acid pyrroles
δ-Aminolaevulinic acid synthetase. Synthesis of ——— and their separation by TLC (97) 87
δ-Aminolaevulinic acid synthetase
———. Synthesis of δ-aminolaevulinic acid pyrroles and their separation by TLC (97) 87
δ-Aminolevulinic acid
Separation of aminoketones in biological fluids by TLC (70) 179
4-Amino-3-methylthio-6-*tert.*-butyl-1,2,4-triazin-5-one
Determination of residues of BAY 94337 (— —) (56) 345
Aminophenols
Chromatography of iodoaminophenols and iodoaminobenzoquinones (74) 138
Aminophenols
Ion-pair chromatography of organic compounds (83) 99
Aminophosphonic acids
Chromatographic and electrophoretic behaviour of — on layers of cation exchangers (52) 421
Aminophosphonic acids
Chromatographic behaviour of ——— on layers of anion and cation exchangers (95) 113
Aminophosphonic acids
Chromatographic separation of N-substituted —— (87) 179
Aminopolyacetic acids
Extraction of complexes of trivalent lanthanides with different ——— on a preconditioned ion exchanger (79) 293
Aminopolycarboxylic acids
Quantitative determination of nitrilotriacetic acid and related ——— in inland waters. Analysis by GC (64) 219
Aminopropiophenones
Chemical lability of the tertiary ——— of eugenol as characterized by combined GLC and chemical ionization MS (73) 59
Aminopropiophenones
Metabolism of naturally occurring propenylbenzene derivatives. II. Separation and identification of tertiary —— by combined GLC and chemical ionization MS (73) 43
Amino sugars
CC of amino acids with fluorescence detection (83) 353
Amino sugars
Improved method of separating glucosaminitol from galactosaminitol and their ——— on an amino acid analyser (51) 314
Amino sugars
Separation of ——— and amino acids in glycoproteins and biological fluids on resin-coated chromatoplates (84) 204
2-Aminothiazoline
TLC of salts of S-(2-aminoethyl)-2-thiopseudourea and its transformation products (67) 193
Amitriptyline
Characterisation of drugs containing tertiary amine groups by application of the Hofmann degradation reaction and GLC (73) 73
Amitriptyline
Separation of cyclobenzaprine from biological samples and its determination by TLC followed by densitometry (74) 85
Amitriptyline
Simultaneous determination of ——— and nortriptyline in *post mortem* blood and urine using GLC (88) 403
Amitriptyline
Thin-layer method for the determination of ——— and nortriptyline in plasma (100) 55
Ammonia
Use of ——— as the carrier gas in GLC (54) 422
Ammonia filtration system
Single column amino acid analysis using an ——— and a new buffer (76) 255
Ammonium compounds
TLC of methyl N-trimethyl-γ-aminobutyrate chloride and related compounds (90) 230
Ammonium ethyl cellulose
Use of quaternary —— in the fractionation of tyrosine-rich proteins from wool (72) 319
Ammonium ion
Ninhydrin–collidine as a sensitive reagent for the detection of the ——— on pherograms (76) 516

Ammonium salts
TLC of quaternary ---- on alumina layers (74) 297
Amobarbital
Determination of low levels of ---- in serum by GLC (69) 377
Amobarbital
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Amphetamines
Detection of drugs in urine for methadone treatment programs (57) 139
Amphetamine
Double-spot formation in the TLC of pure fenfluramine hydrochloride and some other amines in the presence of organic solvents (79) 243
Amphetamine
Mini TLC. III. A rapid and sensitive method for the estimation of ---- and methamphetamine (68) 289
Amphetamine
Mini TLC in the detection of narcotics in urine from subjects on a methadone maintenance program (65) 577
Amphetamines
Preliminary studies in the analysis of biological amines by means of glass capillary columns. I. Studies with model compounds (91) 425
Amphetamines
Simple, rapid TLC drug screening procedure (95) 75
Amphetamine
Specific GC method for the detection of *p*-hydroxyamphetamine and *p*-hydroxynorephedrine in brain tissue (84) 355
Amphetamines
Stereochemical separation and configurational assignment by GLC of N-trifluoroacetyl-l-prolyl amides of asymmetric 1-phenylisopropylamines (69) 285
Amphetamine
Ultra rapid method for the extraction of drugs from biological fluids (63) 303
Amphetamine-like drugs
Some chromatographic and electrophoretic data for ---- (71) 370
Ampholines
Formation of artifacts in electrofocussing on acrylamide gel with ---- (87) 311
Ampholine
Reduction of ferric myoglobin by ---- on acrylamide gel electrofocusing (76) 20
Ampholyte shift
Polyacrylamide gel electrofocusing and the ---- (73) 296
Ampicillin
Chromatography of antibiotics on SP-Sephadex (86) 139
Ampicillin
Separation of penicillins of closely related structure by partition chromatography on paper and cellulose thin-layer plates (79) 251
Ampoule contents
GC analysis of the contents of sealed ampoules (96) 229
Amyl alcohols
Separation of 2-methylbutanol-1 and 3-methylbutanol-1 by GC (59) 154
Amylase isoenzymes
Assessment of electrophoretic mobilities of some human isoamylases (69) 349
Amylobarbitone
Determination of barbiturates and their metabolites in small plasma samples by GC–MS. ---- and 3'-hydroxyamylobarbitone (75) 45
Amylopectin
Quantitative separation of starch components on a cellulose column (84) 75
Amylose
Molecular-sieve chromatography of ---- and dextran over porous glass (88) 77
Amylose
Quantitative separation of starch components on a cellulose column (84) 75
Anacardic acid
Composition of the unsaturated phenolic components of ---- (54) 83
Anacardium occidentale
Composition of the unsaturated phenolic components of anacardic acid (54) 83
Anaesthetic
Application of the method of chromatographic equilibration to air pollution studies. The determination of minute amounts of halothane in the atmosphere of an operating theatre (64) 15

Anaesthetics
GC studies on basic nitrogenous drugs. I. Addition of basic compounds or steam to the carrier gas (92) 323
Analgesics
Detection of mefenamic acid and its metabolites in urine by TLC (90) 405
Analgesics
Determination of blood levels of pentazocine by GC with a nitrogen detector (78) 417
Analgesics
Determination of plasma and urinary levels of an --- anti-inflammatory α-[4-(2-isoindolinyl)phenyl]propionic acid derivative by GLC (92) 61
Analgesics
GC determination of 4-allyloxy-3-chlorophenylacetic acid (Alclofenac) and its metabolites (62) 135
Analgesics
GC determination of pentazocine in human plasma by means of electron-capture detection (78) 293
Analgesics
GC study of the metabolism of tarugan (84) 419
Analgesics
GLC method for the quantitative determination of acetylmethadol and its metabolites in human urine (82) 315
Analgesics
Quantitative GLC method for the determination of pethidine and its metabolites, norpethidine and pethidine N-oxide in human biological fluids (89) 169
Analgesics
Separation of morphine alkaloids, heroin, methadone and other drugs by ion-exchange chromatography (82) 398
Analgesics
TLC of various ---, antipyretics and anti-inflammatory agents (88) 361
Analgesic drugs
LC of xanthines, --- and coffee (87) 523
Analysis
--- of data from amino acid and other automated analysers. I. Use of data loggers with magnetic tape cassettes (96) 235
Analysis time
Incremental gradient elution. Some factors that affect resolution and --- (83) 257
Androgen esters
Comparison of chromatographic methods for the assessment of the distribution coefficients of the --- (69) 141
Androstanes
Correlation between the chemical structure and retention behaviour of C_{19}-steroids (71) 17
Androstanes
GLC of keto- and hydroxy--- (81) 144
Androstane
Steroids. II. The use of multiple development in the correlation of the chemical constitutions and the chromatographic migrations of some 17-ketosteroids and their 2,4-dinitrophenylhydrazones (71) 319
Androstanediol
Determination of urinary --- and testosterone in normal men by GLC (66) 55
Androstanediols
Separation of urinary --- and pregnanediol isomers by a combined GLC–TLC method (93) 149
5α-Androstanediol monoacetates
Analysis of --- by TLC and GLC and MS (88) 271
5α-Androstanes, 3-monosubstituted
Retention indices of steroids and their group increment with temperature (76) 133
5α-Androstanes, 3,11,17-trisubstituted
Retention indices of steroids and their group increment with temperature (76) 133
Androst-5-en-17-one
Analytical chemical studies on steroids. LIV. Studies on metabolism of 3-deoxy-steroids. IX. Determination of urinary metabolites of --- by GC (64) 239
Androsterone
Steroids. I. Application of TLC to the separation of 2,4-dinitrophenylhydrazones of the physiological important 17-keto-steroids (61) 183
Anhydroalditols
Partition chromatography of cyclitols on ion-exchange resins (85) 93

Anhydrotetracycline
TLC limit test for the detection of --- and 4-*epi*-anhydrotetracycline in tetracycline (53) 403
Anils
TLC studies of ---: separation and infrared correlation (93) 494
Aniline
Determination of formic acid in dilute aqueous solution and separation and determination of --- and toluidine isomers by GC of formanilide and formyl toluidides (51) 139
Aniline
Effect of the geometrical structure and the surface chemistry of silica gels on separations in LSC (58) 11
Aniline
GC analysis of γ-irradiated --- for aminoaromatic products (56) 201
Anilines
Separation of ---, N-heterocyclic and sulfonamide derivatives on paper impregnated with strong acid exchange resin (87) 543
Anilines
Study of substituent effects by means of GC in some aromatic systems (65) 129
Anilines
TLC of chlorinated --- on zinc salt-impregnated silica gel thin layers (74) 142
Aniline salts
Comparative study of certain --- used in the determination of carbohydrates by spot elution chromatography (84) 220
Animal cells
Sephadex G-25 beads as chromatographic carrier for the fractionation of --- (92) 335
Anions
Chromatography of inorganic ions on thin layers of protein (54) 55
Anions
Isotachophoresis. Experiments in methanol (51) 339
Anions
Isotachophoresis on paper. Part I. Investigation of general conditions and separation of some inorganic --- (77) 467
Anions
Isotachophoresis. The qualitative separation of --- (69) 165
Anions
Isotachophoresis. Quantitative aspects of the separation of mixtures of --- (91) 823
Anions
Selectivity of cellulose gels for simple salts (63) 478
Anions
TLC of inorganic --- on aluminium oxide (84) 379
Anion exchangers
Chromatographic techniques using liquid ---. V. H_2SO_4 systems (56) 103
Anion exchangers
Preparation of lipophilic --- from chlorohydroxypropylated Sephadex and cellulose (59) 45
Anionic liquid ion exchangers
--- for chromatography of steroidal glucosiduronic acids and other polar compounds (66) 337
Anionic mixtures
Isotachophoresis. Some quantitative aspects of the separation of --- (71) 329
p-Anisidine technique
Modified --- for the detection and permanent recording of free and combined fructose on paper chromatograms (74) 369
Anisoles
GLC of disubstituted benzene isomers. II. Separation and study of the halonitrobenzenes, --- and toluenes (53) 151
Anodic oxidation wave
Quantitative determination of phenols by an --- using a mercury pool electrode during chromatography (64) 390
Anthanthrene
Determination of air-borne polycyclic hydrocarbons by PC (91) 531
Anthelmintics
Chromatography of benzimidazoles (78) 323
Anthocyanins
Cellulose TLC separation of *Rubus* fruit --- (75) 151
Anthocyanins
Polyvinylpyrrolidone CC of strawberry, rhubarb, and raspberry --- (55) 405
Anthracenes
Determination of air-borne polycyclic hydrocarbons by PC (91) 531

Anthracene
Evaluation of the separation of phenanthrene, --- and carbazole in pure tar products by GSC (65) 341
Anthracenes
GLC and TLC determination of some 9- and 9,10-substituted --- (70) 154
Anthracene
Separation of polynuclear aromatic hydrocarbons by GSC on graphitized carbon black deposited on Chromosorb W (65) 432
Anthraglycosides
Identification of certain essential compounds in drugs by a modified thermofractography method (91) 441
Anthranilamide
GC of urinary --- (82) 323
Anthranilic acid
Combined GC–MS in the determination of urinary --- (70) 53
Anthranilic acid
GC analysis of tryptophan metabolites (55) 291
Anthranilic acid
GC of urinary --- (64) 174
Anthranilic acid
TLC of kynurenin metabolites (79) 347
Anthraquinone compounds
Quantitative assay for sennosides by fluorigenic derivatization on TLC (79) 223
Anthraquinone dyes
Identification of organic compounds. LXXIV. Paper electrophoresis of acid --- (54) 436
Antibiotics
Analysis of --- by GC. III. Griseofulvin (70) 73
Antibiotics
Analysis of cefoxitin, cephalothin and their deacylated metabolites in human urine by high-performance LC (99) 609
Antibiotics
Automated LC method for the determination of tetracycline -- (65) 377
Antibiotics
Bioautography in PC and TLC and its scope in the antibiotic field (78) 41
Antibiotics
Characterisation of phosphonomycin by microchromatographic and related techniques (52) 111
Antibiotics
Chromatographic differentiation of erythromycin and its esters (67) 69
Antibiotics
Chromatography of --- on SP-Sephadex (86) 139
Antibiotics
Chromatography of racemomycins on dextran gel (56) 360
Antibiotics
Detection of kanamycin B in kanamycin by TLC (86) 274
Antibiotics
Determination of branched-chain N-methylamino acids (84) 361
Antibiotics
Direct densitometric determination of tetracycline in pharmaceutical preparations (57) 297
Antibiotics
Gel-electrophoretic identification of --- in fodder (87) 305
Antibiotics
High-pressure LC analysis of novobiocin (94) 245
Antibiotics
Identification of polymyxin B sulphate (52) 154
Antibiotics
Influence of pH in buffered reversed-phase TLC of penicillins and cephalosporins (51) 548
Antibiotics
New uses for molecular-size exclusion chromatography (83) 125
Antibiotics
Novel TLC system and its application to the separation of some cephalosporin compounds (76) 509
Antibiotics
PC of tobramycin and some related compounds (92) 457
Antibiotics
Preparation of trimethylsilyl derivatives of chloramphenicol for GLC (82) 297
Antibiotics
Pyrolysis–GC of polyene antifungal ---: the nature of candicidin, levorin and trichomycin (53) 566
Antibiotic
Quantitative high-pressure LC analysis of bacitracin, a polypeptide --- (99) 597

Antibiotics
Quantitative TLC of everninomicin D (86) 145
Antibiotics
Rapid GC method for the determination of thiamphenicol in body fluids and tissues (81) 71
Antibiotic EM49
Separation of four components of the --- by partition chromatography on paper (97) 112
Antibiotics
Separation of polyene antifungal --- by high-speed LC (99) 619
Antibiotics
Separation of polythiadioxopiperazine --- by TLC (53) 592
Antibiotics
Separation of tetracyclin broad spectrum --- by TLC (78) 445
Antibiotics
TLC as an aid to production and proper timing of the extraction of an --- complex (56) 324
Antibiotics
TLC identification of --- in fodder (87) 300
Antibiotics
TLC identification of the gentamicin complex (78) 442
Antibiotics
TLC method for the detection of tylosin in biological materials and feeds (61) 125
Antibiotics
TLC of mycophenolic acid and related compounds (54) 446
Antibiotic compounds
Bioautography of ---: a simplification and improvement (67) 191
Anticoagulants
GLC of coumarin --- and their trimethylsilyl ethers (64) 355
Anticoagulants
GLC of coumarin ---, their trimethylsilyl ethers, acetates, trichloroacetates, and trifluoroacetates (69) 201
Anticonvulsant agents
Simultaneous determination of 5,5-diphenylhydantoin and 5-(*p*-hydroxyphenyl)-5-phenylhydantoin in serum, urine and tissues by GLC after flash-heater methylation (82) 307
Antidepressants
Identification of tricyclic --- derived from imipramine by GC (59) 297
Anti-epileptic drugs
Quantitative determination of ethotoin in serum by GC (92) 157
Antifibrinolytics
Rapid chromatographic technique for the determination of ϵ-aminocaproic acid in physiological fluids (86) 173
Antifungal substances
Bioautography in PC and TLC and its scope in the antibiotic field (78) 41
Antigens
Subunits of --- of ragweed pollen (69) 391
Anti-inflammatory agent
Determination of plasma and urinary levels of an analgesic --- α-[4-(2-isoindolinyl)phenyl]propionic acid derivative by GLC (92) 61
Anti-inflammatory agents
TLC of various analgesics, antipyretics and --- (88) 361
Antimicrobial substances
Direct bioautography on thin-layer chromatograms as a method for detecting fungitoxic substances (51) 327
Antimonates
Synthesis of tin(IV) antimonate of high thermal and chemical stability. Separation of Mg^{2+} from Sr^{2+}, Cd^{2+}, Cu^{2+}, Al^{3+} and La^{3+} (67) 351
Antimonic acid
Synthesis and IR, X-ray and ion-exchange studies of some amorphous and semi-crystalline phases of titanium antimonate. Separation of VO^{2+} from various metal ions (62) 431
Antineoplastic agents
Application of GC–chemical ionization mass fragmentography in the evaluation of bases and nucleoside analogues used in cancer chemotherapy (99) 519
Antioxidants
--- and stabilizers. XXXIII. Analysis of stabilizers of isotactic polypropylene: application of GPC (65) 279
Antioxidants
--- and stabilizers. XLVII. Behaviour of amine --- and antiozonants and model compounds in GPC (88) 99

Antioxidants
--- and stabilizers. XLVIII. Analysis of the components of stabilization and vulcanization mixtures for rubbers by GPC and TLC methods (92) 361
Antioxidant
Ascorbic acid as an --- in TLC of corticosteroids (94) 291
Antioxidants
GC of phenolic --- (77) 11
Antioxidants
Specific spray reagent for --- (63) 465
Antioxidants
Studies on the synthesis of butylated hydroxyanisole (52) 507
Antiozonants
Antioxidants and stabilizers. XLVII. Behaviour of amine antioxidants and --- and model compounds in GPC (88) 99
Antiozonants
Antioxidants and stabilizers. XLVIII. Analysis of the components of stabilization and vulcanization mixtures for rubbers by GPC and TLC methods (92) 361
Antiphlogistics
GC study of the metabolism of tarugan (84) 419
Antipyretics
TLC of various analgesics, --- and anti-inflammatory agents (88) 361
Antipyrine dyes
Identification of organic compounds. LXXXI. A contribution to the chromatography of phenols as --- (88) 364
Antitumour agent
New sensitive specific GC method for the determination of the carcinostatic agent 6-chrysenamine in biological samples (84) 171
"Apiezon" greases
Evaluation of the properties of --- as stationary phases in GLC (66) 213
Apiezon L
Additivity of retention data for ethylenic functions in aliphatic fatty acids. I. --- (86) 73
Apiezon L
--- as a stationary phase for the determination of activity coefficients by liquid–liquid chromatography (97) 15
Apiezon L
Aromatic hydrocarbon stationary phases for GLC (86) 17
β-Apocarotenals
Separation of --- and related compounds by reversed-phase PC and TLC (75) 146
Apocodeine
GC determination of apomorphine O-methyl metabolites in urine (77) 419
Apolar columns
Analysis of steroids by high resolution GLC. I. Preparation of --- (74) 177
Apollo 11 and 12
Search for organics in hydrolysates of lunar fines (54) 169
Apomorphine
Analysis of --- and norapomorphine in urine by TLC fluorescence quenching (87) 294
Apomorphine
Isolation and identification of morphine from *postmorteum* tissues (65) 507
Apomorphine O-methyl metabolites
GC determination of --- in urine (77) 419
Apparatus
Acquisition and reduction of GC data using a computer (77) 91
Apparatus
Adjustable fittings for very small glass columns (56) 134
Apparatus
--- for continuous flow development in TLC (66) 75
Apparatus
--- for washing chromatography paper (61) 325
Apparatus
--- to facilitate the preparation of continuous and gradient disc acrylamide gels (62) 383
Apparatus
Arrangement for simultaneous elution of TLC plate with several solvents (52) 169
Apparatus
Automatic continuous-flow spotting/striping machine (92) 87
Apparatus
Automatic device for injection of gas samples into a gas chromatograph (53) 358

Apparatus
Chromatofuge, an ––– for preparative rapid radial CC (66) 365
Apparatus
Computerised scanner for bidimensional radiochromatograms (53) 293
Apparatus
Dependence of flame ionisation detector relative response factors on the configuration of the electrodes (51) 385
Apparatus
Detection electrodes for electrophoresis (64) 185
Apparatus
Device for automatic preparative GC collections on an equal time basis (58) 283
Apparatus
Efficient GC effluent trap for collecting air- en moisture-sensitive compounds (60) 248
Apparatus
High precision measurement of specific retention volumes (51) 3
Apparatus
Isotachophoresis. Electrophoretic analysis in capillaries (53) 315
Apparatus
LC columns or thin layers? (83) 245
Apparatus
Miniaturised UV flow photometer for use in LC systems (51) 175
Apparatus
Multiple column gas chromatograph (53) 125
Apparatus
New design for a continuous double sample applicator for LC (56) 357
Apparatus
New detector systems for TLC (61) 317
Apparatus
Rapid transfer in TLC–IR spectroscopy (53) 387
Apparatus
Reduction of detector noise in GC by means of an RC filter (56) 23
Apparatus
Simple ––– for derivatizing amino acids to their corresponding N-trifluoroacetyl *n*-butyl esters (62) 138
Apparatus
Simple ––– for simultaneous chromatography and electrophoresis on thin layers (81) 190
Apparatus
Simple device for the selection of fractions in GC (53) 354
Apparatus
Studies on the instrumentation of countercurrent chromatographs (92) 77
Apparatus
Study of the flame ionisation detector (51) 391
Apparatus
Survey of the existing data acquisition systems for chromatographic laboratories (77) 75
Apparatus
System for preparative separation of a wide range of small molecules by gel permeation chromatography in organic liquids (51) 459
Apparatus
Technique for the hydrogenation or hydrogenolysis of sub-microgram amounts of material collected from a gas chromatograph (60) 345
Apparatus
Use of a gas chromatograph–mass spectrometer for the analysis of complex hydrocarbon mixtures (51) 45
Apparatus
Use of an electron capture detector for monitoring in LC (62) 153
Applicator
Rapid quantitative spotting of submicroliter volumes for TLC (71) 291
Arabinitols
GLC of some partially methylated alditols as their trimethylsilyl ethers (73) 29
Area
Approach to the development of a simple and rapid GC method for the determination of surface ––– (74) 171
Area factors
Calculation of ––– without the use of pure components of analysed mixtures (85) 181
Arenes
Recent advances in the GC and LC of fluorescent compounds. I. A direct gas-phase isolation and injection system for the analysis of polynuclear ––– in air particulates by GLC (99) 697
Arenes
Study of the atmospheric polycyclic hydrocarbons. II. Application of the

coupling of GC and TLC to the determination of polynuclear ——— (72) 202
Argentation CC
Preparative —— for separation of sterols from orange vesicles (79) 147
Argentation TLC
——— with silver oxide. I. Separation of pyridine homologues (51) 334
Argentation TLC
——— with silver oxide. II. Amines, unsaturated and aromatic carboxylic acids (52) 500
Arginine
Effects of saturation and temperature on the separation of some guanidino compounds by TLC on cellulose plates (71) 376
Arginine
Simple and rapid chromatographic adsorption procedure for the isolation of ——— (90) 359
Arginine
Use of a bacterial L-amino acid decarboxylase for the control of the degree of racemisation of amino acid mixtures obtained from protein hydrolysate (54) 225
Arginine-rich histones
Method for differentiating between ——— and others in polyacrylamide gel (75) 161
Argon triode-type detector
GC ——— with a nickel-63 source (93) 351
Arochlor 1242
Structural identification of polychlorinated biphenyls in commercial mixtures by GLC, NMR and MS (60) 15
Arochlor 1254
Structural identification of polychlorinated biphenyls in commercial mixtures by GLC, NMR and MS (60) 15
Arochlor 1260
Structural identification of polychlorinated biphenyls in commercial mixtures by GLC, NMR and MS (60) 15
Aroclor 1254
Elimination pattern of ——— components in the bobwhite (75) 219
Aroclors®
GC data for polychlorinated biphenyl components in six ——— (72) 275
Aroma concentrates
GC–MS analyses of "flavory" and "non-flavory" Ceylon black tea aroma concentrates prepared by two different methods (79) 75
Aromatics
Open tubular GC of dehydrogenation products of C_6–C_{10} *n*-alkanes. Separation and identification of mixtures of C_6–C_{10} straight-chain alkanes, alkenes and ——— (51) 75
Aromatic acids
Ion-exclusion chromatography of some ——— (91) 261
Aromatic aldoximes
Chromatographic behaviour and chemical structure of ——— (76) 185
Aromatic amides
Identification of ——— by reaction PC (86) 279
Aromatic amines
TLC of ——— on cadmium acetate impregnated silica gel thin layers (72) 413
Aromatic compounds
Automated chromatography of aromatic acids, aldehydes and alcohols with an amino acid analyser (59) 53
Aromatic compounds
High-speed liquid chromatograph with a flow-spectrofluorimetric detector and the ultramicro-determination of ——— (83) 373
Aromatic compounds
Interaction of ——— in alcohol solution with Sephadex LH-20 Dextran (56) 219
Aromatic compounds
Non-aqueous solvent chromatography. IV. Effects of solvents and ion-exchange resins on adsorption mechanisms and their application in high-speed LC (88) 87
Aromatic compounds
Study of the strontium and barium halides as column packings in GSC (53) 477
Aromatic hydrocarbons
Reversed-phase chromatography of some ———. Structure–retention relationships (83) 31

Aromatic hydrocarbons
Separation of polycyclic --- by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of coronene (83) 11
Aromatic hydrocarbon stationary phases
--- for GLC (86) 17
Aromatic nitriles
Identification of --- by reaction PC (86) 159
Aromatic nitro compounds
Identification of --- by reaction paper electrophoresis (74) 157
Aromatic nitro derivatives
Identification of --- by TLC and GLC and IR spectrometry. Application to the biphenyl nitration reaction (68) 89
Aromatic systems
Study of substituent effects by means of GC in some --- (65) 129
Arsonic acids
Chromatographic behaviour of aromatic amino acids on thin layers of anion and cation exchangers (88) 331
Artherosclerotic rabbit aortas
Separation of arylamidases of normal and --- by CC (66) 67
Arylamidases
Separation of --- of normal and artherosclerotic rabbit aortas by CC (66) 67
Arylamines
Detection of primary --- on thin-layer chromatograms by diazotisation and coupling. Comparison of a new reagent with existing methods (77) 357
Arylamines
New chromogenic reagent for the detection of arylhydroxylamines and --- on paper and thin-layer chromatograms (92) 182
Arylhydroxylamines
New chromogenic reagent for the detection of --- and arylamines on paper and thin-layer chromatograms (92) 182
Aryl tetra-O-acetyl-D-glycopyranosides
TLC of anomeric --- (57) 161
Ascorbic acid
--- as an antioxidant in TLC of corticosteroids (94) 291
Ascorbic acid
GC–MS study on TMS derivatives sorbose, 2-keto-4-gulonic acid and --- (63) 379
Ascorbic acid
Glass-fibre PC of --- and related compounds (71) 169
Ascorbic acid
Resolution of ---, dehydroascorbic and diketogulonic acids by anion-exchange CC (74) 133
Asparaginase
Determination of the glutaminase activity of --- (69) 388
Aspartylglycosylamine
TLC demonstration of --- and a novel acidic carbohydrate in human tissues (65) 447
Aspirin
Analysis of --- and related compounds by LC (61) 253
Astatides
Determination of the boiling point of some isoalkyl --- by use of a glass column gas chromatograph (60) 414
Asymmetric resin
Ligand-exchange chromatography of racemates. Influence of the degree of saturation of the --- by metal ions on ligand exchange (82) 359
Atmospheric dust
Determination of aza-heterocyclic compounds in --- by a combination of TLC and GC (84) 371
Atmospheric dust
Improved chromatographic evaluation of alkanes in --- samples (86) 234
Atmospheric pressure ionization mass spectrometry
Liquid chromatograph–mass spectrometer–computer analytical systems. A continuous-flow system based on --- (99) 13
ATP
Analytical isotachophoresis. Resolution, detection limits and separation capacity in capillary columns (91) 785
ATP
Isotachophoresis. Applications in the biochemical field (91) 837
ATPase
New method for the *in situ* determination of phospholipids after thin-layer separation. The phospholipid content of Ca---

and Na,K-––– from human erythrocyte in comparison with the phospholipid content of human erythrocytes (82) 15
Atranorin
Improved conditions and new data for the identification of lichen products by a standardized TLC method (72) 113
Atrazine
Determination of ametrine and ––– residues in soil by TLC (80) 137
Atropine
Quantitative analysis of tropane alkaloids in pharmaceutical preparations (55) 417
Attapulgite
Selective adsorption properties of the surfaces of ––– and sepiolite (77) 109
Aurones
PC of some ––– (57) 166
Autograd
–––. An automated simplified eluent gradient-generating system for use in LC (75) 175
Automated short CC
––– for high-speed routine analysis (85) 140
Automatic sample loader
––– for CC (86) 178
Automotive effluent collector
Reactor or ––– for chromatographic sampling (72) 176
Autoradiograms
Quantitative analysis of thin-layer chromatograms with low ^{14}C-activities by silver activation and mercury labeling of the ––– (76) 191
Auxins
Indoles and –––. XIII. Identification and analysis of naturally occurring indoles via electron donor–acceptor complexes (68) 173
Auxin
Purification of plant ––– by polyamide TLC (70) 202
Avocado
Qualitative and quantitative estimation by TLC and GC of a series of C_1, oxygenated aliphatic compounds in the ––– (*Persea americana*) (86) 239
Axial dispersion
Dependence of chromatographic peak shapes on column and experimental parameters (83) 205
Aza-heterocyclics
Separation of polynuclear ––– by high-speed LC on a chemically bonded stationary phase (71) 451
Aza-heterocyclic compounds
Determination of ––– in atmospheric dust by a combination of TLC and GC (84) 371
Azaphenothiazines
TLC of phenothiazine derivatives and analogues (75) 79
Azauracil
Relation between structure and gel chromatographic behaviour of pyrimidine compounds (71) 67
Azido complexes
TLC behaviour of a number of transition metals on DEAE–cellulose in azide/chloride media (69) 223
Azo pigments
Identification of organic compounds. LXXVII. PC and TLC of ––– (66) 179
Azoxy compounds
Continuous trinitrotoluene process studies. IV. Identification and determination of purification byproducts (67) 255
Azulenes
Separation of ––– on mixed layers of silica gel and oxalic acid (80) 271
Azulenes
TLC of 1,1′-azulenylmethyleneazulenium perchlorates (94) 345
1,1′-Azulenylmethyleneazulenium perchlorates
TLC of ––– (94) 345

B

Bacitracin
Quantitative high-pressure LC analysis of ---, a polypeptide antibiotic (99) 597
Backflushing of gas flow
GC with --- coupled with linear temperature programming (89) 139
Background contamination
Problems of --- in the analysis of open ocean biota for chlorinated hydrocarbons (72) 283
Bacteria
Analysis of the polysaccharides of some soil --- by GC (91) 469
Bacterial lipids
TLC of --- on sodium acetate-impregnated silica gel (63) 452
Bacterial lipopolysaccharide
Dye-complexed --- as a void volume marker for permeation chromatography (72) 395
Bacterial lysates
Isolation procedure for bacterial DNA based on GPC on a Sepharose column (91) 451
Bacteriochlorophyll
Reversed-phase TLC of chlorophyll derivatives (76) 175
BANS-Cl, *see* 5-Di-*n*-butylaminonaphthalene-1-sulphonyl chloride
Barbitals
Quantitative TLC. Assay of drug mixtures by scanning of remission peaks (63) 121
Barbiturates
Detection of drugs in urine for methadone treatment programs (57) 139
Barbiturates
Determination of --- and their metabolites in small plasma samples by GC–MS. Amylobarbitone and 3'-hydroxy-amylobarbitone (75) 45
Barbiturates
Dual-bed TLC for the separation and detection of drugs of abuse in urine (80) 275
Barbiturates
Emergency toxicological screening for drugs commonly taken in overdose (80) 205
Barbiturates
Extraction techniques for narcotics, ---, and central nervous system stimulants in a drug abuse urine screening program (60) 83
Barbiturates
GC analysis of the commonly prescribed --- at therapeutic and overdose levels in plasma and urine (86) 89
Barbiturates
Improved method for rapid, large-scale TLC urine screening for drugs of abuse (60) 95
Barbiturates
New technique for solid injection in GLC. Analysis of --- in urine (66) 136
Barbiturates
Rapid and sensitive GC determination of hexobarbital in plasma of man using a nitrogen detector (88) 235
Barbiturates
Routine identification of drugs of abuse in human urine. III. Differential elution of the XAD-2-resin (81) 93
Barbiturates
Simple, rapid TLC drug screening procedure (95) 75
Barbiturates
Specific GC determination of phenothiazines and --- tranquillizers with the nitrogen flame ionization detector (92) 55
Barbiturates
Specific GC determination of xanthines and --- by flash-heater N-butylation (76) 467
Barbiturates
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Bases
Application of a statistical method to counter-current distribution of acids and --- and their separation by discontinuous change of pH (92) 1
Bases
Application of GC–chemical ionization

mass fragmentography in the evaluation of ——— and nucleoside analogues used in cancer chemotherapy (99) 519
Bases
Chromatography of dinitrophenylamino acids and heterocyclic ——— on thin layers of protein (54) 65
Bases
TLC of purine and pyrimidine analogues of ——— and deoxyribonucleosides (66) 388
Basement membrane
Accelerated single column procedure for the programmed analysis of naturally-occurring amino acids of collagen and ——— (90) 350
Basic amino acids
Accelerated CC of free ——— encountered in blood plasma or serum (76) 482
Basic nitrogenous drugs
GC studies on ———. I. Addition of basic compounds and steam to the carrier gas (92) 323
Basic proteins
Estimation of molecular weights of ——— (histones) by gel filtration in 6 *M* guanidine hydrochloride solution (77) 442
Bathochromic shift
Application of direct spectrophotometry to the analysis of chromatograms. II. Effects of sorbent layer on the ——— of the absorption maximum of a compound in a thin layer (79) 173
BAY 94337
Determination of residues of ——— (4-amino-3-methylthio-6-*tert.*-butyl-1,2,4-triazin-5-one) (56) 345
Baygon
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174
Baygon
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part I. General discussion of the method (54) 251
Bed material
Some general aspects of hydrophobic interaction chromatography (87) 325
Beef heart mitochondria nucleotides
Quantitative determination of ——— using a liquid chromatograph (69) 317
Belladonna alkaloids
TLC of ——— and derivatives. The use of a highly sensitive detection reagent (68) 161
Benactyzine
Analysis of glycolic acid esters by TLC (69) 407
Benomyl
Detection of naturally fluorescent pesticides on silica gel layers (79) 217
Benomyl
Separation and determination of some systemic fungicides and their metabolites by TLC (72) 410
Bentazon
Separation of ——— and some related compounds by TLC (76) 272
Bentone 34
GLC study of the adsorption properties of a stationary phase containing a mixture of squalane and ——— (89) 295
Bentone 34
Use of ———-coated supports in CC and their potential application in the field of organic pollution analysis (99) 721
Bentone 34
Use of gel-coated glass microspherical supports for improved column performance and the rapid separation of isomeric compounds (81) 33
Bentonites
Organic derivatives of Hungarian ——— in hydrocarbon analysis (65) 219
2-Benzalcoumarones
PC of some aurones (57) 166
Benzaldehyde
GLC of Schiff bases of amino acid methyl esters (76) 236
Benzaldehyde
Polyvinyl acetate as a stationary phase in TLC (52) 429
Benzamide derivatives
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Benzene
Automatic LC of organic compounds. II. Adsorption chromatography of ——— derivatives on styrene-based cation-exchange resin (59) 373
Benzene
Calculation of retention indices for ——— and ——— derivatives on the basis of molecular structure (65) 556

Benzene
GLC of disubstituted --- isomers. I. Separation and study of the dichlorobenzenes (53) 143
Benzene
GLC of disubstituted --- isomers. II. Separation and study of the halonitrobenzenes, anisoles and toluenes (53) 151
Benzene
Relations between GC behaviour and chemical structure. III. The nature of internal rotation in methyl derivatives of --- (52) 21
Benzenes
Separation of fluorobromobenzenes by GLC (54) 145
Benzene derivatives
Automatic LC of organic compounds. III. The relationship between the chromatographic behaviour and the chemical structure of --- (64) 253
Benzene derivatives
Non-aqueous solvent chromatography. II. Separation of --- in the anion-exchange and *n*-butyl alcohol system (72) 187
Benzene hydrocarbons
Contribution to the theory of the retention index system. IV. Retention index and molecular structure. Calculation of retention indices of olefins, cyclic hydrocarbons and homologues of --- on the basis of their molecular structures (67) 203
Benzenepolycarboxylic acids
Separation and determination of --- by high-pressure elution LC. The use of elution programming (84) 285
Benzenesulphonic acid
Alkali metal salts of --- as stationary phases in GC (71) 534
Benzhexol hydrochloride
Rapid GC method for the determination of --- (57) 137
Benzil
TLC and PC of some 1,2-dioximes and their monoximes (57) 107
Benzimidazoles
Chromatography of --- (78) 323
2-Benzimidazole carbamic acid methyl ester
Separation and determination of some systemic fungicides and their metabolites by TLC (72) 410
Benzimidazole fungicides
Agricultural fungicides. II. Detection and identification of systemic --- on citrus fruit (87) 585
Benzocaine
Rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211
1,4-Benzodiazepines
Chromatography of the --- (98) 527 (review)
Benzodiazepines
Determination of nitrazepam (Mogadon) in plasma by electron capture GLC (70) 45
Benzodiazepines
Diazepam metabolism during chronic medication. Unbound fraction in plasma, erythrocytes and urine (75) 55
1,4-Benzodiazepines
GC analysis of medazepam and its metabolites using an electrolytic conductivity detector (100) 49
Benzodiazepines
GLC and MS of various --- (59) 163
1,4-Benzo[*f*]diazepines
Importance of TLC for the identification in urgent toxicological analysis of --- used in therapeutic treatment (62) 423
Benzoic acid
Determination of ether-soluble food preservatives after direct extraction on paper (76) 199
Benzoic acids
Determination of trace phenol and isomeric hydroxy--- in aqueous --- solutions by aqueous LC (89) 348
Benzoic acids
GC analysis of monohalobenzoic acid isomers (82) 390
Benzoic acid
GC–MS studies of hippuric acid derivatives. I. Evaluation of methods for quantitative determination of hippuric acid. A search for benzoylsarcosine excretion in normal urine (80) 81
Benzoic acids
Plasma chromatograph as a qualitative detector for GC (99) 257
Benzomorphane
Separation and quantitative analysis of some --- derivatives by TLC (61) 361
Benzonitrile
GC conditions for the analysis of γ-irradiated --- for cyanoaromatic products (79) 325

Benzophenone
TLC–enzymatic identification of some lindane- and possible DDT-metabolites as well as pentachlorophenol (67) 343
Benzo[*a*]pyrene
Determination of ––– in bitumen and plants (69) 421
Benzoquinone
Charge transfer TLC and multiple site complexation (89) 49
p-Benzoquinone
Chromatographic studies of some halogenated quinones. I. TLC of some chlorinated derivatives of ––– (53) 587
p-Benzoquinone
Separation of chlorinated derivatives of hydroquinone using TLC and PC (60) 377
Benzothiazolylguanidines
TLC separation of some ––– (78) 436
Benzo[*b*]thiophenes
Comparative GLC of biologically important indoles, and their benzo[*b*]thiophene and 1-methylindole analogs (94) 316
Benzo[*b*]thiophenes
Comparative TLC of indole-containing metabolites of tryptophan and their sulfur isosteres (75) 126
Benzo[*b*]thiophene
GC of some nitrogen and sulphur heterocycles by means of silicone and Bentone–silicone phases (51) 433
Benzotrifluoride
Separation of ––– and its monofluoro isomers by GLC (63) 375
Benzoyl ecgonine
Detection of ––– (cocaine metabolite) in urine by GC (85) 75
Benzoyl ecgonine
Detection of biotransformed cocaine in urine from drug abusers (81) 170
Benzoyl ecgonine
Routine identification of cocaine metabolites in human urine (89) 335
Benzoyl ecgonine
Separation of cocaine, some of its metabolites and congeners on glass fibre sheets (81) 167
N-Benzoyl-O-methyl derivatives
Chromatographic resolution of molecular species of phosphatidylethanolamine as N-acyl-O-methyl derivatives (80) 233
Benzoylsarcosine
GC–MS studies of hippuric acid derivatives. I. Evaluation of methods for quantitative determination of hippuric acid. A search for ––– excretion in normal urine (80) 81
Benzpyrenes
High-speed liquid chromatograph with a flow-spectrofluorimetric detector and the ultramicro-determination of aromatic compounds (83) 373
Benzpyrenes
Separation of polycyclic aromatic hydrocarbons by high-pressure LC. Selective separation system for the quantitative determination of isomeric ––– and of coronene (83) 11
6-Benzylaminopurine
Chromatography of five cytokinins on an insoluble polyvinylpyrrolidone column (75) 122
Benzyl esters
Quantitative preparation and GC of short and medium chain fatty acid ––– (C_1–C_{12}) (75) 19
Benzyl esters of carboxylic acids
Calibration data for the GC determination of carboxylic acids as their benzyl esters (87) 254
3-Benzylidene-1-indol-2(3H)-ones
TLC separation of some substituted ––– (100) 240
Beryllium perchlorates
Application of GC in the study of kinetics of volatile products evolved in topochemical processes (69) 31
Besthorn's hydrazone
N-Methylbenzthiazolone-2-hydrazone (–––) as a sensitive spray reagent for patulin (86) 190
Betamethasone
Method for the estimation of some synthetic glucocorticosteroids in rat muscle (77) 161
Betamethasone
Separation and determination of the synthetic epimeric corticosteroids, dexamethasone and –––, in mixtures by TLC on insoluble polyvinylpyrrolidone (78) 165
Beverages
Separation of oxypurines by ligand-exchange chromatography and determination of caffeine in ––– and pharmaceuticals (62) 148

BHC
Quantitative determination of the γ-isomer of --- in technical products and formulations (60) 251
BHC isomers
Determination of --- in soils by GLC and TLC after extraction with light petroleum (89) 177
Biacetyl
TLC and PC of some 1,2-dioximes and their monoximes (57) 107
Bicarbonate
Use of --- as an easily removable eluent in preparative and analytical ion-exchange chromatography (92) 166
Bicyclo(*n*.1.0)alkanes
GC of C_6 and C_7 cycloalkyl chlorides, cycloolefins, methylcycloalkanes, and related --- (71) 347
Bidisin
Quantitative determination of the methyl ester of 2-chloro-3-(4-chlorophenyl)-propionic acid in technical products and formulations by GC (69) 305
Biguanides
GC behavior of buformin hydrochloride, phenformin hydrochloride and phenylbiguanide. The pyrolytic formation of substituted 2,4,6-triamino-1,3,5-triazines from --- (71) 265
Bile
Liquid–solid extraction of lyophilized biological materials for forensic analysis. II. Application to --- samples for the detection of drugs (66) 63
Bile acids
Color detection of --- in TLC (61) 370
Bile acids
Manganous chloride spray reagent for cholesterol and --- on thin-layer chromatograms (53) 389
Bile acids
Method for the estimation of bile acid conjugates and --- in biological fluids (65) 407
Bile acids
Novel method for the separation and identification of --- and phospholipids of bile on thin-layer chromatograms (89) 87
Bile acids
Separation of --- from neutral lipids by TLC (76) 425
Bile acids
Separation of --- from neutral lipids on thin-layer chromatograms (100) 200
Bile acids
Simultaneous qualitative and quantitative analyses of --- by mass chromatography (99) 553
Bile acids
UV-detection using 2,2′-*p*-phenylenebis-(4-methyl-5-phenyloxazol) of lipids and --- on thin-layer chromatoplates (78) 434
Bile pigments
GC analysis of pyrrolic acid esters from the potassium permanganate oxidation of --- (59) 29
Bilirubin
GC analysis of pyrrolic acid esters from the potassium permanganate oxidation in bile pigments (59) 29
Binary *n*-alkane systems
Theoretical investigation of the excess free energy of --- (99) 193
Bioaffinity chromatography
Preparation of cyanogen bromide-activated agarose gels (86) 53
Bioautographic procedures
Use of tetrazolium salts in --- (64) 182
Bioautography
--- in PC and TLC and its scope in the antibiotic field (78) 41
Bio-Beads SX-1
Gel filtration LC of fatty acids and other fat samples using a Pye LC detector (71) 355
Biochemical mixtures
Use of sequential columns of microreticular and pellicular ion-exchange resins in the high-resolution separation of complex --- (83) 383
Bio-Gel
Number of carboxyl groups in highly cross-linked gels and its influence on cation selectivity (71) 55
Biogenic amines
Accelerated ion-exchange chromatography of some --- (60) 195
Biogenic amines
Analysis of --- and their metabolites by GC–chemical ionization MS (99) 575
Biogenic amines
Analysis of certain amines in tissues and body fluids as their Dansyl derivatives (82) 137

Biological fluids
Influence of peptides on the analysis of amino acids by TLC and ion-exchange chromatography (78) 181
Biological fluids
Separation of amino sugars and amino acids in glycoproteins and ---- on resin-coated chromatoplates (84) 204
Biological fluids
TLC in the examination of amino acid metabolism and renal function (78) 193
Biological materials
Rapid GLC method for determining oxalic acid in --- (76) 242
Biological mixtures
Rapid computerized identification of compounds in complex --- by GC–MS (99) 507
Biosynthesis of mucin glycoproteins
Use of high-voltage paper electrophoresis in studies of the --- (63) 177
Biota
Problems of background contamination in the analysis of open ocean --- for chlorinated hydrocarbons (72) 283
Biphenols
Gel chromatographic behaviour of --- (75) 87
Biphenyl
Determination of --- and orthophenyl-phenol in citrus fruits by GC (77) 331
Biphenyls
Determination of hydroxy- --- as dansyl derivatives (79) 209
Biphenyls
Differentiation and characterization of isomeric polychlorinated --- by GLC coupled with electron impact and chemical ionization MS (93) 63
Biphenyls
Effects of pesticide-grade hexanes on the silicic acid chromatography of polychlorinated --- and organochlorine pesticides (59) 444
Biphenyls
Extraction and recovery of chlorinated insecticides and polychlorinated --- from water using porous polyurethane foams (100) 83
Biphenyls
Quantitative and qualitative analysis of polychlorinated --- by GLC and flame ionization detection. I. One to three chlorine atoms (69) 273
Biphenyls
Retention indices of --- and diphenylalkanes (97) 3
Biphenyls
Structural identification of polychlorinated --- in commercial mixtures by GLC, NMR and MS (60) 15
Biphenyl nitration reaction
Identification of aromatic nitro derivatives by TLC and GLC and IR spectrometry. Application to the --- (68) 89
Biphenyls, polychlorinated
Approximation of electron capture response factors for highly electrophilic compounds (87) 9
Bisacrylamide
Quantitative electrophoresis in polyacrylamide gels of 2–40% (64) 147
Bis(acylamides)
Acylation with ---. N-Methyl-bis(trifluoroacetamide) and bis(trifluoroacetamide), two new reagents for trifluoroacetylation (78) 273
Bis(2-chloroethyl)sulfide
Improved GLC method for the analysis of --- collected from air by solvent entrapment (92) 162
Bis(2-chloroethyl)sulfide
Rapid, sensitive, GLC method for the analysis of --- collected from air in hydrocarbon solvents (78) 317
Bis(2-guanidinoethyl)disulphide
TLC of salts of S-(2-aminoethyl)-2-thiopseudourea and its transformation products (67) 193
Bishydroxycoumarin
GLC of coumarin anticoagulants and their trimethylsilyl ethers (64) 355
Bismuth tellurate
---; an inorganic ion-exchanger (67) 389
Bisphenol A epichlorohydrin
LC analysis of epoxy resins (91) 247
Bisphenol A–epichlorohydrin polymers
Identification of epoxy plasticizers using TLC (75) 271
Bis(trifluoroacetamide)
Acylation with bis(acylamides). N-Methyl-bis(trifluoroacetamide) and ---, two new reagents for trifluoroacetylation (78) 273
Bitumens
Characterization of --- using pyrolysis GC (61) 142

Bitumen
Determination of benzo[*a*]pyrene in ––– and plants (69) 421
Bitumen
Investigation of hydrocarbon components of a Yugoslav shale "–––" (65) 147
Black tea aroma concentrates
GC–MS analyses of "flavory" and "non-flavory" Ceylon ––– prepared by two different methods (79) 75
Blood
Hexachlorophene analysis in ––– by electron capture GC (76) 233
Blood, ethanol in
Direct sampling of slurries for the GC analysis of volatile compounds (91) 513
Blood group
Gel filtration of ABH blood group substances. I. Fractionation of ABH substances of human saliva (55) 337
Blood group
Gel filtration of ABH blood group substances. II. Individual gel chromatographic patterns of ABH substances in the saliva of secretors and non-secretors (55) 351
Blood group
Gel filtration of ABH blood group substances. III. ABH gel filtration pattern of solubilised red cell stroma (55) 365
Blood triglycerides
Quantitative TLC/GLC of human ––– (78) 133
Blood urea
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. VII. A simple technique for the estimation of ––– and of its clearance from plasma (67) 325
Bobwhite
Elimination pattern of Aroclor 1254 components in the ––– (75) 219
[^{3}H]Bombykol
TLC analysis of radioactively labelled insect pheromones. Metabolites of ––– (92) 401
Bonds
Systematic analysis of organosilicon compounds by chromatographic methods. II. (67) 37
μBondapak®
Considerations of small particles in different modes of LC (99) 407
Boranes
GC separation of 1- and 2-halogenodeca––– (81) 142
Boric acid–pyridoxol
Elucidation of the structure of ––– complexes (51) 330
Boron
Detection of ––– and the response of some boronate derivatives of carbohydrates with an alkali flame ionization detector (82) 410
Boron
Quantitative GC analysis of ––– trichloride, ––– and ––– nitride (76) 207
Boronate derivatives of carbohydrates
Detection of boron and the response of some ––– with an alkali flame ionization detector (82) 410
Boron trifluoride
GC of some reactive gases on graphitized carbon black (62) 128
Borosilicate glass capillary columns
Thermostable polar-phase open-tubular glass capillary columns (99) 103
Bottromycin
Chromatographic procedures for the identification of isomeric methylprolines (85) 167
Bovine elastin
Chromatographic separation of aldehyde-containing compounds from ––– (78) 371
Bovine pancreatic deoxyribonuclease
Affinity chromatography of hog spleen and ––– (73) 253
Bovine serum
Gel chromatography of modified ––– on Sepharose (59) 437
Bovine spleen DNase II
Antibody affinity chromatography of hog and ––– (80) 128
Brassica nigra
Fatty acid composition of mustard (–––) seed oil by GLC (86) 232
Br^--containing eluants
Reversed-phase extraction chromatography using ––– (69) 181
Bromine
Second-order reaction on a GC column. II. Decomposition of IBr on a chromatographic column (52) 39
Bromoacetone
GC–MS method for analysis of the

contents of aerosol irritant projectors (80) 155
Bromoalkanes
Correlations between physical properties of halogenated alkanes and their GC behaviour on polar stationary phases. Linear chloro-, --- and iodoalkanes (76) 293
Bromoalkanes
Correlation between physical properties of halogenated alkanes and their GC behaviour on polar and non-polar stationary phases. II. Branched-chain chloro-, ---, and iodoalkanes (79) 33
Bufexamac
GC behavior of ---, phenformin hydrochloride and phenylbiguanide. The --- and one of its major metabolites in plasma and urine (57) 410
Buformin hydrochloride
GC behaviour of ---, phenformin hydrochloride and phenylguanide. The pyrolytic formation of substituted 2,4,6-triamino-1,3,5-triazines from biguanides (71) 265
Bufotenin
Identification of N,N-dimethyltryptamine, 5-methoxy-N,N-dimethyltryptamine and --- by cellulose TLC (86) 269
Bufotenin
Selective and specific TLC, GC and GC–MS methods for the assay of indolethylamine N-methyltransferase activity (86) 123
Bufotenin
Use of *o*-phthalaldehyde as a spray reagent for the TLC identification of --- and 5-methoxy-N:N-dimethyltryptamine (57) 433
Bungarus multicinctus
Chromatographic separation of the venom of --- and characterization of its components (72) 71
Bunt
Identification of hexachlorobenzene residues by GLC (69) 198
Butabarbital
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Butacaine
Rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211
Butanal
Polyvinyl acetate as a stationary phase in TLC (52) 429
Butanediol succinate
Additivity of retention data for ethylenic functions in aliphatic fatty acids. II. Polar liquid phases (86) 83
Butanediol succinate
Comments on GLC and MS of methylated alditol acetates (72) 13
Butanol
Use of --- in the production of cellulose thin layers (63) 446
Butenes
Complex-forming stationary phases in high-speed LC (83) 91
Butenoic acid esters
Retention behaviour of isomeric --- on stationary phases of varying polar character (62) 39
Butenoic acid esters, short-chained and unsaturated
Retention behaviour of isomeric butenoic acid esters on stationary phases of varying polar character (62) 39
Butyl alcohols
Stepwise extraction of oxygen-containing compounds by boric acid and lithium aluminium hydride (69) 47
Butyl alcohol isomers
Separation of the four --- on a cation-exchange resin column (57) 424
n-Butyl esters of metabolic acids
GC separation of metabolic acids on surface-modified Chromosorb (82) 382
Butyrophenones
Method for the GC determination of --- (59) 174
Bux
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174

C

Cactus alkaloids
——. XVII. TLC of Dansylated non-phenolic β-phenethylamines (73) 277
Cadaverine
Ion-exchange chromatographic separation and fluorometric detection of urinary polyamines (90) 129
Cadaverine
PC resolution of aliphatic guanidino amines, diamines and polyamines (86) 214
Cadmium
High-voltage paper electrophoresis of Hg(II), Cd(II), Pb(II) and Cu(II) in aqueous solution of EDTA and glycolic acid (94) 349
Cadmium
Separation of manganese, iron, cobalt, nickel, copper, zinc and —— by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275
Caffeic acid
Rapid electron capture determination of —— and quercetin moieties in plants (52) 385
Caffeine
Analysis of aspirin and related compounds by LC (61) 253
Caffeine
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, noscapine, diphenhydramine hydrochloride, phenylephrine hydrochloride, ——, etofyllin, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
Caffeine
Sensitive TLC technique for determining morphine in urine (71) 135
Caffeine
Separation of oxypurines by ligand-exchange chromatography and determination of —— in beverages and pharmaceuticals (62) 148
Caffeine
TLC of —— and related methylxanthines (59) 214
Calcium
Ion-exchange chromatography of —— and magnesium in mixed dimethyl sulphoxide–water media (59) 237
Ca-ATPase
New method for the *in situ* determination of phospholipids after thin-layer separation. The phospholipid content of —— and Na-,K-ATPase from human erythrocyte in comparison with the phospholipid content of human erythrocytes (82) 15
Calcium ions
Ca^{2+}/H^+ exchange on zirconium phosphate at temperatures up to 250° (60) 235
Calcium perchlorates
Application of GC in the study of kinetics of volatile products evolved in topochemical processes (69) 31
Calculator
Interfacing a programmable electronic —— with an automatic amino acid analyzer (86) 37
Calibration constant
Isotachophoresis. Some quantitative aspects of the separation of anionic mixtures (71) 329
Calibration data
Statistical processing of —— in quantitative analysis by GC (51) 375
Campesterol
Preparative argentation CC for separation of sterols from orange vesicles (79) 147
Campesterol
Separation of β-sitosterol and —— on hydrophobic hydroxylalkyl Sephadex LH-20 (67) 170
Camphorsulphonic acid
GC determination of —— and its salts in pharmaceutical preparations (69) 311
Cancer chemotherapy
Application of GC–chemical ionization

mass fragmentography in the evaluation of bases and nucleoside analogues used in ––– (99) 519
Candicidin
Pyrolysis–GC of polyene antifungal antibiotics: the nature of ––, levorin and trichomycin (53) 566
Candicidin
Separation of polyene antifungal antibiotics by high-speed LC (99) 619
Cane syrup
Sephadex G-25 TLC. Determination of coloring matter in ––– from burned and unburned cane (81) 187
Cannabicyclol
Identification of ––– with a pentyl or propyl side-chain by means of combined GC–MS (74) 124
Cannabidiol
Minor components of cannabis resin. II. Separation by GC, mass spectra and molecular weights of some components with shorter retention times than ––– (68) 248
Cannabidiol
Minor components of cannabis resin. IV. MS data and GC retention times of terpenic components with retention times shorter than that of ––– (96) 99
Cannabidiol
Minor components of cannabis resin. V. MS data and GC retention times of cannabinoid components with retention times shorter than that of ––– (96) 179
Cannabidiol
Rapid thermomicro/TLC procedure for the identification of cannabinoids in marihuana (87) 298
Cannabinoids
GC of –––. GC behaviour of *cis*- and *trans*-tetrahydrocannabinol and isotetrahydrocannabinol (79) 81
Cannabinoids
GLC of ––– in micro quantities of cannabis by solid injection (69) 381
Cannabinoids
Identification of synthetic ––– by GC (87) 263
Cannabinoids
Rapid thermomicro/TLC procedure for the identification of ––– in marihuana (87) 298
Cannabinoid components
Minor components of cannabis resin. V. MS data and GC retention times of ––– with retention times shorter than that of cannabidiol (96) 179
Cannabinols
Derivatisation of phenols for GC using electron capture detection (78) 303
Cannabinols
Problems concerning the reliable identification of hashish in urine by TLC (78) 393
Cannabinol
Rapid thermomicro/TLC procedure for the identification of cannabinoids in marihuana (87) 298
Cannabinol methyl ether
Cannabis. VII. Identification of ––– from hashish (81) 163
Cannabis
–––. VII. Identification of cannabinol methyl ether from hashish (81) 163
Cannabis
Detection of Δ^9-tetrahydrocannabinol in saliva of men by means of TLC and MS (96) 189
Cannabis
GC of ––– constituents and their synthetic derivatives (74) 209
Cannabis
GLC of cannabinoids in micro quantities of ––– by solid injection (69) 381
Cannabis
Minor components of ––– resin. I. Their separation by GC, thermal stability, and protolytic properties (63) 391
Cannabis
Minor components of ––– resin. II. Separation by GC, mass spectra and molecular weights of some components with shorter retention times than cannabidiol (68) 248
Cannabis
Minor components of ––– resin. III. Comparative GC analysis of hashish (68) 253
Cannabis
Minor components of ––– resin. IV. MS data and GC retention times of terpenic components with retention times shorter than that of cannabidiol (96) 99
Cannabis
Minor components of ––– resin. V.

MS data and GC retention times of cannabinoid components with retention times shorter than that of cannabidiol (96) 179
Cannabis
Preservation of ––– thin-layer chromatograms (100) 196
Cannabis sativa L.
––– (marijuana). III. The RIM test: a reliable and useful procedure for the detection and identification of marijuana utilizing combined microscopy and TLC (82) 151
Cannabis sativa L.
Chromatographic comparison of the constituents of nutmeg and mace (*Myristica fragrans* Houtt.) with those of marihuana and hashish (–––) (89) 113
Capacitance detector
Performance of the ––– for LC (65) 53
Capacitance detectors
Prospects of selective detection by ––– in LC (57) 181
Capacitance detectors
Role of the mobile phase permittivity in the use of the ––– in LC (52) 213
Capacity ratio
Gradient elution in LC. I. The influence of the composition of the mobile phase on the ––– retention volume, band width, and resolution in isocratic elution – theoretical considerations (91) 207
Capillary columns
Effect of coating parameters on the quality of stationary phase films in glass ––– (65) 39
Capillary columns
Honeycomb spool: a modified method for winding ––– (84) 389
Capillary columns
Influence of surface tension on the homogeneity of the film of stationary phase in glass ––– (79) 15
Capillary columns
Isothermal analysis on ––– without stream splitting. The role of the solvent (94) 53
Capillary columns
Preparation of thick-film glass ––– by the dynamic coating procedure (93) 405
Capillary columns
Preparation, performance and special applications of glass ––– (99) 63
Capillary columns
Study of packed ––– (99) 111
Capillary columns
Surface characteristics of treated glasses for the preparation of glass ––– in GLC (99) 81
Capillary columns
Thermostable polar-phase open-tubular glass (99) 103
Capillary column capacities
Analytical isotachophoresis. Resolution, detection limits and separation capacity in capillary columns (91) 785
Capsaicin
Chromatographic characterization of lachrymatory agents in tear gas aerosols (70) 151
Capsaicin
II. Study of the components of –––. Quantitative GC determination of separate homologs and analogs of ––– mixtures from a natural source and of vanillyl pelargonic amide as adulteration (63) 281
Capsaicinoids
TLC and CC separation of ––– from drugs. Study of the constituents of capsicum (79) 229
Capsicum
Chromatographic characterization of lachrymatory agents in tear gas aerosols (70) 151
Capsicum
TLC and CC separation of capsaicinoids from drugs. Study of the constituents of ––– (79) 229
Caramel color
Isolation of 4-methylimidazole from ––– and its determination by TLC and GLC (87) 411
Caramiphen hydrochloride
GLC of ––– and its analogues (52) 138
Carbamates
Fluorigenic labelling of ––– with dansyl chloride. I. Study of reaction conditions (61) 174
Carbamates
Fluorigenic labelling of ––– using dansyl chloride. II. Fluorescence phenomena of the derivatives (66) 93
Carbamates
Fluoriginic labelling of ––– using dansyl chloride. III. TLC properties of the derivatives (66) 295

Carbamates
Fluorigenic labelling of --- with dansyl chloride. IV. *In situ* quantitation of N-methyl carbamate insecticides on thin-layer chromatograms (67) 87
Carbamates
Functional group transformations in the GC derivatization of several --- and urethanes (87) 341
Carbamates
Fungitoxic alkyl 2-benzimidazole --- and some TLC detection reagents (93) 491
Carbamates
GLC and mass fragmentography of S-*n*-propyl N-monoalkyl dithio --- (99) 291
Carbamates
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part I. General discussion of the method (54) 251
Carbamates
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Carbamates
Metabolism of dialkyldithio---. I. Determination of amines using a reaction with isocyanates followed by GC identification of the urea derivatives formed (94) 65
Carbamates
Pyrolysis of isopropyl 5-chloro-2-hydroxy-carbanilate during GC (62) 29
Carbamate
Routine method for identification of pesticide residues, triazine, ---, urea, and uracil type compounds by TLC (65) 533
Carbamates
Separation and detection of --- and related compounds on polyamide layers (52) 453
Carbamates
TLC–enzymatic identification of ---. II. Identification of --- herbicides with bovine liver esterase (58) 257
Carbamates
TLC–enzymatic detection of ---. III. Detection of insecticidal and herbicidal carbamates with phosphate (64) 383
Carbamate insecticides
TLC–enzymatic detection of some pesticides by inhibition of amylases (63) 343
Carbamate insecticides
TLC–enzymatic identification of carbamates. I. Identification of --- with bovine liver esterase (53) 269
Carbamate tranquilizers
Determination of -- by GC (53) 564
Carbamazepine
Determination of --- in plasma (89) 11
Carbamazepine
TLC method for determining --- in blood (93) 238
Carbamyl phosphate
Separation of --- and phosphate by PC (70) 210
Carbaryl insecticides
Ether derivatives for the determination of phenols and phenol-generating pesticides by electron capture GC (73) 89
Carbazoles
Dichlorodicyanobenzoquinone as a spray reagent for --- (96) 266
Carbazole
Evaluation of the separation of phenanthrene, anthracene and --- in pure tar products by GSC (65) 341
Carbazole
Rapid-scanning spectrophotometry as a new detection system in chromatography (83) 357
Carbethoxymethylpyrroles
Separation of --- by TLC (65) 580
Carbimazole
Development and comparison of TLC and GLC methods for measurement of methimazole in rat urine (53) 285
Carbochrom
Problems of selectivity and efficiency in LSC (91) 187
Carbohydrates
Analysis of monosaccharides by GLC of the O-methyl glycosides as trifluoro-acetate derivatives. Application to glycoproteins and glycolipids (69) 291
Carbohydrates
Calibration of tightly cross-linked gel filtration media for determination of the size of low molecular weight, non-interacting solutes (54) 43

Carbohydrates
Comparative study of certain aniline salts used in the determination of --- by spot elution chromatography (84) 220
Carbohydrates
Coupled layers: A new technique for the two-dimensional TLC of --- (74) 273
Carbohydrates
Densitometry of thin-layer chromatograms using polaroid projection film. Application to the analysis of monosaccharides (52) 437
Carbohydrates
Detection of boron and the response of some boronate derivatives of --- with an alkali flame ionization detector (82) 410
Carbohydrates
Determination of parameters in dextran gel filtration (74) 59
Carbohydrates
GC determination of fructose and glucose in syrups (56) 121
Carbohydrates
GLC of trimethylsilyl disaccharides (59) 281
Carbohydrates
GPC of maltooligosaccharides at different temperatures (57) 89
Carbohydrates
High-pressure LC of --- (97) 25
Carbohydrates
Improved method for the TLC separation of mono- and oligosaccharides (61) 169
Carbohydrates
Mapping and specific detection of glycopeptides on thin-layer plates (76) 417
Carbohydrates
Micro-chromatographic and radiochemical analysis of glycopeptides (76) 345
Carbohydrates
Microdetermination of molar ratios of neutral sugars on thin layers of borohydride-reduced cellulose (51) 316
Carbohydrates
Micromanipulator for compounds eluted from a gas chromatograph (72) 179
Carbohydrates
Micro-method for the determination of hydroxylysine and its glycosylated derivatives (51) 277
Carbohydrates
New sensitive UV detection system for --- eluted during CC (64) 247
Carbohydrates
Polyacrylamide gel electrophoresis and gel filtration of dyed polysaccharides (52) 165
Carbohydrates
Quantitative determination of --- in cellulosic materials by GLC. Automatic integration of alditol acetate peak areas (54) 9
Carbohydrates
Rapid quantitative TLC separation of fucose from other neutral monosaccharides. An application to separate other sugars of physiological interest (57) 391
Carbohydrates
Selectivity of polyacrylamide gels for sugars (53) 572
Carbohydrates
Separation and quantitation of --- on cation-exchange resin columns having organic counterions (72) 311
Carbohydrates
Separation of some methyl-O-methyl-D-xylofuranosides by GC (58) 209
Carbohydrates
Separation of sugars by centrifugal microparticulate bed chromatography (62) 93
Carbohydrates
Sugar borate chromatography using refractometry for monitoring (57) 153
Carbohydrates
TLC analysis of sugar mixtures (57) 99
Carbohydrates
TLC of fructo-oligosaccharides (56) 163
Carbohydrates
TLC of oligosaccharides with tungstic or molybdic acid as impregnant (63) 329
Carbohydrates
Unexpected occurrence of prolylhydroxyproline during the analysis of collagen-bound --- by GLC (64) 211
Carbohydrate anomalies
Two-dimensional TLC method for screening --- (95) 51
Carbohydrate compounds
Non-destructive chromatographic indicator for (and quantitative analysis in) the PC of --- convertible to barium salts (63) 357
Carbon
Simultaneous --- and oxygen determination by fluorine combustion GC (69) 355
Carbon blacks
Hydrogen-treated graphitized ---.

Adsorption of acetic acid and propylamine by GC (77) 277
Carbon black
Use of graphitized ——— in environmental analysis (99) 661
Carbon-coated glass beads
——— as a GC support material (77) 69
Carbon dioxide
Experimental results and physico-chemical aspects of supercritical fluid chromatography with ——— as the mobile phase (83) 135
[^{14}C]Carbon dioxide
Gas–liquid radiochromatography of ^{14}C-containing compounds with combustion and collection of the resulting ——— in Hyamine (71) 415
Carbon dioxide
New column packing for the separation of carbon monoxide and ——— (55) 319
Carbon disulphide
Detection of ——— (a Disulfiram metabolite) in expired air by GC (92) 442
Carbon molecular sieves
So-called ——— in GC (91) 313
Carbon monoxide
Chromatographic properties of type X zeolites containing alkali metal cations (58) 47
Carbon monoxide
Determination of ——— in air in the parts per billion range by means of a helium detector (77) 125
Carbon monoxide
Intermolecular interactions in GC separations on zeolites (58) 39
Carbon monoxide
New column packing for the separation of ——— and dioxide (55) 319
Carbon monoxide, air-borne
Chromatographic determination of ——— below the 1 ppm level (91) 539
Carbon number
GC retention and molecular structure. An approach to systematic identification of functional groups and ——— (99) 203
C:O ratio of compounds in GC reactions
Elucidation of GC fractions in hydrogenation and oxidation reactions (69) 37
Carbonskeleton chromatography
Contribution to the determination of environmental contaminants by ——— (88) 65
Carbon suboxide
GC investigation of ——— (77) 323
Carbon tetrachloride
GC using the vapours of ——— and other compounds as carrier gases (87) 554
Carbonyl abstractors
Evaluation of polyalkylimines as specific ——— in GC (99) 319
Carbonyl-bis-(amino acid ester)
Direct GC resolution of enantiomers on optically active mesophases. II. Effects of stationary phase structures on selectivity (88) 41
Carbonyl-bis(D-leucine isopropyl ester)
Direct GC resolution of enantiomers on optically active mesophases. I. Smectic ——— (87) 243
Carbonyl compounds
Analysis of deisel engine exhausts for low-molecular-weight ——— (86) 228
Carbonyl compounds
Critical evaluation of some factors influencing the quantitative isolation and characterisation of ——— from oxidising fats (57) 265
Carbonyl compounds
GC determination of ——— as their phenylhydrazones (88) 177
Carbonyl compounds
GLC analysis of 2,4-dinitrophenyl-hydrazones of ——— (65) 355
Carbonyl compounds
Quantitative GC analysis of micro amounts of volatile ——— via their DNPH derivatives (57) 406
Carbonyl compounds
Separation of 2,4-dinitrophenylhydrazones into classes by TLC on zinc carbonate (65) 435
Carbonyl compounds
TLC of some α,β-unsaturated ———. II. (67) 186
Carbonyl compounds
TLC of some α,β-unsaturated ———. III. (69) 416
Carbonyl compounds
Use of precolumn reactions for the selective removal of compounds bearing alcohol or carbonyl functional groups in the GC analysis of mixtures (64) 25
Carbonyl dinitrophenylhydrazones
A two dimensional TLC technique for the resolution of mono——— (51) 237

o-Carboranes
GC separation of isomeric monobromo-1,2-dicarba-closo-dodecaboranes (12) (87) 473
Carboranes
Gel chromatography of polar molecules. Elution behaviour of dicarba-*closo*-dodecaboranes and their derivatives (88) 323
Carboranes
High-pressure LC of metallo--- (88) 187
Carbosorb
Separation and identification of halocycloalkanes by GC. Part II (72) 269
Carbowax
Characteristics of a novel GC phase (88) 7
Carbowax 20M
Chromatographic characterization of surface-modified silica gels (87) 35
Carbowax 20M
Non-extractable polymer coatings (modified supports) for chromatography (87) 49
Carbowax 20M
Preparation of stable glass capillary columns coated with --- (97) 263
Carbowax 20M
Unexpected behavior of a common GC phase (77) 299
Carboxine
Silver nitrate–bromophenol blue and potassium permanganate–sulphuric acid as chromogenic reagents for the detection of --- and oxycarboxin in TLC (87) 283
Carboxyl groups
Number of -- in highly cross-linked gels and its influence on cation selectivity (71) 55
Carboxylic acids
Analysis of some β-branched primary alcohols and α-branched --- by combined capillary GC and MS (91) 775
Carboxylic acids
Anion-exchange chromatography of dicarboxylic acids in sulphate medium (61) 101
Carboxylic acids
Application of the ligand exchange method to the separation of some aliphatic --- (95) 127
Carboxylic acids
Argentation TLC with silver oxide. II. Amines, unsaturated and aromatic --- (52) 500
Carboxylic acids
Calibration data for the GC determination of -- as their benzyl esters (87) 254
Carboxylic acids
Chromatographic behaviour of aromatic amino acids on thin layers of anion and cation exchangers (88) 331
Carboxylic acids
Determination of formic acid in dilute aqueous solution and separation and determination of aniline and toluidine isomers by GC of formanilide and formyl toluidides (51) 139
Carboxylic acids
GC determination of di- and tri--- (61) 343
Carboxylic acids
GC examination of some diesters of normal aliphatic di -- (87) 576
Carboxylic acids
GC separation and detection of C_1 to C_3 mono--- as the *p*-substituted benzyl esters (52) 63
Carboxylic acids
Ion-exchange chromatography of --- (86) 351 (review)
Carboxylic acids
Method for detection of transesterification in solutions of esters of quinoline-3--- (57) 441
Carboxylic acids
Method for the esterification of --- in GC analysis (82) 291
Carboxylic acids
Quantitation in isotachophoresis. The concept of relative correction factors (91) 829
Carboxylic acids
Reaction PC of --- with the use of electrolytic reduction (66) 329
Carboxylic acids
Separation and determination of benzene-poly--- by high-pressure elution LC. The use of elution programming (84) 285
Carboxylic acids
Separation and determination of low-molecular-weight straight-chain (C_1–C_8) --- by GC of their anilide derivatives (51) 147

Carboxylic acids
Separation and determination of low-molecular-weight straight-chain ---- in dilute aqueous solution by the GC of their *p*-bromophenacyl and *p*-phenylphenacyl esters (56) 29
Carboxylic acids
Separation of mono- and dibasic fatty acids by GC (51) 297
Carboxylic acids
Study of the strontium and barium halides as column packings in GSC (53) 477
Carboxylic acids
TLC and gel chromatography of some aliphatic poly- --- (88) 281
Carboxylic acids
TLC separation of ^{14}C-labelled branched-chain α-keto acids and hydroxamic acids derived from the corresponding enzymatically formed acyl-CoA compounds (61) 373
Carboxylic acids
Trichloroethyl esters as derivatives for GC with electron capture detection (61) 29
Carboxylic acids, esters of
Ion-exchange chromatography of sulphur compounds, phenols, phosphorus compounds and --- (86) 423 (review)
S-Carboxymethylated proteins
Electrophoretic and chromatographic characterization of sulphur-rich proteins from wool (69) 341
S-Carboxymethylated proteins
Measurement of specific activity of radioactive proteins in starch gels (62) 165
Carboxymethylcellulose thin layers
Influence of complex formation on the chromatographic behaviour of inorganic ions on sodium --- and Dowex 50-X4-(Na^+) thin layers (84) 155
Carcinogens
Aflatoxin detection by high-speed LC and mass spectrometry (84) 402
Cardanol
Composition of the unsaturated phenolic components of anacardic acid (54) 83
Cardenolides
Assay of digoxin in plasma by GC (56) 209
Cardenolides
New thin-layer densitometric technique for the assay of -- from *Digitalis purpurea* (88) 341
Cardenolides
Separation of the hydroxylation products of digitoxigenin by TLC (70) 187
Cardiac glycosides
Comparative study of TLC techniques for separation of digoxin, digitoxin and their main metabolites (86) 254
Cardiolipin
Silica gel CC of acidic phospholipids. Effects of metal ions of adsorbent and phospholipid on the elution profiles (89) 259
Cardiolipin
Silica gel TLC of acidic phospholipids. I. Effect of metal ions of the adsorbent and phospholipid on the chromatographic mobility of --- and phosphatidylinositol (89) 275
Cardiotonic steroids
Evaluation of several solvent systems in the TLC separation of cardiotonic aglycones and glycosides from cholesterol, phytosterols and their esters (73) 279
L-Carnosine
TLC of --- and β-alanine (63) 459
β-Carotene
Application of LC in food analysis (83) 455
Carotenes
Studies on charge transfer complexes of some conjugated compounds with explosives (59) 457
Carotenoid
---- analysis by two-dimensional, two-adsorbent TLC (61) 133
Carotenoids
Chromatography of leaf pigments on silica gel and aluminium hydroxide loaded papers (61) 202
Carotenoids
Continuous flow separation of --- by LC (55) 325
Carotenoids
Magnesium hydroxide as a TLC adsorbent. III. Application to separations of vitamin A and related --- (69) 215
Carotenoids
Preparative separation of plastid pigments on polyamide columns (68) 264

Carotenoids
Reversed-phase TLC of chlorophyll derivatives (76) 175
Carotenoids
Separation of β-apocarotenals and related compounds by reversed-phase PC and TLC (75) 146
Carotenoids
Separation of chloroplast pigments on Sephadex LH-20 (59) 440
Carotenoids
Separation of the neutral --- of *Neurospora crassa* using concave gradient elution chromatography (84) 192
Carotenoid glycosides
Separation of --- on magnesium oxide (68) 270
Carrier
Silica gel as an insoluble --- for the preparation of selective chromatographic adsorbents. The preparation of 8-hydroxyquinoline substituted silica gel for the chelation chromatography of some trace metals (76) 455
Carrier gas
GC studies on basic nitrogenous drugs. I. Addition of basic compounds and steam to the --- (92) 323
Carrier gases
GC using the vapours of carbon tetrachloride and other compounds as --- (87) 554
Carrier gas velocity
Effect of the --- on the retention volume in GC on Porapak sorbents (91) 59
l-Carvone
Application of direct spectrophotometry to the analysis of chromatograms. II. Effects of sorbent layer on the bathochromic shift of the absorption maximum of a compound in a thin layer (79) 173
Catalase
Anomalous behaviour of --- on agarose gel (66) 375
Catalysis
Advances in the application of GC to the study of heterogeneous --- (99) 281
Catalytic cracking reactions
GC of the coke formed in --- (64) 360
Catalytic reactions
Pulse chromatographic method for the investigation of --- (69) 3
Casein
Fractionation of the whey proteins and --- of cow's milk on Sephadex DEAE A-50 and A-25 (75) 117
Castor oil
Rapid method for detecting groundnut oil in --- (86) 261
Catalysis
Studies on catalysts and --- by the techniques of GC (81) 207 (review)
Catalysts
Studies on --- and catalysis by the techniques of GC (81) 207 (review)
(±)-Catechin
Effect of polyethylene glycols on the mobility of --- on cellulose (78) 401
Catechin
Effect of polyethylene glycols on the mobility of the polyphenolic constituents of wattle extract on cellulose (84) 129
(±)-Catechin
Effect of solvent composition on the mobility of --- on cellulose (67) 121
Catechins
New chromatographic spray for the detection of --- (58) 302
Catechins
New chromogenic reagent for the detection of phenolic compounds on thin-layer plates (79) 350
Catechin
Separation of theaflavins on Sephadex LH-20 (54) 133
Catechol
High-speed LC of glucuronide and sulfate conjugates (55) 409
Catecholamines
Chromatography of biogenic amine metabolites and related compounds on lipophilic Sephadex. II. The -- and their 3-O-methylated derivatives (52) 87
Catecholamines
Detection of --- and related compounds with diazonium reagents by TLC (72) 207
Catecholamines
Gaseous formaldehyde: A sensitive chromatographic detection reagent for tryptophanyl-dipeptides (59) 209
Catecholamine
Identification of ---derived alkaloids in mammals by GC and MS (99) 567

Catecholamines
Nature of some solvent-derived artifact spots observed during the chromatography of adrenaline (51) 525
Catecholamine
Quantitative analysis of ---- and serotonin-metabolites by fluorescent quenching on the thin layer (61) 162
Catecholamines
Quantitative TLC estimation of labelled dopamine and norepinephrine, their precursors and metabolites (52) 305
Catecholamines
Selective GC–MS methods for the quantitation of normetanephrine, metanepnrine and vanillylmandelic acid (90) 163
Catecholamines
Separation of indole derivatives and --- by TLC (59) 463
Catecholamines
Separation of norepinephrine and its five major metabolites by PC (67) 129
Catecholamine metabolism
Circular TLC for diagnosis and follow-up of neural crest tumours (82) 127
Catecholamine metabolites
Quantitative analysis of serotonin and --- on thin-layer plates. II. Reflectance measurements after a specific photochemical reaction (74) 303
Catechol oestrogens
New method for preventing oxidative decomposition of --- during chromatography (71) 465
Catechols
Separation and determination of chlorogenic acid and fruit ---- by GLC (74) 339
Cations
Chromatography of inorganic ions on thin layers of protein (54) 55
Cations
Isotachophoresis. Experiments in methanol (51) 339
Cations
Selectivity of cellulose gels for simple salts (63) 478
Cations
Temperature dependence of distribution coefficients of some ---- on a crystalline zirconium phosphate over the range 25 to 80 °C (71) 538
Cations
TLC of inorganic ---- on crystalline Cerium(IV) phosphate sulphate (67) 200
Cation-exchange resins
Effect of the conditions of preparation of ---- on their resolution efficiency in ion-exchange chromatography of amino acids (60) 256
Cation-exchange resin
Non-aqueous solvent chromatography. III. Complex chromatography between the metal ion of a --- and organic compounds in organic solvents (78) 424
Cation-exchange resins
Selectivity behavior of low-capacity, partially sulfonated, macroporous resin beads (90) 267
Cation exchangers
Sorption equilibria between proteins and --- (89) 239
Cationic surface-active agents
Separation and analysis of mixtures of --- by salting-out chromatography (87) 117
Cation mixtures
Isotachophoresis. The qualitative separation of --- (68) 207
Cathodoluminescence
--- and stationary phase distribution: experiments with diatomite supports (92) 267
Cefoxitin
Analysis of ---, cephalothin and their deacylated metabolites in human urine by high-performance LC (99) 609
Cellodextrins
Gel chromatography: the effect of temperature on partitioning (87) 17
Cellodextrin
PC behaviour of homologous linear polymers. The isomaltodextrin, maltodextrin, and --- series and their 1-(*m*-substituted phenyl)-flavazoles (70) 99
Cellodextrins
Separation of --- by gel permeation chromatography (52) 273
Cellodextrins
Separation of xylodextrins by gel chromatography (67) 162
Cells
New observations concerning the membrane chromatography of --- (76) 274

Cellulin-like substances
GC studies of derivatives of --- (91) 113
Cellulose
Effect of solvent composition on the mobility of (±)-catechin on --- (67) 121
Celluloses
RNA fractionation on modified ---. I. ECTEOLAECTHAM-, amino-ethyl, nucleic acid-, and nitro-cellulose (73) 449 (review)
Celluloses
RNA fractionation on modified ---. II. DEAE-cellulose (73) 463 (review)
Celluloses
RNA fractionation on modified ---. III. BD-cellulose (73) 479 (review)
Cellulose, DE-52
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. I. CC techniques (62) 399
Cellulose, DE-52
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. II. Combined CC separation method (62) 409
Cellulose acetate columns
Separation of polycyclic aromatic hydrocarbons by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of coronene (83) 11
Cellulose derivatives
Fractionation of yeast tRNA and proteins on nucleoside derivatives of cellulose (82) 349
Cellulose gel
Gel chromatography: the effect of temperature on partitioning (87) 17
Cellulose gels
Selectivity of --- for simple salts (63) 478
Cellulose impregnated with formamide
Investigations on the mechanism and selectivity of chromatography on thin layers of polyamide. II. Comparison of polyamides and --- using moderately polar developing solvents (94) 219
Cellulose thin layers
Use of butanol in the production of --- (63) 446
Centrifugal elution chromatography
--- with eluate monitoring (99) 35
Centrifugal microparticulate bed chromatography
Separation of sugars by --- (62) 93
Centrifuged column chromatography
Separation of optically active cobalt complexes by --- (94) 279
Centripetal thin-layer chromatography
Ultratrace analysis (below p.p.b.) by coupling --- and GC (78) 127
Cephalosporins
Influence of pH in buffered reversed-phase TLC of penicillins and --- (51) 548
Cephalosporin
Novel TLC system and its application to the separation of some --- compounds (76) 509
Cephalosporins
Separation and detection of degradation products of penicillins and --- by means of TLC (71) 141
Cephalothin
Analysis of cefoxitin, --- and their deacylated metabolites in human urine by high-performance LC (99) 609
Cerebrosides
Detection of --- on thin-layer chromatograms with an anthrone spray reagent (85) 174
Cerebrosides
Determination of --- and cerebral sulphatides using TLC (technique without preliminary elution) (57) 448
Cerebrosides
Evaluation of a GC method for the quantitative estimation of hexoses from neutral glycolipids (92) 95
Cerium(III)
Ion-exchange processes of some trivalent elements on amorphous zirconium phosphate up to 250°C (76) 221
Cetylpyridinium chloride cellulose
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. I. CC techniques (62) 399
Cetylpyridinium chloride cellulose
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. II. Combined CC separation method (62) 409
Chalcones
TLC of some α,β-unsaturated carbonyl compounds. III (69) 416
Chalcone derivatives
TLC of some α,β-unsaturated carbonyl compounds. III (69) 416

Charcoal
Chromatography of steroids on a thin layer of — (78) 149
Charcoal adsorbents
So-called carbon molecular sieves in GC (91) 313
Charge-transfer complexes
— of metals in the chromatographic separation of organic compounds (68) 325 (review)
Charge transfer TLC
— and multiple site complexation (89) 49
Charring
Cupric sulphate as a — agent in the TLC of lipids (88) 428
Chelating agents
Separation of NTA and EDTA chelates by TLC (79) 375
Chemical ionization mass spectrometry
Utilization of GLC coupled with — and electron impact MS for the investigation of potentially hazardous environmental agents and their metabolites (98) 363 (review)
Chemotaxonomy
Phytochemistry of the *Salicaceae*. VI. The use of a GLC screening test for the — of *Populus* species (84) 315
Chemotaxonomy
Cellulose TLC of phenolic substances (67) 105
Chelation chromatography
Silica gel as an insoluble carrier for the preparation of selective chromatographic adsorbents. The preparation of 8-hydroxyquinoline substituted silica gel for the — of some trace metals (76) 455
Chenodeoxycholic acid
Color detection of bile acids in TLC (61) 370
Chelates
TLC separation of some polyaminoacetic acids (62) 476
Chemical structure of the solute molecules
Correlation of retention data with the — (65) 103
Chezasorb
Properties of acid-washed and silanised Czechoslovak supports: Chromaton N and — (51) 103
Chemical interactions in solutions
GC study of — (69) 17
Chemical amplifier
A — (cobaltocobaltic oxide/sodium alcoholate) with flame ionization detection (69) 71
China clay
— a sorbent for TLC (60) 363
Chiral derivative of Sephadex LH-20
Preparation and evaluation of a — (75) 247
Chitosan
Use of — columns for the removal of mercury from waters (96) 115
Chloral hydrate
GC determination of —, trichloroethanol and trichloroacetic acid in blood and in urine employing head-space analysis (88) 55
Chloramphenicol
Preparation of trimethylsilyl derivatives of — for GLC (82) 297
Chloranil
Solvent effect in the use of — as a reagent in the identification of aromatic amines on silica gel thin layers (56) 59
Chloranilic acid
Quantitative and rapid separation of Zr(IV) and Hf(IV) by TLC. Spectrophotometric determination of Hf(IV) with — (75) 93
Chlorauric acid
Ion-exchange PC of inorganic ions. XXVII. Adsorption of — on various exchangers from organic solvents (51) 556
Chlordiazepoxide
Determination of — plasma concentrations by electron capture GLC (61) 237
Chlorella vulgaris (pyrenoidosa)
GC analysis of the higher fatty acids of the alga — (65) 371
Chlorinated anilines
TLC of — on zinc salt-impregnated silica gel thin layers (74) 142
Chlorinated hydrocarbons
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Chlorinated hydrocarbons
Precisely deactivated adsorbents applied to the separation of — (70) 168

Chlorinated hydrocarbons
Problems of background contamination in the analysis of open ocean biota for ––– (72) 283
Chlorinated hydrocarbons
"Temperature-programmed" GC with electron capture detection (82) 269
Chlorinated hydrocarbon insecticides
TLC–enzymatic identification and the mode of action of –––. II. Identification by inhibition of trypsin (52) 447
Chlorinated hydrocarbon pesticides.
Design of a column for the GC analysis of ––– (52) 141
Chlorinated hydrocarbon pesticides
Improved quantitative GC method for the analysis of small amounts of ––– in human plasma (74) 21
Chlorinated pesticides
Separation and identification of DDT analogues in the presence of polychlorinated biphenyl compounds by two-dimensional TLC (57) 397
Chlorine
GC of some reactive gases on graphitized carbon black (62) 128
Chlorine atoms
Quantitative and qualitative analysis of polychlorinated biphenyls by GLC and flame ionization detection. I. One to three ––– (69) 273
Chlorine-containing pesticides
Determination of sulphur- and ––– with an electrolytic conductivity detector (75) 207
Chloroacetone
Chromatographic characterization of lachrymatory agents in tear gas aerosols (70) 151
α-Chloroacetophenone
Chromatographic characterization of lachrymatory agents in tear gas aerosols (70) 151
Chloroacetylenes
GLC properties of ten synthetic ––– (88) 289
Chloroalicyclic ketones
TLC of poly––– (87) 535
Chloroalkanes
Correlations between physical properties of halogenated alkanes and their GC behaviour on polar and non-polar stationary phases. Linear –––, bromo- and iodoalkanes (76) 293
Chloroalkanes
Correlation between physical properties of halogenated alkanes and their GC behaviour on polar and non-polar stationary phases. II. Branched-chain ––, bromo- and iodoalkanes (79) 33
Chlorobenzoic acids
GC analysis of monohalobenzoic acid isomers (82) 390
o-Chlorobenzylidenemalonitrile
Chromatographic characterization of lachrymatory agents in tear gas aerosols (70) 151
Chlorobiphenylols
–––. TLC and colour reactions of some hydroxylated chlorobiphenyls (97) 233
Chlorobiphenyls
Chlorobiphenylols. TLC and colour reactions of some hydroxylated ––– (97) 233
2-Chloro-3-(4-chlorophenyl)propionic acid
Quantitative determination of the methyl ester of ––– in technical products and formulations by GC (69) 305
Chlorodioxins
Chromatographic evidence for the formation of ––– from chloro-2-phenoxyphenols (96) 137
Chloroestrone methyl ether
Analytical chemical studies on steroids. Part L. Determination of urinary metabolites of 16α-––– by GC (60) 418
Chloroethanes
GLC of the ––– and chlorotoluenes (76) 101
2-Chloroethylphosphonic acid
Determination of ––– (Ethephon) in palm oil by TLC (60) 219
Chloroform
GLC analysis and purification of ––– (90) 376
Chlorogenic acid
Separation and determination of ––– and fruit catechols by GLC (74) 339
Chlorogenic acids
Use of poly-N-vinylpyrrolidone as the adsorbent for the chromatographic separation of ––– and other phenolic compounds (94) 261
Chlorohydrates of methylamines
Identification of ––– and ethylamines by TLC (59) 203

Chloronitrobenzene compounds
Simultaneous determination of 1,3-dinitro-2,4,6-trichlorobenzene and 1,3-dinitro-2,4,5,6-tetrachlorobenzene in 1,3,5-trichloro-2,4,6-trinitrobenzene (76) 331
Chlorophenols
Chromatographic evidence for the formation of chlorodioxins from chloro-2-phenoxyphenols (96) 137
Chlorophenols
Further studies on impurities in --- (89) 325
Chlorophenols
Investigation of fluorigenic labelling of --- with dansyl chloride (84) 214
Chlorophenols
TLC and GLC of derivatives of isomeric ---. Chlorophenyl fluorosulphonyl-benzenesulphonates and related compounds (51) 219
Chlorophenoxy acids
Contributive error from analytical reagents in the analysis of --- and pentachlorophenol by electron capture GC (61) 147
Chloro-2-phenoxyphenols
Chromatographic evidence for the formation of chlorodioxins from --- (96) 137
Chlorophenyl fluorosulphonyl-benzene-sulphonates
TLC and GLC derivatives of isomeric chlorophenols. --- and related compounds (51) 219
Chlorophyll
Chromatography of leaf pigments on silica gel and aluminium hydroxide loaded papers (61) 202
Chlorophylls
Evaluation of reversed phase partition for TLC identification of --- and derivatives (70) 87
Chlorophyll
Separation of chloroplast pigments on Sephadex LH-20 (59) 440
Chlorophylls
Thin-layer assay of --- and analogous dry-column separation with effluent fluorometry (88) 419
Chlorophylls
TLC identification of zinc and copper complexes of pheophytins and pheophorbides in mixtures with --- and derivatives (70) 206
Chlorophyll
TLC separation of tetrapyrrole --- derivatives and application to the study of these derivatives in fruit during maturation (97) 92
Chlorophyll derivatives
Reversed-phase TLC of --- (76) 175
Chlorophyllides
Evaluation of reversed phase partition for TLC identification of chlorophylls and derivatives (70) 87
Chlorophyllides
Reversed-phase TLC of chlorophyll derivatives (76) 175
Chlorophyllide
Separation of chloroplast pigments on Sephadex LH-20 (59) 440
Chloroplast pigments
Chromatography of fat-soluble --- on preformed kieselguhr layers (52) 177
Chloroplast pigments
Investigations of the --- of higher plants, green algae and brown algae and their influence upon the invention, modifications, and applications of Tswett's chromatographic method (73) 371 (review)
Chloroplast pigments
Separation of --- on Sephadex LH-20 (59) 440
Chloroplatinic acid
Use of --- as a chromatographic spray for sulphur compounds (59) 448
Chlorotetracycline
Method for the determination of mixtures of --- and oxytetracycline in refatted milk (72) 426
Chlorotoluenes
GLC of the chloroethanes and --- (76) 101
Chlorphenprop-methyl
Quantitative determination of the methyl ester of 2-chloro-3-(4-chlorophenyl)propionic acid in technical products and formulations by GC (69) 305
Chlorpromazine
Influence of alkalinity in TLC systems for the separation of impurities in ---, promazine and promethazine (97) 223
Chlorpromazine
Quantitation of --- and its metabolites

by two-dimensional TLC and direct scanning microdensitometry (64) 347
Chlorpromazine metabolites
GLC analysis of phenolic and non-phenolic --- in the urine of chronic schizophrenic patients (85) 65
Chlorpromazine metabolites
TLC of ---. Attempt to identify each of the metabolites appearing in blood, urine and feces of chronically medicated schizophrenics (75) 277
Cholecalciferol
GLC of vitamin D as trimethylsilyl derivatives (65) 493
Cholecalciferol
Removal of cholesterol from serum extracts of vitamin D by TLC (65) 571
Cholesterin
Fluorometric determination of --- on thin-layer chromatograms (78) 438
Cholesterol
Computer-controlled scraper for standard thin-layer plates (63) 131
Cholesterol
Detection of fatty acids, fatty aldehydes, phospholipids, glycolipids and --- on thin-layer chromatograms stained with malachite green (88) 425
Cholesterol
Evaluation of several solvent systems in the TLC separation of cardiotonic aglycones and glycosides from ---, phytosterols and their esters (73) 279
Cholesterol
GC analysis of fecal pollution sterols on a single combined packed column (53) 209
Cholesterol
Manganous chloride spray reagent for --- and bile acids on thin-layer chromatograms (53) 389
Cholesterols
Microanalytical quantitation of serum lipids by TLC utilizing an automated applicator (63) 63
Cholesterol
Micromethod for the quantitative determination of lipids by use of TLC, photodensitometry and an internal standard (68) 153
Cholesterol
PC separation of sterol mixtures by a reversed-phase system (62) 161
Cholesterol
Preparation and assessment of fluorocarbonsilyl ethers as GC derivatives for steroids (89) 225
Cholesterol
Removal of --- from serum extracts of vitamin D by TLC (65) 571
Cholesterol
Separation of β-sitosterol and campesterol on hydrophobic hydroxylalkyl Sephadex LH-20 (67) 170
Cholesterols
TLC and GLC of some 11-oxygenated ---, 20-isocholesterols, and related compounds (70) 194
Cholesterol
TLC of oestrogens, their derivatives and --- (89) 374
Cholesterol
TLC of steroid derivatives for radioimmunoassay (69) 151
Cholesterol heptafluorobutyrate
Anomalies in the GLC of --- (90) 380
Cholesterol hydroperoxides
Sterol metabolism. XXII. GC differentiation among --- (75) 108
Cholesteryl ester
Simultaneous fluorometric analysis of five lipid classes on TLC (60) 111
Cholesteryl 14-methylhexadecanoate ester
Quantitative determination of --- by radio-GC (91) 505
Cholesteryl palmitate
Micromethod for the quantitative determination of lipids by use of TLC, photodensitometry and an internal standard (68) 153
Cholesteryl phenylacetate
Preparative columns in high-speed LC (83) 233
Choline
Determination and micro-preparative separation of chloro--- chloride by PC (90) 233
Choline
High-voltage electrophoresis of --- and its esters (89) 96
Choline-containing lipids
Detection of --- on thin-layer chromatograms (63) 455
Cholinesterase
Sensitive GC method for human --- determination (57) 365

Cholinesterase inhibition
GC determination of --- (100) 171
Chondroitin sulphate
Method for the determination of the molecular weight and molecular-weight distribution of --- (59) 87
Chondroitin 4-sulphate
TLC separation of glycosaminoglycans (71) 580
Chondroitin 6-sulphate
TLC separation of glycosaminoglycans (71) 580
Chromafol®
--- a new material for flat-bed chromatography (78) 93
Chromatofuge
---, an apparatus for preparative rapid radial CC (66) 365
Chromatograms, mono-dimensional
Direct quantification of thin-layer chromatograms by empirical methods. Mathematical analysis (96) 1
Chromatograms, quantitative analysis
Standardization of the direct spectrophotometric --. IV. A comparative study on the most common mathematical treatments of thin-layer densitometric problems (100) 123
Chromatograms, two-dimensional
Direct quantification of thin-layer chromatograms by empirical methods. Mathematical analysis (96) 1
Chromatographic bands
Study of the shape of -- in preparative GC columns (77) 97
Chromatographic data
Editor's comments on the previous paper (82) 165
Chromatographic data
Problems encountered in attempting to repeat chromatographic separations. Recommendations concerning the publication of --- (82) 159
Chromatographic indicator
Non-destructive --- for (and quantitative analysis in) the PC of carbohydrate compounds convertible to barium salts (63) 357
Chromatographic peaks
Efficacy of the corrections applied in the resolution of overlapping --- by the perpendicular drop method (55) 221
Chromatographic peaks
Guidelines for the development of a computer scheme to identify --- (99) 243
Chromatographic tracings
Least squares analysis of --- (80) 246
Chromatographs
Difficulties in setting-up industrial ---. Application to the continuous analysis of water in a dimethylsulfoxide solution in the aromatic extraction unit of Feyzin (77) 29
Chromatography
Moments analysis in non-linear ---. I. The first moment (63) 193
Chromatography
On the need for uniformity in descriptions of colours in - (71) 386
Chromatography
Use of the computer in teaching the theory of --- (60) 313
Chromatophoresis
Simple apparatus for simultaneous chromatography and electrophoresis on thin layers (81) 190
Chromaton N
Properties of acid-washed and silanised Czechoslovak supports: --- and Chezasorb (51) 103
Chromatovoltammetry
Determination of purine bases by means of --- (90) 259
Chromium
Gel chromatography of metal ions. The hydrolysis polymers of Cr(III) and Rh(III) (94) 338
Chromium
Influence of temperature on the ion-exchange properties of stannic arsenate. Separation of Pb^{2+}, UO_2^{2+} and Cr^{3+} from numerous metal ions (54) 269
Chromium complex multistage reactions
Atomic absorption/ion-exchange technique for the analysis of --- (68) 231
Chromogens
Quantitative assessment of chromatographically separated --- and fluorogens (63) 75
Chromogranine
Chromatographic and electrophoretic behaviour of --- obtained from bovine and equine adrenal medulla (66) 162

Chromophores
New procedure for inducing fluorescence in quantitative TLC for organic compounds (82) 95
Chromosorbs
Distribution of support-bonded silicones on ——— (56) 295
Chromosorb
Inerton – a new support for GC (91) 333
Chromosorb 102
Active surface sites and deactivation of ——— (60) 319
Chromosorb 102
Reaction of ——— with oxygen (74) 332
Chromosorb P
Advances in the application of GC to the study of heterogeneous catalysis (99) 281
Chromosorb W
GLC of N-trifluoroacetyl *n*-butyl esters of amino acids. A comparison of high-performance and acid-washed ——— as the support material (90) 370
6-Chrysenamine
New sensitive and specific GC method for the determination of the carcinostatic agent ——— in biological samples - (84) 171
Chymopapain
Isolation of ——— (84) 423
Chymotrypsin activity
Removal of ——— from crystalline trypsin and its investigation (57) 450
Cigarette smoke
GC examination of vapour phases. Special sampling during analysis of ——— (82) 402
Cigarette smoke
Quantitative determination of semivolatile compounds in ——— (97) 79
Cigarette smoke
Quantitative determination of sulphur compounds in the gas phase of ——— (90) 63
Cigarette smoke condensate
Gel chromatographic separation of hydrocarbons, amines and phenols on a polystyrene gel column. Preparative fractionation of ——— for biological experiments (67) 299
Cigarette smoke condensate
Preparative separation of polar substances of polycyclic aromatic hydrocarbons by gel partition chromatography. Fractionation of ——— (67) 175
Ciliatine
Separation of ——— and phosphoryl-ethanolamine (59) 185
Cinerins
Analytical studies of pyrethrin formulations by GC. III. Analytical results on insecticidally active components of pyrethrins from various world sources (90) 119
Circulation techniques
Application of ——— for studying the kinetics of chemical reactions by means of reaction GC (69) 25
Citraconic anhydrides
Quantitative analysis of maleic and ——— by GC (55) 303
Citral
GC in developing the production of ——— from geraniol (91) 749
β-Citraurin
Studies on charge transfer complexes of some conjugated compounds with explosives (59) 457
Citric acid
Determination of p.p.b. levels of ——— and nitrilotriacetic acids in tap water and sewage effluents (72) 259
Citric acid
GC separation of esters of fluoro analogues of ——— cycle intermediates (54) 130
Citric acid
Specific, fluorimetric identification of aconitic and ——— simultaneously (73) 290
Citric acid cycle metabolites
Analytical isotachophoresis in capillary tubes. Transformation of pyruvates to succinate by calf heart mitochondrial enzymes (82) 407
Citrus fruit
Determination of biphenyl and ortho-phenylphenol in ——— by GC (77) 331
Clathrate compounds
Formation of ——— of the $Ni(NCS)_2(4\text{-methylpyridine})_4$ complex with methyl-naphthalenes and its application to LC (91) 297
Clathrate-forming stationary phases
Alkali metal salts of benzenesulphonic acid as stationary phases in GC (71) 534
Clavine type alkaloids
Quantitative TLC of ergot alkaloids (64) 327

Clay minerals
Organic derivatives of Hungarian bentonites in hydrocarbon analysis (65) 219
Clinical screening
Application of GC–MS in routine and research in clinical chemistry (91) 353
Clomipramine
Identification of tricyclic antidepressants derived from imipramine by GC (59) 297
Clonazepam
Determination of ––– and flunitrazepam in blood by electron-capture GLC (99) 447
Clonazepam
Determination of nitrazepam (Mogadon) in plasma by electron capture GLC (70) 45
Clonazepam
Quantitative determination of ––– and its metabolites in human plasma by GC (93) 113
Coals
Detection of methoxyaromatic acids in the oxidation products of ––– and humic acid by GLC (66) 29
Coal tar light oil
Separation of pyridine bases of ––– by means of capillary GC (91) 723
Coating
Column packings for GLC by ––– the stationary liquid on the solid support in the vapour phase (88) 347
Coating apparatus
New ––– for thin-layer plates (67) 182
Cobalamins
Electrophoretic separation of vitamin B_{12} derivatives (88) 430
Cobalamin
Separation and determination of ––– on an SP-Sephadex column (53) 577
Cobalamins
SP-Sephadex column chromatography of ––– contained in liver extracts (92) 201
Cobalt
Paper electrophoretic study of ion-pair formation. VIII. The behaviour of Co(III) complexes in solutions of chromate and bichromate (65) 463
Cobalt
Separation of manganese, iron, –––, nickel, copper, zinc and cadmium by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275
Cobalt(II) chlorides
Use of vanadium(II), manganese(II), and ––– as packings to separate alkanes, alkenes and alkynes by GC (59) 13
Cobalt(III) complexes
Selectivity sequences of a series of tripositive ––– on inorganic and organic exchangers (95) 81
Cobalt complexes
Separation of optically active ––– by centrifuged CC (94) 279
Cobalt(III) complexes
TLC of trivalent ––– on aluminium oxide and silica gel (89) 380
Cocaine
Assay of ––– in the presence of procaine and quinine by CC (52) 107
Cocaine
Detection of benzoyl ecgonine (––– metabolite) in urine by GC (85) 75
Cocaine
Detection of biotransformed ––– in urine from drug abusers (81) 170
Cocaine
Rapid screening procedure for some "street-drugs" by TLC. II. –––, heroin, local anesthetics and mixtures (87) 211
Cocaine
Separation of –––, some of its metabolites and congeners on glass fibre sheets (81) 167
Cocaine metabolites
Routine identification of ––– in human urine (89) 335
Codeine
Isolation and identification of morphine from *postmorteum* tissues (65) 507
Codeine
Mini TLC in the detection of narcotics in urine from subjects on a methadone maintenance program (65) 577
Codeine
Quantitative GC determination of the major alkaloids in gum opium (89) 76
Codeine derivatives
Separation of thebaine, some of its metabolites and congeners on glass fibre sheets (71) 554

Codeine phosphate
Application of quantitative TLC in drug assay and stability testing. Determination of ---, noscapine, diphenhydramine hydrochloride, phenylephrine hydrochloride, caffeine, etofyllin, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
Coenzyme Q homologues
Estimation of individual -- in a coenzyme Q mixture by densitometry (72) 365
Coffee
LC of xanthines, analgesic drugs and -- (87) 523
Coiled columns
GPC in --- (83) 223
Coke
GC of the --- formed in catalytic cracking reactions (64) 360
Collagen
Accelerated single column procedure for the programmed analysis of naturally-occurring amino acids of -- and basement membrane (90) 350
Collagen
Anomalies in the electrophoretic molecular-weight determination of -- denaturation products (84) 147
Collagen
Determination of ϵ-hydroxynorleucine and "reduced aldol condensate" by standard amino acid chromatography (79) 337
Collagen
Gel chromatography of proteins from human teeth (96) 258
Collagen-bound carbohydrates
Unexpected occurrence of prolylhydroxyproline during the analysis of --- by GLC (64) 211
Collidine
Ninhydrin --- as a sensitive reagent for the detection of the ammonium ion on pherograms (76) 516
Colonize roots
Analysis of the polysaccharides of some soil bacteria by GC (91) 469
Colorimetric detection
Determination of trace amounts of cyclohexanone in cyclohexanone oxime by liquid–liquid chromatography and --- (83) 343
Colorimetric functional group analysis
Characterization of organic functional groups in GC eluates at the microgram and submicrogram levels by means of colour reactions (71) 251
Colorimetric nitrogen analysis
Technique for the detection of nitrogen-containing compounds in GC eluates by means of hydrogenolysis and colour reactions (89) 209
Colour photography
--- of thin-layer chromatograms under Wood light (86) 192
Columns
Analytical performance of a novel nitrogen-sensitive detector and its applications with glass open tubular --- (99) 339
Columns
Applicability of the linear free energy relationships for the identification of some alkyl aromatic hydrocarbons by open tubular --- GC (51) 119
Columns
Comparison of GLC retention indices on support-coated open tubular --- and on packed columns for a series of central nervous stimulant drugs (84) 392
Columns
Correlations of surface measurements with the chromatographic performance of chemically modified glass capillary --- (94) 35
Columns
Direct coupling of high-resolution open-hole glass tubular --- to a mass spectrometer for biochemical applications (91) 385
Columns
Effect of grain diameter and uniformity of adsorbent granules on the efficiency of GC --- of various diameters (92) 249
Columns
Heavily loaded --- in high-speed liquid chromatography (92) 33
Columns
Highly permeable open-pore polyurethan --- for LC (99) 123
Columns
Method for preparing glass capillary --- for GC (91) 25

Columns
Potentialities of micro-packed ---- Some applications in petroleum chemistry (65) 29
Columns
Preliminary studies in the analysis of biological amines by means of glass capillary ---. I. Studies with model compounds (91) 425
Columns
Preparation of thick-film glass capillary --- by the dynamic coating procedure (93) 405
Columns
Preparation, performance and special applications of glass capillary --- (99) 63
Column
Simple quantitative method for trapping and transfer of low concentration GC fractions suitable for use with small diameter glass --- systems (52) 375
Columns
Study of packed capillary --- (99) 111
Columns
Study of variable diameter --- in preparative GC (58) 107
Columns
Surface characteristics of treated glasses for the preparation of glass capillary --- in GLC (99) 81
Columns
Thermostable polar-phase open-tubular glass capillary --- (99) 103
Columns
Ultrasonic method for producing graphite-coated glass capillary --- (95) 229
Columns
Use of high-efficiency packed --- for GSC. IV. The GC–MS analysis of complex organic mixtures (76) 1
Columns
Variation of performance of porous polymer bead --- in GC (51) 129
Columns, large diameter
Study of the shape of chromatographic bands in preparative GC columns (77) 97
Columns, packed
Efficiency, resolution and speed of open tubular columns as compared to --- (91) 5
Column chromatography
Automated short --- for high-speed routine analysis (85) 140
Column chromatography
Automatic sample loader for --- (86) 178
Column chromatography
Chromatography by discontinuous recycling in open systems (59) 343
Column chromatography
Column separations designed precisely with the aid of TLC (53) 507
Column chromatography
Control of flow rate in high pressure LC (60) 65
Column chromatography
Improved preparative dry-- (87) 236
Column chromatography
TLC as a pilot technique for rapid CC (67) 261
Column chromatography
TLC as a pilot technique for rapid --- (Summary) (82) 5
Column configuration
A device which permits selective purging of the solvent and other components from a GLC column (82) 263
Column efficiency
Resolution and --- in chromatography (69) 237
Column length
Effect of analysis time on optimum --- in time normalization chromatography (91) 39
Column length
Effect of --- and column packing mesh size on the analysis of volatile fatty acids by GC using Chromosorb 101 (74) 13
Column packings
Discussion of adsorptive properties of --- in GC. I. Energy properties of the material supporting liquid stationary phases (61) 217
Column packings
Reaction of Chromosorb 102 with oxygen (74) 332
Column packing
Study of the shape of chromatographic bands in preparative GC columns (77) 97
Column packings
Study of the strontium and barium halides as --- in GSC (53) 477

Column packing mesh size
Effect of column length and ––– on the analysis of volatile fatty acids by GC using Chromosorb 101 (74) 13
Column parameters
Resolution in non-linear chromatography (69) 87
Column performance
Practical implications of modern LC ––– (83) 169
Column switching
––– in high-pressure LC (83) 267
Column switching
Improvement of the productivity of a preparative-scale GC unit by flow-rate programming and ––– (86) 25
Column volumes
Simultaneous determination of extra- ––– and flow meter characteristics in GC (72) 384
Complex association constants
Determination of ––– from GC data. I. Basic relationships (69) 243
Complex association constants
Determination of ––– from GC data. II. Complexes of silver ions with substituted alkenes in ethylene glycol at 40°C (76) 115
Complex formation
Influence of ––– on the chromatographic behaviour of inorganic ions on sodium carboxymethylcellulose and Dowex 50-X4 (Na^+) thin layers (84) 155
Complex-forming reagents
TLC of flavonoids after addition of ––– to the eluting solvent (62) 156
Complex hydrocarbon mixtures
Rapid analysis of ––– by reaction GC (69) 53
Compressibility factor
Contribution to the application of the ––– in programmed-temperature, programmed-flow and double-programmed (temperature and flow) GC (81) 136
Computer
–––-generated chromatograms (61) 322
Computer
Liquid chromatograph–mass spectrometer––––analytical systems. A continuous-flow system based on atmospheric pressure ionization MS (99) 13
Computer
Study of precision in modern LC using a dedicated ––– (83) 289
Computer applications
––– in quantitative thin-media chromatography (63) 145
Computer-controlled scraper
––– for standard thin-layer plates (63) 131
Computer program
––– for amino acid analysis (68) 111
Computer program
New method for the computation of amino acid chromatograms (68) 103
Computer programme, off-line
Reduction of data from the automated GLC analysis of complex extracts from human biological fluids using a digital electronic integrator and an ––– (87) 365
Computer scheme
Guidelines for the development of a ––– to identify chromatographic peaks (99) 243
Computer simulation
Moments analysis in non-linear chromatography. II. The second moment (67) 1
Computer simulation
Moments analysis in non-linear chromatography. III. The third moment (67) 13
Concentration profile
The ––– of substances separated on thin-media chromatograms (77) 245
Conductivity
Isotachophoresis. ––– measurement and signal handling (91) 819
Conductivity detector
Determination of sulphur- and chlorine-containing pesticides with an electrolytic ––– (75) 207
Conductivity detector
Response prediction of the thermal ––– with light carrier gases (59) 269
Conductivity detector
Versatile electrolytic ––– for GC (73) 19
Conductivity measurements
High resolution isotachophoresis by means of direct ––– with miniature sensing electrodes (73) 193
Conductometric detector
––– with a working volume of less than 0.5 µl (78) 357

Conductometric detection
Isotachophoresis. Phenomena that occur when ––– is applied (91) 809
Conductometric studies
Radiochromatographic, high-frequency titration and ––– on the thiourea complexes of palladium(II) and platinum(II) (70) 117
Configurational isomers
Selective adsorption properties of the surfaces of attapulgite and sepiolite (77) 109
Conjugated oestrogens
TLC separation of ––– on Silica Gel G–silver nitrate plates (69) 419
Conjugates
High-speed LC of glucuronide and sulfate (55) 409
Contaminants
Contribution to the determination of environmental ––– by carbonskeleton chromatography (88) 65
Contaminated water
Organic substances in potable water and in its precursor. Part I. Methods for their determination by GLC (84) 255
Continuous flow development
Apparatus for ––– in TLC (66) 75
Continuous-flow system
Liquid chromatograph–mass spectrometer–computer analytical systems. A ––– based on atmospheric pressure ionization MS (99) 13
Contour mapping
Computerized ––– applied to two-dimensional radiochromatograms (73) 183
Convection
Natural ––– in chromatographic columns (77) 131
Copolymers
GPC investigation of irradiated ––– (55) 45
Copolymers
Molecular weight analysis of block ––– by GPC (55) 67
Copolymers
Some applications of a viscosimetric detector in GPC (83) 363
Copolymers
Structural evaluation of ––– using preparative GPC (55) 155
Copper
High-voltage paper electrophoresis of Hg(II), Cd(II), Pb(II) and Cu(II) in aqueous solution of EDTA and glycolic acid (94) 349
Copper(II)
Non-fluorinated tetradentate β-keto-amines as derivatizing ligands for the GC analysis of –––, Ni(II) and Pd(II) (99) 309
Copper
PC investigation of the thiourea complexes of –––(I), silver(I) and gold(I) (65) 425
Copper
Separation of manganese, iron, cobalt, nickel, –––, zinc and cadmium by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275
Copper complexes
TLC identification of zinc and ––– of pheophytins and pheophorbides in mixtures with chlorophylls and derivatives (70) 206
Copper(II) histidinate
Paper electrophoresis of binary mixtures of ––– and copper(II) complexes of other amino acids. The nature of the "third spot" (54) 103
Coproporphyrins I and III
Improved method for the separation of ––– (87) 562
Coprostanol
GC analysis of fecal pollution sterols on a single combined packed column (53) 209
Coprostanone
Detection and quantitative measurement of fecal water pollution using a solid-injection GC technique and fecal steroids as a chemical index (86) 107
Coprostanone
GC analysis of fecal pollution sterols on a single combined packed column (53) 209
Corasil
Use of pressure-assisted LC in the separation of polynuclear hydrocarbons (78) 203
Corasil II
Complex-forming stationary phases in high-speed LC (83) 91
Coronene
Separation of polycyclic aromatic hydro-

carbons by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of --- (83) 11
Corrinoids
Separation of --- by elution chromatography on columns of the non-polar adsorbent Amberlite XAD-2 (76) 359
Corticosteroids
Analysis of --- in mixtures by gradient elution LC (80) 89
Corticosteroids
Anionic liquid ion exchangers for chromatography of steroidal glucosiduronic acids and other polar compounds (66) 337
Corticosteroids
Ascorbic acid as an antioxidant in TLC of --- (94) 291
Corticosteroid
Comparative GC studies of --- boronates (54) 193
Corticosteroids
Convenient system for the separation of some steroids on Sephadex LH-20 (92) 465
Corticosteroids
High-pressure LC of --- (76) 244
Corticosteroids
Method for the estimation of some synthetic gluco--- in rat muscle (77) 161
Corticosteroids
Quantitative determination of --- from plasma by high-pressure LC (84) 396
Corticosteroids
Separation and determination of the synthetic epimeric ---, dexamethasone and betamethasone, in mixtures by TLC on insoluble polyvinylpyrrolidone (78) 165
Corticosteroids
Separation of rat --- on Sephadex LH-20 (65) 568
Corticosterone
Determination of small amounts of --- in high-level lipid plasma by means of TLC (94) 287
Cortisol
High-pressure LC of corticosteroids (76) 244
Cortisol
Quantitative determination of corticosteroids from plasma by high-pressure LC (84) 396
Cortisol
TLC of steroid derivatives for radioimmunoassay (69) 151
Cortisone
High-pressure LC of corticosteroids (76) 244
Cortisone
Quantitative determination of corticosteroids from plasma by high-pressure LC (84) 396
Cotton roats
GLC of gossypol (54) 25
Cotinine
Improved chromatographic techniques and their interpretation for the screening of urine from drug-dependent subjects (61) 111
Coulson conductivity detector
Effect of some operating parameters on the response of the --- (87) 333
Coulometric detector
Electron capture detector. Theory and practice (99) 3
Coulson electrolytic conductivity detector
Evaluation of the alkali flame ionisation detector and the --- in the analysis of N-nitrosamines in foods (76) 307
p-Coumaric acid
Improved methods for the estimation by GLC of lignin degradation products from plants (54) 335
Coumarins
Separation of some therapeutically important --- and related compounds by TLC (57) 319
Coumarins
--- TLC of 6,7-substituted (92) 179
Coumarin anticoagulants
GLC of --- and their trimethylsilyl ethers (64) 355
Coumarin anticoagulants
GLC of ---, their trimethylsilyl ethers, acetates, trichloroacetates, and trifluoroacetates (69) 201
Coumatetralyl
Detection of naturally fluorescent pesticides on silica gel layers (79) 217
Coumestrol
Determination of oestrogenic isoflavones and --- in clover (*Trifolium pratense* L. and *Trifolium repens* L.) (96) 123

Coumestrol
TLC separation of some isoflavones and ——— (58) 297
Countercurrent chromatographs
Studies on the instrumentation of ——— (92) 77
Counter-current distribution
Application of a statistical method to ——— of acids and bases and their separation by discontinuous change of pH (92) 1
Counter-current distribution
Thermal wave cycling zone separation. A preparative separation technique for ——— and chromatography (88) 211
Countercurrent electrophoresis
Determination of the density of theoretical plates and the elementary effect in ——— (91) 853
Countercurrent extraction
High resolution in ——— (83) 67
Coupled layers
———: New technique for the two-dimensional TLC of carbohydrates (74) 273
Coupling
Detection of primary arylamines on thin-layer chromatograms by diazotisation and ———. Comparison of a new reagent with existing methods (77) 357
Creatine
Effects of saturation and temperature on the separation of some guanidino compounds by TLC on cellulose plates (71) 376
Creatine
PC of 3-methylhydantoic acid and 1-methylhydantoin, possible intermediates of microbial degradation of ——— and creatinine (53) 406
Creatinine
Determination of ——— in soups and soup preparations by ion-exchange chromatography. II. Automatic apparatus (53) 517
Creatinine
Effects of saturation and temperature on the separation of guanidino compounds by TLC on cellulose plates (71) 376
Creatinine
PC of 3-methylhydantoic acid and 1-methylhydantoin, possible intermediates of microbial degradation of creatine and ——— (53) 406
Creosote oils
Gradient elution adsorption chromatography of aromatic hydrocarbons (53) 233
Cresols
Analysis of phenols by gas–liquid–solid chromatography (80) 69
p-Cresol
Combined GC–MS in the determination of urinary anthranilic acid (70) 53
Cresols
GC separation of methylphenols on tricresylphosphates using open tubular columns (54) 277
Cresol, 4,6-dinitro-*o*-
Investigation and determination of ——— in water (87) 287
Critical volumes
Estimation of ——— from the response of the GC thermal conductivity detector (73) 226
Cross-linked gels
Number of carboxyl groups in highly ——— and its influence on cation selectivity (71) 55
Cryogenic gas chromatograph ——— (89) 1
Cumene
Pulse chromatographic method for the investigation of catalytic reactions (69) 3
Cyanate
Sensitive procedure for determining ——— in urea solutions (66) 189
Cyanides
Determination of ——— and thiocyanates in water by GC (84) 37
Cyanidin glycosides
Cellulose TLC separation of *Rubus* fruit anthocyanins (75) 151
Cyanoaromatic products
GC conditions for the analysis of γ-irradiated benzonitrile for ——— (79) 325
Cyanogen bromide activation
Preparation of cyanogen bromide-activated agarose gels (86) 53
Cyanohydrin synthesis
Application of ion-exclusion and ion-exchange techniques in preparing 2,3-dihydroxy-methylbutanamide and 2,3-dihydroxy-2-methylbutanoic acid from acetoin via the ——— (74) 265
Cyano-thiocyanatochromate(III)
High tension paper ionophoretic

separation of ––– in temperature gradients (73) 298
Cyathin
TLC as an aid to production and proper timing of the extraction of an antibiotic complex (56) 324
Cyclamate
Application of CC and TLC to the detection of artificial sweeteners in foods (66) 283
Cyclamate
Detection and estimation of ––– by TLC (52) 354
Cyclamate
Separation and detection of synthetic sweetners by TLC (52) 173
Cyclazocine
Quantitation of ––– and its metabolites in human urine by use of GLC (100) 63
3′,5′-Cyclic adenosine monophosphate
LC analysis of nucleosides, purine base-modified adenosine derivatives and ––– (76) 477
3′,5′-Cyclic adenosine monophosphate
Rapid low voltage ionophoretic separation of ––– (68) 298
Cyclic amines
GC and MS of some isomeric ––– as their trifluoroacetyl derivatives (70) 141
Cyclic 3′,5′-guanosine monophosphate
TLC of ––– on tetraborate-impregnated silica gel layers (76) 270
Cyclic monophosphates
Separation of ribonucleoside 3′,5′-––– by TLC on alumina (68) 296
Cycling zone separation
Thermal wave –––. A preparative separation technique for counter-current distribution and chromatography (88) 211
Cyclitols
Partition chromatography of ––– on ion-exchange resins (85) 93
Cycloalkanes
Separation and identification of dihalo-––– by GC (55) 231
Cycloalkanes
Separation and identification of halo-––– by GC. Part II (72) 269
Cycloalkyl chlorides, C_6 and C_7
GC of –––, cycloolefins, methylcyclo-alkanes, and related bicyclo(*n*.1.0) alkanes (171) 347
Cyclobarbital
Quantitative TLC. Assay of drug mixtures by scanning of remission peaks (63) 121
Cyclobenzaprine
Separation of ––– from biological samples and its determination by TLC followed by densitometry (74) 85
2,2′-O-Cyclocytidine
Factors influencing the chromatographic analysis of ––– (92) 105
Cyclohexanes
GC separation of isomeric hydrocarbons of the norbornane series on graphitized carbon black (91) 695
Cyclohexane-1,2-dione
TLC and PC of some 1,2-dioximes and their monoximes (57) 107
Cyclohexanone
Determination of trace amounts of ––– in cyclohexanone oxime by liquid–liquid chromatography and colorimetric detection (83) 343
3-Cyclo-5,6-trimethyluracil
Method for the determination of Venzar (–––) on silica gel layers (74) 366
Cycloolefins
GC of C_6 and C_7 cycloalkyl chlorides, –––, methylcycloalkanes, and related bicyclo(*n*.1.0) alkanes (71) 347
Cyclopolyisoprene
Pyrolysis GC of ––– (71) 9
Cyclopropane fatty acid methylesters
GC of ––– prepared with methanolic boron trichloride and boron trifluoride (66) 138
Cyclopropane synthetase
TLC assay method for ––– (97) 159
Cyclopyrethrosins
Separation and characterisation of Δ^3- and $\Delta^{4(15)}$-cyclopyrethrosin acetates via chromatography on a lipophilic dextran gel (75) 308
Cylindrical thin-layer chromatography
Preparative ––– (57) 427
Cylindrical thin-layer chromatography
Preparative –––. II (63) 442
Cysteic acids
Methods for the quantitative analysis of sulphur-containing compounds in physiological fluids (72) 105
Cysteine
Chromatography of ––– and glutathione derivatives on a Dowex 1/Sephadex mixed-bed column (59) 181

Cysteines
GLC behaviour of N-trifluoroacetyl *n*-butyl esters of various S-substituted —— (94) 189
Cystine
Experimental study of amino acid degradation under open flask hydrolytic conditions (52) 405
Cystine
Ion-exchange chromatography of physiological sulphuric amino acids on a highly crosslinked resin (72) 93
Cyst lipids
Chromatographic separation of ovarian dermoid —— and prostaglandins (63) 321
Cytidine
Contributions of anion-exchange TLC to the study of free nucleotides in tissues (71) 127
Cytochrome C
Some new methods for the preparation of agarose (61) 73
Cytokinins
Chromatography of five —— on an insoluble polyvinylpyrrolidone column (75) 122
Cytoplasmic ribosomes
Chromatographic purification of —— from pea plants (53) 531
Cytoplasmic ribosomes
Purification of —— by CC (87) 449
Cytosine
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Cytosine
GLC of the purine and pyrimidine bases (61) 45

D

Dalmane®, *see* Flurazepam (99) 461
DANS-amides
Identification and quantitation of amines by TLC (63) 97
DANS-Cl, *see* 5-Dimethylaminonaphthalene-1-sulphonyl chloride
Dansyl amino acids
CC separation of --- (69) 129
Dansyl amino acids
Identification of --- using a single solvent and a layer composed of three sorbents (67) 368
Dansyl amino acids
The utilisation of 1-dimethylamino-naphthalene-5-sulphonyl chloride for quantitative determination of free amino acids and partial analysis of primary structure of proteins (51) 441
Dansyl chloride
Determination of hydroxybiphenyls as dansyl derivatives (79) 209
Dansyl chloride
Fluorigenic labelling of carbamates using ---. II. Fluorescence phenomena of the derivatives (66) 93
Dansyl chloride
Fluorigenic labelling of carbamates using ---. III. TLC properties of the derivatives (66) 277
Dansyl chloride
Fluorigenic labelling of carbamates with ---. IV. *In situ* quantitation of N-methyl carbamate insecticides on thin-layer chromatograms (67) 87
Dansyl derivatives
Determination of steroids by densitometry of derivatives. III. Micro-assay of estrogens as --- (74) 359
Dansyl derivatives
Effect of humidity on the amount of fluorescence exhibited by chromatographically separated --- (63) 141
Dansyl isoleucine
Resolution of Dansyl leucine and --- (76) 268
Dansyl leucine
Resolution of --- and Dansyl isoleucine (76) 268
Dansyl oestrogens
Determination of steroids by densitometry of derivatives. II. Direct fluorometry of --- (51) 325
Darvon
A re-examination of the GC determination of α-*d*-propoxyphene (77) 413
Data acquisition systems
Acquisition and reduction of GC data using a computer (77) 91
Data acquisition systems
Survey of the existing --- for chromatographic laboratories (77) 75
Data handling
Interfacing a programmable electronic calculator with an automatic amino acid analyzer (86) 37
Data handling
Polymer molecular weight distribution analysis at very high speed using on-line --- (99) 425
Data loggers
Analysis of data from amino acid and other automated analysers. I. Use of --- with magnetic tape cassettes (96) 235
Data processing
Flying-spot scanning densitometry in the UV region followed by --- (78) 153
Data reduction
Reduction of data from the automated GLC analysis of complex extracts from human biological fluids using a digital electronic integrator and an off-line computer programme (87) 365
DDE
Determination of BHC isomers in soils by GLC and TLC after extraction with light petroleum (89) 177
DDT
Chromatographic and biological aspects of --- and its metabolites (98) 177 (review)
[^{14}C]DDT
Degradation of --- on Silica Gel G

chromatograms under laboratory conditions (67) 179
DDT
Determination of BHC isomers in soils by GLC and TLC after extraction with light petroleum (89) 177
DDT
A GC method of quantitating ---- in the presence of interfering polychlorinated biphenyl (84) 67
DDT
An improved quantitative GC method for the analysis of small amounts of chlorinated hydrocarbon pesticides in human plasma (74) 21
DDT, metabolites of
Chromatographic and biological aspects of DDT and its metabolites (98) 177 (review)
DDT
An observation on the multiple development of ---- and some metabolites on aluminium oxide thin-layer chromatograms (57) 444
DDT
Separation and identification of ---- analogues in the presence of polychlorinated biphenyl compounds by two-dimensional TLC (57) 397
DDT
TLC of ---- and some related compounds on aluminum oxide chromatoplates (64) 135
DDT
TLC–enzymatic identification of some lindane- and possible ---metabolites as well as pentachlorophenol (67) 343
Deacetylcephalothin
Analysis of cefoxitin, cephalothin and their deacylated metabolites in human urine by high-performance LC (99) 609
Decaboranes
GC separation of 1- and 2-halogeno--- (81) 142
Decanucleotides
Fractionation of synthetic deoxyribopolynucleotides on silica gel thin-layer plates (85) 159
Decarbamylcefoxitin
Analysis of cefoxitin, cephalothin and their deacylated metabolites in human urine by high-performance LC (99) 609
DE-52 cellulose
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. I. CC techniques (62) 399
DE-52 cellulose
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. II. Combined CC separation method (62) 409
Decenes
Correlation of the boiling points of non-branched C_9 and C_{10} olefins with the GC retention indices (65) 93
Dechlorogriseofulvin
Analysis of antibiotics by GC. III. Griseofulvin (70) 73
Degradation, thermal
Kováts retention indices in the identification of alkylbenzene degradation products (91) 677
Degradation, thermal
Mechanisms of the ---- of alkylbenzenes (91) 659
Degree of saturation
Ligand-exchange chromatography of racemates. Influence of the --- of the asymmetric resin by metal ions on ligand exchanges (82) 359
Dehydroascorbic acid
Glass-fibre PC of ascorbic acid and related compounds (71) 169
Dehydroascorbic acid
Resolution of ascorbic, ---, and diketogulonic acids by anion-exchange CC (74) 133
7-Dehydrocholesterol
PC separation of sterol mixtures by a reversed-phase system (62) 161
Dehydroisoandrosterone
Behaviour of ---, testosterone and their conjugates on DEAE-Sephadex (54) 431
Densitometric evaluation
Problems concerning the --- of thin-layer chromatograms demonstrated by means of the lipid state in serum separated by TLC (84) 109
Densitometric inspection
Quantitative analysis of sugars by --- of thin-layer chromatograms: Analysis of method (72) 359
Densitometric measurements
An analogue device for correcting ---

of coloured spots on chromatograms for the effect of light scattering (79) 165
Densitometry
Flying-spot scanning --- in the UV region followed by data processing (78) 153
Densitometry
Linear scanning densitometric evaluation of thin-layer chromatograms (78) 21
Densitometry
Miniature TLC: a rapid technique with optional spot evaluation by --- (73) 161
Densitometry
New concepts in ---. Control analysis of pharmaceutical formulations (91) 433
Densitometry
Quantitative analysis on thin-layer chromatograms. Theory of absorption and fluorescent --- (78) 7
Densitometry
Standardization of the direct spectrophotometric quantitative analysis of chromatograms. IV. A comparative study on the most common mathematical treatments of thin-layer densitometric problems (100) 123
Dentine
Gel chromatography of proteins from human teeth (96) 258
Deoxyaldaric acids
Separation of dicarboxylic hydroxy acids by anion-exchange chromatography and GC (57) 353
Deoxyaldonic acids and lactones
Separation of aldonic, deoxyaldonic, hexuronic and hexaric lactones and acids using thermostable open tubular glass capillary columns (88) 149
Deoxycholic acid
Color detection of bile acids in TLC (61) 370
Deoxycytidine
Separation of --- from urine by ion-exchange chromatography (88) 190
2-Deoxypolyols
TLC determination of --- (54) 141
Deoxyribonucleic acid, *see* DNA
Deoxyribonucleic acid
Analysis of base composition of RNA and --- hydrolysates by GLC (62) 347
Deoxyribonucleotides
Analysis of DNA derivatives. II. High-pressure liquid anion-exchange chromatography of --- (67) 309
Deoxyribonucleotides
A simple ion-exchange chromatographic procedure for the analysis of the major ribo- and --- (76) 337
Deoxyribonucleosides
TLC of purine and pyrimidine analogues of bases and --- (66) 388
Deoxyribopolynucleotides
Fractionation of synthetic --- on silica gel thin-layer plates (85) 159
3-Deoxysteroids
Analytical chemical studies on steroids. LIV. Studies on metabolism of ---. IX. Determination of urinary metabolites of androst-5-en-17-one by GC (64) 239
Depentanizer
An improved column for --- and isoprene feed stream analysis (92) 69
Deproteination
An improved method of plasma --- with sulphosalicylic acid for determining amino acids and related compounds (74) 255
Depsides
Improved conditions and new data for the identification of lichen products by a standardized TLC method (72) 113
Derivatization
Rapid esterification for GC (88) 229
Derivatisation
Use of different silylating agents for structure analyses of steroids (91) 407
Derivatisation of amino acids
--- with 1,3-dichlorotetrafluoroacetone and its use in GC (91) 475
Dermatan sulphate
TLC separation of glycosaminoglycans (71) 580
Descriptions of colours
On the need for uniformity in --- in chromatography (71) 386
Desipramine
Identification of tricyclic antidepressants derived from imipramine by GC (59) 297
Desmosine
Amino acid analysis of elastin – a rapid method (71) 361
Desmosine
Procedure for the automatic analysis of all amino acids in elastin hydrolyzates on a routine basis (79) 335

Desorption
Theoretical approach to GSC applied to the slow attainment of adsorption equilibrium and to the Langmuir isotherm (94) 1
Desorption
TLC temperature effects; application to quantitative measurements; correlations between structure and chromatographic behaviour (84) 241
Desulphurization
A study of the --- of organic sulphur compounds on Raney nickel by means of reaction GC (65) 179
Detection
Analysis of traces of contaminants in breathing oxygen with a helium detector and an electron capture detector (58) 117
Detection
CC of amino acids with fluorescence --- (83) 353
Detection
Computer-generated chromatograms (61) 322
Detection
The dependence of flame ionisation detector relative response factors on the configuration of the electrodes (51) 385
Detection
Determination of trace amounts of cyclohexanone in cyclohexanone oxime by liquid–liquid chromatography and colorimetric --- (83) 343
Detection
Hydrogenation and ozonolysis of sub-microgram quantities of unsaturated organic compounds eluted from GC columns (87) 387
Detection
A miniaturised UV flow photometer for use in LC systems (51) 175
Detection
Non-destructive --- of monoterpenes on thin-layer plates by a copying method (56) 338
Detection
Rapid-scanning spectrophotometry as a new --- system in chromatography (83) 357
Detection
A study of the flame ionisation detector (51) 391
Detection
The use of chloroplatinic acid as a chromatographic spray for sulphur compounds (59) 448
Detection electrodes
--- for electrophoresis (64) 185
Detectors
Analytical fluidic sampling systems (99) 267
Detector
Analytical performance of a novel nitrogen-sensitive --- and its applications with glass open tubular columns (99) 339
Detector
Analytical performance of the piezoelectric crystal --- (89) 31
Detector
Characteristics of S_2 emission intensity with a flame photometric --- (77) 309
Detectors
The combination of a UV and a thermal conductivity detector in GC (96) 171
Detector
The coupling of the flame photometric --- and the free fatty acid phase (FFAP) capillary column in the trace analysis of sulphur compounds (77) 317
Detector
The detection of nitrogenous compounds using a thermionic --- (61) 329
Detector
Determination of purine bases by means of chromatovoltammetry (90) 259
Detector
Disc --- for LC (79) 383
Detector
A dual-mode indium flame --- (63) 229
Detector
Effect of oxygen on electron capture detection (71) 1
Detector
Effect of some operating parameters on the response of the Coulson conductivity --- (87) 333
Detector
The electron capture ---. Theory and practice (99) 3
Detectors
An evaluation of the alkali flame ionisation detector and the Coulson electrolytic conductivity detector in the analysis of N-nitrosamines in foods (76) 307

Detectors
Experimental comparison of some ––– used in high-efficiency LC (73) 105
Detector
A fluorescence ––– for high-speed LC (72) 293
Detector
A GC argon triode-type ––– with a nickel-63 source (93) 351
Detector
GC ––– based on fluorescence quenching. Coupling of a gas chromatograph with a filter fluorimeter (100) 27
Detectors
A high-speed liquid chromatograph with a flow-spectrofluorimetric detector and the ultramicro-determination of aromatic hydrocarbons (83) 373
Detector
A hydrogen-rich flame ionization ––– sensitive to metals (74) 319
Detector
Hypothetical mechanism of the helium –––. Operation in the positive and linear modes (94) 13
Detector
Interferences of S_2 molecular emission in a flame photometric ––– (80) 61
Detectors
Investigation of heated and oxidized oils and fats by gradient elution LC (83) 461
Detector
A molecular property approach for the response prediction of the thermal conductivity ––– (63) 203
Detector
The negative alkali flame ––– response (52) 47
Detector
A new GC method for molecular weight determinations using a gas density ––– (64) 162
Detector
New ––– systems for TLC (61) 317
Detector
Performance of the capacitance detector for LC (65) 53
Detector
The plasma chromatograph as a qualitative ––– for GC (99) 257
Detectors
The prospects of selective detection by capacitance ––– in LC (57) 181
Detector
Reduction of ––– noise in GC by means of an RC filter (56) 23
Detector
Response of the alkali flame ionisation ––– to silicon, tin and lead compounds (59) 429
Detector
Response predictor of the thermal conductivity ––– with light carrier gases (59) 269
Detectors
Role of the mobile phase permittivity in the use of the capacitance ––– in LC (52) 213
Detectors
A simple automatic venting valve for Coulson electrolytic conductivity and microcoulometric GC ––– (84) 387
Detector
A simplified electron capture ––– (71) 532
Detectors
Small-volume solid-electrode flow-through electrochemical cells. Preliminary evaluation using pulse polarographic techniques (83) 331
Detector
A solid electrolyte ––– for the determination of trace amounts of oxygen in the presence of argon and other gases (52) 367
Detectors
Some applications of a viscosimetric detector in GPC (83) 363
Detector
The spectral response of the alkali flame ––– (61) 35
Detector
A study of the stability of a nitrogen-selective thermionic ––– (86) 65
Detector
A tin-sensitive hydrogen flame ––– (70) 158
Detectors
A two-dimensional scanner for radiochromatograms employing an electron multiplier detector *in vacuo* (59) 99
Detectors
Use of the resonance principle in the permittivity ––– for LC (54) 357
Detector
A vacuum UV atomic emission –––.

Quantitative and qualitative chromatographic analysis of typical C, N, and S containing compounds (55) 237
Detector
Versatile electrolytic conductivity --- for GC (73) 19
Detector
Wire --- with an alkali flame ionization sensing element for LC (91) 181
Detector, capicitance
Permittivity and conductivity detectors for LC (91) 167
Detector, electron capture
Use of an --- for monitoring in LC (62) 153
Detectors, electron capture
The utilization of promethium-147 as an ionization source in --- (62) 53
Detector, heat of sorption
Use of a Peltier unit as a solid state --- (97) 74
Detector, resonance
Permittivity and conductivity detectors for LC (91) 167
Detector system
Standardisation of the direct spectrophotometric quantitative analysis of chromatograms. III. A linear --- for quantitative TLC and its importance (73) 151
Detector temperature
--- in electron capture detection (68) 302
Detergents
The analysis of alkylene oxide–fatty alcohol condensates by GLC (84) 43
Detergents
Separation and determination of α-olefin sulphonates by salting-out chromatography (62) 467
Deuterated hydrocarbons
Separation of isotopically substituted polar compounds derived from hydrocarbons (77) 21
Deuterium oxide
The determination of ^2H_2O in water and biological fluids by GC (87) 246
Deuterium substituted compounds
The use of high efficiency packed columns for GSC. III. Separation of --- (53) 135
Device for analogue recording
A simple --- --- of the abundance of selected ions from a combined gas chromatograph–mass spectrometer (71) 337
Dexamethasone
Separation and determination of the synthetic epimeric corticosteroids, --- and betamethasone, in mixtures by TLC on insoluble polyvinylpyrrolidone (78) 165
Dexsil 300GC
GLC of short-chain fatty acids on --- (74) 335
Dextran
An aqueous two-phase system of ---/hydroxypropyldextran as a model in adsorption studies of Sephadex gels (63) 420
Dextrans
Effect of --- of different mean molecular weights on immunodiffusion reactions of serum fractions (77) 445
Dextran
Molecular-sieve chromatography of amylose and --- over porous glass (88) 77
Dextran gel chromatography
The influence of solvent and temperature in --- (59) 335
Dextran gel filtration
Determination of parameters in --- (74) 59
Dextrins
Preparation of xylo--- and their separation by gel chromatography (57) 255
Dextrins
The separation of cello--- by gel permeation chromatography (52) 273
Dextromethorphan
Determination of --- in plasma by GLC (90) 392
Diacetyl
Direct GC estimation of lower alcohols, acetaldehyde, acetone and --- in milk products (53) 363
1,5-Diacetyl biuret
PC and reflecting-integral densitometric quantitative analysis of the mixture 1-acetyl- and --- with its cyclization product 2,4-dioxo-6-methyl-tetrahydro-*s*-triazin (69) 219
Diacetylmorphine
A rapid screening procedure for some "street-drugs" by TLC. II. Cocaine,

heroin, local anesthetics and mixtures (87) 211
2-(N,N-Dialkylamino)cyclohexanones
A case of inversion in the elution order of diastereoisomeric cyclic amino alcohols (63) 389
Dialkyldithiocarbamates
Metabolism of ---. I. Determination of amines using a reaction with isocyanates followed by GC identification of the urea derivatives formed (94) 65
Dialkyl ethers
GC behaviour of phenyl substituted --- (77) 218
4,4'-Di-*n*-alkoxyazoxybenzenes
Liquid crystals. III. --- and their mixtures as stationary liquid phases in GLC (71) 233
Dialkylnitrosamines
A study of the stability of a nitrogen-selective thermionic detector (86) 65
Dialysis
Column --- (68) 273
Diamides
TLC separation of phosphorus acids, pyroacids, amidic acids and --- (92) 207
Diamines
Accelerated chromatographic analysis of primary mono- and --- in an amino acid analyser (56) 137
Diamines
Chromatographic and electrophoretic behaviour of primary mono- and --- on layers of weak and strong ion exchangers (79) 129
Diamines
A simple method for the separation of primary monoamines and --- using a standard amino acid analyzer (82) 379
Diamines, aliphatic
Separation of fluorescamine derivatives of --- and polyamines by high-speed LC (96) 250
Diamines, aromatic
Thin-layer and high-speed LC of the derivatives of 1,4-phenylenediamine (93) 447
Diaminobenzenes
GC analysis of γ-irradiated aniline for aminoaromatic products (56) 201
Diaminobiphenyls
GC analysis of γ-irradiated aniline for aminoaromatic products (56) 201
1,2-Diaminocyclohexane
The separation of *cis*- and *trans*- --- via trifluoroacetylation. The use of ethyl trifluoroacetate as trifluoroacetylating agent (63) 370
1,3-Diaminopropane
Ion-exchange chromatographic separation and fluorometric detection of urinary polyamines (90) 129
1,2-Diaryl ethylenes
GC of helicenes and --- (66) 43
Di-aryl thioureas
Application of TLC in the resolution of mixtures of isomeric mono- and ---, thiazoles and thiazolines (76) 493
Diastereoisomeric cyclic amino alcohols
A case of inversion in the elution order of --- (63) 389
Diastereoisomers
TLC mobility of --- (61) 269
Diastereoisomers
TLC separation of dipeptide and tripeptide --- (80) 144
Diastereomers
Resolution of amino acid --- by means of packed column GC (63) 259
Diatomaceous earth
GC on modified supports (99) 45
Diatomaceous supports
Non-extractable polymer coatings (modified supports) for chromatography (87) 49
Diatomite D2
Discussion of adsorptive properties of column packings in GC. I. Energy properties of the material supporting liquid stationary phases (61) 217
Diatomite supports
Cathodoluminescence and stationary phase distribution experiments with --- (92) 267
Diatomite supports
Chemically bonded stationary phases on --- for use in high-performance LC (91) 201
Diazepam
GC analysis of medazepam and its metabolites using an electrolytic conductivity detector (100) 49
Diazepam
--- metabolism during chronic medication. Unbound fraction in plasma, erythrocytes and urine (75) 55

Diazepam
A rapid GC method for the determination of ——— and metabolites in body fluids (90) 325
Diazo dyes
Stabilisation of the diazo reaction: Its application in cellulose acetate electrophoresis (57) 169
Diazonium reagents
Detection of catecholamines and related compounds with —— by TLC (72) 207
Diazotisation
Detection of primary arylamines on thin-layer chromatograms by ——— and coupling. Comparison of a new reagent with existing methods (77) 357
Dibasic acids
Evaluation of new phases for the GC of ——— (82) 377
Dibasic acids
Methylation of ——— with diazomethane in GC (70) 59
Dibenzazepines
TLC of phenothiazine derivatives and analogues (75) 79
Dibenzocycloheptadienes
TLC of phenothiazine derivatives and analogues (75) 79
Dibenzo-*p*-dioxins
An artefact in the GC determination of impurities in pentachlorophenol (67) 247
Dibenzoyl peroxides
The determination of organic peroxy compounds. V. The mechanism of the chromatographic separation of symmetrically substituted ——— on various sorbents (66) 321
5-Di-*n*-butylaminonaphthalene-1-sulphonyl chloride
———— a new reagent for fluorescence labelling of amines, amino acids and peptides (84) 95
Dibutyl phosphoric acid
Trace determination of ——— by GC (87) 57
Dicarba-*closo*-dodecaboranes
Gel chromatography of polar molecules. Elution behaviour of ——— and their derivatives (88) 323
Dicarba-closo-dodecaboranes and their bromoderivatives
TLC of ——— on silica gel (74) 149
Dicarboxylic acids
Anion-exchange chromatography of ——— in sulphate medium (61) 101
Dicarboxylic acids
GC examination of some diesters of normal aliphatic ——— (87) 576
Dicarboxylic acids
Identification of hydroxy acids and ——— by combined TLC and GC (52) 145
Dicarboxylic acid esters
The sensitivity of the FID for ——— (77) 175
Dicarboxylic acid porphyrins
The separation of free ——— using TLC and PC (53) 279
Dicarboxylic hydroxy acids
Separation of ——— by anion-exchange chromatography and GC (57) 353
Dichloran
Rapid analysis of ———, lindane, PCNB and TCNB residues in lettuce by automated GLC (93) 91
Dichlorobenzenes
GLC of disubstituted benzene isomers. I. Separation and study of the ——— (53) 143
4,4'-Dichlorobenzophenone
TLC enzymatic and GC determination of ——— and its decomposition products (54) 282
Dichlorodicyanobenzoquinone
—— as a spray reagent for carbazoles (96) 266
Dichlorodifluoromethane
A GC–MS method for analysis of the contents of aerosol irritant projectors (80) 155
Dichloromethane
Influence of the water content of the solvent on chromatographic separations (95) 27
Dicloxacillin
The chromatography of antibiotics on SP-Sephadex (86) 139
Dicyclomine
Determination of carbamazepine in plasma (89) 11
Dielectric constant
Performance of the capacitance detector for LC (65) 53
Diesel engine exhausts
The analysis of ——— for low-molecular-weight carbonyl compounds (86) 228

Diethylenetriaminepentaacetic acid
The separation of yttrium from the lanthanides by ion exchange with ——— as eluant. I. Separation of yttrium–erbium mixtures (62) 449
Di(ethylhexyl)phthalate
Determination of —— in human plasma and plasma proteins by electron capture GC (100) 153
Diethylhexyl phthalate
Metabolism of —— by rats. Isolation and characterization of the urinary metabolites (76) 321
Diethylpropion
Studies on the metabolism of ———. I. Analytical procedure (71) 39
Differential enthalpy of evaporation from solution
Use of thermodynamic solubility parameters for the characterization of liquid phases (99) 173
Diffusion coefficients
Measurements of —— by the method of GC (70) 13
Diffusion coefficient
A theoretical derivation of the axial ——— in chromatography (87) 315
Diffusion constant
Non-ideal line shapes in GLC (89) 119
Digitogenin
A GLC determination of the ratio of gitogenin and —— in mixtures (54) 185
Digitoxigenin
High-pressure LC of —— and its glycosides (88) 411
Digitoxigenin
A new thin-layer densitometric technique for the assay of cardenolides from *Digitalis purpurea* (88) 341
Digitoxigenin
Separation of the hydroxylation products of ——— by TLC (70) 187
Digitoxin
Comparative study of TLC techniques for separation of digoxin, ——— and their main metabolites (86) 254
Digitoxin
Identification of submicrogram amounts of digoxin, ———, and their metabolic products. Isolation by chromatography and preparation of derivatives for assay by electron capture detector (69) 157
Diglycerides
TLC-enzymatic determination of mono-, ——— and triglycerides in glyceride mixtures (64) 388
Digoxin
Assay of ——— in plasma by GC (56) 209
Digoxin
Comparative study of TLC techniques for separation of ———, digitoxin and their main metabolites (86) 254
Digoxin
Identification of submicrogram amounts of ———, digitoxin, and their metabolic products. Isolation by chromatography and preparation of derivatives for assay by electron capture detector (69) 157
Dihalocycloalkanes
Separation and identification of ——— by GC (55) 231
Dihydrochalcones
Chromatography of dihydrochalcone sweeteners and related compounds. A reagent for detecting ——— (63) 467
Dihydrochalcone sweeteners
Chromatography of ——— and related compounds. A reagent for detecting dihydrochalcones (63) 467
Dihydroergocornine
Separation of dihydroergotoxine (hydergine) into ———, dihydroergocryptine and dihydroergocristine by counter-current distribution (88) 413
Dihydroergocristine
Separation of dihydroergotoxine (hydergine) into dihydroergocornine, dihydroergocryptine and ——— by counter-current distribution (88) 413
Dihydroergocryptine
Separation of dihydroergotoxine (hydergine) into dihydroergocornine, ——— and dihydroergocristine by counter-current distribution (88) 413
Dihydroergotoxine
Separation of ——— (hydergine) into dihydroergocornine, dihydroergocryptine and dihydroergocristine by counter-current distribution (88) 413
Dihydrogibberellin A_1
Separation of gibberellin A_1 and ——— by argentation partition chromatography on a Sephadex column (60) 141
Dihydrotachysterol
Removal of cholesterol from serum extracts of vitamin D by TLC (65) 571

α,β-Dihydroxyisobutyramide
Application of ion-exclusion and ion-exchange techniques in preparing ––– and α,β-dihydroxyisobutyric acid from acetol via the cyanohydrin synthesis (57) 309
α,β-Dihydroxyisobutyric acid
Application of ion-exclusion and ion-exchange techniques in preparing α,β-dihydroxyisobutyramide and ––– from acetol via the cyanohydrin synthesis (57) 309
3,4-Dihydroxymandelic acid
Separation of norepinephrine and its five major metabolites by PC (67) 129
3,4-Dihydroxyphenylethylglycol
Separation of norepinephrine and its five major metabolites by PC (67) 129
5,10-Dihydrophenazines
TLC studies of some new ––– (60) 433
1,8-Dihydroxyanthracene derivatives
High-voltage paper electrophoresis for the separation of ––– in senna and rhubarb (97) 109
2,3-Dihydroxy-2-methylbutanamide
Application of ion-exclusion and ion-exchange techniques in preparing ––– and 2,3-dihydroxy-2-methylbutanoic acid from acetoin via the cyanohydrin synthesis (74) 265
2,3-Dihydroxy-2-methylbutanoic acid
Application of ion-exclusion and ion-exchange techniques in preparing 2,3-dihydroxy-2-methylbutanamide and ––– from acetoin via the cyanohydrin synthesis (74) 265
5,6-Dihydroxy-1-methylindole
The chemistry of the aminochromes. XIX. The reactions of adrenochrome, adrenolutin and ––– with some silylating agents (81) 57
β-3,4-Dihydroxyphenylalanine
LC resolution of racemic ––– (60) 351
3,5-Diiodotyrosine
Gel chromatography of thyroidal iodocompounds on Sephadex G-10. Separation of iodopeptides, iodide, 3-monoiodotyrosine, ––– and iodothyronines (92) 309
2,3-Diketogulonic acid
Glass-fibre PC of ascorbic acid and related compounds (71) 169
Diketogulonic acid
Resolution of ascorbic, dehydroascorbic, and ––– by anion-exchange CC (74) 133
β-Diketonates
Column phenomena in the GLC of metal ––– (77) 265
β-Diketones
TLC of ––– and their metal chelates (92) 371
2,5-Diketopiperazines
GLC of ––– as their trifluoroacetyl derivatives (64) 166
Dilantin
The determination of 5,5-diphenylhydantoin (–––) in serum by GC (71) 545
Dimeric fatty acid methyl esters
Gel filtration LC of fatty acids and other fat samples using a Pye LC detector (71) 355
3,4-Dimethoxyphenethylamine
A sensitive and specific TLC method for the identification of ––– in urine samples (64) 341
6-(γ,γ-Dimethyl-allylamino)purine
Chromatography of five cytokinins on an insoluble polyvinylpyrrolidone column (75) 122
p-(N,N-dimethylamino)benzene *p'*-azobenzoates
The separation and identification of phenols in the form of ––– by means of PC and TLC (67) 97
p-(N,N-Dimethylamino)-benzene-*p'*-azobenzamides
Separation and identification of primary and secondary aliphatic amines as ––– by PC and TLC (72) 145
N,N-Dimethyl-*p*-aminobenzeneazobenzoyl esters and amides
The separation of the coloured derivatives of some organic compounds using LC in small-bore columns packed with ion-exchange resins (53) 69
1-Dimethylamino-naphthalene-5-sulphonyl-amides
Separation of ––– by gel chromatography (59) 367
5-Dimethylaminonaphthalene-1-sulphonyl chloride
5-Di-*n*-butylaminonaphthalene-1-sulphonyl chloride – a new reagent for fluorescence labelling of amines, amino acids and peptides (84) 95

3,3-Dimethyl-2-butanol
Preparative GC resolution of — — and other alcohols (51) 407
N,N-Dimethyldibenzo[*b*,*f*]thiepin-10-methylamine
Determination of — — by GLC (85) 53
Dimethylnitramine
GLC determination of dimethylnitrosamine as — — at picogram levels (51) 301
Dimethylnitrosamine
GLC determination of — — as dimethylnitramine at picogram levels (51) 301
Dimethyl polyselenides
Correlation of retention index data for dimethyl polysulphides, — — and related thiaselena-alkanes (79) 318
Dimethyl polysulphides
Correlation of retention index data for — —, polyselenides and related thiaselena-alkanes (79) 318
Dimethylsulfoxide
Difficulties in setting-up industrial chromatographs. Application to the continuous analysis of water in a — — solution in the aromatic extraction unit of Feyzin (77) 29
N,N-Dimethyltryptamine
Identification of — —, 5-methoxy-N,N-dimethyltryptamine and bufotenin by cellulose TLC (86) 269
N,N-Dimethyltryptamine
Selective and specific TLC, GC and GC–MS methods for the assay of indolethylamine N-methyltransferase activity (86) 123
2,4-Dinitrobenzenediazonium
TLC of — — coupling products with malononitrile and some analogues (84) 414
4,6-Dinitro-*o*-cresol
Investigation and determination of — — in water (87) 287
Dinitroglycerin
LC determination of nitroglycerin products in waste waters (100) 185
2,4-Dinitrophenyl
Adsorption on neutral polystyrene resin. A simple method for extraction of — — derivatives from aqueous solution and for decoloration of protein hydrolysates (54) 215
2,4-Dinitrophenyl amino acids
Chromatographic methods in the analysis of protein structure. Methods for identification of N-terminal amino acids in peptides and proteins. Part B (70) 221 (review)
2,4-Dinitrophenyl
GC of — — derivatives of amines (88) 373
Dinitrophenylamino acids
Chromatography of — — and heterocyclic bases on thin layers of protein (54) 65
Dinitrophenylamino acids
TLC of amino acids with agar–agar as binder (69) 402
Dinitrophenylazoalkylphenols
TLC of mono- and — — (alkylquinone mono- and dinitrophenylhydrazones) (76) 487
Dinitrophenylene amino acids
Determination of — — in structural proteins by chromatography on nylon powder columns (61) 263
2,4-Dinitrophenylhydrazones
Separation of — — into classes by TLC on zinc carbonate (65) 435
Dinitrophenylhydrazones
TLC of mono- and dinitrophenylazo-alkylphenols (alkylquinone mono- and — —) (76) 487
2,4-Dinitrophenylhydrazones
Separation of — — of some keto acids on Sephadex LH-20 (78) 429
2,4-Dinitrophenylhydrazones
TLC of 2,4-dinitrobenzenediazonium coupling products with malononitrile and some analogues (84) 414
Dinitrophenylhydrazones
A two dimensional TLC technique for the resolution of monocarbonyl — — (51) 237
2,4-Dinitrophenyl peptides
Chromatographic methods in the analysis of protein structure. Methods for identification of N-terminal amino acids in peptides and proteins. Part B (70) 221 (review)
2,4-Dinitrophenyl proteins
Chromatographic methods in the analysis of protein structure. Methods for identification of N-terminal amino acids in peptides and proteins. Part B (70) 221 (review)

1,3-Dinitro-2,4,5,6-tetrachlorobenzene
Simultaneous determination of 1,3-dinitro-2,4,6-trichlorobenzene and ——— in 1,3,5-trichloro-2,4,6-trinitrobenzene (76) 331
1,3-Dinitro-2,4,5,6-trichlorobenzene
Simultaneous determination of ——— and 1,3-dinitro-2,4,5,6-tetrachlorobenzene in 1,3,5-trichloro-2,4,6-trinitrobenzene (76) 331
Dinonyl phthalate
Relative retentions of some alkyl astatides, iodides and bromides on ——— (84) 175
Dinucleoside monophosphates
Further studies on the chromatographic behaviour of ——— (79) 139
2′-5′-Dinucleoside monophosphates
The separation of ——— from the corresponding 3′-5′-isomers on DEAE-Sephadex A-25 column (71) 275
Diosgenin
Analysis of steroids. XXIII. Micro-determination of Δ^5-steroids after TLC separation (76) 502
Dioxin
Detection and determination of 2,3,7,8-tetrachloro-dibenzo-*p*-dioxin in chloro-substituted phenoxyalkane acids (64) 39
Dioxin
Detection and determination of 2,3,7,8-tetrachlorodibenzo-*p*-——— in chloro-substituted phenoxyalkane acids (90) 382
Dioxins
Determination of 2,3,7,8-tetrachloro-dibenzo-1,4-——— at parts per billion levels in technical-grade 2,4,5-trichloro-phenoxyacetic acid, in 2,4,5-T alkyl ester and 2,4,5-T amine salt herbicide formulations by quadrupole mass fragmentography (90) 71
Dioxins
Further studies on impurities in chloro-phenols (89) 325
2,4-Dioxo-6-methyl-tetrahydro-*s*-triazin
PC and reflecting-integral densitometric quantitative analysis of the mixture 1-acetyl- and 1,5-diacetyl biuret with its cyclization product ——— (69) 219
Dipalmitins
A micromethod for the quantitative determination of lipids by use of TLC, photodensitometry and an internal standard (68) 153
Dipeptides
Gaseous formaldehyde: A sensitive chromatographic detection reagent for tryptophanyl- ——— (59) 209
Dipeptides
GLC separation of ——— derivatives (93) 229
Dipeptides
An improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. IX. The characterization of some histidyl, prolyl and lysyl ——— by TLC and ion-exchange chromatography (92) 355
Dipeptides
Separation of neutral amino acids, ——— and oligopeptides into classes. Application to urine (66) 261
Dipeptides
A simple ultra-micro method for the separation and identification of ——— in mixtures obtained during polypeptide sequence determination with dipeptidyl-aminopeptidase I (85) 154
Dipeptides
A study of the chromatographic properties of ——— by automatic ion-exchange chromatography (67) 315
Dipeptide derivatives
GC of some ——— (100) 117
Dipeptidylaminopeptidase I
A simple ultra-micro method for the separation and identification of dipeptides in mixtures obtained during polypeptide sequence determination with ——— (85) 154
Diphacinone
Detection of naturally fluorescent pesticides on silica gel layers (79) 217
Diphenhydramine hydrochloride
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, noscapine, ———, phenylephrine hydrochloride, caffeine, etofyllin, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
Diphenylalkanes
Retention indices of biphenyls and ——— (97) 3
Diphenylamine
GC analysis of γ-irradiated aniline for aminoaromatic products (56) 201

Diphenylamine
The effect of the geometrical structure and the surface chemistry of silica gels on separations in LSC (58) 11
5,5-Diphenylhydantoin
The determination of --- (dilantin) in serum by GC (71) 545
5,5-Diphenylhydantoin
Determination of low levels of --- in serum by GLC (88) 265
Diphenylhydantoin
Determination of the major urinary metabolite of --- by high-performance LC (80) 161
Diphenylhydantoin
The quantitative analysis of phenobarbital with trimethylanilinium hydroxide (88) 157
5,5-Diphenylhydantoin
Simultaneous determination of --- and 5-(*p*-hydroxyphenyl)-5-phenylhydantoin in serum, urine and tissues by GLC after flash-heater methylation (82) 307
Diphenylhydantoin
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Diphenylindenonesulphonyl derivatives
TLC separation of the --- of amino acids (71) 111
Diphenyl sulphide
A study of the desulphurization of organic sulphur compounds on Raney nickel by means of reaction GC (65) 179
Diphosphoinositide
Separation of --- and triphosphoinositide on oxalate-impregnated silica gel columns (87) 267
Direct inlet system
A simple device for introducing liquids, solutions and TLC samples into a mass spectrometer via the --- (73) 270
Diribonucleoside monophosphates
Chromatography of --- on a Bio-Gel P-4 column (56) 143
Disaccharides
GLC of trimethylsilyl --- (59) 281
Disaccharides
Separation of sugars by centrifugal microparticulate bed chromatography (62) 93
Disc detector
A --- for LC (71) 395
Disc electrophoresis
An apparatus to facilitate the preparation of continuous and gradient disc acrylamide gels (62) 383
Disc electrophoresis
---: avoiding artifacts caused by persulphate (53) 559
Discriminating power
Optimum use of PC, TLC and GLC for the identification of basic drugs. I. Determination of effectiveness for a series of chromatographic systems (90) 1
Discriminating power
Optimum use of PC, TLC and GLC for the identification of basic drugs. II. PC and TLC (90) 9
Discriminating power
Optimum use of PC, TLC and GLC for the identification of basic drugs. III. GLC (90) 19
Disflamoll DPK
Application of TLC and GLC to qualitative and quantitative analysis of phosphoric and phosphorous esters (75) 261
Disinfactants
The GLC determination of inorganic iodine, iodide and tightly bound iodine in milk (100) 43
Disjoining pressure
The theory of GLC. The influence of the thickness of the stationary liquid film (80) 147
Displacement electrophoresis
Isotachophoresis (---, transphoresis) theory. Structure of the ionic species interface (95) 133
Displacement electrophoresis
Theory of isotachophoresis (---, transphosphoresis) (93) 7
Distribution coefficients
A comparison of chromatographic methods for the assessment of the --- of androgen esters (69) 141
Distribution coefficient
Mechanism of GPC: --- (83) 111
Distribution coefficient
Molecular filtration on Sepharose 6B. Empiric relationships between the --- and the Stokes radius on one hand and the molecular weight on the other of proteins of different degrees of asymmetry (89) 251

Distribution coefficients
Selectivity behavior of low-capacity, partially sulfonated, macroporous resin beads (90) 267
Distribution coefficients
Temperature dependence of ---- of some cations on a crystalline zirconium phosphate over the range 25 to 80 °C (71) 538
Disulfides
Response of a filter-less flame photometric detector to hetero-organics (87) 232
Disulfiram
Detection of carbon disulphide (a --- metabolite) in expired air by GC (92) 442
Disulphides
TLC of organic sulphur compounds by the mixed fluorescent material method. II. Separation and quantitation of ----, thiurams, xanthates, thioureas and other organic sulphur compounds (96) 211
Disulphides
Use of heavy metal salts in the analysis of organic sulphur compounds (69) 79
Disyl derivatives
TLC separation of the diphenylindenone-sulphonyl derivatives of amino acids (71) 111
Diterpenes
Partition chromatography of gibberellins and related --- on columns of Sephadex LH-20 (87) 271
Diterpene alcohols
TLC behaviour of the acetates of some polyfunctional ---- of toxicological interest (87) 443
Dithiocarbamates
GLC and mass fragmentography of S-*n*-propyl N-monoalkyl ---- (99) 291
Dithiophosphates
Use of TLC for the analysis of additives in new and used oils. I. Application in the analysis of --- (97) 213
Dithiophosphinatocobalt(II) complexes
GC separations of Lewis bases on dithiophosphinatonickel(II) complexes $[RR'P(S)S]_2Ni$ (77) 422
Dithiophosphinatonickel(II) complexes
GC separations of Lewis bases on --- $[RR'P(S)S]_2Ni$ (77) 422
Dithizonates
Detection of mercury and alkylmercury compounds by reversed-phase TLC (51) 283
Diuretics
A rapid chromatographic procedure for the detection of some --- in pharmaceuticals and biological fluids (53) 408
Diuretics
A TLC screening technique for thiazide --- in urine (70) 190
Divinylbenzene
Nitrogen- and phosphorus-containing porous polymer sorbents (77) 51
DNA
Analysis of ribonucleotides and deoxyribonucleotides using high-pressure liquid CC (51) 203
DNA
The behavior of --- on basic polyamino acid Kieselguhr columns (72) 400
DNA
The behaviour of --- on columns of histone Kieselguhr (66) 277
DNA
Chromatographic determination of the molecular weight of --- (94) 75
DNA
Chromatography of --- on wool cortical cell protein (56) 147
DNA
The determination of the base composition of RNA by high-pressure cation-exchange chromatography (51) 183
DNA
Effects of ultrasonics on the resolution of --- in gel filtration (51) 539
DNA
Fractionation of --- on a metal ion equilibrated cation exchanger. I. Chromatographic profiles of --- on an IR-120 Al^{3+} column (52) 119
DNA
GC determination of phosphorus in nucleic acids and nucleotides as tris(trimethylsilyl) phosphate (91) 459
DNA
Interactions between histone and --- from calf and human tissues using activated Sepharose CC (82) 343
DNA
Isolation procedure for bacterial --- based on GPC on a Sepharose column (91) 451

DNA
The separation of nucleic acids on basic polyamino acid–Kieselguhr columns (52) 158
DNA
Some aspects of fractionation of ––– on an IR-120 Al^{3+} column. II. Effect of the physical state of ––– on chromatographic profiles (53) 580
DNA
Some aspects of fractionation of ––– on an IR-120 Al^{3+} column. III. Effect of the method of deproteinisation on the chromatographic profiles of DNA (54) 239
DNA
Some aspects of fractionation of ––– on IR-120 Al^{3+} column. IV. Effect of protein association on the chromatographic profiles of ––– (56) 151
DNA
Some aspects of the fractionation of ––– on an IR-120 Al^{3+} column. V. The effect of RNA contamination on the chromatographic profiles of ––– (57) 83
DNA
Some aspects of the fractionation of ––– on an IR-120 Al^{3+} column. VI. The effect of pH and temperature variation on the chromatographic profiles of ––– (59) 194
DNA
Some aspects of fractionation of ––– on an IR-120 Al^{3+} column. VII. Effect of the tissue and source variation on the chromatographic profiles of ––– (64) 85
DNA
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. I. The case of a single molecular species (82) 167
DNA
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. II. The case of several molecular species (82) 191
DNA
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. V. Further theory of the case of several molecular species (82) 241
DNA derivatives
Analysis of –––. II. High-pressure liquid anion-exchange chromatography of deoxyribonucleotides (67) 309
DNA, source variation of
Some aspects of fractionation of DNA on an IR-120 Al^{3+} column. VII. Effect of the tissue and source variation on the chromatographic profiles of DNA (64) 85
DNA, tissue variation of
Some aspects of fractionation of DNA on an IR-120 Al^{3+} column. VII. Effect of the tissue and source variation on the chromatographic profiles of DNA (64) 85
DNase II
Antibody affinity chromatography of hog and bovine spleen (80) 128
DNP, *see* 2,4-dinitrophenyl
Dodecaboranes
GC separation of isomeric monobromo-1,2-dicarba-closo- ––– (12) (87) 473
Dodecaboranes
Gel chromatography of polar molecules. Elution behaviour of dicarba-*closo*- ––– and their derivatives (88) 323
n-Dodecanol
Qualitative and quantitative determinations of mono- and dialkylphosphoric acids and their salts by GC (78) 281
Dodecenes
Determination of the boiling points of straight-chain C_{12}-alkenes from their GC retention indices (71) 243
Dodecylbenzenes
Petrochemical analytical problems. II. GLC–MS investigation of industrial ––– (78) 309
Dodecylbenzenesulphonic acids
Petrochemical analytical problems. IV. GLC–MS investigation of the desulphonation of ––– (94) 330
Dolichol phosphate mannose
Anomalous TLC of ––– in the presence of microsomal lipids (97) 293
Donor–acceptor properties
Characteristics of ––– of amines and cyclic nitrogen-containing substances determined by their retention on stationary phases of different types (95) 91
σ-Donor molecules
Thermodynamics of molecular association by GLC. ––– and dimeric 3-trifluoro-

acetylcamphorates of Mn(II), Co(II) and Ni(II) (99) 147
L-DOPA
Identification of catecholamine-derived alkaloids in mammals by GC and MS (99) 567
DOPA
LC resolution of racemic β-3,4-dihydroxyphenylalanine (60) 351
DOPA metabolites
Polyamide TLC separation of --- and related compounds (85) 151
Dopamine
Direct quantitative evaluation of thin-layer chromatograms by remission- and fluorescence measurements. Part 6. Determination of adrenaline, noradrenaline and --- from urine (56) 271
Dopamine
Mass fragmentography of --- and 6-hydroxydopamine. Application to the determination of dopamine in human brain biopsies from the caudate nucleus (99) 529
Dopamine
3- and 4-O-methyl ethers of ---: GLC and MS studies of their isothiocyanate derivatives (70) 135
Dopamine
Quantitative TLC estimation of labelled --- and norepinephrine, their precursors and metabolites (52) 305
Dopexin
GC determination of --- in human urine following therapeutic doses (61) 231
Doriden®
A method for measuring glutethimide (---) in human serum after intake of therapeutic doses (72) 21
Dowex 1 X2
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. II. Combined CC separation methods (62) 409
Dowex 50-X4(Na^+) thin layers
Influence of complex formation on the chromatographic behaviour of inorganic ions on sodium carboxymethylcellulose and --- (84) 155
Doxycycline
The chromatography of antibiotics on SP-Sephadex (86) 139
Drinking water
Analysis of organic constituents present in --- (76) 45
Drinking water
Organic substances in potable water and in its precursor. Part I. Methods for their determination by GLC (84) 255
Drugs
Analysis of apomorphine and norapomorphine in urine by TLC fluorescence quenching (87) 294
Drugs
Analysis of cefoxitin, cephalotin and their deacylated metabolites in human urine by high-performance LC (99) 609
Drugs
Analysis of phenylbutazone in plasma by high-speed LC (89) 23
Drugs
Application of high-speed LC to the analysis of morphine, heroin, 6-(O-acetyl)-morphine and methadone (87) 95
Drugs
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, noscapine, diphenhydramine hydrochloride, phenylephrine hydrochloride, caffeine, etofyllin, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
Drugs
Assay of cocaine in the presence of procaine and quinine by CC (52) 107
Drugs
The assay of phenylbutazone in human plasma by a specific and sensitive GLC procedure (89) 17
Drugs
Characterisation of --- containing tertiary amine groups by application of the Hofmann degradation reaction and GLC (73) 73
Drugs
The characterization of LSD in illicit preparations by pressure-assisted LC and GC (84) 181
Drugs
A chromatogram staining technique useful for 3-β-hydroxy-5-ene steroids and certain steroid --- (59) 216
Drugs
A chromatographic comparison of the constituents of nutmeg and mace

(*Myristica fragrans* Houtt.) with those of marihuana and hashish (*Cannabis sativa* L.) (89) 113

Drugs
Chromatographic and electrophoretic behaviour of sulphonamides on thin layers of ion exchangers (93) 201

Drugs
A chromatographic method of urine analysis for the diagnosis of heroin consumption (72) 127

Drugs
Chromatographic separation of 2-phenylquinoline analogues (90) 396

Drugs
Chromatography of the 1,4-benzodiazepines (98) 527 (review)

Drugs
Chromatography of some quaternary --- on columns of Sephadex G-10 (60) 185

Drugs
Comparative GLC of biologically important indoles, and their benzo[*b*]-thiophene and 1-methylindole analogs (94) 316

Drugs
A comparison of GLC retention indices on support-coated open tubular columns and on packed columns for a series of central nervous stimulant --- (84) 392

Drugs
A comparison of TLC adsorbents, supports and developing units (52) 291

Drugs
Confirmation of morphine on thin-layer plates by fluorometry (100) 225

Drugs
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of phenothiazine and related --- (74) 35

Drugs
Detection of adulteration in ginger galenicals by TLC (84) 200

Drugs
Detection of benzoyl ecgonine (cocaine metabolite) in urine by GC (85) 75

Drugs
Detection of --- in urine for methadone treatment programs (57) 139

Drugs
Detection of mefenamic acid and its metabolites in urine by TLC (90) 405

Drugs
The detection of thiazide diuretics in urine. Column extraction and TLC (87) 570

Drugs
Detection and TLC of sequiterpene lactones from *Geigeria* species (94) 255

Drugs
Determination of barbiturates and their metabolites in small plasma samples by GC–MS. Amylobarbitone and 3'-hydroxy-amylobarbitone (75) 45

Drugs
Determination of blood levels of pentazocine by GC with a nitrogen detector (78) 417

Drugs
Determination of carbamazepine in plasma (89) 11

Drugs
Determination of chlordiazepoxide plasma concentrations by electron capture GLC (61) 237

Drugs
Determination of clonazepam and flunitrazepam in blood by electron-capture GLC (99) 447

Drugs
Determination of dextromethorphan in plasma by GLC (90) 392

Drugs
Determination of N,N-dimethyldibenzo-[*b*,*f*]thiepin-10-methylamine by GLC (85) 53

Drugs
The determination of 5,5-diphenyl-hydantoin (dilantin) in serum by GC (71) 545

Drugs
Determination of flurazepam (Dalmane®) and its major metabolites in blood by electron-capture GLC and in urine by differential pulse polarography (99) 461

Drugs
Determination of low levels of 5,5-diphenylhydantoin in serum by GLC (88) 265

Drugs
Determination of low levels of amobarbital in serum by GLC (69) 377

Drugs
Determination of low levels of Oxprenolol in blood or plasma by GLC (88) 173

Drugs
Determination of the major urinary metabolite of diphenylhydantoin by high-performance LC (80) 161
Drugs
Determination of methaqualone in plasma by GLC (90) 394
Drugs
Determination of nitrazepam (Mogadon) in plasma by electron capture GLC (70) 45
Drugs
The determination of physostigmine by TLC and UV spectrophotometry (87) 125
Drugs
Determination of piribedil in biological materials by GLC–mass fragmentography (93) 441
Drugs
Determination of Primidone and its metabolites in biological fluids by GC (87) 559
Drugs
Determination of therapeutic levels of metronidazole in plasma by GLC (87) 491
Drugs
Development and comparison of TLC and GLC methods for measurement of methimazole in rat urine (53) 285
Drugs
Diazepam metabolism during chronic medication. Unbound fraction in plasma, erythrocytes and urine (75) 55
Drugs
Differentiation of phenothiazine derivatives by locating agent on TLC plates (53) 413
Drugs
Double-spot formation in the TLC of pure fenfluramine hydrochloride and some other amines in the presence of organic solvents (79) 243
Drugs
Dual-bed TLC for the separation and detection of ––– of abuse in urine (80) 275
Drugs
Electron capture GC of methindione (94) 239
Drugs
Emergency toxicological screening for ––– commonly taken in overdose (80) 205
Drugs
Estimation of morphine by polyamide mini TLC (76) 505
Drugs
An evaluation of the GC estimation of trace quantities of hexachlorophane (89) 103
Drugs
Evaluation of liquid–liquid systems for the chromatographic separation of the psychotropic drug thioridazine and its metabolites (83) 405
Drugs
Extraction technique for narcotics, barbiturates, and central nervous system stimulants in a ––– abuse urine screening program (60) 83
Drugs
GC of cannabis constituents and their synthetic derivatives (74) 209
Drugs
GC analysis of the commonly prescribed barbiturates at therapeutic and overdose levels in plasma and urine (86) 89
Drugs
GC analysis of medazepam and its metabolites using an electrolytic conductivity detector (100) 49
Drugs
GC assay of phenylbutazone in biological fluids (54) 280
Drugs
GC behavior of buformin hydrochloride, phenformin hydrochloride and phenylbiguanide. The pyrolytic formation of substituted 2,4,6-triamino-1,3,5-triazines from biguanides (71) 265
Drugs
GC of cannabinoids. GC behaviour of *cis*- and *trans*-tetrahydrocannabinol and isotetrahydrocannabinol (79) 81
Drugs
GC detection of methadone and morphine in the urine of ––– addicts (60) 131
Drugs
GC detection of nitrogen-containing ––– in aqueous solutions by means of the nitrogen detector (52) 237
Drugs
GC determination of 4-allyloxy-3-

chlorophenylacetic acid (Alclofenac) and its metabolites (62) 135

Drugs
GC determination of chloral hydrate, trichloroethanol and trichloroacetic acid in blood and in urine employing head-space analysis (88) 55

Drugs
GC determination of dopexin in human urine following therapeutic doses (61) 231

Drugs
GC determination of ethambutol (89) 80

Drugs
GC determination of levels of aldadiene in human plasma and urine following therapeutic doses of spironolactone (55) 249

Drugs
GC determination of pentazocine in human plasma by means of electron-capture detection (78) 293

Drugs
GC of ergot alkaloids (61) 339

Drugs
GC of flavonoids (79) 45

Drugs
A GC method for the determination of haloperidol in human plasma (54) 15

Drugs
GC studies on basic nitrogenous ———. I. Addition of basic compounds and steam to the carrier gas (92) 323

Drugs
A GC study of the metabolism of tarugan (84) 419

Drugs
GC trace analysis of thyroid hormone preparations and of ——— containing thyroid hormone (60) 51

Drugs
GLC of N-acetyl-*p*-aminophenol (paracetamol) in plasma and urine (59) 289

Drugs
GLC analysis of fluphenazine and fluphenazine sulfoxide in the urine of chronic schizophrenic patients (75) 294

Drugs
GLC analysis of phenolic and non-phenolic chlorpromazine metabolites in the urine of chronic schizophrenic patients (85) 65

Drugs
GLC of hydroxamic acids in biological samples. Detection and quantitation of Bufexamac and one of its major metabolites in plasma and urine (57) 410

Drugs
A GLC method for the quantitative determination of methadone in human plasma and urine (65) 361

Drugs
A GLC method for the quantitative determination of tolmetin in plasma and tolmetin and its major metabolite in urine (94) 143

Drugs
GLC of phenothiazine derivatives and related compounds (77) 339

Drugs
High-pressure LC analysis of novobiocin (94) 245

Drugs
High-pressure LC of digitoxigenin and its glycosides (88) 411

Drugs
High-speed LC of alkaloids. I (100) 227

Drugs
High-speed LC of alkaloids. II (100) 231

Drugs
Identification of catecholamine-derived alkaloids in mammals by GC and MS (99) 567

Drugs
Identification of certain essential compounds in ——— by a modified thermofractography method (91) 441

Drugs
Identification of submicrogram amounts of digoxin, digitoxin, and their metabolic products. Isolation by chromatography and preparation of derivatives for assay by electron capture detector (69) 157

Drugs
Identification of synthetic cannabinoids by GC (87) 263

Drugs
Identification of tricyclic antidepressants derived from imipramine by GC (59) 297

Drug
Improved chromatographic techniques and their interpretation for the screening of urine from ———-dependent subjects (61) 111

Drugs
An improved method for rapid, large-scale TLC urine screening for ——— of abuse (60) 95
Drugs
An improved quantitative GLC assay for the estimation of methaqualone in biological fluids (72) 29
Drugs
An indirect GC determination of the diastereoisomeric composition of pentapiperide methylsulphate (57) 413
Drugs
Indomethacin estimation in plasma and serum by electron capture GC (89) 110
Drugs
LC of xanthines, analgesic ——— and coffee (87) 523
Drugs
Liquid–solid extraction of lyophilized biological material for forensic analysis. I. Application to urine samples for detection of ——— of abuse (63) 309
Drugs
Liquid–solid extraction of lyophilized biological materials for forensic analysis. II. Application to bile samples for the detection of ——— (66) 63
Drugs
A method for the GC determination of butyrophenones (59) 174
Drugs
A method for measuring glutethimide (Doriden®) in human serum after intake of therapeutic doses (72) 21
Drugs
Mini TLC in the detection of narcotics in urine from subjects on a methadone maintenance program (65) 577
Drugs
Minor components of cannabis resin. I. Their separation by GC, thermal stability, and protolytic properties (63) 391
Drugs
Modifications of the XAD-2 resin column method for the extraction of ——— of abuse from human urine (71) 549
Drugs
The necessity of elution and identification of ——— indicated by TLC (54) 245
Drugs
New concepts in densitometry. Control analysis of pharmaceutical formulations (91) 433
Drugs
A new fluorescence assay of trimethoprim and metabolites using quantitative TLC (80) 111
Drugs
New uses for molecular-size exclusion chromatography (83) 125
Drugs
Optimum use of PC, TLC and GLC for identification of basic ———. I. Determination of effectiveness for a series of chromatographic systems (90) 1
Drugs
Optimum use of PC, TLC and GLC for the identification of basic ———. II. PC and TLC (90) 9
Drugs
Optimum use of PC, TLC and GLC for the identification of basic ———. III. GLC (90) 19
Drugs
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Drugs
Possibilities of reaction chromatography exemplified by the reaction-chromatographic detection of Nitrazepam (Mogadan®) and its major metabolites (94) 159
Drugs
Possible interference by a metabolite in GC assays for glutethimide which employ certain non-selective liquid phases (87) 379
Drugs
Preliminary studies in the analysis of biological amines by means of glass capillary columns. I. Studies with model compounds (91) 425
Drugs
The purity of phenylbutazone raw material and solid dosage forms as monitored by GLC (76) 141
Drugs
The quantitative analysis of phenobarbital with trimethylanilinium hydroxide (88) 157
Drugs
Quantitation of chlorpromazine and its

metabolites by two-dimensional TLC and direct scanning microdensitometry (64) 347

Drugs
Quantitative determination of clonazepam and its metabolites in human plasma by GC (93) 113

Drugs
The quantitation of cyclazocine and its metabolites in human urine by use of GLC (100) 63

Drugs
Quantitative determination of ethotoin in serum by GC (92) 157

Drugs
Quantitative GC determination of the major alkaloids in gum opium (89) 76

Drugs
A quantitative GLC method for the determination of pethidine and its metabolites, norpethidine and pethidine N-oxide in human biological fluids (89) 169

Drugs
Quantitative high-pressure LC analysis of bacitracin, a polypeptide antibiotic (99) 597

Drug
Quantitative TLC. Assay of --- mixtures by scanning of remission peaks (63) 121

Drugs
A rapid chromatographic procedure for the detection of some diuretics in pharmaceuticals and biological fluids (53) 408

Drugs
A rapid GC method for the determination of diazepam and metabolites in body fluids (90) 325

Drugs
A rapid GC method for the determination of thiamphenicol in body fluids and tissues (81) 71

Drugs
A rapid method of TLC to aid the identification of quaternary nitrogen ----- (77) 234

Drugs
A rapid screening procedure for some street --- by TLC (64) 129

Drugs
A rapid screening procedure for some "street-----" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211

Drugs
Rapid and sensitive GC determination of hexobarbital in plasma of man using a nitrogen detector (88) 235

Drugs
The rapid separation of nucleotides in cell extracts using high-pressure LC (52) 257

Drugs
A rapid thermomicro/TLC procedure for the identification of cannabinoids in marihuana (87) 298

Drugs
Routine identification of cocaine metabolites in human urine (89) 335

Drugs
Routine identification of ---- of abuse in human urine. I. Application of fluorometry, TLC and GLC (55) 255

Drugs
Routine identification of ---- of abuse in human urine. II. Development and application of the XAD-2 resin column method (63) 289

Drugs
Routine identification of ---- of abuse in human urine. III. Differential elution of the XAD-2 resin (81) 93

Drugs
A sensitive GC method for the determination of propranolol in human plasma (84) 347

Drugs
A sensitive and specific TLC method for the identification of 3,4-dimethoxyphenethylamine in urine samples (64) 341

Drugs
Separation and quantitative analysis of some benzomorphane derivatives by TLC (61) 361

Drugs
The separation of tetracyclin broad spectrum antibiotics by TLC (78) 445

Drugs
Separation of cyclobenzoprine from biological samples and its determination by TLC followed by densitometry (74) 85

Drugs
Separation of dihydroergotoxine (hydergine) into dihydroergocornine,

dihydroergocryptine and dihydroergocristine by counter-current distribution (88) 413

Drugs
Separation of morphine alkaloids, heroin, methadone and other ——— by ion-exchange chromatography (82) 398

Drugs
Silochroms as adsorbents and supports in LC (80) 167

Drugs
A simplified procedure for the identification of ——— from the illicit street market by TLC (78) 237

Drugs
Simplified multiple sample urinalysis in support of a methadone clinic (71) 165

Drugs
Simultaneous determination of 5,5-diphenylhydantoin and 5-(*p*-hydroxyphenyl)-5-phenylhydantoin in serum, urine and tissues by GLC after flash-heater methylation (82) 307

Drugs
Some chromatographic and electrophoretic data for amphetamine-like ——— (71) 370

Drugs
Specific CG determination of xanthines and barbiturates by flash-heater N-butylation (76) 467

Drugs
Stand up and be counted (82) 125

Drugs
Studies on quantitative *in situ* fluorometry of lysergic acid diethylamide (LSD) on thin-layer chromatograms (59) 127

Drugs
Studies of urinary metabolites of 2-(4-isobutylphenyl)propionic acid by GLC–MS (99) 541

Drugs
II. Study of the components of capsaicin. Quantitative GC determination of separate homologs and analogs of capsaicin mixtures from a natural source and of vanillyl pelargonic amide as adulteration (63) 281

Drugs
TLC and CC separation of capsaicinoids from ———. Study of the constituents of capsicum (79) 229

Drugs
TLC of chlorpromazine metabolites. Attempt to identify each of the metabolites appearing in blood, urine and feces of chronically medicated schizophrenics (75) 277

Drugs
TLC comparison of commercially available silica gel coated films and sheets with silica gel coated glass plates, demonstrated on toxicologically interesting substances (63) 67

Drugs
TLC identification of the gentamicin complex (78) 442

Drugs
TLC method for determining carbamazepine in blood (93) 238

Drugs
TLC of methyl N-trimethyl-γ-aminobutyrate chloride and related compounds (90) 230

Drugs
TLC of phenothiazine derivatives and analogues (75) 79

Drugs
TLC separation of quinoline alkaloids (100) 218

Drugs
An ultra rapid method for the extraction of ——— from biological fluids (63) 303

Drugs
The use of calciumcarbonate as adsorbent in TLC of morphine and morphinan derivatives (59) 212

Drugs
The use of electron-acceptor reagents for the detection of some hallucinogens (78) 241

Drugs
The use of the liquid phase Poly A-103 in toxicology (86) 225

Drugs
Use of stable isotopes in GC–MS studies of ——— metabolism (91) 413

Drugs
A vacuum UV atomic emission detector. Quantitative and qualitative chromatographic analysis of typical C, N, and S containing compounds (55) 237

Drugs, antidepressant
A thin-layer method for the determination of amitriptyline and nortriptyline in plasma (100) 55

Drug screening
A simple, rapid TLC --- procedure (95) 75
Drug screening
Improvements to --- with XAD-2 resin columns (77) 233
Dry-column chromatography
Improved preparative ---. Analysis of resolution by puncture sampling (71) 353
Dry-column chromatography
Improved preparative --- (87) 236
Dulcin
Application of CC and TLC to the detection of artificial sweeteners in foods (66) 283
Dulcin
Separation and detection of synthetic sweetners by TLC (52) 173
Dyes
Affinity chromatography of phosphofructokinase using Cibacron blue F3G-A (69) 209
Dyes
Identification of organic compounds. LXXIV. Paper electrophoresis of acid anthraquinone --- (54) 436
Dyes
Identification of organic compounds. LXXXI. A contribution to the chromatography of phenols as antipyrine --- (88) 364
Dyes
Liberation of acid --- from their quaternary ammonium salts on chromatograms (88) 370
Dyes
Lower limits of molecular weights of compounds excluded from Sephadex G-25 eluted with aqueous acetone mixtures. Application of the results to the separation of the components of tannic acid (52) 285
Dyes
A method of assay for sulphobromophthalein and other --- in whole blood by a DEAE-cellulose column technique (100) 211
Dyes
A new preparative TLC technique for using thicker layers (63) 45
Dyes
Photometric evaluation of thin layers by visual and IR light diode emitters (87) 67
Dyes
Problems arising during the chromatographic purification of some monoazo and styryl disperse --- (77) 455
Dyes
Purity control of some *o*-hydroxy-substituted thiazolylazo dyes by TLC (67) 335
Dyes
Separation and detection of basic --- by polyamide TLC (57) 437
Dyes
Separation and detection of water-soluble acid --- on polyamide thin layers (73) 173
Dyes
Separation and identification of certain xanthene and other red basic --- (77) 237
Dyes
Separation and identification of food colours. I. Identification of synthetic water soluble food colours using TLC (54) 393
Dyes
Separation and identification of food colours. Part II. Identification of synthetic oil-soluble food colours using TLC (56) 332
Dyes
Separation and identification of food --- (71) 585
Dyes
Separation and identification of food ---. V. Examination of Ponceau 6R dyes: extraction of dyes from confectionery products (cakes, cake mixtures and pastries) (84) 195
Dyes
Some problems in the purification of monoazo disperse --- by CC on alumina (51) 534
Dyes
Stabilisation of the diazo reaction: Its application in cellulose acetate electrophoresis (57) 169
Dyes
TLC of basic --- (81) 181
Dyes
TLC separation of methylene blue and related thiazine (60) 119

Dyes
TLC separation of water-soluble food ——— on silica gel layers (93) 243
Dyes
Very long Z-shaped TLC and its application to the separation of ——— (58) 294
Dynamic desorption method
Disturbing phenomena in the measurement of small surface areas by the ——— (65) 71

E

ECD, *see* Electron capture detector
Ecgonine
Detection of benzoyl ecgonine (cocaine metabolite) in urine by GC (85) 75
Ecgonine
Detection of biotransformed cocaine in urine from drug abusers (81) 170
Ecgonine
Separation of cocaine, some of its metabolites and congeners on glass fibre sheets (81) 167
EDDA
Preparation and some properties of N,N′-diethylethylenediamine-N,N′-diacetic acid and N′,N′-diethylethylenediamine-N′,N-diacetic acid, including ability of the former to associate with lanthanons and yttrium (76) 459
Edman degradation
Miniature TLC of phenylthiohydantoin amino acids. Application of automatic Edman degradation (80) 140
EDTA–ligand buffer solutions
Paper electrophoresis of metal ions in EDTA–ligand buffer solutions. II. Some bivalent metal ions and rare earth metal ions (72) 373
Effectiveness
Optimum use of PC, TLC and GLC for identification of basic drugs. I. Determination of effectiveness for a series of chromatographic systems (90) 1
Effectiveness
Optimum use of PC, TLC and GLC for the identification of basic drugs. II. PC and TLC (90) 9
Effectiveness
Optimum use of PC, TLC and GLC for the identification of basic drugs. III. GLC (90) 19
Efficiency
Problems of selectivity and efficiency in LSC (91) 187
Efficiency
Efficiency, resolution and speed of open tubular columns as compared to packed columns (91) 5
Effluent collection device
Simple device for the collection of GC effluents from small-bore packed columns (90) 185
Effluent trap
Efficient GC effluent trap for collecting air- and moisture-sensitive compounds (60) 248
Elastin
Amino acid analysis of elastin – a rapid method (71) 361
Elastin
Determination of ε-hydroxynorleucine and "reduced aldol condensate" by standard amino acid chromatography (79) 337
Elastin
Procedure for the automatic analysis of all amino acids in elastin hydrolyzates on a routine basis (79) 335
Electrical noise
Recent advances in the photodensitometric evaluation of thin-media chromatograms (63) 87
Electroendosmosis
Isotachophoresis. Phenomena that occur when conductometric detection is applied (91) 809
Electrofocusing
Polyacrylamide gel electrofocusing and the ampholyte shift (73) 296
Electrofocusing
Reduction of ferric myoglobin by Ampholine on acrylamide gel electrofocusing (76) 520
Electrofocussing
Formation of artifacts in electrofocussing on acrylamide gel with ampholines (87) 311
Electrolyte detector
Solid electrolyte detector for the determination of trace amounts of oxygen in the presence of argon and other gases (52) 367
Electrolytic conductivity detector
Comparative GC response of organophosphorus compounds containing nitrogen and nitrogen compounds with alkali flame detector and electrolytic conductivity detector (70) 37

Electrolytic conductivity detectors
Simple automatic venting valve for Coulson — — and microcoulometric GC detectors (84) 387
Electrolytic conductivity detector
Versatile — for GC (73) 19
Electromigration
Free-flow — separations (91) 867
Electron-acceptor reagents
Use — — for the detection of some hallucinogens (78) 241
Electron capture detection
Detector temperature in — — (68) 302
Electron capture detection
Effect of oxygen on — (71) 1
Electron capture detection
— in GC (98) 323 (review)
Electron capture detection
"Temperature-programmed" GC with — — (82) 269
Electron capture detectors
Comparative study of the ^{147}Pm and ^{63}Ni — — under identical geometrical conditions (76) 21
Electron capture detectors
Contamination problems with ^{63}Ni — — (90) 113
Electron capture detector
— —. Theory and practice (99) 3
Electron capture detector
Measurement of atmospheric nitrous oxide using an — in conjunction with GC (79) 322
Electron capture detector
Simplified — — (71) 532
Electron capture detector
Simplified design for an — — (95) 169
Electron capture detector
Use of an — — for the determination of pesticides in water (91) 545
Electron capture gas–liquid chromatography
High-resolution — — (92) 299
Electron capture response factors
Approximation of — — for highly electrophilic compounds (87) 9
π Electron delocalization energies
Chromatographic adsorption constants and — —. Correlation of values (62) 73
Electron-donor–acceptor
GLC studies of — — systems. VI. 2,4,7-Trinitrofluorenone as a complexing additive to the stationary phase (61) 7
Electron donor–acceptor complexes
Indoles and auxins. XIII. Identification and analysis of naturally occurring indoles via — (68) 173
Electron donor–acceptor systems
GLC studies of — —. V. Solute adsorption at the gas–liquid interface (61) 1
Electron impact mass spectrometry
Utilization of GLC coupled with chemical ionization and — — for the investigation of potentially hazardous environmental agents and their metabolites (98) 363 (review)
Electro-osmosis
— —. A new concept for high-speed LC (99) 23
Electrophilic compounds
Approximation of electron capture response factors for highly — — (87) 9
Electrophoresis
Disc — : avoiding artifacts caused by persulphate (53) 559
Electrophoresis
Rapid micromethod for — in Pevikon on thin-layer plates (61) 352
Electrophoresis
Studies on the polymerization of polyacrylamide gels used for — —. I. Effect of several factors on the kinetics of the polymerization reaction (100) 11
Electrophoresis
Studies on the polymerization of polyacrylamide gels used for — —. II. Effect of several factors on the degree of polymerization and the sensitivity of gels to osmotic pressure (100) 19
Elemental analysis
— — by GC (81) 233 (review)
Elementary analysis
Identification of organic substances by means of direct coupling of GC with — —. I. Analysis of hydrocarbons (65) 47
Elemicin
Chemical lability of the tertiary aminopropiophenones of eugenol as characterized by combined GLC and chemical ionization MS (73) 59
Elemicin
Metabolism of naturally occurring propenyl benzene derivatives. II. Separation and identification of tertiary aminopropiophenones by combined GLC and chemical ionization MS (73) 43

Eluate monitoring
Centrifugal elution chromatography with —— (99) 35
Elucidation of GC fractions
—— in hydrogenation and oxidation reactions (69) 37
Eluent
Use of bicarbonate as an easily removable —— in preparative and analytical ion-exchange chromatography (92) 166
Eluting agents
Some general aspects of hydrophobic interaction chromatography (87) 325
Elution characteristics
Gradient elution in LC. III. Verification of the theoretical relationships for —— (retention volume, band width and resolution) in isocratic and gradient elution chromatography on silica (93) 17
Elution chromatography
Centrifugal —— with eluate monitoring (99) 35
Elution curves
Hermite polynomial representation of chromatography —— (88) 1
Elution profile
—— in a linear chromatographic system (88) 197
Elution programming
Separation and determination of benzenepolycarboxylic acids by high-pressure elution LC. The use of —— (84) 285
Elution solvent
Influence of the water content of the solvent on chromatographic separations (95) 27
β-Emitters
Use of material labelled with soft —— in the Laurell immunoelectrophoretic technique (67) 382
Emulsifiers
Analysis of alkylene oxide–fatty alcohol condensates by GLC (84) 43
Enamel
Gel chromatography of proteins from human teeth (96) 258
Enantiomers
Chromatographic resolution of ——: ^{1}H and ^{13}C NMR studies of hydrogen bonding in chiral ureide ester–amide systems (71) 405
Enantiomers
Direct GC resolution of —— on optically active mesophases. I. Smectic carbonyl-bis-(D-leucine isopropyl ester) (87) 243
Enantiomers
Direct GC resolution of —— on optically active mesophases. II. Effects of stationary phase structure on selectivity (88) 41
Enantiomers
GLC resolution of several protein amino acid —— on a packed column (75) 13
Enantiomeric substances
Molecular interactions in a unique solvent–solute system (71) 193
Energy distribution function
Investigations of adsorbent heterogeneity by GC. II. Evaluation of the —— (92) 25
Enthalpy
Application of GLC to the determination of the temperature dependence of the excess partial molar —— of mixing at infinite dilution (100) 202
Enthalpy
Salting-in and salting-out of oxygen-containing compounds in GC. Entropy and —— aspects (68) 59
Entropy
Salting-in and salting-out of oxygen-containing compounds in GC. —— and enthalpy aspects (68) 59
Environmental agents
Utilization of GLC coupled with chemical ionization and electron impact MS for the investigation of potentially hazardous —— and their metabolites (98) 363 (review)
Environmental analysis
Use of graphitized carbon black in —— (99) 661
Environmental pollution
Separation of fifty pesticides and related compounds and polychlorobiphenyls into four groups by silica gel microcolumn chromatography (62) 63
Enzacryl Gel
Characterisation of cross-linked poly(acryloylmorpholines) as matrices for aqueous GPC (90) 249
Enzymes
Activity stain for urocanase and histidase on polyacrylamide gel (54) 286
Enzymes
Affinity chromatography of phosphofructo-

kinase using Cibacron blue F3G-A (69) 209
Enzymes
Agar derivatives for chromatography, electrophoresis and gel-bound ——. I. Desulphated and reduced cross-linked agar and agarose in spherical bead form (60) 167
Enzymes
Anomalous behaviour of catalase on agarose gel (66) 375
Enzymes
Detection of polygalacturonase and pectin lyase iso—— in polyacrylamide gels (96) 245
Enzymes
Facile purification of a β-glucan hydrolase by chromatography on DEAE-cellulose (71) 367
Enzymes
GC of trimethylsilyl derivatives of glucosinolates (57) 47
Enzymes
GC separation of esters of fluoro analogues of citric acid cycle intermediates (54) 130
Enzymes
High-voltage electrophoresis of —— (63) 173
Enzymes
Multiple catalases of the mycobacteria (56) 168
Enzymes
Preparation of cyanogen bromide-activated agarose gels (86) 53
Enzymes
Rapid assay of proteolytic —— on film material (93) 487
Enzymes
Sensitive GC method for human cholinesterase determination (57) 365
Enzymes
Simple method for the detection of peroxidase using CC (56) 158
Enzymes
Simple technique for the estimation of mitochondrial glutamate–oxaloacetate transaminase in serum and tissues (52) 162
Enzymes
Simple ultra-micro method for the separation and identification of dipeptides in mixtures obtained during polypeptide sequence determination with dipeptidylaminopeptidase I (85) 154
Enzymes
Utilization of the inhibition of some —— by phenoxyalkane carboxylic acid herbicides for their TLC–enzymatic identification (72) 333
Enzyme inhibition techniques
TLC and ——. Introduction (78) 29
Enzyme inhibitors
Determination and identification of pyrazole derivatives by GC–MS (64) 170
Enzyme systems
Radioisotopes–Introduction. Detection and chromatographic resolution of labeled lipid intermediates formed in —— (78) 141
Epichlorohydrin
GC study of the reaction between —— and methanol (91) 757
Epicillin
Separation of penicillins of closely related structure by partition chromatography on paper and cellulose thin-layer plates (79) 251
Epoxide resins
Identification of some polymers by the combined GC and TLC analysis of phenols formed by their pyrolysis (79) 91
Epoxy plasticisers
Identification of —— using TLC (75) 271
Epoxy plasticisers
TLC of —— (55) 422
Epoxy resin
Applications of GPC in the manufacture of epoxy-glass printed circuit laminates (55) 33
Epoxy resins
LC analysis of —— (91) 247
Equilin
Chromatographic separation of oestrone and —— (61) 193
Equilin
Thin-layer separation and detection of free estrogens (61) 187
Equine oestrogens
TLC separation of —— on silica gel H–silver nitrate plates (62) 158
Equivalent chain length
Additivity of retention data for

ethylenic functions in aliphatic fatty acids. I. Apiezon L (86) 73
Equivalent chain length
Additivity of retention data for ethylenic functions in aliphatic fatty acids. II. Polar liquid phases (86) 83
Erbium
Separation of rare earths by ion-exchange chromatography. III. Analysis of ---, thulium, ytterbium, and lutetium (75) 101
Erbium
Separation of yttrium from the lanthanides by ion exchange with diethylenetriamine-pentaacetic acid as eluant. I. Separation of yttrium--- mixtures (62) 449
Ergocalciferol
GLC of vitamin D as trimethylsilyl derivatives (65) 493
Ergocalciferol
Removal of cholesterol from serum extracts of vitamin D by TLC (65) 571
Ergosterol
Separation of the photochemical isomers of --- by TLC (59) 226
Ergot alkaloids
Analytical studies on --- and their derivatives. I. Separation of --- of the ergotoxine and ergotamine groups by TLC (87) 433
Ergot alkaloids
GC of --- (61) 339
Ergot alkaloids
Preliminary investigation of the high-speed LC of some --- (77) 425
Ergot alkaloids
Quantitative TLC of --- (64) 327
Ergot alkaloids
TLC of lysergide and other --- (72) 351
Ergotamine
Analytical studies on ergot alkaloids and their derivatives. I. Separation of ergot alkaloids of the ergotoxine and --- groups by TLC (87) 433
Ergotamine
Photodensitometric *in situ* evaluation of *Secale cornutum* alkaloids (72) 139
Ergotamine
Quantitative analysis of tropane alkaloids in pharmaceutical preparations (55) 417
Ergotoxine
Analytical studies on ergot alkaloids and their derivatives. I. Separation of ergot alkaloids of the --- and ergotamine groups by TLC (87) 433
Errors
Estimation of --- in the determination of heats of evaporation by GC (66) 191
Erythrocytes
Chromatographic study of steroids and methyl esters in nucleated --- (53) 217
Erythrocytes
Membrane chromatography of cells on sponge-like poly(2-hydroxyethyl) methacrylate (67) 362
Erythrocytes
New method for the *in situ* determination of phospholipids after thin-layer separation. The phospholipid content of Ca-ATPase and Na-,K-ATPase from human --- in comparison with the phospholipid content of human --- (82) 15
Erythro isomer of chloramphenicol
Preparation of trimethylsilyl derivatives of chloramphenicol for GLC (82) 297
Erythromycin
Chromatographic differentiation of --- and its esters (67) 69
Erythromycin estolate
Chromatographic differentiation of erythromycin and its esters (67) 69
Erythromycin ethyl succinate
Chromatographic differentiation of erythromycin and its esters (67) 69
Essential oils
Colour reactions of some aromatic ethers found in --- (65) 439
Essential oils
Use of high-efficiency packed columns for GSC. IV. The GC–MS analysis of complex organic mixtures (76) 1
Essential oil of mace
Identification of the major components of the --- (69) 115
Esters
Detection of --- as hydroxamates after separation by paper electrophoresis (56) 87
Esters
GC of homologous ---. Part IV. Influence of stationary phase polarity on retention of unsaturated --- (51) 415
Esters
GC of homologous ---. Part V. Retention of aliphatic esters on non-

polar, donor and acceptor stationary phases (60) 33
Esters
Ion-exchange chromatography of sulphur compounds, phenols, phosphorus compounds and — of carboxylic acids (86) 423 (review)
Esters
Topology-information relationship between the structures of ketones and saturated aliphatic — and their retention times in GC (77) 255
Esters
Topology-information relationship between the structures of saturated aliphatic — and their retention times in GC (68) 19
Esters, phenolic sulphate
Separation of phenolic O-glucuronides and — by multiple liquid–liquid partition (95) 213
Esterification
Rapid — for GC (88) 229
Esterification of carboxylic acids
Method for the — in GC analysis (82) 291
Etching
Analysis of steroids by high resolution GLC. I. Preparation of apolar columns (74) 177
Ethambutol
GC determination of — (89) 80
Ethanol
Determination of — in fresh and putrefied *post mortem* tissues (87) 455
Ethanolamine phosphoglycerides
Chromatographic resolution of molecular species of phosphatidylethanolamine as N-acyl-O-methyl derivatives (80) 233
Ethephon
Determination of 2-chloroethylphosphonic acid (—) in palm oil by TLC (60) 219
Ethers
Behaviour of ethers. I. Working out a "Taft"-like equation based on retention data of saturated — (90) 149
Ethers
Effect of solvent on the separation of oligomer poly— on Sephadex LH-20 (91) 237
Ethers
Ion-exchange chromatography of aldehydes, ketones, —, alcohols, polyols and saccharides (98) 55 (review)
Ethers, aromatic
Colour reactions of some — found in essential oils (65) 439
Ethotoin
Quantitative determination of — in serum by GC (92) 157
4-Ethoxyacetanilide
Analysis of aspirin and related compounds by LC (61) 253
p-(*p*-Ethoxyphenylazo)phenyl undecylenate
Behavior of — (EPAPU) liquid crystal as a chromatographic liquid phase on glass beads (99) 135
Ethrel
Determination of 2-chloroethylphosphonic acid (Ethephon) in palm oil by TLC (60) 219
Ethyl acrylate
GLC separation of — and methyl methacrylate (56) 126
Ethylamines
Identification of chlorohydrates of methylamines and — by TLC (59) 203
Ethylamphetamine
Double-spot formation in the TLC of pure fenfluramine hydrochloride and some other amines in the presence of organic solvents (79) 243
Ethyl biscoumacetate
GLC of coumarin anticoagulants and their trimethylsilyl ethers (64) 355
Ethylene diaminetetraacetic acid
Separation of NTA and EDTA chelates by TLC (79) 375
Ethylene dimethacrylate
Chromatographic properties of macroporous copolymers of 2-hydroxyethyl methacrylate and — (79) 99
Ethylene glycol
Determination of complex association constants from GC data. II. Complexes of silver ions with substituted alkenes in — at 40 °C (76) 115
Ethylene oxide
Analysis of alkylene oxide–fatty alcohol condensates by GLC (84) 43
Ethylene terephthalate
TLC of the linear oligomers of — (62) 109

Ethylthiourea complexes
Radiochromatographic and high-frequency titration studies on ---- of palladium(II) and platinum(II) (92) 419
Ethyl trifluoroacetate
Separation of *cis*- and *trans*-1,2-diaminocyclohexane via trifluoroacetylation. The use of --- as trifluoroacetylating agent (63) 370
Etiocholanolone
Steroids. I. Application of TLC to the separation of 2,4-dinitrophenylhydrazones of the physiological important 17-ketosteroids (61) 183
Etofyllin
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, noscapine, diphenhydramine hydrochloride, phenylephrine hydrochloride, caffeine, ----, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
Etofyllin
Quantitative TLC. Assay of drug mixtures by scanning of remission peaks (63) 121
Eugenol
Chemical lability of the tertiary aminopropiophenones of ---- as characterized by combined GLC and chemical ionization MS (73) 59
Euniatins
Determination of branched-chain N-methylamino acids (84) 361
Eurocicin
Separation of polyene antifungal antibiotics by high-speed LC (99) 619
Europium(III)
Ion-exchange processes of some trivalent elements on amorphous zirconium phosphate up to 250 °C (76) 221
Evaporation
Estimation of errors in the determination of heats of ---- by GC (66) 191
Everninomicin D
Quantitative TLC of ---- (86) 145
Excess enthalpies
Study on the reliability of the ---- calculated from GLC retention data (65) 241
Excess free energy
Theoretical investigation of the ---- of binary *n*-alkane systems (99) 193
Exclusion chromatography
New uses for molecular-size ---- (83) 125
Exo-trimethylenenorbornyl-2-exo phosphates
Gel chromatography of ---- on Sephadex LH-20 (60) 430
Explosives
Capillary decomposition of ---- and analysis by either vapor-phase chromatography or the combination of TLC and visible spectrometry (62) 417
Explosives
Continuous TNT process studies. III. TLC analysis of oxidation products from nitration (64) 123
Explosives
Determination of impurities in 1,3,5-trichlorobenzene (75) 39
Explosives
Identification of 1,3,5-triamino-2,4,6-trinitrobenzene impurities by two-dimensional TLC (71) 481
Extra-column volumes
Simultaneous determination of ---- and flow meter characteristics in GC (72) 384
Extraction
Thermal wave cycling zone separation. A preparative separation technique for counter-current distribution and chromatography (88) 211
Extraction columns
Study of ---- for aqueous polymer two-phase systems (73) 125
Extraction processes
Use of GLC for selecting extractive solvents for liquid ---- (77) 37
Extrema
GC study of chemical interactions in solutions (69) 17
Eye lens extracts
Isoelectric focusing of lens crystallins in thin-layer polyacrylamide gels. A method for detection of soluble proteins in ---- (60) 225

F

Factor analysis
Retention index–structure relationships for alcohols using ––– (69) 249
Farnesol
Analysis of straight-chain terpene alcohols by GC (88) 15
Fats
Analysis of inhibitors in edible ––– and oils by gel chromatography (71) 576
Fats
Analysis of oils and ––– by GC. Part IX. Separation factors of non-methylene-interrupted polyolefinic esters (61) 346
Fats
Critical evaluation of some factors influencing the quantitative isolation and characterisation of carbonyl compounds from oxidising ––– (57) 265
Fats
GC characterization of cooking ––– with reference to a case of murder (77) 228
Fats
Gel chromatographic separation of unsaponifiable fractions in ––– and oils (84) 319
Fats
Investigation of heated and oxidized oils and ––– by gradient elution LC (83) 461
Fats
Method for analyzing volatile alkanals from autoxidizing ––– (76) 125
Fatty acids
Accuracy in GC analysis of ––– (72) 249
Fatty acids
Additivity of retention data for ethylenic functions in aliphatic –––. I. Apiezon L (86) 73
Fatty acids
Additivity of retention data for ethylenic functions in aliphatic –––. II. Polar liquid phases (86) 83
Fatty acids
Analysis of human serum triglycerides by high-temperature GC (66) 239
Fatty acids
Analysis of oils and fats by GC. Part IX. Separation factors of non-methylene-interrupted polyolefinic esters (61) 346
Fatty acids
Analysis of some hydroxy fatty compounds as their trimethylsilyl ethers by GLC (55) 402
Fatty acids
Analysis of sucrose esters of long-chain ––– on Sephadex LH-20 (54) 367
Fatty acids
Application of GLC to analysis of carbon-14 biosynthetically labelled compounds (91) 497
Fatty acids
Capillary GC of free saturated C_2–C_6 ––– (68) 55
Fatty acid
CC of the bromo–mercuri–methoxy adducts of ––– methyl esters as a means of isolating polyenoic acids present in low concentrations (53) 253
Fatty acids
Chromatographic analysis of isomeric isovalerate and isoamyl wax esters (75) 137
Fatty acids
Complex-forming stationary phases in high-speed LC (83) 91
Fatty acids
Detection of –––, fatty aldehydes, phospholipids, glycolipids and cholesterol on thin-layer chromatograms stained with malachite green (88) 425
Fatty acids
Effect of carbon chain length upon extraction of volatile ––– from rumen liquor (63) 397
Fatty acids
Effect of column length and column packing mesh size on the analysis of volatile ––– by GC using Chromosorb 101 (74) 13

Fatty acids
Effect of temperature on the separation of the esters of --- by open tubular GC (65) 323
Fatty acids
Fatty acid composition of mustard (*Brassica nigra*) seed oil by GLC (86) 232
Fatty acids
GC analysis of low boiling --- in biological media (58) 201
Fatty acids
GC analysis of the higher --- of the alga *Chlorella vulgaris (pyrenoidosa)* (65) 371
Fatty acids
GC identification of free --- in trace amounts in natural materials (91) 127
Fatty acids
GC of C_1 to C_5 --- in rumen fluid and fermentation media (80) 250
Fatty acids
Gel filtration LC of --- and other fat samples using a Pye LC detector (71) 355
Fatty acids
GLC assay for plasma free --- (88) 253
Fatty acids
GLC of short-chain --- on Dexsil 300 GC (74) 335
Fatty acids
Heptadecenoic acid as an internal standard in the GC weight determination of --- (51) 155
Fatty acids
Identification of polymyxin B sulphate (52) 154
Fatty acids
Improved columns for the separation of C_{14}–C_{20}--- in the free form (91) 119
Fatty acids
Investigation of heated and oxidized oils and fats by gradient elution LC (83) 461
Fatty acids
Methacrylate resins for the GC separation of strongly polar compounds (91) 133
Fatty acids
Microanalytical quantitation of serum lipids by TLC utilizing an automated applicator (63) 63
Fatty acids
Preparation of methyl esters from the saponifiable --- in small biological specimens for GLC analysis (100) 35
Fatty acids
Qualitative separation of --- by isotachophoresis (76) 277
Fatty acid
Quantitative preparation and GC of short and medium chain --- benzyl esters (C_1–C_{12}) (75) 19
Fatty acids
Rapid GC method for the quantitation of volatile ---. Propionic acid excretion in vitamin B_{12} deficiency (81) 65
Fatty acids
Separation and identification of --- from *Macrophomina phaseoli* by TLC and GLC (85) 171
Fatty acids
Separation of --- and their derivatives on urea impregnated paper (60) 272
Fatty acids
Separation of mono- and dibasic --- by GC (51) 297
Fatty acids
Separation of small amounts of free --- from large amounts of neutral fats on Sephadex LH-20 (70) 164
Fatty acids
Simultaneous fluorometric analysis of five lipid classes on TLC (60) 111
Fatty acids
---. I. Synthesis of all the methyl undecynoates and the methyl *cis*-undecenoates and a study of their GLC properties (97) 165
Fatty acids
Volatile --- as solvents for the trimethylsilylation of polar compounds (85) 1
Fatty acid benzyl esters
GC–MS of C_1–C_{20} --- (87) 481
Fatty acid esters
Separation of polyunsaturated --- by argentation CC on silicic acid (69) 207
Fatty acid methyl esters
GC of cyclopropane --- prepared with methanolic boron trichloride and boron trifluoride (66) 138
Fatty acid methyl esters
Improved method for collection and measurement of radioactivity in compounds separated by GLC (67) 221
Fatty alcohol
Analysis of alkylene oxide– --- condensates by GLC (84) 43

Fatty alcohols
Chromatographic analysis of isomeric isovalerate and isoamyl wax esters (75) 137
Fatty aldehydes
Detection of fatty acids, ---, phospholipids, glycolipids and cholesterol on thin-layer chromatograms stained with malachite green (88) 425
Fatty esters, unsaturated
Retention behaviour of isomeric butenoic acid esters on stationary phases of varying polar character (62) 39
Fecal steroids
Detection and quantitative measurement of fecal water pollution using a solid-injection GC technique and --- as a chemical index (86) 107
Fenfluramine hydrochloride
Double-spot formation in the TLC of pure --- and some other amines in the presence of organic solvents (79) 243
Fermentation media
GC of C_1 to C_5 fatty acids in rumen fluid and --- (80) 250
Fermentation products
High-efficiency LC in pharmaceutical analysis (83) 431
Ferrocene
Hydrogen-rich flame ionization detector sensitive to metals (74) 319
Ferrocene
Selective detection of organometallics in GC effluents by flame photometry (74) 311
Ferulic acid
Improved methods for the estimation by GLC of lignin degradation products from plants (54) 335
α-Fetoprotein
Modified agarose derivative for affinity chromatography. Application to purification of human --- (87) 239
FFAP
Coupling of the flame photometric detector and the free fatty acid phase (---) capillary column in the trace analysis of sulphur compounds (77) 317
Fiber glass–epoxy resin
Laser pyrolysis–GC–MS analysis of polymeric materials (99) 301
Field desorption mass spectrometry
Potentiality of the coupling of column LC and --- (83) 315
Fitting method for peaks
Non-linear --- for recorded chromatographic peaks (95) 147
Flame excitation
Detection of heteroatoms in GLC effluents by ion-exchange --- and ionization (99) 349
Flame ionization
Detection of heteroatoms in GLC effluents by ion-exchange flame excitation and ionization (99) 349
Flame ionization detection
Chemical amplifier (cobaltocobaltic oxide/sodium alcoholate) with --- (69) 71
Flame ionization detector
Analytical fluidic sampling systems (99) 267
Flame ionization detector
Dependence of --- relative response factors on the configuration of the electrodes (51) 385
Flame ionization detector
Response of the alkali --- to silicon, tin and lead compounds (59) 429
Flame ionization detector
Sensitivity of the --- for dicarboxylic acid esters (77) 175
Flame ionization detector
Study of the --- (51) 391
Flame ionization detector
Wire detector with an alkali flame ionization sensing element for LC (91) 181
Flash-heater methylation
Simultaneous determination of 5,5-diphenylhydantoin and 5-(*p*-hydroxyphenyl)-5-phenylhydantoin in serum, urine and tissues by GLC after --- (82) 307
Flame photometric detector
Characteristics of S_2 emission intensity with a --- (77) 309
Flame photometric detector
Coupling of the --- and the free fatty acid phase (FFAP) capillary column in the trace analysis of sulphur compounds (77) 317
Flame photometric detector
Interferences of S_2 molecular emission in a --- (80) 61

Flame photometric detector
Response of a filter-less --- to heteroorganics (87) 232
Flame photometry
Characterization for the selective detection of sulphur compounds by --- (85) 45
Flat bed
--- (94) 353
Flat-bed chromatography
Combination of --- techniques with modern column techniques (78) 117
Flat-bed chromatography
Concluding remarks (78) 199
Flat-bed chromatography
Quantitative --- (Introduction) (78) 1
Flat-bed techniques
Redox ---. A study of papers loaded with amalgams (90) 215
Flavanols
Estimation of --- in tea by GC of their trimethylsilyl derivatives (57) 29
Flavins
Recoveries and reproducibility in TLC fluorimetric determination of --- by the elution method. Part VIII. Chromatography of riboflavin decomposition products (78) 105
Flavones
--- as fluorogenic spray reagents for organothiophosphorus pesticides on silica gel layers (59) 135
Flavones
Investigation of --- as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part I. General discussion of the method (54) 251
Flavones
Investigation of --- as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Flavones
Investigation of --- as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part III. Quantitation of the method (60) 213
Flavones
Qualitative identification and quantitative determination of flavonols and --- (76) 433
Flavonoids
Acid degradation of --- as an aid in their identification (74) 155
Flavonoids
Direct densitometric determination by absorption of --- of the yellow-weld (*Reseda luteola* L.) separated by TLC (71) 487
Flavonoids
GC of --- (79) 45
Flavonoids
New chromogenic reagent for the detection of phenolic compounds on thin-layer plates (79) 350
Flavonoids
TLC of --- after addition of complex-forming reagents to the eluting solvent (62) 156
Flavonoids
TLC separation of some isoflavones and coumestrol (58) 297
Flavonoid derivatives
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Flavonols
Qualitative identification and quantitative determination of --- and flavones (76) 433
Flavour components
GC analysis of --- with correlation isothermal retention indices (61) 65
Flavour components
GLC analysis of 2,4-dinitrophenylhydrazones of carbonyl compounds (65) 355
Flow cells
Small-volume solid-electrode flow-through electrochemical cells. Preliminary evaluation using pulse polarographic techniques (83) 331
Flow control
Control of flow rate in high pressure LC (60) 65
Flow development
Apparatus for continuous --- in TLC (66) 75
Flow fluorometer
Miniature --- for LC (73) 117
Flow meter characteristics
Simultaneous determination of extra-column volumes and --- in GC (72) 384

Flow-rate programming
Improvement of the productivity of a preparative-scale GC unit by --- and column switching (86) 25
Fluid chromatography
Experimental results and physico-chemical aspects of supercritical --- with carbon dioxide as the mobile phase (83) 135
Fluid chromatography
Supercritical --- (68) 303 (review)
Fluid grading method
Critical operating parameters of the --- (84) 225
Fluidic sampling systems
Analytical --- (99) 267
Fluid method
Grading of chromatographic supports and packings according to particle size by the --- (75) 1
Flunitrazepam
Determination of clonazepam and --- in blood by electron-capture GLC (99) 447
Fluorene
Rapid-scanning spectrophotometry as a new detection system in chromatography (83) 357
Fluorescamine
Separation of --- derivatives of aliphatic diamines and polyamines by high-speed LC (96) 250
Fluorescamine
Usage of --- as a spray reagent for TLC (89) 361
Fluorescence
Effect of humidity on the amount of --- exhibited by chromatographically separated dansyl derivatives (63) 141
Fluorescence
New procedure for inducing --- in quantitative TLC for organic compounds (82) 95
Fluorescence
Quantitative assessment of --- on thin media chromatograms. A theoretical study (72) 231
Fluorescence detection
CC of amino acids with --- (83) 353
Fluorescence detector
--- for high-speed LC (72) 293
Fluorescence measurements
Quantitative TLC of porphyrins by *in situ* --- (63) 113
Fluorescence quenching
GC detector based on ---. Coupling of a gas chromatograph with a filter fluorimeter (100) 27
Fluorescent compounds
Recent advances in the GC and LC of ---. I. A direct gas-phase isolation and injection system for the analysis of polynuclear arenes in air particulates by GLC (99) 697
Fluorescent densitometry
Quantitative analysis on TLC. Theory of absorption and --- (78) 7
Fluorigenic derivatization
Quantitative assay for sennosides by --- on TLC (79) 223
Fluorigenic labelling
--- in high-speed LC (83) 321
Fluorimeter
GC detector based on fluorescence quenching. Coupling of a gas chromatograph with a filter --- (100) 27
Fluorimetric derivatization
--- for pesticide residue analysis (98) 253 (review)
Fluorimetry
New fluorimetric procedure for the detection and quantitation of organic compounds in TLC (99) 643
Fluorine combustion GC
Simultaneous carbon and oxygen determination by --- (69) 355
Fluorobenzenes
Separation of selected poly--- by GLC (69) 363
Fluorobromobenzenes
Separation of --- by GLC (54) 145
Fluorocarbons
GC study of the existence and the physical state of monomolecular films of stationary phases in contact with siliceous supports. The apparent increase of the melting point of the film (68) 9
Fluorocarbons
GC study of thin films of paraffins on graphite supports (77) 289
Fluorocarbons
Separation of the C_7F_{16} isomers by GC (69) 359
Fluorogens
Quantitative assessment of chromatographically separated chromogens and --- (63) 75

Fluorophores
Effect of humidity on the amount of fluorescence exhibited by chromatographically separated dansyl derivatives (63) 141
Fluorosilicone stationary phases
Decomposition of --- in solution (70) 81
5-Fluorouracil
CC of --- on Sephadex G-10 (92) 339
Fluphenazine
GLC analysis of --- and --- sulfoxide in the urine of chronic schizophrenic patients (75) 294
Fluphenazine sulfoxide
GLC analysis of fluphenazine and --- in the urine of chronic schizophrenic patients (75) 294
Flurazepam
Determination of --- (Dalmane®) and its major metabolites in blood by electron-capture GLC and in urine by differential pulse polarography (99) 461
Focusing effects
--- in electrophoresis by variable potential gradients (93) 41
Fodder
Gel-electrophoretic identification of antibiotics in --- (87) 305
Fodder
TLC identification of antibiotics in --- (87) 300
Folates
TLC of pteroylglutamates and related compounds. Application to transport and metabolism of reduced --- in blood (79) 195
Food
Simple identification of thirteen additives in composed --- by TLC (59) 467
Food analysis
Application of LC in --- (83) 455
Food dyes
Separation and identification of ---. I. Identification of synthetic water soluble --- using TLC (54) 393
Food dyes
Separation and identification of ---. Part II. Identification of synthetic oil-soluble --- using TLC (56) 332
Food dyes
Separation and identification of ---. III. Improved resolution of selected dye pairs (71) 585
Food dyes
Separation and identification of ---. IV. Extraction of synthetic water-soluble --- (72) 325
Food dyes
Separation and identification of ---. V. Examination of Ponceau 6R dyes: extraction of dyes from confectionery products (cakes, cake mixtures and pastries) (84) 195
Food dyes
TLC separation of water-soluble --- on silica gel layers (93) 243
Food extracts
Use of high-efficiency packed columns for GSC. IV. The GC–MS analysis of complex organic mixtures (76) 1
Food preservatives
Determination of ether-soluble --- after direct extraction on paper (76) 199
Foods
Estimation of volatile N-nitrosamines by high-performance LC (83) 471
Foods
Investigation of heated and oxidized oils and fats by gradient elution LC (83) 461
Foodstuffs
GC determination of carbonyl compounds as their phenylhydrazones (88) 177
Forensic analysis
Liquid–solid extraction of lyophilized biological material for ---. I. Application to urine samples for detection of drugs of abuse (63) 309
Forensic analysis
Liquid–solid extraction of lyophilized biological materials for ---. II. Application to bile samples for the detection of drugs (66) 63
Formaldehyde
Gaseous ---: A sensitive chromatographic detection reagent for tryptophanyl-dipeptides (59) 209
Formaldehyde
Separation of the condensation products of β-naphthalenesulphonic acid and --- by salting-out chromatography (56) 51
Formaldehyde plant
GC analysis of waste gases from a --- (60) 422

Formamide
GLC analysis of small amounts of ––– (61) 145
Formic acid
Degradation of Sephadex G-150 by 50% ––– and acetic acid (58) 285
Formic acid
Determination of ––– in dilute aqueous solution and separation and determination of aniline and toluidine isomers by GC of formanilide and formyl toluidides (51) 139
Formic acid
GC separation and detection of C_1 to C_3 monocarboxylic acids as the *p*-substituted benzyl esters (52) 63
Fourier transforms
Use of fast, finite, ––– for the solution of Tung's equation. II. Theory and application (55) 175
Fractional chain length
Additivity of retention data for ethylenic functions in aliphatic fatty acids. I. Apiezon L (86) 73
Fractional chain length
Additivity of retention data for ethylenic functions in aliphatic fatty acids. II. Polar liquid phases (86) 83
Free bases
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of phenothiazine and related drugs (74) 35
Free energy of adsorption
Advances in the application of GC to the study of heterogeneous catalysis (99) 281
Free fatty acids
––– phase high resolution capillary columns (61) 334
Free fatty acid phase
Identification of peaks in GC by the use of subtractor columns. II. The action of ––– on aldehydes (66) 249
Frontal chromatography
Modified gas chromatograph for thermodynamic measurements by ––– (92) 47
Fructo-oligosaccharides
TLC of ––– (56) 163
Fructose
GC determination of ––– and glucose in syrups (56) 121
Fructose
Modified *p*-anisidine technique for the detection and permanent recording of free and combined ––– on paper chromatograms (74) 369
Fruit juices
Isotachophoresis. Applications in the biochemical field (91) 837
Fuberidazole
Detection of naturally fluorescent pesticides on silica gel layers (79) 217
Fucose
Densitometry of thin-layer chromatograms using polaroid projection film. Application to the analysis of monosaccharides (52) 437
Fucose
Rapid quantitative TLC separation of ––– from other neutral monosaccharides. An application to separate other sugars of physiological interest (57) 391
Fulvic acid
Isotachophoresis and isoelectric focusing of soil humic substances in polyacrylamide gel (93) 248
Fumaric acid
Methylation of dibasic acids with diazomethane in GC (70) 59
Functional groups
GC retention and molecular structure. An approach to systematic identification of ––– and carbon number (99) 203
Functional groups
Systematic analysis of organosilicon compounds by chromatographic methods. II (67) 37
Fungi
Simultaneous detection of metabolites from several toxigenic ––– (80) 255
Fungicides
Agricultural –––. I. Identification of systemic ––– using TLC (81) 174
Fungicides
Agricultural –––. II. Detection and identification of systemic benzimidazole ––– on citrus fruit (87) 585
Fungicides
Determination of biphenyl and orthophenylphenol in citrus fruits by GC (77) 331
Fungicides
Fungitoxic alkyl 2-benzimidazolecarbamates and some TLC detection reagents (93) 491

Fungicides
GC separation of hexachlorobenzene and the α-, β-, γ- and δ-isomers of hexachlorocyclohexane (71) 340
Fungicides
Identification of hexachlorobenzene residues by GLC (69) 198
Fungicides
Investigation and determination of 4,6-dinitro-o-cresol in water (87) 287
Fungicides
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Fungicides
Investigation of fluorigenic labelling of chlorophenols with dansyl chloride (84) 214
Fungicides
Metabolism of dialkyldithiocarbamates. I. Determination of amines using a reaction with isocyanates followed by GC identification of the urea derivatives formed (94) 65
Fungicides
Separation and determination of some systemic --- and their metabolites by TLC (72) 410
Fungicides
Silver nitrate–bromophenol blue and potassium permanganate–sulphuric acid as chromogenic reagents for the detection of carboxin and oxycarboxin in TLC (87) 283
Fungicides
Sodium azide–iodine reagent for the detection of 1,4-oxathiin derivatives by TLC (100) 247
Fungicides
TLC detection of organomercury compounds (72) 153
Fungitoxic substances
Direct bioautography on thin-layer chromatograms as a method for detecting --- (51) 327
Furans
Chromatography of products found in the synthesis of monosaccharides from --- and thiophenes (91) 767
Furan
Furan derivatives. III. The GC of α,β-unsaturated sulphones of the 5-nitro--- series (90) 195
Furan
GC behaviour of some isomeric derivatives of thiophene and --- (52) 347
Furfuryl alcohol
Study of --- resin components by GPC (54) 33
6-Furfurylaminopurine
Chromatography of five cytokinins on an insoluble polyvinylpyrrolidone column (75) 122
Furil
TLC and PC of some 1,2-dioximes and their monoximes (57) 107
Furocoumarins
Separation of --- by high-pressure LC (77) 431
Furosemide
Determination of --- concentrations in plasma and urine using high-speed LC (100) 189

G

Galacitols
GLC of some partially methylated alditols as their trimethylsilyl ethers (73) 29
Galactopyranosides
PC and TLC of 1-thio-β-D-galacto-pyranosides (79) 373
D-Galactosamine
Rapid GC analysis of hexosamines in body fluids (94) 298
Galactosaminitol
Improved method of separating glucosaminitol from --- and their amino sugars on an amino acid analyser (51) 314
Gallic acid
Lower limits of molecular weights of compounds excluded from Sephadex G-25 eluted with aqueous acetone mixtures. Application of the results to the separation of the components of tannic acid (52) 285
Gallium
Reaction for identification of Al^{3+}, Ga^{3+}, In^{3+}, Tl^{+} separated by PC (54) 289
Gallocatechin
Separation of theaflavins on Sephadex LH-20 (54) 133
Gangliosides
Densitometric method for the determination of --- after their separation by TLC and detection with resorcinol reagent (86) 200
Ganglioside
Purification of --- fractions by CC on Sephadex G-100 (58) 288
Gas adsorption chromatography
Molecular–statistical calculation of retention volumes in --- (58) 55
Gas chromatograph
Automatic device for injection of gas samples into a --- (53) 358
Gas chromatograph
Cryogenic --- (89) 1
Gas chromatograph
Multiple column --- (53) 125
Gas chromatograph–mass spectrometer
Simple device for analogue recording of the abundance of selected ions from a combined --- (71) 337
Gas chromatograph–mass spectrometer
Use of a --- for the analysis of complex hydrocarbon mixtures (51) 45
Gas chromatographic columns
Efficiency, resolution and speed of open tubular columns as compared to packed columns (91) 5
Gas chromatographic columns
Method for preparing glass capillary columns for GC (91) 25
Gas chromatographic phase
Characteristics of a novel --- (88) 7
Gas chromatographic zones, identification of
--- in practical GLC. Influence of adsorption on relative retention (98) 477 (review)
Gas chromatography
Active surface sites and deactivation of Chromosorb 102 (60) 319
Gas chromatography
Adsorption studies on Porapak S at various temperatures by --- and static methods (59) 1
Gas chromatography
Applications of --- in petroleum chemistry (65) 85
Gas chromatography
Applicability of linear free energy relationships for the identification of some alkyl aromatic hydrocarbons by open tubular column --- (51) 119
Gas chromatography
Application of precision --- to the identification of types of hydrocarbon (51) 13
Gas chromatography
Approach to the development of a simple and rapid GC method for the determination of surface area (74) 171
Gas chromatography
Calculation of area factors without the use of pure components of analysed mixtures (54) 321
Gas chromatography
Calculation of response factors in --- (75) 173, (85) 183

Gas chromatography
Characterisation of polypropylene by pyrolysis --- (51) 59
Gas chromatography
Combination of --- and NMR spectroscopy (69) 194
Gas chromatography
Comments on solid sampling --- (90) 285
Gas chromatography
Comparison of isothermal and non-linear temperature programmed ---. The temperature dependence of the retention indices of a number of hydrocarbons on squalane and SE-30 (57) 11
Gas chromatography
Continuous detection of radioactive --- effluents by liquid scintillation (76) 13
Gas chromatography
Contribution to the application of the compressibility factor in programmed-temperature, programmed-flow and double-programmed (temperature and flow) --- (81) 136
Gas chromatography
Contribution to the theory of the retention index system. III. Retention index and molecular structure. Calculation of retention indices of paraffin hydrocarbons on the basis of their molecular structure (56) 1
Gas chromatography
Contribution to the theory of the retention index system. V. Characterization of polarity of stationary phases. McReynolds system (73) 11
Gas chromatography
Determination of complex association constants from --- data. Basic relationships (69) 243
Gas chromatography
Discussion of the decrease in the homologous retention increment on raising the polarity of a stationary phase in --- (78) 269
Gas chromatography
Effect of non-equilibrium in --- (87) 1
Gas chromatography
Effect of oxygen on electron capture detection (71) 1
Gas chromatography
Effect of sorption on retention times in non-linear chromatography (84) 1
Gas chromatography
Efficacy of the corrections applied in the resolution of overlapping chromatographic peaks by the perpendicular drop method (55) 221
Gas chromatography
Efficient --- effluent trap for collecting air- and moisture-sensitive compounds (60) 248
Gas chromatography
Estimation of errors in the determination of heats of evaporation by --- (66) 191
Gas chromatography
Evaluation of dynamic --- methods for the determination of adsorption and solution isotherms (58) 137
Gas chromatography
Evaluation of errors in determination of --- retention parameters and derivative quantities (77) 107
Gas chromatography
Evaluation of errors in --- (60) 1
Gas chromatography
Evaluation of linear gradient loaded columns in temperature programmed --- (58) 195
Gas chromatography
Experimental study of the effect of column length and pressure on the HETP in --- (52) 1
Gas chromatography
--- of the products formed by thermal decomposition of "pyrolysis resin" (51) 83
Gas chromatography
--- on modified supports (99) 45
Gas chromatography
--- on monolayers (58) 19
Gas chromatography
--- on some self-associating octadecane derivatives (51) 65
Gas chromatography
--- from the standpoint of the theory of sets (58) 102
Gas chromatography
--- study of a ternary liquid system (59) 151
Gas chromatography
--- using linear programmed pressure. Method for calculation of the solute retention time. Influence of parameters (96) 15

Gas chromatography
--- using simultaneously programmed temperature and a programmed longitudinal negative temperature gradient. Retention theory and influence of parameters (58) 159
Gas chromatography
--- with backflushing coupled with linear temperature programming (89) 139
Gas chromatography
GLC/GSC of hydrogen-bonding compounds (62) 462
Gas chromatography
High precision measurement of specific retention volumes (51) 3
Gas chromatography
Identification of organic substances by means of direct coupling of --- with elementary analysis. I. Analysis of hydrocarbons (65) 47
Gas chromatography
In situ synthesis of silicone liquid phases for chromatography (60) 329
Gas chromatography
Major components influencing retention indices in --- (80) 43
Gas chromatography
Method of sampling by conventional syringes from moderately pressurized closed systems (60) 127
Gas chromatography
Model for preparative scale --- (65) 19
Gas chromatography
Moment vectors in linear --- (100) 1
Gas chromatography
Nonadditivity of the gas and liquid phase mass-transfer resistances in --- (53) 429
Gas chromatography
Open tubular column --- of dehydrogenation products of C_6–C_{10} *n*-alkanes. Separation and identification of mixtures of C_6–C_{10} straight-chain alkanes, alkenes and aromatics (51) 75
Gas chromatography
Physico-chemical fundamentals of --- retention on porous polymer columns: Porapak Q and T (51) 37
Gas chromatography
Potentialities of micro-packed columns. Some applications in petroleum chemistry (65) 29
Gas chromatography
Precision and other aspects of --- analysis by the linear relationship method (69) 231
Gas chromatography
Precision of --- retention data in the manual processing of the chromatogram (51) 23
Gas chromatography
Pressure dependence of the coefficients of mass-transfer resistance in --- (53) 421
Gas chromatography
Pressure induced turbulence in a packed --- column (52) 221
Gas chromatography
Properties of acid-washed and silanised Czechoslovak supports: Chromaton N and Chezasorb (51) 103
Gas chromatography
Quantitative GC analysis with and without pure components of analysed mixtures (54) 327
Gas chromatography
Radiolysis products as reference substances in --- (52) 227
Gas chromatography
Reaction --- of microgram and submicrogram samples using sealed glass capillaries (75) 304
Gas chromatography
Reactions on aluminium oxides. IV. Conversions of acetophenone on aluminium oxide (74) 129
Gas chromatography
Reduction of tailing due to aluminium tubing used for --- columns (80) 124
Gas chromatography
Relations between --- behaviour and chemical structure. III. The nature of internal rotation in methyl derivatives of benzene (52) 21
Gas chromatography
Report of the --- discussion group (60) 153
Gas chromatography
Reproducibility of retention data on porous polystyrene polymers (Porapaks) (59) 423
Gas chromatography
Response prediction of the thermal conductivity detector with light carrier gases (59) 269

Gas chromatography
Retention in --- obtained with a longitudinal temperature gradient with a constant growth rate (54) 1
Gas chromatography
Sample trapping and reinjection technique for use with --- (90) 57
Gas chromatography
Second-order reaction on a --- column. I. Computational analysis by the plate theory (52) 31
Gas chromatography
Second order reaction on a --- column. II. Decomposition of IBr on a chromatographic column (52) 39
Gas chromatography
Septumless liquid injection for high-temperature --- on packed columns (68) 47
Gas chromatography trap
Silylation of microgram samples in --- (82) 370
Gas chromatography
Simple device for the selection of fractions in --- (53) 354
Gas chromatography
Simple quantitative method for trapping and transfer of low concentration --- fractions suitable for use with small diameter glass column systems (52) 375
Gas chromatography
Simplified electron capture detector (71) 532
Gas chromatography
Some non-analytical applications of high-pressure --- (58) 95
Gas chromatography
Statistical processing of calibration data in quantitative analysis by --- (51) 375
Gas chromatography
Study of --- parameters obtained by coupling a longitudinal temperature gradient with a linear temperature programmation (52) 9
Gas chromatography
Study of the shape of chromatographic bands in preparative --- columns (77) 97
Gas chromatography
Study on the possibility of determining the third gas–solid virial coefficient in physical adsorption by --- (66) 1
Gas chromatography
Study on the reliability of the excess enthalpies calculated from GLC retention data (65) 241
Gas chromatography
Surface-bonded silicones from volatile monomers for chromatography (53) 487
Gas chromatography
"Synachrom", a macroporous copolymer, as a sorption material for --- (51) 111
Gaa chromatography
System of standard retention indices and its uses. The characterisation of stationary phases and the prediction of retention indices (57) 1
Gas chromatography
Technique for the hydrogenation or hydrogenolysis of sub-microgram amounts of material collected from a gas chromatograph (60) 345
Gas chromatography
Unexpected behavior of a common GC phase (77) 299
Gas chromatography
Use of chemical methods for the preparation of standard mixtures for qualitative analysis by --- (98) 157 (review)
Gas chromatography
Variation of performance of porous polymer bead columns in --- (51) 129
Gas chromatography
Variation of the retention index with temperature, determined in --- of ideal solutions (58) 169
Gas chromatography–mass spectrometry
Application of --- in routine and research in clinical chemistry (91) 353
Gas chromatography–mass spectrometry
Direct coupling of high-resolution open-hole glass tubular columns to a mass spectrometer for biochemical applications (91) 385
Gas chromatography–mass spectrometry
Use of high-efficiency packed columns for GSC. IV. The --- analysis of complex organic mixtures (76) 1
Gas density detector
New GC method for molecular weight determinations using a --- (64) 162
Gases
GC analysis of the contents of sealed ampoules (96) 229

Gases
GC analysis of waste --- from a formaldehyde plant (60) 422
Gases
One-step analysis of a mixture of permanent --- and light hydrocarbons by GC (89) 73
Gases
Solid electrolyte detector for the determination of trace amounts of oxygen in the presence of argon and other --- (52) 367
Gases, exhaust
Application of chromatography to the analysis of --- (91) 525
Gases, reactive
GC of some reactive gases on graphitized carbon black (62) 128
Gas–liquid chromatographic retention
Steric factor in --- (87) 29
Gas–liquid chromatography
Adsorption in --- (58) 73
Gas–liquid chromatography
Adsorption phenomena in --- (65) 227
Gas–liquid chromatography
Analysis of steroids by high resolution ---. I. Preparation of apolar columns (74) 177
Gas–liquid chromatography
Contribution to the theory of the retention index system. VI. Calculation of the retention indices of compounds containing halogen atoms or hydroxyl groups, amines, ketones, esters, heterocyclic compounds, adamantanes, silanes and steroids on apolar and polar stationary phases in --- (81) 1
Gas–liquid chromatography
Determination of the temperature-dependence of the retention index in --- by computer (66) 205
Gas–liquid chromatography
Evaluation of changes in the specific surface area of sorbents based on the volume of stationary phase in --- (78) 261
Gas–liquid chromatography
---–MS investigation of C_6–C_{20} organic compounds in an urban atmosphere. An application of ultra trace analysis on capillary columns (62) 1
Gas–liquid chromatography
--- studies of electron-donor–acceptor systems. V. Solute adsorption at the gas–liquid interface (61) 1
Gas–liquid chromatography
High-resolution electron capture --- (92) 299
Gas–liquid chromatography
History of --- (81) 197 (review)
Gas–liquid chromatography
Influence of temperature on the polarity of stationary phases used in --- (59) 21
Gas–liquid chromatography
Interactions of polar solutes with non-polar stationary phases in --- (58) 81
Gas–liquid chromatography
Kinetic model for --- with adsorbent effects (78) 251
Gas–liquid chromatography
Methods for coating the stationary liquid phase on the solid support in analytical and physico-chemical applications of ---. A chromatographic method for the determination of impurities (58) 87
Gas–liquid chromatography
New technique for solid injection in ---. Analysis of barbiturates in urine (66) 136
Gas–liquid chromatography
Non-ideal line shapes in --- (89) 119
Gas–liquid chromatography
Novel, polymer-deactivated adsorbents as supports in --- (89) 369
Gas–liquid chromatography
On the mechanism of support surface adsorption in --- systems (74) 3
Gas–liquid chromatography
Selective monomolecular layers for improved wettability of glass capillary columns for --- (84) 167
Gas–liquid chromatography
Theory of ---. The influence of the thickness of the stationary liquid film (80) 147
Gas–liquid partition detector
---. New principle for indirect non-destructive detection of non-volatile solutes (70) 25
Gas–liquid partition equilibrium
Influence of static and dynamic effects on the reproducibility of retention data in GLC (80) 25

Gas–liquid–solid chromatography
Use of high-efficiency packed columns for GSC. IV. GC–MS analysis of complex organic mixtures (76) 1
Gas–liquid–solid chromatography
Use of high-efficiency packed columns for GSC. V. Micropacked columns (90) 239
Gas mixtures
Determination of adsorption isotherms of the components of binary --- by GC (79) 1
Gasoline
Chromatographic analysis of primary light --- and Pbi-H fractions of Romashkino crude oil (51) 91
Gasoline
GC characterization of sulphur compounds in the 93–162° --- cut from Romashkino crude oil using Kováts retention indices (65) 207
Gas-phase isolation and injection system
Recent advances in the GC and LC of fluorescent compounds. I. A direct --- for the analysis of polynuclear arenes in air particulates by GLC (99) 697
Gas–solid chromatographic peaks
Non-linear fitting method for recorded chromatographic peaks (95) 147
Gas–solid chromatography
Adsorbents for --- prepared by epitaxial modification of clay minerals with quaternary ammonium ions (58) 31
Gas–solid chromatography
Determination of differential heats of adsorption by --- (61) 207
Gas–solid chromatography
Effect of carrier gas nonideality and adsorption on the net retention volume in --- (53) 439
Gas–solid chromatography
Estimation of the surface area of adsorbents from the gas–solid virial coefficient (72) 221
Gas–solid chromatography
Flow of He, Ar, and CO_2 through a 200 ft. 1/8 in. O.D. Porapak S (50–80 mesh) column at 273°K (53) 453
Gas–solid chromatography
--- on modified alumina stationary phases. I. Behaviour of aromatic hydrocarbons (60) 406
Gas–solid chromatography
Silver complexes as adsorbents in --- (57) 313
Gas–solid chromatography
Study of the strontium and barium halides as column packings in --- (53) 477
Gas–solid chromatography
Theoretical approach to --- applied to the slow attainment of adsorption equilibrium and to the Langmuir isotherm (94) 1
Gas–solid systems
New method for the determination of simultaneous adsorption isotherms in --- by means of GC (71) 173
Gas velocity
Non-ideal line shapes in GLC (89) 119
Gaussian peaks
Practical quantitative method for unresolved GC peaks. I. Two overlapping peaks (66) 9
Geigeria
Detection and TLC of sequiterpene lactones from --- species (94) 255
Gels
Determination of the solvent regain of Sephadex --- by CC (94) 267
Gels
Studies on the polymerization of polyacrylamide --- used for electrophoresis. I. Effect of several factors on the kinetics of the polymerization reaction (100) 11
Gels
Studies on the polymerization of polyacrylamide --- used for electrophoresis. II. Effect of several factors on the degree of polymerization and the sensitivity of gels to osmotic pressure (100) 19
Gel adsorption chromatography
Hydrophobic interaction in --- (69) 123
Gel chromatography
Application of vinyl acetate gels (53) 63
Gel chromatography
Comments on the use of Blue Dextran in --- (53) 379
Gel chromatography
Effect of solvent change on the separation processes of Sephadex LH-20 Modified Dextran (56) 225
Gel chromatography
Effect of temperature on the interaction of phenols with Sephadex gels (51) 307

Gel chromatography
Effect of temperature on the porosity of dextran gels (56) 140
Gel chromatography
---: effect of temperature on partitioning (87) 17
Gel chromatography
---: interactions between gel matrix, solvent and solute (80) 187
Gel chromatography
Increased resolution of polymers through longitudinal compression of agarose gel columns (52) 494
Gel chromatography
Influence of solvent and temperature in dextran --- (59) 335
Gel chromatography
Number of carboxyl groups in highly cross-linked gels and its influence on cation selectivity (71) 55
Gel chromatography
Orange Dextran as a void volume marker in thin-layer --- (74) 355
Gel chromatography
Principles of --- (52) 205
Gel chromatography
Syntheses and properties of --- materials (53) 37
Gel chromatography
Thin-layer --- in organic liquids (74) 352
Gel electrofocusing
Electroosmotic flow in agarose gels and the value of agarose as stabilising agent in --- (54) 405
Gel electrophoresis
On the efficiency of --- (66) 19
Gel filtration
Determination of parameters in dextran --- (74) 59
Gel filtration chromatography
Calibration of tightly cross-linked gel filtration media for determination of the size of low molecular weight, non-interacting solutes (54) 43
Gel matrix
Gel chromatography: interactions between ---, solvent and solute (80) 187
Gel permeation chromatography
Applications of --- in the manufacture of epoxy-glass printed circuit laminates (55) 33
Gel permeation chromatography
Application of preparative --- to polyurethane foam technology (55) 173
Gel permeation chromatography
Causes of skewed molecular weight distributions in gel permeation separation of nylon resins (55) 193
Gel permeation chromatography
Characterisation of cross-linked poly-(acryloylmorpholines) as matrices for aqueous --- (90) 249
Gel permeation chromatography
Characterisation of low-molecular-weight difunctional polybutadienes (55) 121
Gel permeation chromatography
Chemical heterogeneity and composition of a modified poly(ethylene terephthalate) (55) 5
Gel permeation chromatography
Chromatographic applications of the polyethylene glycol dimethacrylate gel Merckogel® PGM 2000 under normal and high pressure (57) 77
Gel permeation chromatography
Comments on the theoretical basis of --- of polymers (56) 13
Gel permeation chromatography
Comparative study of Porasil and Styragel as column supports for --- (55) 99
Gel permeation chromatography
Determination of the instrumental spreading function in --- (72) 1
Gel permeation chromatography
Examination of polymer size parameters for universal calibration in --- (55) 65
Gel permeation chromatography
--- analysis of plasticiser blends (55) 7
Gel permeation chromatography
--- and polymer additive systems (55) 15
Gel permeation chromatography
--- calibration for polymers making use of the universal calibration curve (55) 203
Gel permeation chromatography
--- data acquisition with the PDP-8/1 and AXO8 laboratory peripheral (55) 137
Gel permeation chromatography
---: Data treatment (55) 111

Gel permeation chromatography
---. Diffusional phenomena in dilute polymer solutions flowing in capillaries (55) 145
Gel permeation chromatography
--- elution behaviour of branched alkanes (55) 73
Gel permeation chromatography
--- investigation of irradiated copolymers (55) 45
Gel permeation chromatography
High-performance --- with a new type of silica packing material (99) 435
Gel permeation chromatography
High-speed ---. Application of LC techniques (76) 149
Gel permeation chromatography
Mechanism of ---: Distribution coefficient (83) 111
Gel permeation chromatography
Molecular weight analysis of block polymer by --- (55) 67
Gel permeation chromatography
Practical --- column calibration for polymers (55) 55
Gel permeation chromatography
Precision improvements in --- determination of molecular weight averages and polydispersity of polymers (55) 185
Gel permeation chromatography
Preparation of monodisperse polyethylene oxides by --- of discontinuous polymer-homologous series (53) 51
Gel permeation chromatography
Recent developments in ---: high speed and high resolution. Introductory lecture (53) 27
Gel permeation chromatography
Separation by flow and its application to --- (55) 83
Gel permeation chromatography
Shape of the chromatographic band for individual species and its influence on --- results (53) 117
Gel permeation chromatography
Some velocity profile effects in empty tubes (55) 165
Gel permeation chromatography
Structural evaluation of copolymers using preparative --- (55) 155
Gel permeation chromatography
Surface area and volume of pores as characteristics of silica support for --- (53) 55
Gel permeation chromatography
System for preparative separation of a wide range of small molecules by --- in organic liquids (51) 459
Gel permeation chromatography
Use of fast, finite, Fourier transforms for the solution of Tung's equation. II. Theory and application (55) 175
Gel permeation chromatography
Use of --- in the development of high-quality graphite (55) 25
Gentamicin
Separation of --- complex by ion-exchange CC (97) 280
Gentamicin
TLC identification of the --- complex (78) 442
Gentamicin complex
Chromatographic separation of some minor components of the --- (70) 171
Geometric isomers
TLC separations of some --- (67) 184
Geraniol
Analysis of straight-chain terpene alcohols by GC (88) 15
Geraniol oxidation
GC in developing the production of citral from geraniol (91) 749
Geranyl geraniol
Analysis of straight-chain terpene alcohols by GC (88) 15
Germanium tetraiodide
The purification of --- by preparative GC (64) 157
Germinating seeds
Analysis of the polysaccharides of some soil bacteria by GC (91) 469
Ghosting
GLC of simple phenols for urinalysis (94) 169
Gibberellins
Method for the rapid chromatography of --- (52) 512
Gibberellins
Partition chromatography of --- and related diterpenes on columns of Sephadex LH-20 (87) 271
Gibberellin A_1
Separation of --- and dihydrogibberellin A_1 by argentation partition chromatography on a Sephadex column (60) 141

Gibbs free energy
Discussion of the decrease in the homologous retention increment on raising the polarity of a stationary phase in GC (78) 269
Ginger galenicals
Detection of adulteration in --- by TLC (84) 200
Gingerols
Natural pungent compounds. IV. Examination of the ---, shogaols, paradols and related compounds by TLC and GC (67) 29
Gitogenin
A GLC determination of the ratio of --- and digitogenin in mixtures (54) 185
Gitoxigenin
A new thin-layer densitometric technique for the assay of cardenolides from *Digitalis purpurea* (88) 341
Glass beads
Behavior of *p*-(*p*-ethoxyphenylazo)phenyl undecylenate (EPAPU) liquid crystal as a chromatographic liquid phase coated on --- (99) 135
Glass beads, carbon-coated
--- as a GC support material (77) 69
Glass bead columns
Chromatographic behaviour of mouse spleen cells on --- (84) 329
Glass capillary columns
Correlations of surface measurements with the chromatographic performance of chemically modified --- (94) 35
Glass capillary columns
Effect of coating parameters on the quality of stationary phase films in --- (65) 39
Glass capillary columns
Influence of surface tension on the homogeneity of the film of stationary phase in --- (79) 15
Glass capillary columns
Method for preparing --- for GC (91) 25
Glass capillary columns
Preparation, performance and special applications of --- (99) 63
Glass capillary columns
Preparation of stable --- coated with Carbowax 20M (97) 263
Glass capillary columns
Selective monomolecular layers for improved wettability of --- for GLC (84) 167
Glass capillary columns
Surface characteristics of treated glasses for the preparation of --- in GLC (99) 81
Glass capillary columns
Thermostable polar-phase open-tubular --- (99) 103
Glass open tubular columns
Analytical performance of a novel nitrogen-sensitive detector and its applications with --- (99) 339
Globulin, sex hormone binding
Use of an Enzacryl AA derivative for affinity chromatography of --- (97) 57
Glucagon
Partition chromatography of --- and secretin on Sephadex (63) 423
β-Glucan hydrolase
Facile purification of a --- by chromatography on DEAE-cellulose (71) 367
β-1,4-Glucan hydrolase
Nature of the binding of a --- to ion exchangers (76) 257
Glucocorticosteroids
Method for the estimation of some synthetic --- in rat muscle (77) 161
Gluconic acid
Separation of oligomeric aldonic acids by anion-exchange chromatography (83) 45
Glucoproteins
Gel filtration of ABH blood group substances. II. Individual gel chromatographic patterns of ABH substances in the saliva of secretors and non-secretors (55) 351
Glucopyranosides
Substituted methyl α-D-----: a relationship between structure and TLC behavior (64) 117
β-D-Glucopyranosides
TLC and PC of steroidal ---, β-D-glucopyranosiduronic acids, and derivatives (54) 97
Glucopyranosid uronates
Separation of methyl(methyl O-methyl-α-D-glucopyranosid)uronates by GC (91) 463

β-D-Glucopyranosiduronic acids
TLC and PC of steroidal β-D-glucopyranosides, ---, and derivatives (54) 97
Glucosamine
Amino acid analysis in the presence of --- with lithium salt containing buffers on a single ion-exchange column (94) 307
D-Glucosamine
Rapid GC analysis of hexosamines in body fluids (94) 298
Glucosaminitol
An improved method of separating --- from galactosaminitol and their amino sugars on an amino acid analyser (51) 314
Glucose
Densitometry of thin-layer chromatograms using polaroid projection film. Application to the analysis of monosaccharides (52) 437
Glucose
GC determination of fructose and --- in syrups (56) 121
Glucose
Improved method for collection and measurement of radioactivity in compounds separated by GLC (67) 221
Glucose metabolites
Isotachophoresis in two-dimensional combination with zone electrophoresis for the concentration and separation of --- (73) 211
Glucose metabolites
Quantitative determination of --- separated by isotachophoresis in two-dimensional combination with zone electrophoresis (73) 219
Glucose oligomers
Gel permeation chromatography of --- using polyacrylamide gels (86) 184
Glucose oxidase
Two dimensional PC for the detection of oxidation of maltose by --- (55) 425
Glucose oxidase reaction
Isotope effect in the --- as determined by ion-exchange chromatography (73) 257
Glucosides
Application of TLC to the purification and characterization of some methyl --- (59) 231
Glucoside
Quantitative isolation of --- in malvidol from red wine or methanolic extracts from marc of grapes (87) 269
Glucosinolates
GC of trimethylsilyl derivatives of --- (57) 47
Glucuronide
High-speed LC of --- and sulfate conjugates (55) 409
Glucuronides
TLC of chlorpromazine metabolites. Attempt to identify each of the metabolites appearing in blood, urine and feces of chronically medicated schizophrenics (75) 277
O-Glucuronides, phenolic
Separation of --- and phenolic sulphate esters by multiple liquid–liquid partition (95) 213
Glutamate–oxaloacetate transaminase
A simple technique for the estimation of mitochondrial --- in serum and tissues (52) 162
Glutamic acid
The use of a bacterial L-amino acid decarboxylase for the control of the degree of racemisation of amino acid mixtures obtained from protein hydrolysates (54) 225
Glutaminase activity
Determination of the --- of asparaginase (69) 388
Glutathione
Chromatography of cysteine and --- derivatives on a Dowex 1/Sephadex mixed-bed column (59) 181
Glutathione
GLC analysis of --- (87) 258
Glutathione reductase
Affinity chromatography in the purification of --- (77) 191
Glutethimide
Method for measuring --- (Doriden®) in human serum after intake of therapeutic doses (72) 21
Glutethimide
Possible interference by a metabolite in GC assays for --- which employ certain non-selective liquid phases (87) 379
Glycerides
Investigation of heated and oxidized oils and fats by gradient elution LC (83) 461

Glycerol
GC of the nitrate esters of ---, isosorbide and isomannide (64) 364
Glycerol
Improved method for collection and measurement of radioactivity in compounds separated by GLC (67) 221
Glycerol-(2-aminoethylphosphonate) lipids
Chromatographic fractionation of the lipids of *Tetrahymena pyriformis* (75) 141
Glycerol-(2-aminoethylphosphonate) lipids
Preparative isolation of phosphonolipids by ascending dry-CC (75) 227
Glycerolipid analogs
TLC behavior of --- containing ether, ester, hydroxyl, and ketone groupings (82) 7
Glycerol-phosphorylethanolamine lipids
Preparative isolation of phosphonolipids by ascending dry-CC (75) 227
Glycerophosphate
High-pressure chromatographic separation of glycerophosphorylcholine, phosphorylcholine, --- and orthophosphate (88) 183
Glycerophosphorylcholine
High-pressure chromatographic separation of ---, phosphorylcholine, glycerophosphate and orthophosphate (88) 183
Glyceryl nitrates
Quantitative analysis of --- on thin-layer chromatograms. Comparison of colorimetry and densitometry (53) 263
Glycerylphosphorylcholine lipids
Chromatographic fractionation of the lipids of *Tetrahymena pyriformis* (75) 141
Glycerylphosphorylethanolamine lipids
Chromatographic fractionation of the lipids of *Tetrahymena pyriformis* (75) 141
Glyceryl trinitrate
GLC determination of nitroglycerine in pharmaceutical preparations (72) 182
Glycidyl resins
LC analysis of epoxy resins (91) 247
Glycitols
Improved method of separating glucosaminitol from galactosaminitol and their amino sugars on an amino acid analyser (51) 314
Glycocyamine
Effects of saturation and temperature on the separation of some guanidino compounds by TLC on cellulose plates (71) 376
Glycols
GLC determination of free polyglycols in polyoxyethylated commercial stearic acid via their acetate esters (60) 411
Glycogens
Chromatography of --- on agarose gels (77) 201
Glycolaldehyde
TLC detection of --- using a fluorescence reaction with *o*-aminodiphenyl (66) 87
Glycolaldehyde
TLC detection of --- using a fluorescence reaction with *o*-aminodiphenyl. II. An improved procedure (88) 356
Glycolic acid
Application of the ligand exchange method to the separation of some aliphatic carboxylic acids (95) 127
Glycolic acid esters
Analysis of --- by TLC (69) 407
Glycolipids
Analysis of monosaccharides by GLC of the O-methyl glycosides as trifluoroacetate derivatives. Application to glycoproteins and --- (69) 291
Glycolipids
Densitometric method for the determination of gangliosides after their separation by TLC and detection with resorcinol reagent (86) 200
Glycolipids
Detection of fatty acids, fatty aldehydes, phospholipids, --- and cholesterol on thin-layer chromatograms stained with malachite green (88) 425
Glycolipids
Direct determination of molar ratios of various chemical constituents in endotoxic --- in silicic acid scrapings from TLC plates (97) 39
Glycolipids
Evaluation of a GC method for the quantitative estimation of hexoses from neutral --- (92) 95
Glycolipids
Gel filtration of ABH blood group substances. III. ABH gel filtration pattern of solubilised red cell stroma (55) 365

Glycolipids
TLC of bacterial lipids on sodium acetate impregnated silica gel (63) 452
Glycopeptides
Mapping and specific detection of --- on thin-layer plates (76) 417
Glycopeptides
Micro-chromatographic and radiochemical analysis of --- (76) 345
Glycopeptide
Preparation of a --- -Sepharose for affinity chromatography (75) 114
Glycoproteins
Analysis of monosaccharides by GLC of the O-methyl glycosides as trifluoroacetate derivatives. Application to --- and glycolipids (69) 291
Glycoproteins
GC determination of neutral sugars from --- and acid mucopolysaccharides as aldononitrile acetates (86) 205
Glycoproteins
GC method for determination of hexosamines in --- and acid mucopolysaccharides (93) 221
Glycoproteins
Gel filtration of ABH blood group substances. I. Fractionation of ABH substances of human saliva (55) 337
Glycoproteins
Separation of amino sugars and amino acids in --- and biological fluids on resin-coated chromatoplates (84) 204
Glycoprotein hormones
Gel isoelectric focusing of --- (63) 475
Glycosaminoglycans
Chromatography of acidic --- on DEAE-cellulose (71) 83
Glycosaminoglycans
Observations on molecular weight discrimination by filtration through porous media (69) 325
Glycosaminoglycans
TLC separation of --- (71) 580
Glycosaminoglycans
Urinary --- and the direct quantification of irregular spots on thin-layer chromatograms (92) 461
Glycosides
Cellulose TLC separation of *Rubus* fruit anthocyanins (75) 151
Glycosides
Evaluation of several solvent systems in the TLC separation of cardiotonic aglycones and --- from cholesterol, phytosterols and their esters (73) 279
Glycosides
GC of flavonoids (79) 45
Glycosides
High-pressure LC of digitoxigenin and its --- (88) 411
Glycosides
High-voltage paper electrophoresis for the separation of 1,8-dihydroxyanthracene derivatives in senna and rhubarb (97) 109
Glycosides
Method for the identification and quantitative analysis of Strophantus --- (52) 313
Glycosides
New thin-layer densitometric technique for the assay of cardenolides from *Digitalis purpurea* (88) 341
Glycosides
Phytochemistry of the *Salicaceae*. III. GLC procedure for the identification of plant phenols (71) 427
Glycosides
Phytochemistry of the *Salicaceae*. IV. Investigation of the bark of *Salix petiolaris* Sm (71) 435
Glycosides
Phytochemistry of the *Salicaceae*. V. The use of a GLC screening test to detect phytochemical variations in *Populus deltoides* Marsh. (84) 309
Glycosides
Phytochemistry of the *Salicaceae*. VI. The use of a GLC screening test for the chemotaxonomy of *Populus* species (84) 315
Glycosides
Possibility for the identification of sugars from small mixtures of --- or from sugar mixtures (61) 375
Glycosides
Rapid automatic analysis of hydroxylysine, hydroxylysine ---, and methionine sulfoxide in collagen and basement membrane (88) 245
Glycosides
Separation of plant --- and aglycones using TLC and electrophoresis (53) 399
Glycosides
TLC of anomeric aryl tetra-O-acetyl-D-glucopyranosides (57) 161

Glycosides
TLC of flavonoids after addition of complex-forming reagents to the eluting solvent (62) 156
Glycosphingolipids
TLC of red cell --- from various mammalian species (61) 285
Gold
Ion-exchange PC of inorganic ions. XXVII. The adsorption of chlorauric acid on various exchangers from organic solvents (51) 556
Gold
PC investigation of the thiourea complexes of copper(I), silver(I) and ---(I) (65) 425
Gold(III)
Qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Gossypol
GLC of --- (54) 25
Gradient elution
--- in LC. I. The influence of the composition of the mobile phase on the capacity ratio, retention volume, band width, and resolution in isocratic elution – theoretical considerations (91) 207
Gradient elution
--- in LC. II. Retention characteristics (retention volume, band width, resolution, plate number) in solvent-programmed chromatography – theoretical considerations (91) 223
Gradient elution
--- in LC. III. Verification of the theoretical relationships for elution characteristics (retention volume, band width and resolution) in isocratic and --- chromatography on silica (93) 17
Gradient elution
Incremental ---. Some factors that affect resolution and analysis time (83) 257
Gradient elution liquid chromatography
Investigation of heated and oxidized oils and fats by --- (83) 461
GSSG derivatives
Affinity chromatography in the purification of glutathione reductase (77) 191
Guanidino amines
PC resolution of aliphatic ---, diamines and polyamines (86) 214
Guanidino compounds
Effects of saturation and temperature on the separation of some --- by TLC on cellulose plates (71) 376
Guanidino diamines
PC resolution of aliphatic guanidino amines, diamines and polyamines (86) 214
Guanidino polyamines
PC resolution of aliphatic guanidino amines, diamines and polyamines (86) 214
Guanine
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Guanine
GLC of the purine and pyrimidine bases (61) 45
Guanosine
Chromatography on macroporous ion exchangers (52) 351
Guanosine
Contributions of anion-exchange TLC to the study of free nucleotides in tissues (71) 127
3',5'-Guanosine monophosphate
TLC of cyclic --- on tetraborate-impregnated silica gel layers (76) 270
Guanyl cyclase
TLC of cyclic 3',5'-guanosine monophosphate on tetraborate-impregnated silica gel layers (76) 270
Gulonic acid
A GC–MS study on TMS derivatives of sorbose, 2-keto-4--- and ascorbic acid (63) 379
Gradient-generating system
The Autograd. An automated simplified eluent --- for use in LC (75) 175
Grain diameter
Effect of --- and uniformity of adsorbent granules on the efficiency of GC columns of various diameters (92) 249
Gramicidins
Preparation of pure peptides from a mixture of --- and of tyrocidines by droplet countercurrent chromatography (92) 147

Graphite
The use of GPC in the development of high-quality --- (55) 25
Graphite coating
An ultrasonic method for producing graphite-coated glass capillary columns (95) 229
Graphite supports
GC study of thin films of paraffins on --- (77) 289
Graphitized carbon blacks
Hydrogen-treated ---. Adsorption of acetic acid and propylamine by GC (77) 277
Graphitized carbon black
Use of --- in environmental analysis (99) 661
Griseofulvin
Analysis of antibiotics by GC. III. --- (70) 73
Griseofulvin
High-efficiency LC in pharmaceutical analysis (83) 431
Groundnut oil
Detection of mustard seed, soya bean and safflower seed oils in --- by TLC (100) 243
Groundnut oil
Rapid method for detecting --- in castor oil (86) 261
Group constants
Relations between the structure and the chromatographic behaviour of poly-functional acids: --- and correlations "R_m–pK_a" (76) 441
Growth-regulating substances
--- from *Viburnum trilobum* Marsh. separated on Sephadex G-15 (76) 261
Growth regulators
Purification of plant auxin by polyamide TLC (70) 202

H

Haemoglobin
Chromatographic separation of oxy- and met-myoglobin on a DEAE-cellulose column (60) 260

Haemoglobins
Phosphocellulose chromatography of human --- (63) 414

Haemoglobins
Studies on the heterogeneity of ---. XV. Separation of fetal --- and the normally occurring minor adult --- by chromatography on DEAE-cellulose (89) 191

Haemoglobin
Studies on the heterogeneity of ---. XVI. Separation of variants with a Glu→Lys substitution by chromatography on CM-cellulose (92) 391

Haemoglobin A_2
Comparison between electrophoresis and DEAE-microchromatography for the quantitation of --- (92) 174

Haemopexin
Purification of human serum --- by chromatography on DEAE-cellulose (72) 198

Haemopexin
Use of simple concentration gradients for the fractionation of human serum proteins on DEAE-cellulose, with especial reference to the isolation of albumin, prealbumin, --- and transferrin (84) 87

Hafnium
Quantitative and rapid separation of Zr(IV) and Hf(IV) by TLC. Spectrophotometric determination of Hf(IV) with chloranilic acid (75) 93

Hafnium
TLC separation of zirconium, ---, thorium, uranium and the rare earths on DEAE-cellulose in sulphate media (88) 351

Halides
Determination of parameters in dextran gel filtration (74) 59

Hallucinogens
Use of electron-acceptor reagents for the detection of some --- (78) 241

Haloalkanes
GC separation of diastereoisomeric --- and *o*-, *m*- and *p*-isomers of monosubstituted halobenzenes with Igepal CO-880 (62) 458

Halobenzenes, monosubstituted
GC separation of diastereoisomeric haloalkanes and *o*-, *m*- and *p*-isomers of --- with Igepal CO-880 (62) 458

Halocycloalkanes
Separation and identification of di--- by GC (55) 231

Halocycloalkanes
Separation and identification of --- by GC. Part II (72) 269

Halogenated alkanes
Correlations between physical properties of --- and their GC behaviour on polar and non-polar stationary phases. I. Linear chloro-, bromo- and iodoalkanes (76) 293

Halogenated alkanes
Correlation between physical properties of --- and their GC behaviour on polar and non-polar stationary phases. II. Branched-chain chloro-, bromo- and iodoalkanes (79) 33

Halogenated pesticides
Simple and inexpensive method for the visual detection of sub-microgram amounts of halogenated substances present in GC effluents (75) 298

Halogen hydrides
GC of some reactive gases on graphitized carbon black (62) 128

Halogenodecaboranes
GC separation of 1- and 2--- (81) 142

3-Halogenopyrenes
GLC and TLC of some 3- and 3,X-substituted pyrenes (80) 259

Halogen-substituted benzoic acids
GC analysis of monohalobenzoic acid isomers (82) 390

Halonitrobenzenes
GLC of disubstituted benzene isomers. II. Separation and study of the ---, anisoles and toluenes (53) 151
Haloperidol
GC method for the determination of --- in human plasma (54) 15
Halothane
Application of the method of chromatographic equilibration to air pollution studies. The determination of minute amounts of --- in the atmosphere of an operating theatre (64) 15
Halowax
Identification of chlorinated naphthalenes in --- 1031, 1000, 1001 and 1099 (84) 59
Hammer effect
--- in TLC (summary) (78) 25
Hammer effect
Profile of the mobile phase in thin-film chromatography - --- (69) 135
Hammett equation
Study of substituent effects by means of GC in some aromatic systems (65) 129
Hammett constant
Study of interactions of substituted pyridines with 2,3,5-triiodobenzoic acid by means of GC (89) 131
Hansch's π parameters
Relationship between PC R_M values and --- in dissociable compounds (92) 381
Hashish
Chromatographic comparison of the constituents of nutmeg and mace (*Myristica fragrans* Houtt.) with those of marihuana and --- (*Cannabis sativa* L.) (89) 113
Hashish
Minor components of cannabis resin. I. Their separation by GC, thermal stability, and protolytic properties (63) 391
Hashish
Minor components of cannabis resin. III. Comparative GC analysis of --- (68) 253
Hashish
Problems concerning the reliable identification of --- in urine by TLC (78) 393
Head-space analysis
GC determination of chloral hydrate, trichloroethanol and trichloroacetic acid in blood and in urine employing --- (88) 55
Heats of adsorption
Adsorption of organic molecules on esterified silica gel. I. --- as a key to a model of adsorption (80) 1
Heats of adsorption
Contribution to the measurement of adsorption isotherms by the pulse chromatograph technique (81) 9
Heats of adsorption
Determination of differential --- by GSC (61) 207
Heats of evaporation
Estimation of errors in the determination of --- by GC (66) 191
Heats of transfer
Performance of packings in high-speed LC. III. Chemically bonded pellicular materials (83) 181
Helicenes
GC of --- and 1,2-diaryl ethylenes (66) 43
Helium detector
Hypothetical mechanism of the ---. Operation in the positive and linear modes (94) 13
Henry's law constants
Non-ideal line shapes in GLC (89) 119
Heparin
Cellulose acetate electrophoresis of --- (64) 193
Heparin
TLC separation of glycosaminoglycans (71) 580
Heparan sulphate
TLC separation of glycosaminoglycans (71) 580
Hepatic porphyrias
Quantitative TLC of porphyrins by *in situ* fluorescence measurements (63) 113
Herbicides
Analysis of triazine --- by combined TLC and fluorimetry (100) 175
Herbicides
Artefact in the GC determination of impurities in pentachlorophenol (67) 247
Herbicides
Chromogenic agent for the detection of phenoxyacetic --- on thin-layer plates (61) 173
Herbicides
Comparative GC response of organo-

phosphorus compounds containing nitrogen and nitrogen compounds with alkali flame and electrolytic conductivity detectors (70) 37
Herbicides
Determination of ametrine and atrazine residues in soil by TLC (80) 137
Herbicides
Determination of picloram in fescue by GLC (53) 367
Herbicides
Determination of residues of BAY 94337 (4-amino-3-methylthio-6-*tert.*-butyl-1,2,4-triazin-5-one) (56) 345
Herbicides
Determination of residues of 2,4,5-trichlorophenoxyacetic acid in soil by GC of the *n*-butyl ester (69) 204
Herbicides
Determination of 2,3,7,8-tetrachlorodibenzo-1,4-dioxin at parts per billion levels in technical-grade 2,4,5-trichlorophenoxyacetic acid, in 2,4,5-T alkyl ester and 2,4,5-T amine salt --- formulations by quadrupole mass fragmentography (90) 71
Herbicides
Effect of some operating parameters on the response of the Coulson conductivity detector (87) 333
Herbicides
Electrolytic conductivity detection of some nitrogen-containing --- (63) 364
Herbicides
Fluorescence of pesticides by treatment with heat, acid or base (95) 243
Herbicides
GLC determination of 2-hydroxy-*s*-triazines (52) 487
Herbicides
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Herbicides
Investigation of fluorigenic labelling of chlorophenols with dansyl chloride (84) 214
Herbicides
Metabolism of dialkyldithiocarbamates. I. Determination of amines using a reaction with isocyanates followed by GC identification of the urea derivatives formed (94) 65
Herbicides
Method for the determination of Venzar (3-cyclohexyl-5,6-trimethyluracil) on silica gel layers (74) 366
Herbicide
Modified detection of triazine --- residues and their hydroxy derivatives on thin-layer chromatograms (53) 589
Herbicides
Multi-residue extraction procedure for the GC determination of the --- dichlobenil, dinitramine, triallate and trifluralin in soils (97) 103
Herbicides
Quantitative determination of the methyl ester of 2-chloro-3-(4-chlorophenyl)-propionic acid in technical products and formulations by GC (69) 305
Herbicides
Routine method for identification of pesticide residues, triazine, carbamate, urea, and uracile type compounds by TLC (65) 533
Herbicides
Separation and detection of carbamates and related compounds on polyamide layers (52) 453
Herbicide
Separation of Planavin® --- and some related compounds by two-dimensional TLC (53) 397
Herbicides
Separation of SAN-6706 and some related compounds by TLC (66) 386
Herbicides
TLC–enzymatic identification of carbamates. II. Identification of carbamate --- with bovine liver esterase (58) 257
Herbicides
TLC and GLC of derivatives of isomeric chlorophenols. Chlorophenyl fluorosulphonyl-benzenesulphonates and related compounds (51) 219
Herbicide
TLC procedure for the detection in soils and waters of --- residues commonly used in Saskatchewan (57) 303
Herbicides
TLC screening test for the detection of inhibiting properties of phenylurea --- on certain enzymes (87) 199
Herbicides
Utilization of the inhibition of some

enzymes by phenoxyalkane carboxylic acid --- for their TLC–enzymatic identification (72) 333
Heroin
Application of high-speed LC to the analysis of morphine, ---, 6-(O-acetyl)-morphine and methadone (87) 95
Heroin
Chromatographic method of urine analysis for the diagnosis of --- consumption (72) 127
Heroin
GLC method for the quantitative determination of acetylmethadol and its metabolites in human urine (82) 315
Heroin
Rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, ---, local anesthetics and mixtures (87) 211
Heroin
Separation of morphine alkaloids, ---, methadone and other drugs by ion-exchange chromatography (82) 398
Heterocycles
Adsorption elution chromatography of nitrogen-containing --- on alumina (74) 51
Heterocycles
GC of some nitrogen and sulphur --- by means of silicone and Bentone–silicone phases (51) 433
N-Heterocyclics
Separation of aniline, --- and sulfonamide derivatives on paper impregnated with strong acid exchange resin (87) 543
Heterocyclic amines
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Heterocyclic bases
Chromatography of dinitrophenylamino acids and --- on thin layers of protein (54) 65
Heterocyclic nitrogen compounds
Determination of aza-heterocyclic compounds in atmospheric dust by a combination of TLC and GC (84) 371
Heterocyclic phosphorus-containing compounds
GC of derivatives of ---. Detection of small amounts of alcohols with the thermionic detector (82) 279
Hetero-element content
Determination of --- in organics by alkali flame-GLC (63) 237
Hetero-organics
Response of a filter-less flame photometric detector to --- (87) 232
Heterosaccharides
The preparation of a glycopeptide–Sepharose for affinity chromatography (75) 114
HETP
Dependence of --- upon resin particle size and solution flow-rate in high-speed ion-exchange chromatography (83) 195
Hexachlorobenzene
Identification of --- residues by GLC (69) 198
Hexachlorobenzene
GC separation of --- and the α-, β-, γ- and δ-isomers of hexachlorocyclohexane (71) 340
Hexachlorocyclohexane
GC separation of hexachlorobenzene and the α-, β-, γ- and δ-isomers of --- (71) 340
1,2,3,4,5,6-Hexachlorocyclohexane
see also BHC
Hexachlorophane
Evaluation of the GC estimation of trace quantities of --- (89) 103
Hexachlorophene
--- analysis in blood by electron capture GC (76) 233
n-Hexadecane
Modified gas chromatograph for thermodynamic measurements by frontal chromatography (92) 47
n-Hexadecenes
Capillary GC of linear alkenes on squalane. Separation and identification of *n*-pentadecenes and --- (91) 613
Hexahydroindane
Application of stationary phases in preparative-scale GC (77) 41
Hexamethylenediamine
Separation of *cis*- and *trans*-1,2-diaminocyclohexane via trifluoroacetylation. The use of ethyl trifluoroacetate as trifluoroacetylating agent (63) 370
Hexamethylenetetramine
Detection of --- in vulcanizates (88) 423

n-Hexane
Modified gas chromatograph for thermodynamic measurements by frontal chromatography (92) 47
Hexanitrobibenzyl
Continuous trinitrotoluene process studies. IV. Identification and determination of purification byproducts (67) 255
Hexaric acids and lactones
Separation of aldonic, deoxyaldonic, hexuronic and hexaric lactones and acids using thermostable open tubular glass capillary columns (88) 149
Hexenes
Thermodynamics of interactions of --- with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Hexobarbital
Rapid and sensitive GC determination of --- in plasma of man using a nitrogen detector (88) 235
Hexosamines
Adsorption on neutral polystyrene resin. A simple method for extraction of 2,4-dinitrophenyl derivatives from aqueous solution and for decoloration of protein hydrolysates (54) 215
Hexosamines
GC method for determination of --- in glycoproteins and acid mucopolysaccharides (93) 221
Hexosamines
New fluorescence method for the detection of --- and their separation by means of TLC (90) 181
Hexosamines
Rapid GC analysis of --- in body fluids (94) 298
Hexoses
Evaluation of a GC method for the quantitative estimation of --- from neutral glycolipids (92) 95
Hexoses
Separation of some monosaccharides by capillary column GC (65) 295
Hexuronic acids
GLC analysis of permethylated alditols and aldonic acids (87) 163
Hexuronic acids and lactones
Separation and aldonic, deoxyaldonic, hexuronic and hexaric lactones and acids using thermostable open tubular glass capillary columns (88) 149
High-boiling inorganic compounds
The purification of germanium tetraiodide by preparative GC (64) 157
High-frequency titration
Radiochromatographic and --- studies on ethylthiourea complexes of palladium(II) and platinum(II) (92) 419
High-frequency titration studies
Radiochromatographic, conductometric and --- on the thiourea complexes of palladium(II) and platinum(II) (70) 117
High molecular compounds
High-voltage electrophoresis (63) 153
High-pressure gas chromatography
Retention volume in ---. I. Thermodynamics of the specific retention volume (95) 1
High-pressure gas chromatography
Retention volume in ---. II. Comparison of experimental data with the prediction of a pseudo-binary model (95) 13
High-pressure liquid chromatography
Influence of the particle size (5–35 μm) of spherical silica on column efficiencies in --- (99) 377
High-speed liquid chromatography
Electro-osmosis. A new concept for --- (99) 23
High-speed liquid chromatography
Heavily loaded columns in --- (92) 33
High-sulphur proteins
Studies on the --- of reduced Merino wool. The chromatography of group IIIA on cellulose phosphate (78) 363
High-voltage electrophoresis (63) 153
High-voltage ionophoresis
High-voltage ionophoretic separation of polysulphanedisulphonates on thin-layer foils in a temperature-controlled chamber (84) 137
High-voltage ionophoresis apparatuses
Comparison of the separation performance of different --- (70) 109
High-voltage laboratory power supplies
Electronic safety system for --- (77) 461
High-voltage paper electrophoresis
--- at various proportions of liquid and solid phases (60) 150
Hippuric acid
Separation of the UV-absorbing constituents of urine by high-pressure LC (52) 97

Hippuric acid
TLC evaluation of methylhippuric and --- in urine (100) 215
Hippuric acid derivatives
GC–MS studies of ---. I. Evaluation of methods for quantitative determination of hippuric acid. A search for benzoylsarcosine excretion in normal urine (80) 81
Histamine
Method for the GC determination of urinary 1,4-methylimidazoleacetic acid (82) 394
Histamine
Quantitative TLC of --- and its metabolites (86) 263
Histidase
Activity stain for urocanase and --- on polyacrylamide gel (54) 286
Histidine
GLC of amino acids. A solution to the --- problem (99) 495
Histidine
Paper electrophoresis of binary mixtures of copper(II) histidinate and copper(II) complexes of other amino acids. The nature of the "third spot" (54) 103
L-Histidine
TLC of L-carnosine and β-alanine (63) 459
Histidyl-peptides
Separation of --- by TLC and microspectrofluorometric characterization of their o-phthalaldehyde-induced fluorescence (67) 81
Histones
Estimation of molecular weights of basic proteins (---) by gel filtration in 6 *M* guanidine hydrochloride solution (77) 442
Histone
Identification of the five main --- fractions by comparative electrophoresis in polyacrylamide gel (55) 429
Histone
Interactions between --- and DNA from calf and human tissues using activated Sepharose CC (82) 343
Histones
Method for differentiating between arginine-rich --- and others in polyacrylamide gel (75) 161
Histone kieselguhr
Behaviour of DNA on columns of --- (66) 277
^2H_2O
Determination of --- in water and biological fluids by GC (87) 246
Hofmann degradation reaction
Characterisation of drugs containing tertiary amine groups by application of the --- and GLC (73) 73
Hog spleen deoxyribonuclease
Affinity chromatography of bovine pancreatic and --- (73) 253
Hog spleen DNase II
Antibody affinity chromatography of --- and bovine spleen DNase II (80) 128
Holocaine
A rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211
Homocysteic acids
Methods for the quantitative analysis of sulphur-containing compounds in physiological fluids (72) 105
Homologous compounds
Influence of reference substances on retention behaviour of --- on stationary phases of increasing polar character (99) 329
Homologous esters
GC of ---. Part V. Retention of aliphatic esters on non-polar, donor and acceptor stationary phases (60) 33
Homomorphism factors
Molecular structure and retention behaviour. Retention behaviour of cycloaliphatic hydrocarbons in GSC and in GLC (91) 623
Honeycomb spool
---: a modified method for winding capillary columns (84) 389
Hormites
Sieving effects of --- in gas-adsorption chromatography (65) 349
Hormonal steroids
Evaluation of a GLC method for the determination of urinary steroids using high-resolution open-tubular glass capillary columns (96) 33
Hormonal steroids
GLC studies of reactions and structural relationships of steroids. Part I.

Positions 3, 11 and 17 in the androstane series (96) 47
Hormone
GC trace analysis of thyroid --- preparations and of drugs containing thyroid --- (60) 51
Hormones
Gel isoelectric focusing of glycoprotein --- (63) 475
Hormones
Group separation of steroidal --- and stilbenes from biological material (95) 232
Hormones
Lipophilic gel and gas-phase analysis of steroid ---. Application to the human newborn (99) 485
Hormones
New type of micro-analysis of steroid --- in biological materials by GC with flame ionisation and electron capture detection. I. The urinary profile (58) 277
Hormones
Qualitative analysis of solvents in steroid --- by means of GLC and solid injection (69) 370
Hormones
Quantitative analysis of trace amounts of oestrogenic steroids in pregnancy urine by column liquid–liquid chromatography with UV detection (62) 79
Hormones
Quantitative determination of cortico-steroids from plasma by high-pressure LC (84) 396
Hormones
Quantitative determination of residual solvents in steroid --- by means of GLC and solid injection (71) 542
Hormones
TLC of Dansyl-oestrogens (52) 505
Hot-melt adhesive components
Simplified method for the separation and identification of --- (86) 133
p-HPPH
Determination of the major urinary metabolite of diphenylhydantoin by high-performance LC (80) 161
Human biofluids
The simultaneous determination of propoxyphene and norpropoxyphene in --- using GLC (75) 195
Human effluents
An apparatus for the detection and quantitation of volatile --- (100) 137
Human hemoglobins
Phosphocellulose chromatography of --- (63) 414
Human isoamylases
Assessment of electrophoretic mobilities of some --- (69) 349
Human plasma
Chromatography of normal human serum and --- on hydroxyapatite; characterisation of their constituents (60) 424
Human plasma
GC method for the determination of amantadine in --- (74) 31
Human plasma
Improved quantitative GC method for the analysis of small amounts of chlorinated hydrocarbon pesticides in --- (74) 21
Human serum hemopexin
Purification of --- by chromatography on DEAE-cellulose (72) 198
Human serum proteins
Use of simple concentration gradients for the fractionation of --- on DEAE-cellulose, with especial reference to the isolation of albumin, prealbumin, haemopexin and transferrin (84) 87
Human serum triglycerides
Analysis of --- by high-temperature GC (66) 239
Humic acid
Detection of methoxyaromatic acids in the oxidation products of coals and --- by GLC (66) 29
Humic acid
Isotachophoresis and isoelectric focusing of soil humic substances in polyacrylamide gel (93) 248
Humic acids
System for polyacrylamide gel electrophoresis of --- (78) 409
Humic acid oxidation products
Separation of --- on Sephadex LH-20 (89) 355
Humidity
Effect of --- on the amount of fluorescence exhibited by chromatographically separated dansyl derivatives (63) 141
Humin
Amino acid analysis: The --- problem (68) 123

Humin
Isotachophoresis and isoelectric focusing of soil humic substances in polyacrylamide gel (93) 248
Hungarian bentonites
Organic derivatives of --- in hydrocarbon analysis (65) 219
Hyamine
Gas–liquid radiochromatography of ^{14}C-containing compounds with combustion and collection of the resulting [^{14}C]carbon dioxide in --- (71) 415
Hydantoins
TLC of amino acid --- (80) 199
Hydergine
Separation of dihydroergotoxine (---) into dihydroergocornine, dihydroergocryptine and dihydroergocristine by counter-current distribution (88) 413
Hydrazones
Polyvinyl acetate as a stationary phase in TLC (52) 429
Hydrocarbons
Advances in the utilization of the retention index system for characterizing --- in complex mixtures by GC (99) 215
Hydrocarbons
Applicability of the linear free energy relationships for the identification of some alkyl aromatic --- by open tubular column GC (51) 119
Hydrocarbons
Application of chromatography to the analysis of exhaust gases (91) 525
Hydrocarbons
Applications of GC in petroleum chemistry (65) 85
Hydrocarbons
Application of precision GC to the identification of types of --- (51) 13
Hydrocarbons
Application of TLC to ---type analysis (51) 227
Hydrocarbons
Automatic LC of organic compounds. II. Adsorption chromatography of benzene derivatives on styrene-based cation-exchange resin (59) 373
Hydrocarbons
CC of polycyclic aromatic ---. Separation on organic gels in protic solvents (80) 266
Hydrocarbons
Characterization of --- in complex mixtures by two-dimensional precision GC (91) 603
Hydrocarbons
Characterisation of polypropylene by pyrolysis GC (51) 59
Hydrocarbons
Chromatographic analysis of primary light gasoline and Pbi-H fractions of Romashkino crude oil (51) 91
Hydrocarbons
Chromatographic properties of type X zeolites containing alkali metal cations (58) 47
Hydrocarbons
Chromatography and 77°K luminescence of some --- on thin layers of microcrystalline nylon–polytetrafluoroethylene (Aviamide-6–Fluoroglide 200) (53) 600
Hydrocarbons
Contribution to the theory of the retention index system. IV. Retention index and molecular structure. Calculation of retention indices of olefins, cyclic --- and homologues of benzene hydrocarbons on the basis of their molecular structure (67) 203
Hydrocarbons
Determination of total --- in sea water at the microgram level with a flow calorimeter (90) 79
Hydrocarbons
Empirical correction of the physicochemical retention indices of --- on squalane (63) 223
Hydrocarbons
Free fatty acid phase high resolution capillary columns (61) 334
Hydrocarbons
GC analysis of complex --- mixtures (91) 633
Hydrocarbons
GC behaviour of tricyclic saturated ---. The relation between the retention indices and the stereochemical structure of the tricyclanes (52) 77
Hydrocarbons
GC determination of activity coefficients and thermodynamic parameters of solutions of gaseous --- in squalane under subcritical conditions (94) 25
Hydrocarbons
GC of the products formed by thermal

decomposition of "pyrolysis resin" (51) 83

Hydrocarbons
GC separation, by carbon number and hydrocarbon type, of saturated --- mixtures and different naphthas over molecular sieves 13X (77) 3

Hydrocarbons
GC separation of diastereoisomeric haloalkanes and *o*-, *m*- and *p*-isomers of monosubstituted halobenzenes with Igepal CO-880 (62) 458

Hydrocarbons
GC separation of isomeric --- of the norbornane series on graphitized carbon black (91) 695

Hydrocarbons
GC study of the existence and the physical state of monomolecular films of stationary phases in contact with siliceous supports. The apparent increase of the melting point of the film (68) 9

Hydrocarbons
GC study of thin films of paraffins on graphite supports (77) 289

Hydrocarbon
GLC analysis of --- mixtures. A report on the work of the International Conference of Benzole Producers (67) 237

Hydrocarbons
GSC on modified alumina stationary phases. I. Behaviour of aromatic --- (60) 406

Hydrocarbons
Gel chromatographic behaviour of mononuclear aromatic --- and phenols (95) 103

Hydrocarbons
Gel chromatographic separation characteristics of vinyl acetate gel for --- and petroleum (53) 241

Hydrocarbons
Gel chromatographic separation of ---, amines and phenols on a polystyrene gel column. Preparative fractionation of cigarette smoke condensate for biological experiments (67) 299

Hydrocarbons
Gel chromatography of polycyclic aromatic --- (94) 311

Hydrocarbons
Gradient elution adsorption chromatography of aromatic --- (53) 233

Hydrocarbons
Identification of organic substances by means of direct coupling of GC with elementary analysis. I. Analysis of --- (65) 47

Hydrocarbons
Intermolecular interactions in GC separations on zeolites (58) 39

Hydrocarbon
Investigation of --- components of a Yugoslav shale "bitumen" (65) 147

Hydrocarbons
Molecular–statistical calculation of retention volumes in gas adsorption chromatography (58) 55

Hydrocarbons
One-step analysis of a mixture of permanent gases and light --- by GC (89) 73

Hydrocarbons
Open tubular column GC of dehydrogenation products of C_6–C_{10} *n*-alkanes. Separation and identification of mixtures of C_6–C_{10} straight-chain alkanes, alkenes and aromatics (51) 75

Hydrocarbon
Organic derivatives of Hungarian bentonites in --- analysis (65) 219

Hydrocarbons
Parent --- determination by means of GC (59) 158

Hydrocarbons
Polyphenyl ether sulfones. Thermally stable polar phases for GC (99) 51

Hydrocarbons
Precisely deactivated adsorbents applied to the separation of chlorinated --- (70) 168

Hydrocarbons
Preparative separation of polar substances of polycyclic aromatic --- by gel partition chromatography. Fractionation of cigarette smoke condensate (67) 175

Hydrocarbons
Problems of background contamination in the analysis of open ocean biota for chlorinated --- (72) 283

Hydrocarbons
Radiolysis products as reference substances in GC (52) 227

Hydrocarbons
Reversed-phase chromatography of some

aromatic ---. Structure–retention relationships (83) 31
Hydrocarbons
Selective chromatographic separation of aromatic --- and their hydrogenated derivatives on Porapak T (65) 477
Hydrocarbons
Separation of azulenes on mixed layers of silica gel and oxalic acid (80) 271
Hydrocarbons
Separation of isotopically substituted polar compounds derived from --- (77) 21
Hydrocarbons
Separation of polycyclic aromatic --- (59) 329
Hydrocarbons
Separation of polycyclic aromatic --- by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of coronene (83) 11
Hydrocarbons
Separation of polynuclear aza-heterocyclics by high-speed LC on a chemically bonded stationary phase (71) 451
Hydrocarbons
Simultaneous GC separation of volatile organic sulphur compounds and C_1–C_4 --- (90) 218
Hydrocarbons
Study of the atmospheric polycyclic ---. II. Application of the coupling of GC and TLC to the determination of polynuclear arenes (72) 202
Hydrocarbons
Sub-classification of --- by the temperature coefficient of retention index (71) 171
Hydrocarbon
Surface-modified alumina for --- separations (65) 467
Hydrocarbons
"Temperature-programmed" GC with electron capture detection (82) 269
Hydrocarbons
Use of ammonia as the carrier gas in GLC (54) 422
Hydrocarbons
Use of a gas chromatograph–mass spectrometer for the analysis of complex --- mixtures (51) 45
Hydrocarbons
Use of GLC for selecting extractive solvents for liquid extraction processes (77) 37
Hydrocarbons
Use of pressure-assisted LC in the separation of polynuclear --- (78) 203
Hydrocarbons, aliphatic
GLC–MS investigation of C_6–C_{20} organic compounds in an urban atmosphere. An application of ultra trace analysis on capillary columns (62) 1
Hydrocarbons, aromatic
Antioxidants and stabilizers. XLVII. Behaviour of amine antioxidants and antiozonants and model compounds in GPC (88) 99
Hydrocarbons, aromatic
Charge transfer TLC and multiple site complexation (89) 49
Hydrocarbons, aromatic
Chromatographic adsorption constants and π electron delocalization energies. Correlation of values (62) 73
Hydrocarbons, aromatic
Corrected physicochemical indices of mono- and dialkyl --- on squalane (91) 691
Hydrocarbons, aromatic
Flat-bed separation of tar substances on Sorbofol® (78) 101
Hydrocarbons, aromatic
GC identification of the main --- from the catalytic dehydrogenation of *n*-undecane (65) 143
Hydrocarbons, aromatic
GLC–MS investigation of C_6–C_{20} organic compounds in an urban atmosphere. An application of ultra trace analysis on capillary columns (62) 1
Hydrocarbons, aromatic
Influence of the molecular structure of --- on their adsorptivity on alumina (91) 649
Hydrocarbons, aromatic
Organic derivatives of Hungarian bentonites in hydrocarbon analysis (65) 219
Hydrocarbons, aromatic
Separation of polynuclear --- by GSC on graphitized carbon black deposited on Chromosorb W (65) 432
Hydrocarbons, aromatic
Separation of --- and sulphur-

containing hydrocarbons on pure and dispersed chlorides and sulphates of a series of bivalent metals (91) 699
Hydrocarbons, cycloaliphatic
Molecular structure and retention behaviour. Retention behaviour of --- in GSC and in GLC (91) 623
Hydrocarbon impurities
Determination of small amounts of --- in C_{10}–C_{18} *n*-paraffinic fractions (65) 165
Hydrocarbon insecticides
TLC–enzymatic identification and the mode of action of chlorinated ---. II. Identification by inhibition of trypsin (52) 447
Hydrocarbons, isomeric
Chromatographic behaviour of --- on Porapak P (65) 261
Hydrocarbon mixtures
Rapid analysis of complex --- by reaction GC (69) 53
Hydrocarbons, polycyclic
Determination of air-borne --- by PC (91) 531
Hydrocarbon stationary phases
Aromatic --- for GLC (86) 17
Hydrocarbons, sulphur-containing
Separation of aromatic hydrocarbons and --- on pure and dispersed chlorides and sulphates of a series of bivalent metals (91) 699
Hydrogen
GC measurement of ---, methane, and neon in air (69) 103
Hydrogen
Rapid determination of --- isotopes by GSC (94) 325
Hydrogenation
Reaction GC of microgram and sub-microgram samples using sealed glass capillaries (75) 304
Hydrogenation reactions
Elucidation of GC fractions in --- and oxidation reactions (69) 37
Hydrogen bonding
Chromatographic resolution of enantiomers: ^{1}H and ^{13}C NMR studies of --- in chiral ureide ester–amide systems (71) 405
Hydrogen bonding
Investigation into --- in GLC (63) 249
Hydrogen-bonding compounds
GLC/GSC of --- (62) 462
Hydrogen flame detector
A tin-sensitive --- (70) 158
Hydrogen isotopes
Effect of adsorption of carrier gas in GSC. Theory and its application to the separation of --- (65) 413
Hydrogen peroxides
Composition of the hydrogen peroxide mixture of the oxidized oleic acid methyl ester in dependence with the oxidation temperature (92) 196
Hydrophilic compounds
Separation of mixtures of lipophilic and --- by gel distribution chromatography on Sephadex LH-20 (67) 291
Hydrophobic interaction
--- in gel adsorption chromatography (69) 123
Hydrophobic interaction chromatography
Some general aspects of --- (87) 325
Hydroquinine
The use of R_C values for structural studies in the PC of phenols (52) 131
Hydroquinone
Separation of chlorinated derivatives of --- using TLC and PC (60) 377
Hydroxamic acids
GLC of --- in biological samples. Detection and quantitation of Bufexamac and one of its major metabolites in plasma and urine (57) 410
Hydroxamic acids
TLC separation of ^{14}C-labelled branched-chain α-keto acids and --- derived from the corresponding enzymatically formed acyl-CoA compounds (61) 373
4-Hydroxyacetanilide
Analysis of aspirin and related compounds by LC (61) 253
p-Hydroxyacetanilide
High-speed LC of glucuronide and sulphate conjugates (55) 409
Hydroxy acids
Identification of --- and dicarboxylic acids by combined TLC and GC (52) 145
Hydroxy acids
Separation of dicarboxylic --- by anion-exchange chromatography and GC (57) 353

Hydroxyalicyclic derivatives of Sephadex LH-20
--- for lipophilic gel chromatography (83) 39
p-Hydroxyamphetamine
A specific GC method for the detection of --- and *p*-hydroxynorephedrine in brain tissue (84) 355
3'-Hydroxyamylobarbitone
Determination of barbiturates and their metabolites in small plasma samples by GC–MS. Amylobarbitone and --- (75) 45
α-Hydroxy-α-methylbutyric acid
Rare earth separations using cation-exchange CC. Comparison of α-hydroxy-isobutyric acid and --- as eluants (79) 287
Hydroxyanisole
Studies on the synthesis of butylated --- (52) 507
Hydroxyapatite chromatography
Application of --- to alkaline myosin solutions (76) 351
Hydroxyapatite columns
RNA fractionation on --- (98) 449 (review)
Hydroxyapatite columns
Theory of chromatography of rigid molecules on --- with small loads. I. The case when virtually all molecules are adsorbed on to a single type of crystal site through a single type of adsorption group (93) 313
Hydroxyapatite columns
Theory of chromatography of rigid molecules on --- with small loads. II. The case when molecules can be adsorbed on to both of C and P crystal sites through carboxyl and basic groups (93) 337
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. I. The case of a single molecular species (82) 167
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. II. The case of several molecular species (82) 191
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. III. Micro-heterogeneous model of tropocollagen molecules (82) 219
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. IV. Further theory of the microheterogeneous model of tropocollagen molecules (82) 237
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. V. Further theory of the case of several molecular species (82) 241
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. VI. Analytical calculation of chromatograms (93) 257
Hydroxyapatite columns
Theory of chromatography of rigid rod-like macromolecules on ---. VII. Investigations on the resolving power of the columns (93) 275
p-Hydroxybenzoates
Determination of ether-soluble food preservatives after direct extraction on paper (76) 199
Hydroxybenzoic acid
Determination of trace phenol and isomeric --- in aqueous benzoic acid solutions by aqueous LC (89) 348
Hydroxybenzoic acid homologues
Salting-out chromatographic separation of hydroxybenzoic acid isomers (64) 95
Hydroxybenzoic acid isomers
Non-aqueous solvent chromatography. III. Complex chromatography between the metal ion of a cation-exchange resin and organic compounds in organic solvents (78) 424
Hydroxybenzoic acid isomers
Salting-out chromatographic separation of --- (64) 95
Hydroxybenzoic acid isomers
Studies in ligand-exchange chromatography. Part IV. Separation of --- and hydroxynaphthoic acid isomers (85) 101
Hydroxybiphenyls
Determination of --- as dansyl derivatives (79) 209
β-Hydroxybutyric acid
Quantitative GC determination of --- with application to eggs (51) 423
7-Hydroxychlorpromazine
GLC analysis of phenolic and non-

phenolic chlorpromazine metabolites in the urine of chronic schizophrenic patients (85) 65
Hydroxycyclohexanecarboxylic acids
Separation of *cis* and *trans* isomers of --- by GLC (92) 191
Hydroxycyclohexyl derivative
Preparation and evaluation of a --- of Sephadex LH-20 (82) 337
4-Hydroxycoumarin
GLC of coumarin anticoagulants and their trimethylsilyl ethers (64) 355
7-Hydroxydemethylchlorpromazine
GLC analysis of phenolic and non-phenolic chlorpromazine metabolites in the urine of chronic schizophrenic patients (85) 65
6-Hydroxydopamine
Mass fragmentography of dopamine and ---. Application to the determination of dopamine in human brain biopsies from the caudate nucleus (99) 529
3-Hydroxy-4-ene steroids
Simple staining technique useful for distinguishing --- from 3-hydroxy-5-ene steroids on silica gel thin layers, and for other purposes (67) 188
3β-Hydroxy-5-ene steroids
Chromatogram staining technique useful for --- and certain steroid drugs (59) 216
3-Hydroxy-5-ene steroids
Simple staining technique useful for distinguishing 3-hydroxy-4-ene from --- on silica gel thin layers, and for other purposes (67) 188
2-Hydroxyethyl methacrylate
Chromatographic properties of macroporous copolymers of --- and ethylene dimethacrylate (79) 99
Hydroxyethyl methacrylate gels
Sorption characteristics of --- (76) 159
Hydroxy fatty acids
Analysis of some hydroxy fatty compounds as their trimethylsilyl ethers by GLC (55) 402
2-Hydroxyiminomethyl-1-methylpyridinium chloride, *see* PAM
5-Hydroxyindoleacetic acid
Simple extraction of indole derivatives from aqueous solution by adsorption on neutral polystyrene resin (61) 95
α-Hydroxyisobutyric acid
Rare earth separations using cation-exchange CC. Comparison of --- and α-hydroxy-α-methylbutyric acid as eluants (79) 287
Hydroxylamines
Metabolism of phenylureas. I. TLC separation and identification of aliphatic --- in the presence of aliphatic amines (84) 117
Hydroxylic gels
Preparation of cyanogen bromide-activated agarose gels (86) 53
Hydroxylysine
Micro-method for the determination of --- and its glycosylated derivatives (51) 277
Hydroxylysine
Rapid automatic analysis of ---, --- glycosides, and methionine sulfoxide in collagen and basement membrane (88) 245
Hydroxylysine glycosides
A rapid automatic analysis of hydroxylysine, --- and methionine sulfoxide in collagen and basement membrane (88) 245
3-Hydroxy-4-methoxy-mandelic acid
Separation of 4-hydroxy-3-methoxy and --- by PC (67) 197
3-Hydroxy-4-methoxy-mandelic acid
TLC and GC separation of 4-hydroxy-3-methoxy- and --- (84) 187
4-Hydroxy-3-methoxy-mandelic acid
Separation of --- and 3-hydroxy-4-methoxy-mandelic acid by PC (67) 197
4-Hydroxy-3-methoxy-mandelic acid
TLC and GC separation of --- and 3-hydroxy-4-methoxy-mandelic acid (84) 187
4-Hydroxy-3-methoxyphenyl glycol
Quantitative determination of --- and its conjugates in cerebrospinal fluid by mass fragmentography (87) 147
Hydroxymethylflavin acetate
Recoveries and reproducibility in the TLC fluorimetric determination of flavins by the elution method. Part VIII. Chromatography of riboflavin decomposition products (78) 105
Hydroxynaphthoic acid isomers
Studies in ligand-exchange chromatography. Part IV. Separation of hydroxybenzoic and --- (85) 101

p-Hydroxynorephedrine
Specific GC method for the detection of *p*-hydroxyamphetamine and --- in brain tissue (84) 355
ε-Hydroxynorleucine
Determination of --- and "reduced aldol condensate" by standard amino acid chromatography (79) 337
Hydroxyphenylbutazone
Analysis of phenylbutazone in plasma by high-speed LC (89) 23
Hydroxyphenylbutazone
Assay of phenylbutazone in human plasma by a specific and sensitive GLC procedure (89) 17
5-(*p*-Hydroxyphenyl)-5-phenylhydantoin
see also p-HPPH
5-(*p*-Hydroxyphenyl)-5-phenylhydantoin
Simultaneous determination of 5,5-diphenylhydantoin and --- in serum, urine and tissues by GLC after flash-heater methylation (82) 307
Hydroxyproline
Amino acid analysis of elastin – a rapid method (71) 361
Hydroxyproline
Improved quantification of imino acids poorly resolved by automated amino acid methods (61) 152
Hydroxyproline
Specific assay of --- by GC (87) 155
Hydroxypropyldextran
Aqueous two-phase system of dextran/--- as a model in adsorption studies of Sephadex gels (63) 420
Hydroxypyridines
GLC analysis of aqueous solutions of --- and hydroxyquinolines (81) 79
Hydroxyquinolines
GLC analysis of aqueous solutions of hydroxypyridines and --- (81) 79
8-Hydroxyquinoline substituted silica gel
Silica gel as an insoluble carrier for the preparation of selective chromatographic adsorbents. The preparation of --- for the chelation chromatography of some trace metals (76) 455
2-Hydroxy-*s*-triazines
The GLC determination of --- (52) 487
(1-Hydroxy-2,2,2-trichloroethyl)-phosphonic acid esters
GC of --- (82) 285
5-Hydroxytryptamine
GC of samples in dilute solution (96) 232
Hypnotics
Method for measuring glutethimide (Doriden®) in human serum after intake of therapeutic doses (72) 21
Hypothalamus homogenates
Rapid method for the quantitative analysis of γ-aminobutyric acid in --- by ligand-exchange chromatography (71) 567
Hypoxanthine
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Hypoxanthine
Determination of acid-soluble nucleosides and bases in myocardium by thin-layer methods (79) 360
Hypoxanthine
Improvement of a routine method for the quantitative determination of adenosine triphosphate and its degradation products in *post mortem* muscles (88) 168
Hypoxanthine
Quantitative TLC of ATP and the products of its degradation in meat tissue (90) 105
Hypoxanthine
Rapid determination of some plasma oxypurines using high-pressure LC (81) 85
Hypoxanthine
Separation and determination of nanomole amounts of some purines, uric acid and uric acid riboside by two-dimensional PC (100) 95

I

Ibogaine
GC determination of --- in biological fluids (71) 154

Ibuprofen
Studies of urinary metabolites of 2-(4-isobutylphenyl)propionic acid by GLC–MS (99) 541

Identification of peaks
The --- in GC by the use of subtractor columns. II. The action of free fatty acid phase on aldehydes (66) 249

Imidazole
Isolation of 4-methyl--- from caramel color and its determination by TLC and GLC (87) 411

Imidazoles
Separation and identification of --- by GLC and TLC (73) 238

Imides
Improvement of the starch–iodide method for detection of --- and other NH-containing compounds on thin-layer chromatograms (54) 284

Imino acids
Improved quantification of --- poorly resolved by automated amino acid methods (61) 152

Imino acids
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. IV. The quantitative determination of amino acids in urine (55) 377

Imino acids
Multi-sample quantification of amino acids and --- with a single analytical system (59) 321

Imipramine
Characterisation of drugs containing tertiary amine groups by application of the Hofmann degradation reaction and GLC (73) 73

Imipramine
Identification of tricyclic antidepressants derived from --- by GC (59) 297

Imipramine
Method for the determination of --- in human plasma by GLC–mass fragmentography (74) 201

Immuno electrophoresis
Laurell electrophoresis on cellulose acetate (75) 165

Immunoglobulin M
Isolation of --- from human serum by gel chromatography and electrochromatography on a column of Sephadex G-200 (71) 459

Impregnated paper chromatography
Improved technique for obtaining reproducibility of R_F values in --- (85) 144

Impurities
Concentration of trace amounts of --- by preparative GC (77) 119

Inborn errors
TLC of kynurenin metabolites (79) 347

Indium
Reaction for identification of Al^{3+}, Ga^{3+}, In^{3+}, Tl^{+} separated by PC (54) 289

Indium flame detector
Dual-mode --- (63) 229

Indole
Analysis of --- acid derivatives by GC using liquid phase OV-101 (52) 491

Indoles
Chromatography of some --- on formamide-treated paper (97) 249

Indoles
Comparative GLC of biologically important ---, and their benzo[*b*]-thiophene and 1-methylindole analogs (94) 316

Indoles
Indoles and auxins. XIII. Identification and analysis of naturally occurring --- via electron donor–acceptor complexes (68) 173

Indoles
Interaction of tetracyanoethylene with --- on silica gel and cellulose thin-layer plates (72) 343

Indole
New reagent for detecting tryptophan, ---, and indole-3-acetic acid in TLC (67) 371
Indole
Sensitive and specific colour reaction for the detection of free --- in plant material (65) 445
Indole
Separation of --- derivatives and catecholamines by TLC (59) 463
Indole
Simple extraction of --- derivatives from aqueous solution by adsorption on neutral polystyrene resin (61) 95
Indole-3-acetic acid
New reagent for detecting tryptophan, indole, and --- in TLC (67) 371
Indole-3-acetic acids
Quantitative analysis of catecholamine and serotonin metabolites on thin-layer plates. II. Reflectance measurements after a specific photochemical reaction (74) 303
Indole-3-acetic acid myoinositol esters
Purification of --- on polystyrene–divinylbenzene resins (72) 61
Indolealkylamines
Use of *o*-phthalaldehyde as a spray reagent for the TLC identification of bufotenin and 5-methoxy-N:N-dimethyltryptamine (57) 433
Indoleamines
Gaseous formaldehyde: A sensitive chromatographic detection reagent for tryptophanyl-dipeptides (59) 209
Indole derivatives
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Indole derivatives
TLC fluorimetry of --- after condensation by a paraformaldehyde spray reagent (97) 47
Indole derivatives
Use of Sephadex G-25 as ion-exchanger. Application to the separation of --- (77) 450
Indolethylamine N-methyltransferase
Selective and specific TLC, GC and GC–MS methods for the assay of --- activity (86) 123
Indolic acids
Separation of phenolic acids and --- from untreated urine (54) 442
Indolic tryptophan
Analysis of --- metabolites in human urine. TLC and *in situ* quantitation (94) 85
Indolalkylamines
Separation of some --- from their metho cation derivatives using neutral polystyrene resin. Application to the alkaloids of *Phalaris tuberosa* (*gramineae*) (87) 187
Indomethacin
--- estimation in plasma and serum by electron capture GC (89) 110
[^{113m}In]DTPA
PC of ^{113m}In-labelled radiopharmaceuticals: --- (84) 417
Inerton
--- – a new support for GC (91) 333
Information theory
Use of --- for evaluating the quality of TLC separations (79) 157
Inhibition techniques
TLC and enzyme ---. Introduction (78) 29
Injection
Device for low-pressure gas --- in GC (94) 276
Injection
Study of the effects of instrument variables on accuracy and precision in GC. II. Errors associated with the --- of liquid samples by microlitre syringes (97) 115
Injection, direct
Isothermal analysis on capillary columns without stream splitting. The role of the solvent (94) 53
Inlet pressure
Programming of pressure and temperature in high-pressure LC. I. Programming of --- (91) 141
Inorganic anions
Adsorption of --- on hydrous oxides (94) 313
Inorganic anions
TLC of --- on aluminium oxide (84) 379
Inorganic anions
Isotachophoresis on paper. Part I. Investigation of general conditions and separation of some --- (77) 467

Inorganic cations
TLC of --- on crystalline cerium(IV) phosphate sulphate (67) 200
Inorganic complexes
Separation of the Gold(III)–Rhodamine B chloro complex from Fe(III), Sb(V) and Ga(III)–Rhodamine B chloro complexes by TLC (61) 390
Inorganic compounds
Application of a thermal detector to the gel chromatography of --- (61) 295
Inorganic compounds
Gel chromatography of --- (86) 325 (review)
Inorganic ions
Ca^{2+}/H^{+} exchange on zirconium phosphate at temperatures up to 250° (60) 235
Inorganic ions
Chromatographic techniques using liquid anion exchanger. IV. HF systems (54) 449
Inorganic ions
Chromatographic techniques using liquid anion exchangers. V. H_2SO_4 systems (56) 103
Inorganic ions
Chromatography of a number of --- on DEAE-cellulose layers in formic acid media. A selective separation of selenium(IV) (96) 223
Inorganic ions
Chromatography of --- on thin layers of protein (54) 55
Inorganic ions
Chromatography of metal ions on thin layers of polytetrafluoroethylene with di-(2-ethylhexyl)orthophosphoric acid (53) 605
Inorganic ions
Crystalline insoluble acid salts of tetravalent metals. XI. Synthesis and ion-exchange properties of tin(IV) phosphate and tin(IV) arsenate (51) 289
Inorganic ions
Effect of anions on the gel chromatographic behaviour of magnesium ions (58) 267
Inorganic ions
Effect of concentration upon the chromatographic behaviour of technetium in concentrated hydrochloric acid (54) 123
Inorganic ions
Effect of sample concentration on the gel chromatographic behaviour of alkaline earth metal ions on Sephadex columns (52) 329
Inorganic ions
Gel chromatographic behaviour of some metal ions (52) 321
Inorganic ions
Influence of complex formation on the chromatographic behaviour of --- on sodium carboxymethylcellulose and Dowex 50-X4(Na^{+}) thin layers (84) 155
Inorganic ions
Influence of temperature on the ion-exchange properties of stannic arsenate. Separation of Pb^{2+}, UO_2^{2+} and Cr^{3+} from numerous metal ions (54) 269
Inorganic ions
Ion-exchange chromatography of calcium and magnesium in mixed dimethyl sulphoxide–water media (59) 237
Inorganic ions
Ion-exchange PC of ---. XXVII. The adsorption of chlorauric acid on various exchangers from organic solvents (51) 556
Inorganic ions
Ion-exchange PC of ---. Part XXVIII. Some investigations of the "perchlorate effect" (77) 135
Inorganic ions
Ion-exchange PC of ---. XIX. Further results on the "perchlorate effect" (79) 305
Inorganic ions
Isotachophoresis. Experiments in methanol (51) 339
Inorganic ions
Metal ion separations in thiocyanate media using a liquid anion exchanger (53) 345
Inorganic ions
PC investigation of the thiourea complexes of copper(I), silver(I) and gold(I) (65) 425
Inorganic ions
Paper electrophoresis of metal ions in EDTA ligand buffer solutions. I. Theoretical treatment (71) 523
Inorganic ions
Paper electrophoretic study of ion-pair formation. VII. The effect of ionic size on ion-pair formation (60) 241

Inorganic ions
Reaction for identification of Al^{3+}, Ga^{3+}, In^{3+}, Tl^{+} separated by PC (54) 289
Inorganic ions
Reversed phase TLC behaviour of the rare earths, thorium, uranium and zirconium with a high molecular weight amine in sulphuric acid and ammonium sulphate systems (56) 95
Inorganic ions
Synthesis and IR, X-ray and ion-exchange studies of some amorphous and semi-crystalline phases of titanium antimonate. Separation of VO^{2+} from various metal ions (62) 431
Inorganic ions
Synthesis, ion-exchange behaviour and analytical applications of stannous ferrocyanide. Separation of Mg–Ca, Mg–Ba, Mn–Co, Mn–Ni and Y–Th (65) 547
Inorganic ions
Synthesis of a poorly crystalline titanium tungstate. Separation of Hf^{4+} from Zr^{4+} and of La^{3+} from Ce^{3+}, Pr^{3+}, Nd^{3+} and Sm^{3+} (62) 439
Inorganic ions
TLC behaviour of a number of metal ions on DEAE-cellulose in thiocyanic acid–organic solvent mixtures (52) 339
Inorganic ions
Use of Teflon film in quantitative analysis by enclosed-strip paper electrophoresis. The separation and determination of the valence states of iron (53) 616
Inorganic ions
Use of tri-*n*-alkylamine and -arsine oxide in reversed-phase extraction chromatography (57) 173
Inorganic ions
Zirconium tellurate, an inorganic ion exchanger (53) 613
Inorganic ion-exchange
Synthesis, ion-exchange behaviour and composition of tin(IV) hexacyano-ferrate(II) (59) 141
Inorganic ion-exchanger
Bismuth tellurate; an --- (67) 389
Inorganic ion exchangers
Ion-sieving properties of some --- in fused solvents (62) 168
Inorganic salts
Studies of TLC of ---. V. Resolution of the racemic-trisethylenediamine-cobalt(III) complex by means of TLC on silica gel (53) 610
Inorganic substances
Anion-exchange TLC of condensed phosphates (56) 373
Inorganic substances
Chromatographic behaviour and structural units of condensed phosphates. II. Influences of developing solvents (54) 413
Inorganic substances
Chromatographic separation of cyclic phosphates by means of an anion-exchange dextran gel (56) 111
Inorganic substances
Chromatography and electrophoresis of the perbromate ion (60) 275
Inorganic substances
Detection of some noble metals by heat colouration on thin layers with direct flame (51) 348
Inorganic substances
Determination of inorganic mercury by GLC (89) 201
Inorganic substances
Distribution coefficients of 52 elements on a strongly basic anion-exchange resin in aqueous solutions of orthophosphoric acid (88) 387
Inorganic substances
Experimental determination of elution requirements in displacement ion exchange (54) 259
Inorganic substances
Perhalobenzenesulfinates as reagents in the determination of inorganic mercury in various media by GLC (87) 215
Inorganic substances
Separation of lanthanides using chromatography on SA-2 ion-exchange paper (57) 455
Inorganic substances
Separation of the valency states of rhenium in HCl solutions (51) 346
Inorganic substances
TLC behavior of a number of metals on DEAE-cellulose in organic solvent–sulfuric acid mixtures (61) 307
Inorganic substances
TLC data for --- (85) 187 (review)

Inorganic substances
TLC of inorganic sulphur compounds (51) 343
Inorganic substances
Tritium exchange in Sephadex G-10 (58) 304
Inorganic substances
Use of the electron capture detector for the analysis of volatile inorganic and organometallic compounds (66) 361
Inorganic systems
Cross-electrophoresis on paper of some --- (77) 464
Inorganic volatile chlorides
GC of ---. A study of their reactivity towards certain column packing materials (52) 461
Inosine
Improvement of a routine method for the quantitative determination of adenosine triphosphate and its degradation products in *post mortem* muscles (88) 168
Inosine
Contributions of anion-exchange TLC to the study of free nucleotides in tissues (71) 127
Inosine
Determination of acid-soluble nucleosides and bases in myocardium by thin-layer methods (79) 360
Inosine
Quantitative TLC of ATP and the product of its degradation in meat tissue (90) 105
Inosine monophosphate
Quantitative TLC of ATP and the products of its degradation in meat tissue (90) 105
Inositides
Separation of diphosphoinositide and triphosphoinositide on oxalate-impregnated silica gel columns (87) 267
Inositomannosides
Separation of phosphatidyl --- of Mycobacteria (94) 342
Insecticides
Analytical studies of pyrethrin formulations by GC. III. Analytical results on insecticidally active components of pyrethrins from various world sources (90) 119
Insecticides
Clean-up of organophosphorus --- residues in vegetable extracts by gel chromatography on Sephadex LH-20 (93) 457
Insecticides
Comparative GC response of organophosphorus compounds containing nitrogen and nitrogen compounds with alkali flame and electrolytic conductivity detectors (70) 37
Insecticides
Enzymatic and polarographic determination of Metation and its analogues after separation on silica gel thin layers (59) 446
Insecticides
Extraction and recovery of chlorinated --- and polychlorinated biphenyls from water using porous polyurethane foams (100) 83
Insecticides
Fluorescence of pesticides by treatment with heat, acid or base (95) 243
Insecticides
Fluorigenic labelling of carbamates using dansyl chloride. III. TLC properties of the derivatives (66) 277
Insecticides
Fluorigenic labelling of carbamates with dansyl chloride. IV. *In situ* quantitation of N-methyl carbamate --- on thin-layer chromatograms (67) 87
Insecticides
Identification of chlorinated naphthalenes in Halowaxes 1031, 1000, 1001 and 1099 (84) 59
Insecticides
Metabolism of dialkyldithiocarbamates. I. Determination of amines using a reaction with isocyanates followed by GC identification of the urea derivatives formed (94) 65
Insecticides
Preparative scale separation of pyrethrins by liquid–liquid partition chromatography (66) 356
Insecticides
Routine method for the determination of organophosphorus --- by TLC (58) 247
Insecticides
TLC and GLC of derivatives of isomeric chlorophenols. Chlorophenyl fluorosulphonyl-benzenesulphonates and related compounds (51) 219

Insecticides
TLC–enzymatic and GC determination of 4,4′-dichlorobenzophenone and its decomposition products (54) 282
Insecticides
TLC–enzymatic identification and the mode of action of chlorinated hydrocarbon ---. II. Identification by inhibition of trypsin (52) 447
Insecticides
TLC–enzymatic identification and the mode of action of chlorinated hydrocarbon ---. III. Identification by inhibition of phosphatase (61) 279
Insecticides
TLC–enzymatic identification of carbamates. I. Identification of carbamate --- with bovine liver esterase (53) 269
Insecticides
TLC–enzymatic identification of some lindane- and possible DDT-metabolites as well as pentachlorophenol (67) 343
Insecticides
TLC of diesters and some monoesters of phosphoric acid (54) 77
Insecticides
Use of Amberlite XAD-4 for extraction and recovery of chlorinated --- and polychlorinated biphenyls from water (89) 185
Insecticides
Use of support-bonded silicones for the extraction of organochlorines of interest from water (73) 99
Insecticides, chlorinated
Purification and characterization of pesticidal synergists. I. Pipernonyl butoxide (65) 521
Insecticides, chlorinated
Use of an electron capture detector for the determination of pesticides in water (91) 545
Insect pheromones
TLC analysis of radioactively labelled ---. Metabolites of [^{3}H]bombykol (92) 401
Insect sex attractants
Purification and analysis of synthetic --- by LC on a silver-loaded resin (96) 25
Instrumental spreading function
The determination of the --- in GPC (72) 1
Insulin
Electrophoretic heterogeneity of crystalline ---: A comparison of methods (55) 430
Insulins
Isoelectric focusing of --- in polyacrylamide gel (76) 263
Insulin
Resynthesis and recovery of crystalline --- from the recombination mixture of natural A and B chains (76) 167
Interaction chromatography
Some general aspects of hydrophobic --- (87) 325
Interface
--- for on-line LC–MS analysis (99) 395
Interfacial tension
Correlations between retention volumes and the --- of the two phases in liquid–liquid chromatography (83) 77
Internal normalization
The calculation of area factors without the use of pure components of analysed mixtures (85) 181
Inter-species ionis interface
Isotachophoresis (displacement electrophoresis, transphoresis) theory. Structure of the ionic interface (95) 133
Intracellular thyroxine-binding proteins
--- in rabbit muscle and liver (92) 119
Inverse GLC
--- for the detection of order–disorder in poly(vinyl chloride) (67) 153
Iodides
Correlations between molecular structure and physical properties of alkyl --- and their retention indices (58) 127
Iodide
Gel chromatography of thyroidal iodocompounds on Sephadex G-10. Separation of iodopeptides, ---, 3-monoiodotyrosine, 3,5-diiodotyrosine and iodothyronines (92) 309
Iodide
Separation of iodoamino acids and --- by PC with aqueous solvents (67) 373
Iodinated proteins
Application of thin-layer gel filtration in the microanalysis of radio--- (93) 475
Iodinated proteins
Simple separation of iodide from radio-

--- by ion-exchange chromatography–centrifugation (93) 471
Iodine
GLC determination of inorganic ---, iodide and tightly bound iodine in milk (100) 43
Iodine
Second-order reaction on a GC column. II. Decomposition of IBr on a chromatographic column (52) 39
Iodoalkanes
Correlations between physical properties of halogenated alkanes and their GC behaviour on polar and non-polar stationary phases. Linear chloro-, bromo- and --- (76) 293
Iodoalkanes
Correlation between physical properties of halogenated alkanes and their GC behaviour on polar and non-polar stationary phases. II. Branched-chain chloro-, bromo- and --- (79) 33
Iodoalkanes
GC of alkyl iodides. II. Influence of structure on retention time and sensitivity to electron capture detector (54) 157
Iodoamino acids
GC trace analysis of thyroid hormone preparations and of drugs containing thyroid hormone (60) 51
Iodoamino acids
Separation of --- and iodide by PC with aqueous solvents (67) 373
Iodoaminobenzoquinones
Chromatography of iodoaminophenols and --- (74) 138
Iodoaminophenols
Chromatography of --- and iodoaminobenzoquinones (74) 138
Iodo-compounds
Gel chromatography of thyroidal --- on Sephadex G-10. Separation of iodopeptides, iodide, 3-monoiodotyrosine, 3,5-diiodotyrosine and iodothyronines (92) 309
Iodo compounds
Separation of --- in serum by chromatography on Sephadex columns (72) 83
Iodopeptides
Gel chromatography of thyroidal iodocompounds on Sephadex G-10. Separation of ---, iodide, 3-monoiodotyrosine, 3,5-diiodotyrosine and iodothyronines (92) 309
Iodoproteins
Microgel electrophoretic analysis of the proteins in single rat thyroid follicles. III. Incorporation of [^{3}H]leucine into the large --- of the colloid (73) 292
Iodoproteins
Microgel electrophoretic study of the stability of thyroid --- (74) 107
Iodothyronines
Gel chromatography of thyroidal iodocompounds on Sephadex G-10. Separation of iodopeptides, iodide, 3-monoiodotyrosine, 3,5-diiodotyrosine and --- (92) 309
Iodothyronines
Separation of iodo compounds in serum by chromatography on Sephadex columns (72) 83
Ion-exchange chromatography
Computer-generated chromatograms (61) 322
Ion-exchange chromatography
Experimental determination of elution requirements in displacement ion exchange (54) 259
Ion-exchange chromatography
Group fractionation of plasma proteins on dipolar ion exchangers (51) 479
Ion-exchange chromatography
Some pH control problems in gradient elution --- (53) 415
Ion-exchange chromatography
Study of the chromatographic properties of dipeptides by automatic --- (67) 315
Ion-exchange chromatography
Use of bicarbonate as an easily removable eluent in preparative and analytical --- (92) 166
Ion-exchange flame excitation
Detection of heteroatoms in GLC effluents by --- and ionization (99) 349
Ion-exchanger
Bismuth tellurate; an inorganic --- (67) 389
Ion exchangers
Chromatographic and electrophoretic behaviour of primary mono- and diamines on layers of weak and strong --- (79) 129

Ion exchangers
Ion-sieving properties of some inorganic --- in fused solvents (62) 168
Ion exchangers
Preparation and properties of --- based on macrocyclic polyethers (96) 89
Ion-exchange resins
Effect of the conditions of preparation of cation-exchange resins on their resolution efficiency in ion-exchange chromatography of amino acids (60) 256
Ion-exchange resins
Use of sequential columns of microreticular and pellicular --- in the high-resolution separation of complex biochemical mixtures (83) 383
Ion-exclusion chromatography
--- of some aromatic acids (91) 261
Ionization mass spectrometry
Liquid chromatograph–mass spectrometer–computer analytical systems. A continuous-flow system based on atmospheric pressure --- (99) 13
Ionophoresis
Formation of zones during --- (54) 115
Ionophoresis
High-voltage ionophoretic separation of polysulphanedisulphonates on thin-layer foils in a temperature-controlled chamber (84) 137
Ionophoresis apparatus
Comparison of the separation performance of different high-voltage --- (70) 109
Ionophoretic separation
A rapid low voltage --- of 3′,5′-cyclic adenosine monophosphate (68) 298
Ion-pair chromatography
--- of organic compounds (83) 99
Ion-pair formation
Paper electrophoretic study of ---. VII. The effect of ionic size on --- (60) 241
Iridium (III)
The qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Iron(III)
Ion-exchange processes of some trivalent elements on amorphous zirconium phosphate up to 250°C (76) 221
Iron
Separation of manganese, ---, cobalt, nickel, copper, zinc and cadmium by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275
Iron(III)
Thin-layer gel chromatography of polymeric hydrolysis products of metal ions (76) 280
Iron
Use of Teflon film in quantitative analysis by enclosed-strip paper electrophoresis. The separation and determination of the valence states of --- (53) 616
Isoamylases
Assessment of electrophoretic mobilities of some human --- (69) 349
Isoamyl N(O)-heptafluorobutyryl esters of amino acids
GLC of the N(O)-heptafluorobutyrates of the isoamyl esters of amino acids. I. Separation and quantitative determination of the constituent amino acids of proteins (76) 91
Isoamyl wax esters
Chromatographic analysis of isomeric isovalerate and --- (75) 137
Isoapocodeine
GC determination of apomorphine O-methyl metabolites in urine (77) 419
Isobutene
Determination of products from the oxidative dehydrogenation of --- by GLC–MS (65) 303
Isobutylene oxidation
Process control of --- by automatic chromatographic analysis of the gaseous phase composition (91) 733
2-(4-Isobutylphenyl)propionic acid
Studies of urinary metabolites of --- by GLC–MS (99) 541
20-Isocholesterols
TLC and GLC of some 11-oxygenated cholesterols, ---, and related compounds (70) 194
Isodesmosine
Amino acid analysis of elastin – a rapid method (71) 361
Isodesmosine
Procedure for the automatic analysis of all amino acids in elastin hydrolyzates on a routine basis (79) 335

Isoelectric focusing
--- in gels (98) 271 (review)
Isoelectric focusing
--- of insulins in polyacrylamide gel (76) 263
Isoflavones
Determination of oestrogenic --- and coumestrol in clover (*Trifolium pratense* L. and *Trifolium repens* L.) (96) 123
Isoflavones
TLC separation of some --- and coumestrol (58) 297
α-[4-(2-isoindolinyl)phenyl]propionic acid derivative
Determination of plasma and urinary levels of an analgesic anti-inflammatory --- by GLC (92) 61
Isoleucine
Resolution of Dansyl leucine and Dansyl --- (76) 268
Isoleucyl dipeptides
Improved technique for the analysis of amino acids and related compounds on thin layers TLC cellulose. Part VIII. The characterization of leucyl and --- by TLC and ion-exchange chromatography (79) 187
Isomaltodextrin
PC behaviour of homologous linear polymers. The ---, maltodextrin, and cellodextrin series and their 1-(*m*-substituted phenyl)-flavazoles (70) 99
Isomannide
GC of the nitrate esters of glycerol, isosorbide and --- (64) 364
Isomers
Correlation of retention data with the chemical structure of the solute molecules (65) 103
Isomers, rotational
TLC separation of the Z and E rotational isomers of α-N-nitroso-N-alkylamino acids (95) 223
Isomeric compounds
Use of gel-coated glass microspherical supports for improved column performance and the rapid separation of --- (81) 33
Isomeric constitutions
Chemical constitution and chromatographic behavior. Influence of stereoisomeric and --- on the chromatographic migration (63) 9
Iso-octane
Non-equilibrium effects in the branched-chain peak broadening phenomenon in GC on Porapak P (84) 7
N^6-Isopentenyladenosine
Rapid and sensitive measurement of 7-methylguanosine and N^6-isopentenyl derivatives of adenosine by cation-exchange chromatography (59) 188
Isopredioxins
Further studies on impurities in chlorophenols (89) 325
Isoprene
Application of circulation techniques for studying the kinetics of chemical reactions by means of reaction GC (69) 25
Isoprene
Pyrolysis GC of cyclopolyisoprene (71) 9
Isoprene feed
Improved column for depentanizer and --- stream analysis (92) 69
Isoprenoid quinones
Sensitive non-destructive visualization of --- on reversed-phase thin-layer chromatograms (74) 357
Isopropylation
GC–MS studies of the --- of amino acids (68) 259
Isopropylation
Studies of the --- of amino acids and amines by GC–MS (78) 343
3-Isopropyl-1H-2,1,3-benzothiadiazin-(4)-3H-one-2,2-dioxide
Separation of bentazon and some related compounds by TLC (76) 272
Isopropyl 5-chloro-2-hydroxycarbanilate
Pyrolysis of --- during GC (62) 29
4,4′-Isopropylidenebisphenol
Use of R_C values for structural studies in the PC of phenols (52) 131
N-Isopropylsulfamoyl anthranilic acid
Separation of betazon and some related compounds by TLC (76) 272
Isoquinoline
GC of some nitrogen and sulphur heterocycles by means of silicone and Bentone–silicone phases (51) 433
Isosorbide mononitrate
Device which permits selective purging of the solvent and other components from a GLC column (82) 263

Isosorbide
GC of the nitrate esters of glycerol, --- and isomannide (64) 364
Isosteric heats of adsorption
Hydrogen-treated graphitized carbon blacks. Adsorption of acetic acid and propylamine by GC (77) 277
Isostrychnine
Strychnos alkaloids. XXVII. Separation and characterisation of --- in *Strychnos nux vomica* L. seeds (88) 416
Isotachophoresis (65) 3
Isotachophoresis
Analytical --- in capillary tubes. Transformation of pyruvate to succinate by calf heart mitochondrial enzymes (82) 407
Isotachophoresis
Analytical ---. Resolution, detection limits and separation capacity in capillary columns (91) 785
Isotachophoresis
Calculation and measurement of concentration in --- (58) 181
Isotachophoresis
Capillary --- with electrolyte counterflow temperature and concentration profiles on the zone boundary (91) 795
Isotachophoresis
Design of a high-resolution detection system for use in --- (64) 196
Isotachophoresis
Free-flow electromigration separations (91) 867
Isotachophoresis
High resolution --- by means of direct conductivity measurements with miniature sensing electrodes (73) 193
Isotachophoresis
---. Applications in the biochemical field (91) 837
Isotachophoresis
---. Conductivity measurement and signal handling (91) 819
Isotachophoresis
--- (displacement electrophoresis, transphoresis) theory. Structure of the ionic species interface (95) 133
Isotachophoresis
---. Electrophoretic analysis in capillaries (53) 315
Isotachophoresis
---. Experiments in methanol (51) 339
Isotachophoresis
---. Experiments with electrolyte counterflow (60) 397
Isotachophoresis
--- in two-dimensional combination with zone electrophoresis for the concentration and separation of glucose metabolites (73) 211
Isotachophoresis
---. Phenomena, that occur when conductometric detection is applied (91) 809
Isotachophoresis
---. Qualitative separation of anions (69) 165
Isotachophoresis
---. Qualitative separation of cation mixtures (68) 207
Isotachophoresis
---. Quantitative aspects of the separation of mixtures of anions (91) 823
Isotachophoresis
---. Some quantitative aspects of the separation of anionic mixtures (71) 329
Isotachophoresis
Quantitation in ---. The concept of relative correction factors (91) 829
Isotachophoresis
Quantitative determination of glucose metabolites separated by --- in two-dimensional combination with zone electrophoresis (73) 219
Isotachophoresis
Separation of amino acids (52) 415
Isotachophoresis
Separation of nucleotides by --- (71) 380
Isotachophoresis
Theory of --- (displacement electrophoresis, transphoresis) (93) 7
Isotactic polypropylene
Antioxidants and stabilizers. XXXIII. Analysis of stabilizers of ---: application of GPC (65) 279
Isotetrahydrocannabinol
GC of cannabinoids. GC behaviour of *cis*- and *trans*-tetrahydrocannabinol and --- (79) 81
Isotherms
Hydrogen-treated graphitized carbon blacks. Adsorption of acetic acid and propylamine by GC (77) 277

Isothermal GC
Simple relationship between retention parameters in isothermal and programmed-temperature GC (88) 165
Isothiocyanates
GC of --- and 3-substituted rhodanines (62) 132
Isothiocyanates
Separation and determination of GLC retention indices of --- (73) 231
Isotopes
Elution requirements for ion-exchange separation of uranium --- (55) 395
Isotope effect
--- in the glucose oxidase reaction as determined by ion-exchange chromatography (73) 257
Isotopic exchange
Mechanism of --- in a heterogeneous system (69) 261
Isotopic pairs
Use of high efficiency packed columns for GSC. III. Separation of deuterium substituted compounds (53) 135
Isovalerate wax esters
Chromatographic analysis of isomeric --- and isoamyl wax esters (75) 137
Isozymes
Method of high resolution immunoelectrophoresis for the alcohol dehydrogenase --- (67) 385
Itaconic acid
Methylation of dibasic acids with diazomethane in GC (70) 59

J

Jack bean proteins
Modification of the electrophoretic properties of certain --- by chromatography on tanned gelatin (66) 377

Jasmolins
Analytical studies of pyrethrin formulations by GC. III. Analytical results on insecticidally active components of pyrethrins from various world sources (90) 119

K

Kaempferol
Rapid electron capture determination of caffeic acid and quercetin moieties in plants (52) 385
Kanamycin B
Detection of --- in kanamycin by TLC (86) 274
Kaolinite
---, an adsorbent in GSC (93) 217
Keratan sulphate
TLC separation of glycosaminoglycans (71) 580
Kerogen
Application of chromatographic methods in biogeochemical investigations. Determination of the structures of sapropelites by thermal decomposition (91) 705
Kerosene
Direct GC determination of C_9–C_{14} *n*-paraffins in --- fractions (65) 155
Kestoses
TLC separation of oligosaccharides isolated from sucrose–enzyme mixtures (72) 212
α-Keto acids
Characterization of --- as quinoxalinols. Structure determination of silyl derivatives suitable for GC (81) 139
α-Keto acids
Separation and determination of biologically important --- (57) 281
Keto acids
Separation of 2,4-dinitrophenylhydrazones of some --- on Sephadex LH-20 (78) 429
α-Keto acids
TLC separation of ^{14}C-labelled branched-chain --- and hydroxamic acids derived from the corresponding enzymatically formed acyl-CoA compounds (61) 373
Keto acid 2,4-dinitrophenylhydrazones
Separation of --- by thin-layer electrophoresis (92) 171
Keto acid methyl esters
GLC analysis of 2,4-dinitrophenyl-hydrazones of --- (76) 229
β-Ketoamines
Non-fluorinated tetradentate --- as derivatizing ligands for the GC analysis of Cu(II), Ni(II) and Pd(II) (99) 309
2-Keto-4-gulonic acid
GC–MS study on TMS derivatives of sorbose, --- and ascorbic acid (63) 379
Ketones
Advances in TLC (63) 3
Ketones
Evaluation of polyalkylimines as specific carbonyl abstractors in GC (99) 319
Ketones
Ion-exchange chromatography of aldehydes, ---, ethers, alcohols, polyols and saccharides (98) 55 (review)
Ketones
Separation of alkyl aromatic --- by means of TLC (94) 340
Ketones
TLC of polychloroalicyclic --- (87) 535
Ketones
Topology-information relationship between the structures of --- and saturated aliphatic esters and their retention times in GC (77) 255
Δ^4-3-Keto-steroids
New fluorimetric determination of urinary testosterone by thin-layer densitometry (63) 349
17-Ketosteroids
Steroids. I. Application of TLC to the separation of 2,4-dinitrophenylhydrazones of the physiological important --- (61) 183
17-Ketosteroids
Steroids. II. The use of multiple development in the correlation of the chemical constitutions and the chromatographic migrations of some --- and their 2,4-dinitrophenylhydrazones (71) 319
Ketoxímes
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119

Kieselguhr columns
RNA fractionation on --- (70) 341 (review)
Kinetic model for gas–liquid chromatography --- with adsorbent effects (78) 251
Kinetics of adsorption
Pulse chromatographic method for the investigation of catalytic reactions (69) 3
Kinetics of catalytic reactions
Pulse chromatographic method for the investigation of catalytic reactions (69) 3
Kinetics of chemical reactions
Application of circulation techniques for studying the --- by means of reaction GC (69) 25
Kinetics of volatile products
Application of GC in the study of --- evolved in topochemical processes (69) 31
Kinetin
Chromatography of five cytokinins on an insoluble polyvinylpyrrolidone column (75) 122
Kovar detector
Simplified design for an electron capture detector (95) 169
Kováts index
Retention indices of steroids and their group increment with temperature (76) 133
Kováts retention indices
GC characterization of sulphur compounds in the 93–162° gasoline cut from Romashkino crude oil using --- (65) 207
Kováts' retention indices
GC investigation of organometallic compounds and their carbon analogues. I. Determination, calculation and correlation of --- for tetraalkoxysilanes (88) 295
Kováts' retention indices
GC investigation of organometallic compounds and their carbon analogues. II. Improved method for calculating retention indices of tetraalkoxysilanes (88) 311
Kováts' retention indices
GC investigation of organometallic compounds and their carbon analogues. III. A study of --- for tetraalkoxysilanes containing branched alkoxy groups (90) 35
Kováts' retention indices
GC investigation of organometallic compounds and their carbon analogues. IV. Determination, calculation and correlation of --- for tetraalkylsilanes (90) 41
Kováts' retention indices
GC investigation of organometallic compounds and their carbon analogues. V. Use of refractive index in conjunction with --- for the identification of organosilicon compounds (93) 383
Krebs cycle intermediates
Separation of --- on a low-bleed GC column. Temperature dependence of methylene unit values (78) 420
Kynurenin
TLC of --- metabolites (79) 347
Kynurenine
GC analysis of tryptophan metabolites (55) 291
Kynurenine
GC of urinary --- (82) 331

L

Labelled substances
Semiconductographic determination of --- in TLC (93) 399
Lachrymators
GC–MS method for analysis of the contents of aerosol irritant projectors (80) 155
Lachrymatory agents
Chromatographic characterization of --- in tear gas aerosols (70) 151
Lac operon
PC and TLC of 1-thio-β-D-galacto-pyranosides (79) 373
Lactic acid
Quantitative GC determination of β-hydroxybutyric acid with application to eggs (51) 423
Lactones
Detection of esters as hydroxamates after separation by paper electrophoresis (56) 87
Lactic dehydrogenase
High-voltage electrophoresis of enzymes (63) 173
β-Lactoglobulin A
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. II. The case when molecules can be adsorbed on to both of C and P crystal sites through carboxyl and basic groups (93) 337
Lactones
Detection and TLC of sesquiterpene --- from *Geigeria* species (94) 255
Lactones
Separation of aldonic, deoxyaldonic, hexuronic and hexaric --- and acids using thermostable open tubular glass capillary columns (88) 149
Lactones
TLC and spectral properties of certain --- and related compounds (69) 411
Lactose
Assay of cocaine in the presence of procaine and quinine by CC (52) 107
α-Lactose
GC separation of --- and sucrose as the trimethylsilyl derivatives (90) 345
Laevulinic acid
Quantitative analysis of δ-amino--- native urine samples by TLC (85) 109
Landrin
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174
Langmuir isotherm
Theoretical approach to GSC applied to the slow attainment of adsorption equilibrium and to the --- (94) 1
Lanthanides
Column phenomena in the GLC of metal β-diketonates (77) 265
Lanthanides
Contribution to the separation of rare earths by extraction chromatography with di(2-ethylhexyl) phosphoric acid. II. The behaviour of the matrix and its influence on the behaviour of micro-components (87) 351
Lanthanides
Experimental determination of elution requirements in displacement ion exchange (54) 259
Lanthanides
Extraction of complexes of trivalent --- with different aminopolyacetic acids on a preconditioned ion exchanger (79) 293
Lanthanides
Separation of --- by chromatography on ion-exchange paper SA-2. III. Separation of rare earths of yttrium (70) 216
Lanthanides
Separation of --- using chromatography on SA-2 ion-exchange paper (57) 455
Lanthanides
Separation of yttrium from the --- by ion exchange with diethylenetriamine-pentaacetic acid as eluant. I. Separation of yttrium–erbium mixtures (62) 449
Lanthanons
Preparation and some properties of N,N′-diethylethylenediamine-N,N′-diacetic acid

and N',N'-diethylethylenediamine-N,N-diacetic acid, including ability of the former to associate with --- and yttrium (76) 459

Lanthanons
Preparation, cation-exchange isolation and some properties of N'-methylethylenediamine-N,N,N'-triacetic acid (74) 269

Lanthanum(III)
Thin-layer gel chromatography of polymeric hydrolysis products of metal ions (76) 280

Laplace transformation
Application of numerical --- to chromatographic peak analysis (92) 213

Laser pyrolysis–GC–MS
--- analysis of polymeric materials (99) 301

Laurell electrophoresis
--- on cellulose acetate (75) 165

Laurencia papillosa
Simple and inexpensive method for the visual detection of sub-microgram amounts of halogenated substances present in GC effluents (75) 298

Laurencia spectabilis
Simple and inexpensive method for the visual detection of sub-microgram amounts of halogenated substances present in GC effluents (75) 298

Layer pre-loading
--- in partition TLC of amino acids (82) 53

Lead
High-voltage paper electrophoresis of Hg(II), Cd(II), Pb(II) and Cu(II) in aqueous solution of EDTA and glycolic acid (94) 349

Lead
Influence of temperature on the ion-exchange properties of stannic arsenate. Separation of Pb^{2+}, UO_2^{2+} and Cr^{3+} from numerous metal ions (54) 269

Lead
Isotachophoresis on paper. Part II. The separation of Ag(I), Tl(I), Hg_2^{2+} and Pb(II) (79) 380

Lead
Rapid determination of --- in used lubricating oils on thin-layer chromatograms (93) 211

Lead
Response of the alkali flame ionisation detector to silicon, tin and --- compounds (59) 429

Leaf pigments
Chromatography of --- on silica gel and aluminium hydroxyde loaded papers (61) 202

Least-squares computational method
Determination of the temperature-dependence of the retention index in GLC by computer (66) 205

Lecithin catabolism
Improved method for separating the products of lysolecithin and --- (73) 262

Lecithin
Miniature TLC determination of the ---/sphingomyelin ratio in amniotic fluid (89) 197

Leucenol
GLC of mimosine (62) 141

Leucine
GLC of amino acid derivatives. The effect of substituents (78) 211

Leucine
Microgel electrophoretic analysis of the proteins in single rat thyroid follicles. III. Incorporation of [^{3}H]--- into the large iodoproteins of the colloid (73) 292

Leucine
Resolution of Dansyl --- and Dansyl isoleucine (76) 268

Leucine derivatives
Complete resolution of enantiomeric *tert.* --- by GLC (66) 141

Leucyl dipeptides
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. Part VIII. The characterization of --- and isoleucyl dipeptides by TLC and ion-exchange chromatography (79) 187

Levorin
Pyrolysis–GC of polyene antifungal antibiotics: the nature of candicidin, --- and trichomycin (53) 566

Lewis bases
GC separations of --- on dithiophosphinatonickel(II) complexes $[RR'P(S)S]_2Ni$ (77) 422

Librium
Determination of chlordiazepoxide plasma concentrations by electron capture GLC (61) 237

Lichen
Improved conditions and new data for the identification of --- products by a standardized TLC method (72) 113
Lichen products
Conditions for the use of Merck silica gel 60 F_{254} plates in the standardized TLC technique for --- (97) 107
Lidocaine
Rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211
Ligands
Non-fluorinated tetradentate β-keto-amines as derivatizing --- for the GC analysis of Cu(II), Ni(II) and Pd(II) (99) 309
Ligand exchanges
Ligand-exchange chromatography of racemates. Influence of the degree of saturation of the asymmetric resin by metal ions on --- (82) 359
Ligand-exchange chromatography
--- of racemates. Influence of temperature and concentration of eluent on --- (93) 363
Ligand-exchange chromatography
--- of racemates. Resolution of α-amino acids (91) 493
Ligand-exchange chromatography
Studies in ---. Part IV. Separation of hydroxybenzoic and hydroxynaphthoic acid isomers (85) 101
Light absorption methods
Critical study of some parameters in quantitative *in situ* investigations of TLC by --- (64) 285
Light scattering
Analogue device for correcting densitometric measurements of coloured spots on chromatograms for the effect of --- (79) 165
Lignans
Chromatography of the --- of *Thuja plicata* Donn (51) 553
Lignin
Detection of methoxyaromatic acids in the oxidation products of coals and humic acid by GLC (66) 29
Lignin
Improved methods for the estimation by GLC of --- degradation products from plants (54) 335
Lignin
Quantitative GLC determination of aromatic aldehydes and acids from nitrobenzene oxidation of --- (51) 167
Lignin-type sulfonates
PC of monomeric and dimeric --- (63) 470
Lignosulfonic acid model compounds
GC separation and purification of methyl esters of some --- (69) 368
Lindane
Improved quantitative GC method for the analysis of small amounts of chlorinated hydrocarbon pesticides in human plasma (74) 21
Lindane
Rapid analysis of dichloran, ---, PCNB and TCNB residues in lettuce by automated GLC (93) 91
Lindane
TLC–enzymatic identification of some --- and possible DDT-metabolites as well as pentachlorophenol (67) 343
Lindane
Ultratrace analysis (below p.p.b.) by coupling centripetal TLC and GC (78) 127
Linear equilibrium chromatography
Statistical moments in --- (93) 1
Linear relationship method
Precision and other aspects of GC analysis by the --- (69) 231
Linear solvent concentration gradient
GC with --- (89) 153
Line shapes
Non-ideal --- in GLC (89) 119
Linseed oil
TLC examination of various seed oils (95) 235
Lipids
Analytical methods for tobacco ---. I. A rapid method for the estimation of solanesol by thin-layer densitometry (61) 180
Lipids
Anomalous TLC of dolichol phosphate mannose in the presence of microsomal --- (97) 293
Lipids
Application of the sulpho-phospho-vanillin reaction to the determination of --- separated by TLC (93) 183
Lipids
Chromatographic fractionation of the

--- of *Tetrahymena pyriformis* (75) 141
Lipids
Chromatographic separation of ovarian dermoid cyst --- and prostaglandins (63) 321
Lipids
CC method for the fractionation of fish neutral --- (57) 142
Lipids
CC of the bromo–mercuri–methoxy adducts of fatty acid methyl esters as a means of isolating polyenoic acids present in low concentrations (53) 253
Lipids
Computer-controlled scraper for standard thin-layer plates (63) 131
Lipids
Cupric sulphate as a charring agent in the TLC of --- (88) 428
Lipids
Detection of cerebrosides on thin-layer chromatograms with an anthrone spray reagent (85) 174
Lipids
Detection of choline-containing --- on thin-layer chromatograms (63) 455
Lipids
Detection of fatty acids, fatty aldehydes, phospholipids, glycolipids and cholesterol on thin-layer chromatograms stained with malachite green (88) 425
Lipids
Determination of cerebrosides and cerebral sulphatides using TLC (technique without preliminary elution) (57) 448
Lipids
Do lysophospho--- really exist in *Tetrahymena pyriformis*? (87) 193
Lipids
Heptadecenoic acid as an internal standard in the GC weight determination of fatty acids (51) 155
Lipids
High-speed LC of non-polar --- (84) 299
Lipid
Improved automatic --- extraction and thin-layer spot application system (63) 59
Lipids
Improved one-dimensional TLC separation of neutral --- classes (51) 545
Lipids
Microanalytical quantitation of serum --- by TLC utilizing an automated applicator (63) 63
Lipids
Micromethod for the quantitative determination of --- by use of TLC, photodensitometry and an internal standard (68) 153
Lipids
Novel charring technique for detection of --- on thin-layer chromatograms (56) 320
Lipids
Novel method for the separation and identification of bile acids and phospho--- of bile on thin-layer chromatograms (89) 87
Lipids
One-stage solvent system and one-dimensional TLC separation of milk simple --- classes on 20 × 20 cm plates (51) 319
Lipids
Phospholipid analysis on a micro scale (53) 595
Lipid
Phospho--- spray reagents (65) 451
Lipids
Preparative isolation of phosphono--- by ascending dry-CC (75) 227
Lipid
Problems concerning the densitometric evaluation of thin-layer chromatograms demonstrated by means of the --- state in serum separated by TLC (84) 109
Lipids
Purification of ganglioside fractions by CC on Sephadex G-100 (58) 288
Lipids
Quantitative liquid scintillation radio-assay of phospho--- from thin-layer chromatograms (67) 75
Lipids
Recovery of --- from TLC for radio-assay (52) 498
Lipids
Separation and identification of fatty acids from *Macrophomina phaseoli* by TLC and GLC (85) 171
Lipids
Separation of bile acids from neutral --- by TLC (76) 425

Lipids
Separation of phosphatidyl inositomannosides of Mycobacteria (94) 342
Lipids
Separation of small amounts of free fatty acids from large amounts of neutral fats on Sephadex LH-20 (70) 164
Lipids
Silica gel CC of acidic phospho---. Effects of metal ions of adsorbent and phospho--- on the elution profiles (89) 259
Lipids
Silica gel TLC of acidic phospho---. I. Effect of metal ions of the adsorbent and phospho--- on the chromatographic mobility of cardiolipin and phosphatidylinositol (89) 275
Lipids
Simple method of gradient elution in TLC of --- (52) 357
Lipids
Simplified technique for thin-layer microchromatography of --- (67) 376
Lipids
Simultaneous fluorometric analysis of five --- classes on TLC (60) 111
Lipids
TLC of bacterial --- on sodium acetate-impregnated silica gel (63) 452
Lipids
TLC of red cell glycosphingo--- from various mammalian species (61) 285
Lipids
Two-step, two-dimensional development TLC of --- on a micro-scale (86) 197
Lipids
UV-detection using 2,2′-*p*-phenylenebis-(4-methyl-5-phenyloxazol) of --- and bile acids on thin-layer chromatoplates (78) 434
Lipid classes
Separation and quantitative recovery of ---; a convenient TLC method (80) 133
Lipid classes
Separation of six --- on one thin-layer chromatogram (90) 365
Lipids, glycerol-(2-aminoethylphosphonate)
Chromatographic fractionation of the lipids of *Tetrahymena pyriformis* (75) 141
Lipids, glycerol-(2-aminoethylphosphonate)
Preparative isolation of phosphonolipids by ascending dry-CC (75) 227
Lipids, glycerol-phosphorylethanolamine
Preparative isolation of phosphonolipids by ascending dry-CC (75) 227
Lipids, glycerylphosphorylcholine
Chromatographic fractionation of the lipids of *Tetrahymena pyriformis* (75) 141
Lipids, glycerylphosphorylethanolamine
Chromatographic fractionation of the lipids of *Tetrahymena pyriformis* (75) 141
Lipid intermediates
Radioisotopes – Introduction. Detection and chromatographic resolution of labeled --- formed in enzyme systems (78) 141
Lipid phosphorus
Influence of Silica Gel G on the quantitative analysis of --- (78) 89
Lipids, polar
Coupled GC–MS in the separation and characterization of --- (98) 105 (review)
Lipophilic anion exchangers
Preparation of --- from chlorohydroxypropylated Sephadex and cellulose (59) 45
Lipophilic compounds
Separation of mixtures of --- and hydrophilic compounds by gel distribution chromatography on Sephadex LH-20 (67) 291
Lipophilic compounds
Two-dimensional TLC of ---. Characterization of a mixed stationary phase permitting both adsorption TLC and reversed-partition TLC on one plate (89) 92
Lipophilic gel chromatography
Hydroxyalicyclic derivatives of Sephadex LH-20 for (83) 39
Lipophilic gel chromatography
Lipophilic gel and gas-phase analysis of steroid hormones application to the human newborn (99) 485
Lipopolysaccharide
Dye-complexed bacterial --- as a void volume marker for permeation chromatography (72) 395
β_1-Lipoprotein
Isolation of immunoglobulin M from

human serum by gel chromatography and electrochromatography on a column of Sephadex G-200 (71) 459
Liquid chromatographs
LC – columns or thin layers? (83) 245
Liquid chromatograph
––– –mass spectrometer–computer analytical systems. A continuous-flow system based on atmospheric pressure ionization MS (99) 13
Liquid chromatography
Autograd. An automated simplified eluent gradient-generating system for use in ––– (75) 175
Liquid chromatography
Conductometric detector with a volume of less than 0.5 μl (78) 357
Liquid chromatography
Control of flow rate in high pressure ––– (60) 65
Liquid chromatography
Disc detector for ––– (71) 395
Liquid chromatography
Disc detector for ––– (79) 383
Liquid chromatography
Effect of flow rates and the slope of the linear concentration gradient on peak areas in high pressure ––– (57) 383
Liquid chromatography
–––. IV. Effects of solvent velocity on separation using ion-exchange resin (71) 389
Liquid chromatography
Electro-osmosis. A new concept for high-speed ––– (99) 23
Liquid chromatography
Experimental comparison of some detectors used in high-efficiency ––– (73) 105
Liquid chromatography
Fast ––– on silica gel (57) 373
Liquid chromatography
Fluorescence detector for high-speed ––– (72) 293
Liquid chromatography
Highly permeable open-pore polyurethane columns for ––– (99) 123
Liquid chromatography
Influence of the particle size (5–35 μm) of spherical silica on column efficiencies in high-pressure ––– (99) 377
Liquid chromatography–mass spectroscopy
Interface for on-line ––– analysis (99) 395
Liquid chromatography
Method of sampling by conventional syringes from moderately pressurized closed systems (60) 127
Liquid chromatography
Miniature flow fluorometer for ––– (73) 117
Liquid chromatographic systems
Miniaturised UV flow photometer for use in ––– (51) 175
Liquid chromatography system
Multi-component preparative ––– (73) 248
Liquid chromatography
New design for a continuous double sample applicator for ––– (56) 357
Liquid chromatography
Performance of the capacitance detector for ––– (65) 53
Liquid chromatography
Prospects of selective detection by capacitance detectors in ––– (57) 181
Liquid chromatography
Rapid ––– on aluminium oxide (66) 382
Liquid chromatography
Silochroms as adsorbents and supports in ––– (80) 167
Liquid chromatography
Simple, noise-free, starting-point generating device for ––– (74) 128
Liquid chromatography
Study of the pertinency of pressure in –––. I. Theoretical analysis (99) 357
Liquid chromatography
Use of the resonance principle in the permittivity detectors for ––– (54) 357
Liquid crystal
Behavior of *p*-(*p*-ethoxyphenylazo)phenyl undecylenate (EPAPU) ––– as a chromatographic liquid phase coated on glass beads (99) 135
Liquid film
Theory of GLC. The influence of the thickness of the stationary ––– (80) 147
Liquid–liquid chromatography
Investigations on the relationship between molecular structure and chromatographic parameters. VI. Effect of adsorption phenomena in ––– with binary mobile phases (96) 155
Liquid–liquid chromatography
Preparation and application of porous packing materials for ––– (57) 67

Liquid phase
Behavior of *p*-(*p*-ethoxyphenylazo)phenyl undecylenate (EPAPU) liquid crystal as a chromatographic --- coated on glass beads (99) 135
Liquid phases
Evaluation of recent GLC --- for resolution of acetylated plant sterols (75) 187
Liquid phases
In situ synthesis of silicone --- for chromatography (60) 329
Liquid phases
Use of thermodynamic solubility parameters for the characterization of --- (99) 173
Liquid scintillation
Continuous detection of radioactive GC effluents by --- (76) 13
Liquid–solid chromatography
Effect of geometrical structure and the surface chemistry of silica gels on separations in --- (58) 11
Lithium buffers
Single column amino acid analysis using --- and an ammonia filtration system (63) 404
Lithium buffers
Step-change *versus* gradient --- for single-column chromatography of complex amino acid mixtures (78) 221
Lithium chloride
Salting-in and salting-out of oxygen-containing compounds in GC. Entropy and enthalpy aspects (68) 59
Lithium citrate buffers
Accelerated amino acid analysis with ---. The effect of resin cross-linkage on elution patterns and the avoidance of microbial contamination of columns (62) 373
Lithium citrate buffers
Effect of the pH of the amino acid test solution on ion-exchange chromatography in a lithium cycle (71) 363
Lithium–sodium gradient buffer system
Mixed --- for single-column amino acid chromatography (78) 349
Liver extracts
SP-Sephadex column chromatography of cobalamins contained in --- (92) 201
Low molecular compounds
High-voltage electrophoresis (63) 153
Low resolution power data
New sensitive specific GC method for the determination of the carcinostatic agent 6-chrysenamine in biological samples (84) 171
LSD
Characterization of --- in illicit preparations by pressure-assisted LC and GC (84) 181
LSD
Studies on quantitative *in situ* fluorometry of lysergic acid diethylamide (---) on thin-layer chromatograms (59) 127
Lubricating oils
Rapid determination of lead in used --- on thin-layer chromatograms (93) 211
Lubricating oils
Rapid monitoring of variations in --- by GPC (97) 201
Lumisterol$_2$
Separation of the photochemical isomers of ergosterol by TLC (59) 226
Lunar fines
Search for organics in hydrolysates of --- (54) 169
Lutein
Carotenoid analysis by two-dimensional, two-adsorbent TLC (61) 133
Lutein
Chromatography of leaf pigments on silica gel and aluminium hydroxide loaded papers (61) 202
Lutein
Continuous flow separation of carotenoids by LC (55) 325
Luteolin
Direct densitometric determination by absorption of flavonoids of the yellow-weld (*Reseda luteola* L.) separated by TLC (71) 487
Luteolin diglucoside
Direct densitometric determination by absorption of flavonoids of the yellow-weld (*Reseda luteola* L.) separated by TLC (71) 487
Luteolin 7-O-glucoside
Direct densitometric determination by absorption of flavonoids of the yellow-weld (*Reseda luteola* L.) separated by TLC (71) 487
Lutetium
Separation of rare earths by ion-exchange chromatography. III. Analysis of erbium, thulium, ytterbium, and --- (75) 101

Lycopene
Studies on charge transfer complexes of some conjugated compounds with explosives (59) 457
Lysergic acid diethylamide, *see* LSD
Lysergide
TLC of --- and other ergot alkaloids (72) 351
Lysine
Determination of --- and ornithine using acid ninhydrin (71) 564
Lysine
Determination of ε-hydroxynorleucine and "reduced aldol condensate" by standard amino acid chromatography (79) 337
Lysine
L-2,4-Diaminobutyric acid as a standard in the estimation of --- in maize samples (63) 409
Lysine
Improved CC determination of N^{ϵ}-methylated --- in physiological fluids (76) 252
Lysine
Separation of isomeric --- derivatives by ion-exchange chromatography (56) 171
Lysine
Sodium chloride in buffers for amino acid analysis. Application to the analysis of --- in maize samples (89) 84
Lysine
Use of a bacterial L-amino acid decarboxylase for the control of the degree of racemisation of amino acid mixtures obtained from protein hydrolysates (54) 225
Lysine-rich histones
Method for differentiating between arginine-rich histones and others in polyacrylamide gel (75) 161
Lysinonorleucine
Procedure for the automatic analysis of all amino acids in elastin hydrolyzates on a routine basis (79) 335
Lysolecithin catabolism
Improved method for separating the products of lecithin and --- (73) 262
Lysophospholipids
Do --- really exist in *Tetrahymena pyriformis*? (87) 193

M

Mace
Chromatographic comparison of the constituents of nutmeg and --- (*Myristica fragrans* Houtt.) with those of marihuana and hashish (*Cannabis sativa* L.) (89) 113
Mace
Identification of the major components of the essential oil of --- (69) 115
McReynolds' retention index matrix
Major components influencing retention indices in GC (80) 43
α_2-Macroglobulin
Isolation of immunoglobulin M from human serum by gel chromatography and electrochromatography on a column of Sephadex G-200 (71) 459
Macromolecules
Mechanism of GPC: Distribution coefficient (83) 111
Macromolecules
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. I. The case when virtually all molecules are adsorbed on to a single type of crystal site through a single type of adsorption group (93) 313
Macromolecules
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. II. The case when molecules can be adsorbed on to both of C and P crystal sites through carboxyl and basic groups (93) 337
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. I. The case of a single molecular species (82) 167
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. II. The case of several molecular species (82) 191
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. III. Microheterogeneous model of tropocollagen molecules (82) 219
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. IV. Further theory of the microheterogeneous model of tropocollagen molecules (82) 237
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. V. Further theory of the case of several molecular species (82) 241
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. VI. Analytical calculation of chromatograms (93) 257
Macromolecules
Theory of chromatography of rigid rod-like --- on hydroxyapatite columns. VII. Investigations on the resolving power of the columns (93) 275
Macrophomina phaseoli
Separation and identification of fatty acids from --- by TLC and GLC (85) 171
Macroreticular resins
Use of --- in the analysis of water for trace organic contaminants (99) 745
Magnesium
Ion-exchange chromatography of calcium and --- in mixed dimethyl sulphoxide–water media (59) 237
Magnesium hydroxide
--- as a TLC adsorbent. III. Application to separations of vitamin A and related carotenoids (69) 215
Magnesium ions
Effect of anions on the gel chromatographic behaviour of --- (58) 267
Magnesium perchlorates
Application of GC in the study of kinetics of volatile products evolved in topochemical processes (69) 31

Maize
Sodium chloride in buffers for amino acid analysis. Application to the analysis of lysine in --- samples (89) 84
Maleic acid
Methylation of dibasic acids with diazomethane in GC (70) 59
Maleic anhydrides
Quantitative analysis of --- and citraconic anhydrides by GC (55) 303
Malic dehydrogenase
High-voltage electrophoresis of enzymes (63) 173
Malonic acid
Application of the ligand exchange method to the separation of some aliphatic carboxylic acids (95) 127
Malonic acid
GC determination of oxalic acid, --- and succinic acid from biological material (92) 431
Malonic acid
Sensitivity of the FID for dicarboxylic acid esters (77) 175
Malononitrile
TLC of 2,4-dinitrobenzenediazonium coupling products with --- and some analogues (84) 414
Maltodextrin
PC behaviour of homologous linear polymers. The isomaltodextrin, ---, and cellodextrin series and their 1-(*m*-substituted phenyl)-flavazoles (70) 99
Maltooligosaccharides
GPC of --- at different temperatures (57) 89
Maltose
Two dimensional PC for the detection of oxidation of --- by glucose oxidase (55) 425
Malvidol
Quantitative isolation of glucoside in --- from red wine or methanolic extracts from marc of grapes (87) 269
Manganese
Separation of ---, iron, cobalt, nickel, copper, zinc and cadmium by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275
Manganese(II) chlorides
Use of vanadium(II), ---, and cobalt(II) chlorides as packings to separate alkanes, alkenes and alkynes by GC (59) 13
Mangostin
GLC of naturally occurring xanthones and related derivatives (57) 247
Mannans, cross-linked
Affinity chromatography of yeast antibodies on modified mannan (91) 293
Mannodextrins
Preparation of --- and their separation by gel chromatography (66) 370
Marihuana
Chromatographic comparison of the constituents of nutmeg and mace (*Myristica fragrans* Houtt.) with those of --- and hashish (*Cannabis sativa* L.) (89) 113
Marihuana
Minor components of cannabis resin. I. Their separation by GC, thermal stability and protolytic properties (63) 391
Marihuana
Rapid thermomicro/TLC procedure for the identification of cannabinoids in --- (87) 298
Marijuana
Cannabis sativa L. (---). III. The RIM test: a reliable and useful procedure for the detection and identification of marijuana utilizing combined microscopy and TLC (82) 151
Mashed gel
Method for the rapid elution of proteins from "---" after starch gel electrophoresis (94) 107
Mass fragmentography
Computer-controlled --- with digital signal processing (81) 47
Mass fragmentography
--- as an application of gas–liquid chromatography–mass spectrometry in biological research (73) 401 (review)
Mass spectrometer
Liquid chromatograph----computer analytical systems. A continuous-flow system based on atmospheric pressure ionization MS (99) 13
Mass-spectrometric fragmentation
Pyrolytic and --- of aliphatic side-chains in alkylresorcinols (69) 59
Mass spectrometry
GLC---- investigation of C_6–C_{20}

organic compounds in an urban atmosphere. An application of ultra trace analysis on capillary columns (62) 1
Mass spectrometry
Potentiality of the coupling of column LC and field desorption --- (83) 315
Mass spectrometry
Utilization of GLC coupled with chemical ionization and electron impact --- for the investigation of potentially hazardous environmental agents and their metabolites (98) 363 (review)
Mass spectroscopy
Interface for on-line LC---- analysis (99) 395
Mass transfer
Comparison of equations describing --- in packed beds (73) 1
Mass transfer
Dependence of chromatographic peak shapes on column and experimental parameters (83) 205
Mass transfer coefficients
Effect of the carrier gas velocity on the retention volume in GC on Porapak sorbents (91) 59
Mass transfer coefficients
--- in GC on porous polymers of the Porapak type (91) 51
Mass transfer terms
--- in porous layers and particles (68) 1
Mass transport
Non-ideal line shapes in GLC (89) 119
Matacil
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174
Meat products
Qualitative and quantitative evaluation of the low-molecular-weight monocarbonyls in --- (66) 35
Medazepam
GC analysis of --- and its metabolites using an electrolytic conductivity detector (100) 49
Medicinal plants
Contribution to the knowledge of Nigerian ---. III. Chromatographic studies on *Zingiber officinale* Roscoe (93) 421
Mefenamic acid
Detection of --- and its metabolites in urine by TLC (90) 405
Melatonin
Tryptamines. I. The chromatography of --- (61) 225
Melleril
Evaluation of liquid–liquid systems for the chromatographic separation of the psychotropic drug thioridazine and its metabolites (83) 405
Melon
Problems of selectivity and efficiency in LSC (91) 187
Membrane
Rapid automatic analysis of hydroxylysine, hydroxylysine glycosides, and methionine sulfoxide in collagen and basement --- (88) 245
Membrane chromatography
--- of cells on sponge-like poly(2-hydroxyethyl) methacrylate (67) 362
Membrane chromatography
New observations concerning the --- of cells (76) 274
Menthoglycols
Derivatives of menthols and --- for use in GC and MS (57) 55
Menthols
Derivatives of --- and methoglycols for use in GC and MS (57) 55
Meperidine
Mini TLC in the detection of narcotics in urine from subjects on a methadone maintenance program (65) 577
Mercaptans
GC separation of --- as derivatives (100) 165
Mercaptans
Use of heavy metal salts in the analysis of organic sulphur compounds (69) 79
1-(2-Mercaptoethyl)guanidine
TLC of salts of S-(2-aminoethyl)-2-thiopseudourea and its transformation products (67) 193
Mercaptosuccinic acid
Amino acid analysis: The humin problem (68) 123
Merckogel® PGM 2000
Chromatographic applications of the polyethylene glycol dimethacrylate gel --- under normal and high pressure (57) 77
Mercury
Detection of --- and alkylmercury compounds by reversed-phase TLC (51) 283

Mercury
Estimation of inorganic --- (at low concentrations) by GC (76) 285
Mercury
High-voltage paper electrophoresis of Hg(II), Cd(II), Pb(II) and Cu(II) in aqueous solution of EDTA and glycolic acid (94) 349
Mercury
Isotachophoresis on paper. Part II. The separation of Ag(I), Tl(I), Hg_2^{2+} and Pb(II) (79) 380
Mercury
Perhalobenzenesulfinates as reagents in the determination of inorganic --- in various media by GLC (87) 215
Mercury
Use of chitosan columns for the removal of --- from waters (96) 115
Mercury fungicides
TLC detection of organomercury compounds (72) 153
Mercury, inorganic
Determination of --- by GLC (89) 201
Mercury labeling
Quantitative analysis of thin-layer chromatograms with low ^{14}C-activities by silver activation and --- of the autoradiograms (76) 191
Merino wool
Studies on the high-sulphur proteins of reduced ---. The chromatography of group IIIA on cellulose phosphate (78) 363
Mervan®
GC determination of 4-allyloxy-3-chlorophenylacetic acid (Alclofenac) and its metabolites (62) 135
Mescaline
TLC separations of some geometric isomers (67) 184
Mesophases
Direct GC resolution of enantiomers on optically active ---. I. Smectic carbonyl-bis-(D-leucine isopropyl ester) (87) 243
Mesophases
Direct GC resolution of enantiomers on optically active ---. II. Effects of stationary phase structure on selectivity (88) 41
Mesurol
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174
Metabolic acids
GC separation of --- on surface-modified Chromosorb (82) 382
Metabolic conditions, abnormal
Application of GC–MS in routine and research in clinical chemistry (91) 353
Metabolic profiles
Analysis of trace volatile metabolites in serum and plasma (91) 379
Metabolic profiles
Gas phase analytical methods for the study of human metabolites. --- obtained by open tubular capillary chromatography (91) 367
Metacycline
Chromatography of antibiotics on SP-Sephadex (86) 139
Metals
Chromatography of --- on DEAE-cellulose layers in phosphoric acid media (80) 241
Metals
Crystalline insoluble acid salts of tetravalent ---. XI. Synthesis and ion-exchange properties of tin(IV) phosphate and tin(IV) arsenate (51) 289
Metals
Detection of some noble --- by heat colouration on thin layers with direct flame (51) 348
Metals
Elution behaviour of typical transition --- on single and mixed ion-exchange columns (94) 271
Metals
Hydrogen-rich flame ionization detector sensitive to --- (74) 319
Metals
Paper electrophoretic study of ion-pair formation. VIII. The behaviour of Co(III) complexes in solutions of chromate and bichromate (65) 463
Metals
Separation of the Gold(III)–Rhodamine B chloro complex from Fe(III), Sb(V) and Ga(III)–Rhodamine B chloro complexes by TLC (61) 390
Metals
TLC behavior of a number of --- on DEAE-cellulose in organic solvent–sulphuric acid mixtures (61) 307
Metals
TLC behaviour of a number of transition

--- on DEAE-cellulose in azide/chloride media (69) 223
Metals, charge-transfer complexes of
--- in the chromatographic separation of organic compounds (68) 325 (review)
Metal chelates
Thermodynamics of molecular association by GLC. σ-Donor molecules and dimeric 3-trifluoroacetylcamphorates of Mn(II), Co(II) and Ni(II) (99) 147
Metal complexes
PC of --- of some phosphonic amino acids (77) 239
Metal complexes, dithiophosphinato-
Chemisorption chromatography by means of dithiophosphinato complexes (95) 238
Metal β-diketonates
Column phenomena in the GLC of --- (77) 265
Metals, heavy
Comparison of some ready-for-use thin layers for the separation of --- with butanol–3 *N* HCl (65) 460
Metals, heavy
High-voltage paper electrophoresis of Hg(II), Cd(II), Pb(II) and Cu(II) in aqueous solution of EDTA and glycolic acid (94) 349
Metal ions
Chromatographic behaviour of some divalent --- in sodium chloride, sulphate and nitrate solutions on a Sephadex G-10 column (75) 169
Metal ions
Chromatography of --- on polyamide thin layers (68) 237
Metal ions
Chromatography of --- on thin layers of polytetrafluoroethylene with di(2-ethylhexyl)orthophosphoric acid (53) 605
Metal ions
Effect of sample concentration on the gel chromatographic behaviour of alkaline earth --- on Sephadex columns (52) 329
Metal ions
Gel chromatographic behaviour of some --- (52) 321
Metal ions
Gel chromatography of ---. The hydrolysis polymers of Cr(III) and Rh(III) (94) 338
Metal ions
Influence of temperature on the ion-exchange properties of stannic arsenate. Separation of Pb^{2+}, UO_2^{2+} and Cr^{3+} from numerous --- (54) 269
Metal ions
Ion-exchange separations on mixed columns (83) 59
Metal ions
Ligand-exchange chromatography of racemates. Influence of the degree of saturation of the asymmetric resin by --- on ligand exchanges (82) 359
Metal ion
--- separation in thiocyanate media using a liquid anion exchanger (53) 345
Metal ions
PC identification of the alkali ---. Eluents with H_2S (93) 485
Metal ions
PC investigation of the thiourea complexes of copper(I), silver(I) and gold(I) (65) 425
Metal ions
Paper electrophoresis of --- in EDTA ligand buffer solutions. I. Theoretical treatment (71) 523
Metal ions
Paper electrophoresis of --- in EDTA–ligand buffer solutions. II. Some bivalent --- and rare earth --- (72) 373
Metal ions
Paper electrophoresis of --- in EDTA ligand buffer solutions. III. Qualitative and quantitative analysis of rare earth metal mixtures (74) 325
Metal ions
Rapid and continuous determination of --- by cation-exchange chromatography (77) 397
Metal ions
Selective chromatographic separation of uranium(VI) on DEAE-cellulose layers in dilute acetic acid media (86) 167
Metal ions
Synthesis and IR, X-ray and ion-exchange studies of some amorphous and semi-crystalline phases of titanium antimonate. Separation of VO^{2+} from various --- (62) 431
Metal ions
Synthesis, ion-exchange behaviour and analytical applications of stannous

ferrocyanide. Separation of Mg–Ca, Mg–Ba, Mn–Co, Mn–Ni and Y–Th (65) 547

Metal ions
Synthesis of tin(IV) antimonate of high thermal and chemical stability. Separation of Mg^{2+} from Sr^{2+}, Cd^{2+}, Cu^{2+}, Al^{3+} and La^{3+} (67) 351

Metal ions
TLC behaviour of a number of --- on DEAE-cellulose in thiocyanic acid–organic solvent mixtures (52) 339

Metal ions
Thin-layer gel chromatography of polymeric hydrolysis products of --- (76) 280

Metal ions
Use of Teflon film in quantitative analysis by enclosed-strip paper electrophoresis. The separation and determination of the valence states of iron (53) 616

Metal ions of adsorbent
Silica gel CC of acidic phospholipids. Effects of --- and phospholipid on the elution profiles (89) 259

Metal ions of adsorbent
Silica gel TLC of acidic phospholipids. I. Effect of --- and phospholipid on the chromatographic mobility of cardiolipin and phosphatidylinositol (89) 275

Metallocarboranes
High-pressure LC of --- (88) 187

Metal salts, heavy
Use of --- in the analysis of organic sulphur compounds (69) 79

Metal thenoyltrifluoroacetonates
GLC of some thenoyltrifluoroacetonates (66) 121

Metanephrine
Selective GC–MS methods for the quantitatioin of normetanephrine, --- and vanillylmandelic acid (90) 163

Metaoxon
Enzymatic and polarographic determination of Metation and its analogues after separation on silica gel thin layers (59) 446

Metaperiodate
--- – new structure-specific locating reagent for phenolic compounds (86) 222

Metaqualone
Sensitive spray reagent for --- and its metabolites (94) 347

Metation
Enzymatic and polarographic determination of --- and its analogues after separation on silica gel thin layers (59) 446

Methacrolein
Determination of products from the oxidative dehydrogenation of isobutene by GLC–MS (65) 303

Methacrylate resins
--- for the GC separation of strongly polar compounds (91) 133

Methadol
GLC method for the quantitative determination of acetyl--- and its metabolites in human urine (82) 315

Methadone
Application of high-speed LC to the analysis of morphine, heroin, 6-(O-acetyl)-morphine and --- (87) 95

Methadone
Chromatographic separation of ---, some of its metabolites and congeners (67) 379

Methadone
Detection of drugs in urine for --- treatment programs (57) 139

Methadone
GC detection of --- and morphine in the urine of drug addicts (60) 131

Methadone
GLC method for the quantitative determination of --- in human plasma and urine (65) 361

Methadone
Mini TLC in the detection of narcotics in urine from subjects on a --- maintenance program (65) 577

Methadone
Necessity of elution and identification of drugs indicated by TLC (54) 245

Methadone
Sensitive TLC technique for determining morphine in urine (71) 135

Methadone
Separation of morphine alkaloids, heroin, --- and other drugs by ion-exchange chromatography (82) 398

Methadone
Simple, rapid TLC drug screening procedure (95) 75

Methadone
Simplified multiple sample urinalysis in support of a --- clinic (71) 165
Methadone
Ultra rapid method for the extraction of drugs from biological fluids (63) 303
Methamphetamine
GC detection of nitrogen-containing drugs in aqueous solutions by means of the nitrogen detector (52) 237
Methamphetamine
Mini TLC. III. A rapid and sensitive method for the estimation of amphetamine and --- (68) 289
Methane
GC measurement of hydrogen, ---, and neon in air (69) 103
Methaqualone
Determination of --- in plasma by GLC (90) 394
Methaqualone
Improved quantitative GLC assay for the estimation of --- in biological fluids (72) 29
Methimazole
Development and comparison of TLC and GLC methods for measurement of --- in rat urine (53) 285
Methindione
Electron capture GC of --- (94) 239
Methionine sulfoxide
Rapid automatic analysis of hydroxylysine, hydroxylysine glycosides, and --- in collagen and basement membrane (88) 245
Methohexital
Rapid and sensitive GC determination of hexobarbital in plasma of man using a nitrogen detector (88) 235
Methoxyaromatic acids
Detection of --- in the oxidation products of coals and humic acid by GLC (66) 29
5-Methoxy-N,N-dimethyltryptamine
Identification of N,N-dimethyltryptamine, --- and bufotenin by cellulose TLC (86) 269
5-Methoxy-N:N-dimethyltryptamine
Use of *o*-phthalaldehyde as a spray reagent for the TLC identification of bufotenin and --- (57) 433
3-Methoxy-4-hydroxymandelic acid
Separation of norepinephrine and its five major metabolites by PC (67) 129
3-Methoxy-4-hydroxyphenylethylglycol
Separation of norepinephrine and its five major metabolites by PC (67) 129
Methylacetamide stationary phases
Thermodynamics of interactions of hexenes with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
N-Methylamide
Characterization of the GC separation properties of --- by means of IR spectroscopic frequency shifts and selectivity coefficients. III. Classification of GC liquid phases and calculation of retention data by means of IR spectroscopic measurements (64) 7
Methylamines
Identification of chlorohydrates of --- and ethylamines by TLC (59) 203
N-Methylamino acids
Determination of branched-chain --- (84) 361
N-Methylamino acids
Determination of --- and their optical purity with an amino acid analyser (52) 251
Methylamphetamine
Ultra rapid method for the extraction of drugs from biological fluids (63) 303
1-Methylazulene
Separation of azulenes on mixed layers of silica gel and oxalic acid (80) 271
N-Methylbenzthiazolone-(2)-hydrazone
--- (Besthorn's hydrazone) as a sensitive spray reagent for patulin (86) 190
N-Methyl-bis(trifluoroacetamide)
Acylation with bis(acylamides). --- and bis(trifluoroacetamide), two new reagents for trifluoroacetylation (78) 273
2-Methylbutanol-1
Separation of --- and 3-methylbutanol-1 by GC (59) 154
3-Methylbutanol-1
Separation of 2-methylbutanol-1 and --- by GC (59) 154
N-Methyl carbamates
Fluorigenic labelling of carbamates using dansyl chloride. II. Fluorescence phenomena of the derivatives (66) 93
N-Methyl carbamate insecticides
Fluorigenic labelling of carbamates with dansyl chloride. IV. *In situ* quantitation of --- on thin-layer chromatograms (67) 87

Methylcycloalkanes
GC of C_6 and C_7 cycloalkyl chlorides, cycloolefins, ---, and related bicyclo(*n*.1.0) alkanes (71) 347
β-Methyldiaminopropionic acid
Chromatographic separation of --- in hydrolysates of modified phosphoproteins in an amino acid analyzer (70) 162
Methylene blue
TLC separation of --- and related thiazine dyes (60) 119
Methylene unit values
Characterization of the trimethylsilyl derivatives of sugar phosphates and related compounds by GC and GC–MS (76) 51
Methylene unit values
Separation of Krebs cycle intermediates on a low-bleed GC column. Temperature dependence of --- (78) 420
Methyl esters
Preparation of --- from the saponifiable fatty acids in small biological specimens for GLC analysis (100) 35
N′-Methylethylenediamine-N,N,N′-triacetate species
Formation constants of protonated and lanthanon --- (87) 437
N′-Methylethylenediamine-N,N,N′-triacetic acid
Preparation, cation-exchange isolation and some properties of --- (74) 269
Methyl α-D-glucopyranosides
Substituted ---: a relationship between structure and TLC behavior (64) 117
Methyl glucosides
Application of TLC to the purification and characterization of some --- (59) 231
O-Methyl glycosides
Analysis of monosaccharides by GLC of the --- as trifluoroacetate derivatives. Application to glycoproteins and glycolipids (69) 291
7-Methylguanosine
Rapid and sensitive measurement of --- and N^6-isopentenyl derivatives of adenosine by cation-exchange chromatography (59) 188
Methylhippuric acid
TLC evaluation of --- and hippuric acids in urine (100) 215
3-Methylhydantoic acid
PC of --- and 1-methylhydantoin, possible intermediates of microbial degradation of creatine and creatinine (53) 406
1-Methylhydantoin
PC of 3-methylhydantoic acid and ---, possible intermediates of microbial degradation of creatine and creatinine (53) 406
4-Methylimidazole
Isolation of --- from caramel color and its determination by TLC and GLC (87) 411
1,4-Methylimidazoleacetic acid
Method for the GC determination of urinary --- (82) 394
N-Methyl-D-isoleucine
Determination of branched-chain N-methylamino acids (84) 361
Methylmalonic acid
Sensitivity of the FID for dicarboxylic acid esters (77) 175
α-Methyl-D-mannoside
Analytical and preparative GLC of di-, tri- and tetramethyl ethers (75) 29
Methyl α-D-mannoside monomethylethers
Analytical and preparative GLC of --- (92) 185
Methylmercury
Determination of --- in blood by GC (97) 65
Methyl methacrylate
GLC separation of ethyl acrylate and methyl methacrylate (56) 126
Methyl O-methyl-D-xylofuranosides
Separation of some --- by GC (58) 209
Methyl O-methyl-D-xylofuranosides
Separation of some --- by GC. II (64) 368
2-Methyl-naphthalene-1,4-diol diphosphate
Combined GLC/MS study of the bromine oxidation of Synkavit (---) in ^{18}O-enriched dimethylformamide (59) 169
Methyl nitrobenzoates
Steric factor in GLC retention (87) 29
2-Methylpentane
Thermodynamics of interactions of hexenes with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Methylphenols
GC separation of --- on tricresyl-phosphates using open tubular columns (54) 277
Methylprolines
Chromatographic procedures for the

identification of isomeric --- (85) 167
Methyl salicylate
Combined GC–MS in the determination of urinary anthranilic acid (70) 53
N-Methylserotonin
Selective and specific TLC, GC and GC–MS methods for the assay of indolethylamine N-methyltransferase activity (86) 123
2-Methylthio-N^6-isopentenyladenosine
Rapid and sensitive measurement of 7-methylguanosine and N^6-isopentenyl derivatives of adenosine by cation-exchange chromatography (59) 188
N-Methyltolbutamide
Determination of serum tolbutamide by GC (71) 421
N-Methyltryptamine
Selective and specific TLC, GC and GC–MS methods for the assay of indolethylamine N-methyltransferase activity (86) 123
Methyl *cis*-undecenoates
Fatty acids. I. Synthesis of all the methyl undecynoates and the --- and a study of their GLC properties (97) 165
Methyl undecynoates
Fatty acids. I. Synthesis of all the --- and the methyl *cis*-undecenoates and a study of their GLC properties (97) 165
2-Methyl-5-vinyl pyridine
Nitrogen- and phosphorus-containing porous polymer sorbents (77) 51
Methylxanthines
TLC of caffeine and related --- (59) 214
Methyl β-D-xylopyranoside
Micropreparative GLC of methylated sugars. I. Preparative separation of partial methylation products from --- (97) 99
Metronidazole
Determination of therapeutic levels of --- in plasma by GLC (87) 491
Microbial tetrapyrrol biosynthesis
Quantitative TLC of porphyrins by *in situ* fluorescence measurements (63) 113
Microcoulometric detectors
Simple automatic venting valve for Coulson electrolytic conductivity detectors and microcoulometric GC detectors (84) 387
Micromanipulator
--- for compounds eluted from a gas chromatograph (72) 179
Micro-packed columns
Potentialities of ---. Some applications in petroleum chemistry (65) 29
Micropacked columns
Use of high-efficiency packed columns for GSC. V. --- (90) 239
Micro thin-layer chromatograms
Direct quantification of --- (71) 297
Migration
Criteria for resolution by TLC and PC. I. Spot size, --- and R_F values: examples from analysis of nucleic acid hydrolyzates (89) 343
Milk
GLC determination of inorganic iodine, iodide and tightly bound iodine in --- (100) 43
Mimosine
GLC of --- (62) 141
Mitochondrial enzymes
Analytical isotachophoresis in capillary tubes. Transformation of pyruvate to succinate by calf heart --- (82) 407
Mitochondrial glutamate–oxaloacetate transaminase
Simple technique for the estimation of --- in serum and tissues (52) 162
Mitochondria nucleotides
Quantitative determination of beef heart --- using a liquid chromatograph (69) 317
Mixed columns
Ion-exchange separations on --- (83) 59
Mobile phase
Gradient elution in LC. I. The influence of the composition of the --- on the capacity ratio, retention volume, band width, and resolution in isocratic elution – theoretical considerations (91) 207
Mobile phases
Investigations on the mechanism and selectivity of chromatography on thin layers of polyamide. II. Comparison of polyamides and cellulose impregnated with formamide using moderately polar developing solvents (94) 219
Mobile phases
Investigations on the mechanism and selectivity of chromatography on thin layers of polyamide. III. --- consisting of a combination of polar solvents (94) 229

Mobile phases
Investigations on the relationship between molecular structure and chromatographic parameters. VI. Effect of adsorption phenomena in liquid–liquid chromatography with binary --- (96) 155
Mobile phases
Investigations on the relationship between molecular structure and chromatographic parameters. VII. Partition of phenols in systems of the type cyclohexane + polar solvent–formamide (96) 163
Mobile phase
Profile of the --- in thin-film chromatography – the hammer effect (69) 135
Mobile phases
Some problems in the use of ternary --- in TLC (85) 136
Mobile phases
Theoretical derivation of the axial diffusion coefficient in chromatography (87) 315
Mogadan®
Possibilities of reaction chromatography exemplified by the reaction-chromatographic detection of Nitrazepam (---) and its major metabolites (94) 159
Mogadon
Determination of nitrazepam (---) in plasma by electron capture GLC (70) 45
Molar volumes
GC. V. The relationship between retention data and --- (70) 1
Molar volume variation
Model for preparative scale GC (65) 19
Molecular association
Thermodynamics of --- by GLC. σ-Donor molecules and dimeric 3-trifluoroacetylcamphorates of Mn(II), Co(II) and Ni(II) (99) 147
Molecular interactions
--- in a unique solvent–solute system (71) 193
Molecular separator
Use of a --- in the determination of trace constituents by combined GC and MS (64) 201
Molecular sieve 13X
Methods of analysis of sulphur compounds in hydrocarbon mixtures. The application of the --- to the determination of low concentrations of sulphur compounds (65) 217
Molecular sieve effects
--- in TLC (71) 473
Molecular sieve materials
Behaviour of tungsten(VI) on --- (82) 249
Molecular-size exclusion chromatography
New uses for --- (83) 125
Molecular structure
Contribution to the concept and method of Rohrschneider. II (65) 121
Molecular structure
Contribution to the theory of the retention index system. IV. Retention index and ---. Calculation of retention indices of olefins, cyclic hydrocarbons and homologues of benzene hydrocarbons on the basis of their molecular structure (67) 203
Molecular structure
GC retention and ---. An approach to systematic identification of functional groups and carbon number (99) 203
Molecular structure
Influence of the --- of aromatic hydrocarbons on their adsorptivity on alumina (91) 649
Molecular structure
Investigations on the relationship between --- and chromatographic parameters. VI. Effect of adsorption phenomena in liquid–liquid chromatography with binary mobile phases (96) 155
Molecular structure
Investigations on the relationship between --- and chromatographic parameters. VII. Partition of phenols in systems of the type cyclohexane + polar solvent–formamide (96) 163
Molecular structure
--- and retention behaviour. Retention behaviour of cycloaliphatic hydrocarbons in GSC and in GLC (91) 623
Molecular structure
Relationships between solute, solvent and adsorbent in TLC. II. Relationships between the --- of compounds and their adsorption affinity. Respective contributions of inductive steric effects in neutral organophosphorus compounds (68) 143

Molecular weight determinations
New GC method for --- using a gas density detector (64) 162
Molecular weight discrimination
Observations on --- by filtration through porous media (69) 325
Molecular weight distribution
Determination of the instrumental spreading function in GPC (72) 1
Molecular-weight distributions
High-speed GPC. Application of LC techniques (76) 149
Molecular-weight distributions
New uses for molecular-size exclusion chromatography (83) 125
Molecular weight distribution
Polymer --- analysis at very high speed using on-line data handling (99) 425
Molybdophosphoric acid
Specific spray reagent for antioxidants (63) 465
Moments analysis
--- in non-linear chromatography. I. The first moment (63) 193
Moments analysis
--- in non-linear chromatography. II. The second moment (67) 1
Moments analysis
--- in non-linear chromatography. III. The third moment (67) 13
Moment vectors
--- in linear GC (100) 1
Monoalkylpyridines
Studies in the relationship between molecular structure and chromatographic behaviour. GC study of --- (92) 281
Monoamines
Accelerated chromatographic analysis of primary --- and diamines in an amino acid analyser (56) 137
Monoamines
Chromatographic and electrophoretic behaviour of primary --- and diamines on layers of weak and strong ion exchangers (79) 129
Monoamines
Simple method for the separation of primary --- and diamines using a standard amino acid analyzer (82) 379
Monoaryl thioureas
Application of TLC in the resolution of mixtures of isomeric --- and di-aryl thioureas, thiazoles and thiazolines (76) 493
Monoazo disperse dyes
Some problems in the purification of --- by CC on alumina (51) 534
Monobromo-1,2-dicarba-closo-dodecaboranes (12)
GC separation of isomeric --- (87) 473
Monocarbonyls
Qualitative and quantitative evaluation of the low-molecular-weight --- in meat products (66) 35
Monocarbonyl dinitrophenylhydrazones
Two dimensional TLC technique for the resolution of --- (51) 237
Monocarboxylic acids
GC separation and detection of C_1 to C_3 --- as the *p*-substituted benzyl esters (52) 63
Monochloroacetylation of oestrogens
--- prior to GLC with electron capture detection (69) 373
Monoglycerides
TLC-enzymatic determination of ---, di- and triglycerides in glyceride mixtures (64) 388
Monohalobenzoic acid isomers
GC analysis of --- (82) 390
3-Monoiodotyrosine
Gel chromatography of thyroidal iodo-compounds on Sephadex G-10. Separation of iodopeptides, iodide, ---, 3,5-diiodo-tyrosine and iodothyronines (92) 309
Monomolecular films
GC study of the existence and the physical state of --- of stationary phases in contact with siliceous supports. The apparent increase of the melting point of the film (68) 9
Monomolecular layers
Selective --- for improved wettability of glass capillary columns for GLC (84) 167
Mononitrophenylazoalkylphenols
TLC of --- and dinitrophenylazoalkyl-phenols (alkylquinone mono- and dinitro-phenylhydrazones) (76) 487
Monosaccharides
Analysis of --- by GLC of the O-methyl glycosides as a trifluoroacetate derivatives. Application to glycoproteins and glyco-lipids (69) 291
Monosaccharides
Analytical and preparative GLC of α-methyl-D-mannoside di-, tri- and tetramethyl ethers (75) 29

Monosaccharides
Chromatography of products found in the synthesis of --- from furans and thiophenes (91) 767
Monosaccharides
Densitometry of thin-layer chromatograms using polaroid projection film. Application to the analysis of --- (52) 437
Monosaccharides
GC–MS study on TMS derivatives sorbose, 2-keto-4-gulonic acid and ascorbic acid (63) 379
Monosaccharides
Improved method for the TLC separation of --- and oligosaccharides (61) 169
Monosaccharides
Modified solvent system and multiple detection technique for the separation and identification of mono- and oligo-saccharides on cellulose thin layers (60) 203
Monosaccharides
Rapid quantitative TLC separation of fucose from other neutral ---. An application to separate other sugars of physiological interest (57) 391
Monosaccharides
Separation of some --- by capillary column GC (65) 295
Monosaccharides
Separation of sugars by centrifugal microparticulate bed chromatography (62) 93
Monoterpenes
Analysis of spike oil by GC–MS (74) 195
Monoterpenes
Non-destructive detection of --- on thin-layer plates by a copying method (56) 338
Morphinan
Use of calciumcarbonate as adsorbent in TLC of morphine and --- derivatives (59) 212
Morphine
Application of high-speed LC to the analysis of ---, heroin, 6-(O-acetyl)-morphine and methadone (87) 95
Morphine
Confirmation of --- on thin-layer plates by fluorometry (100) 225
Morphine
Estimation of --- by polyamide mini TLC (76) 505
Morphine
GC detection of methadone and --- in the urine of drug addicts (60) 131
Morphine
Isolation and identification of --- from *postmorteum* tissues (65) 507
Morphine
Mini TLC in the detection of narcotics in urine from subjects on a methadone maintenance program (65) 577
Morphine
Necessity of elution and identification of drugs indicated by TLC (54) 245
Morphine
Quantitative analysis of tropane alkaloids in pharmaceutical preparations (55) 417
Morphine
Quantitative GC determination of the major alkaloids in gum opium (89) 76
Morphine
Routine identification of drugs of abuse in human urine. II. Development and application of the XAD-2 resin column method (63) 289
Morphine
Sensitive TLC technique for determining --- in urine (71) 135
Morphine
Use of calciumcarbonate as adsorbent in TLC of --- and morphinan derivatives (59) 212
Morphine alkaloids
Separation of ---, heroin, methadone and other drugs by ion-exchange chromatography (82) 398
Mouse cells
Sephadex G-25 beads as chromatographic carrier for the fractionation of animal cells (92) 335
Mouse spleen cells
Chromatographic behaviour of --- on glass bead columns (84) 329
Moving carrier detector
Gas–liquid partition detector. A new principle for indirect non-destructive detection of non-volatile solutes (70) 25
Moving-wire detector
Investigation of heated and oxidized oils and fats by gradient elution LC (83) 461
Mucin glycoproteins
Use of high-voltage paper electrophoresis in studies of the biosynthesis of --- (63) 177

Mucolipids
TLC of red cell glycosphingolipids from various mammalian species (61) 285
Mucopolysaccharides
Chromatography of acidic glycosaminoglycans on DEAE-cellulose (71) 83
Mucopolysaccharides
GC determination of neutral sugars from glycoproteins and acid --- as aldononitrile acetates (86) 205
Mucopolysaccharides
GC method for determination of hexosamines in glycoproteins and acid --- (93) 221
Mucopolysaccharides
Urinary glycosaminoglycans and the direct quantification of irregular spots on thin-layer chromatograms (92) 461
Mucopolysaccharides, acidic
Comparative studies on analytical methods for the separation of ---. I. CC techniques (62) 399
Mucopolysaccharides, acidic
Comparative studies on analytical methods for the separation of ---. II. Combined CC separation method (62) 409
Multicomponent mixtures
Combination of rectification and GC for separation of --- of compounds according to boiling points (87) 401
Multiple detectors
Identification and characterization of petroleum and petroleum products by GPC with --- (74) 233
Multiple development
Steroids. II. The use of --- in the correlation of the chemical constitutions and the chromatographic migrations of some 17-ketosteroids and their 2,4-dinitrophenylhydrazones (71) 319
Multistage reactions
Atomic absorption/ion-exchange technique for the analysis of chromium complex --- (68) 231
Mustard gas
Rapid, sensitive, GLC method for the analysis of bis(2-chloroethyl)sulfide collected from air in hydrocarbon solvents (78) 317
Mustard seed
Detection of ---, soya bean and safflower seed oils in groundnut oil by TLC (100) 243
Mustard seed oil
Fatty acid composition of mustard (*Brassica nigra*) seed oil by GLC (86) 232
Mycin
Characterisation of phosphono--- by microchromatographic and related techniques (52) 111
Mycobacteria
Multiple catalases of the --- (56) 168
Mycophenolic acid
TLC of --- and related compounds (54) 446
Mycotoxin
GC method for the --- penicillic acid (65) 501
Mycotoxins
N-Methylbenzthiazolone-(2)-hydrazone (Besthorn's hydrazone) as a sensitive spray reagent for patulin (86) 190
Myocardial adenine nucleotides
Determination of myocardial acid-soluble adenine nucleotides on anion-exchange thin layers (64) 378
Myocardium
Determination of acid-soluble nucleosides and bases in --- by thin-layer methods (79) 360
Myoglobin
Chromatographic separation of oxy- and met--- on a DEAE-cellulose column (60) 260
Myoglobin
Reduction of ferric --- by Ampholine on acrylamide gel electrofocusing (76) 20
Myoinositol
Purification of indole-3-acetic acid --- esters on polystyrene–divinylbenzene resins (72) 61
Myosin
Analytical chromatography of --- on hydroxyapatite (65) 387
Myosin
Application of hydroxyapatite chromatography to alkaline --- solutions (76) 351
Myosin
Preparative chromatography of --- on hydroxyapatite (100) 192
Myrcetin
Rapid electron capture determination of caffeic acid and quercetin moieties in plants (52) 385

Myristica fragrans Houtt.
Chromatographic comparison of the constituents of nutmeg and mace (---) with those of marihuana and hashish (*Cannabis sativa* L.) (89) 113
Myristicin
Chemical lability of the tertiary amino-propiophenones of eugenol as characterized by combined GLC and chemical ionization MS (73) 59
Mysoline
Determination of Primidone and its metabolites in biological fluids by GC (87) 559

N

NADP
Isotachophoresis. Applications in the biochemical field (91) 837

Na-,K-ATPase
A new method for the *in situ* determination of phospholipids after thin-layer separation. The phospholipid content of Ca-ATPase and --- from human erythrocyte in comparison with the phospholipid content of human erythrocytes (82) 15

Naphthas
GC separation, by carbon number and hydrocarbon type, of saturated hydrocarbon mixtures and different --- over molecular sieves 13X (77) 3

Naphthalenes
Formation of clathrate compounds of the $Ni(NCS)_2(4\text{-methylpyridine})_4$ complex with methyl---- and its application to LC (91) 297

Naphthalenes
Identification of chlorinated --- in Halowaxes 1031, 1000, 1001 and 1099 (84) 59

Naphthalenes
Simple differentiation of polychlorobiphenyls from chlorinated --- (71) 562

Naphthalenes
TLC for quantitative polychlorinated biphenyl analysis (77) 377

β-Naphthalenesulphonic acid
Separation of the condensation products of --- and formaldehyde by salting-out chromatography (56) 51

Naphthylalkanes
GLC of gossypol (54) 25

α-Naphthylurethans
Chromatographic examination of the *p*-nitrobenzoates and --- of lower aliphatic alcohols (72) 391

Narcotics
Application of high-speed LC to the analysis of morphine, heroin, 6-(O-acetyl)-morphine and methadone (87) 95

Narcotics
Extraction techniques for ----, barbiturates, and central nervous system stimulants in a drug abuse urine screening program (60) 83

Narcotics
GLC method for the quantitative determination of methadone in human plasma and urine (65) 361

Narcotics
Mini TLC in the detection of ---- in urine from subjects on a methadone maintenance program (65) 577

Narcotics
Rapid screening procedure for some "street drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211

Narcotics
Sensitive TLC technique for determining morphine in urine (71) 135

Narcotine
Quantitative GC determination of the major alkaloids in gum opium (89) 76

Naxogin
Determination of the urinary levels of a new trichomonacidal agent and its main metabolites by GLC (57) 417

Near-horizontal long-bed chromatography ---: a means of quantitatively separating compounds of close R_F value (63) 438

Nematic oxime esters
Solution behaviour of liquid crystal phases in capillary GC. I. Solution properties of --- (100) 101

Neon
GC measurement of hydrogen, methane, and --- in air (69) 103

Neoxanthin
Carotenoid analysis by two-dimensional, two-adsorbent TLC (61) 133

Neoxanthin
Chromatography of leaf pigments on silica gel and aluminium hydroxide loaded papers (61) 202

Nerolidol
Analysis of straight-chain terpene alcohols by GC (88) 15
Neural crest tumours
Circular TLC for diagnosis and follow-up of --- (82) 127
Neorospora crassa
Separation of the neutral carotenoids of --- using concave gradient elution chromatography (84) 192
Neurotoxins
Chromatographic separation of the venom of *Bungarus multicinctus* and characterization of its components (72) 71
Neutral fats
The separation of small amounts of free fatty acids from large amounts of --- on Sephadex LH-20 (70) 164
Neutral lipids
A CC method for the fractionation of fish --- (57) 142
Nibren Wax
Identification of chlorinated naphthalenes in Halowaxes 1031, 1000, 1001 and 1099 (84) 59
Nichrome wire loop
Direct quantification of micro thin-layer chromatograms (71) 297
Nichrome wire loop
Rapid quantitative spotting of submicro-liter volumes for TLC (71) 291
Nickel
Separation of manganese, iron, cobalt, ---, copper, zinc and cadmium by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275
Nickel(II)
GC separations of Lewis bases on dithiophosphinato--- complexes $[RR'P(S)S]_2Ni$ (77) 422
Nickel(II)
Non-fluorinated tetradentate β-keto-amines as derivatizing ligands for the GC analysis of Cu(II), --- and Pd(II) (99) 309
Nickel-63
Utilization of promethium-147 as an ionization source in electron-capture detectors (62) 53
^{63}Ni electron capture detector
A comparative study of the ^{147}Pm and --- under identical geometrical conditions (76) 21
Nickel–zinc ion exchange
Dependence of HETP upon resin particle size and solution flow-rate in high-speed ion-exchange chromatography (83) 195
Nicotinamide
Gel filtration behaviour of sulphur- and selenium-containing ---analogues on Sephadex G-25 (51) 537
Nicotinamide
Quantitative analysis of water-soluble vitamins in multicomponent pharmaceutical forms. Determination of tablets and granules (77) 389
Nicotinamide-adenine dinucleotide phosphate, oxidized, *see* NADP
Nicotine
Necessity of elution and identification of drugs indicated by TLC (54) 245
Nicotine
Sensitive TLC technique for determining morphine in urine (71) 135
Nicotinic acid
Quantitative TLC. Assay of drug mixtures by scanning of remission peaks (63) 121
Ninhydrin
Determination of lysine and ornithine using acid --- (71) 564
Ninhydrin
--- –collidine as a sensitive reagent for the detection of the ammonium ion on pherograms (76) 516
Ninhydrin
Sterilization of --- (63) 403
Ninhydrin reactor
Experience with an electrolytic --- (53) 373
Nitramine
GLC determination of dimethylnitrosamine as dimethyl--- at picogram levels (51) 301
Nitramines
GLC procedure for the detection of volatile N-nitrosamines at the ten parts per billion level in foodstuffs after conversion to their corresponding --- (73) 79
Nitrate esters
GC of the --- of glycerol, isosorbide and isomannide (64) 364

Nitrate esters
GC separation and detection of pentaerythritol nitrates and other organic --- (57) 345
Nitrate esters
GLC determination of nitroglycerine in pharmaceutical preparations (72) 182
Nitrate esters
GLC determination of ---, stabilizers and plasticizers in nitrocellulose-base propellants (71) 23
Nitrate esters
Method for the detection of --- (84) 218
Nitrate ions
GC analysis of --- and nitrite ions in microgram quantities by conversion to nitrobenzene (94) 334
Nitrazepam
Determination of --- (Mogadon) in plasma by electron capture GLC (70) 45
Nitrazepam
Possibilities of reaction chromatography exemplified by the reaction-chromatographic detection of --- (Mogadan®) and its major metabolites (94) 159
Nitric acid
Reversed-phase extraction chromatography using solutions of --- as eluants (80) 221
Nitriles
GC separation of saturated and unsaturated isomeric --- with up to five C-atoms (57) 126
Nitriles
Identification of aromatic --- by reaction PC (86) 159
Nitrilotriacetic acids
Determination of p.p.b. levels of citric and --- in tap water and sewage effluents (72) 259
Nitrilotriacetic acid
Quantitative determination of --- and related aminopolycarboxylic acids in inland waters. Analysis by GC (64) 219
Nitrilotriacetic acid
Separation of NTA and EDTA chelates by TLC (79) 375
Nitrimidazine
Determination of the urinary levels of a new trichomonacidal agent and its main metabolites by GLC (57) 417
Nitrite ions
GC analysis of nitrate ions and --- in microgram quantities by conversion to nitrobenzene (94) 334
Nitrobenzene
The effect of the geometrical structure and the surface chemistry of silica gels on separations in LSC (58) 11
p-Nitrobenzoates
Chromatographic examination of the --- and α-naphthylurethans of lower aliphatic alcohols (72) 391
p-Nitrobenzoates
Kinetic model for GLC with adsorbent effects (78) 251
Nitrobenzoic ester isomers
Steric factor in GLC retention (87) 29
Nitrocellulose-base propellants
GLC determination of nitrate esters, stabilizers and plasticizers in --- (71) 23
Nitro compounds
Determination of trace amounts of Eastman 910 adhesive in certain plastic-bonded explosives (51) 261
Nitro compounds
Identification and determination of impurities in pentaerythritol tetranitrate (51) 253
Nitro compounds
Quantitative analysis of --- in the micro- to picogram range by a combination of TLC and vapour phase chromatography with the nickel-63 electron capture detector (51) 243
Nitrocresols
GLC of nitrophenols and methyl derivatives (65) 487
Nitrogen
Determination of adsorption isotherms of the components of binary gas mixtures by GC (79) 1
Nitrogen
Oxygen– --- separation on Cr_2O_3 gel (52) 486
Nitrogen bases
Phosphoric acid as a subtracting agent for --- in reaction GC (67) 366
Nitrogen compounds
Comparative GC response of organophosphorus compounds containing nitrogen and --- with alkali flame and electrolytic conductivity detectors (70) 37

Nitrogen compounds
Ion-exchange chromatography of ––– (98) 1 (review)
Nitrogen-containing compounds
Technique for the detection of ––– in GC eluates by means of hydrogenolysis and colour reactions (89) 209
Nitrogen-containing heterocycles
Adsorption elution chromatography of ––– on alumina (74) 51
Nitrogen-containing substances, cyclic
Characteristic donor–acceptor properties of amines and ––– determined by their retention on stationary phases of different types (95) 91
Nitrogen drugs
Rapid method of TLC to aid the identification of quaternary ––– (77) 234
Nitrogenous compounds
Detection of ––– using a thermionic detector (61) 329
Nitrogen-selective thermionic detector
Study of the stability of a ––– (86) 65
Nitrogen-sensitive detector
Analytical performance of a novel ––– and its applications with glass open tubular columns (99) 339
Nitroglycerine
GLC determination of ––– in pharmaceutical preparations (72) 182
Nitroglycerin
LC determination of ––– products in waste waters (100) 185
Nitroglycerin
Quantitative analysis of glyceryl nitrates on thin-layer chromatograms. Comparison of colorimetry and densitometry (53) 263
Nitronaphthalene
Effect of the geometrical structure and the surface chemistry of silica gels on separations in LSC (58) 11
Nitrophenols
GLC of ––– and methyl derivatives (65) 487
p-Nitrophenol
High-speed LC of glucuronide and sulphate conjugates (55) 409
Nitrophenyl derivatives
Adsorption behaviour of aromatic nitro compounds on Sephadex LH-20 (95) 159
Nitrosamines
Fluorimetric determination of ––– after cleavage of the N-nitroso group by acid catalysis and derivatisation with 7-chloro-4-nitrobenzo-2-oxa-1,3-diazole (90) 223
Nitrosamines
GC determination of ––– at the picogram level by conversion to their corresponding nitramines (53) 371
Nitrosamines
GC screening of ––– in food with the nitrogen-flame ionisation detector (88) 376
Nitrosamine
GLC determination of dimethyl––– as dimethylnitramine at picogram levels (51) 301
Nitrosamines
Method for the detection of traces of ––– using combined GC and MS (79) 57
Nitrosamines
Separation of carcinogenic ––– on Sephadex LH-20 (51) 304
Nitrosamines
Trace analysis of N-nitroso compounds. III. Quantitative TLC of ––– (51) 503
Nitrosamines
Trace detection of some non-volatile ––– by combined GC and MS (95) 59
N-Nitrosamines
Estimation of volatile ––– by high-performance LC (83) 471
N-Nitrosamines
Evaluation of the alkali flame ionisation detector and the Coulson electrolytic conductivity detector in the analysis of ––– in foods (76) 307
N-Nitrosamines
GLC procedure for the detection of volatile ––– at the ten parts per billion level in foodstuffs after conversion to their corresponding nitramines (73) 79
Nitrosamines, volatile
Use of a molecular separator in the determination of trace constituents by combined GC and MS (64) 201
α-N-Nitroso-N-alkylamino acids
TLC separation of the Z and E rotational isomers of ––– (95) 223
N-Nitroso-N-alkylureas
Analysis of N-nitroso compounds. II. Separation and quantitative determination of ––– and N-nitroso-N-alkylurethans by high-speed high-pressure LC (93) 429

N-Nitroso-N-alkylurethans
Analysis of N-nitroso compounds. II. Separation and quantitative determination of N-nitroso-N-alkylureas and --- by high-speed high-pressure LC (93) 429
N-Nitroso compounds
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
N-Nitroso compounds
Trace analysis of ---. III. Quantitative TLC of nitrosamines (51) 503
N-Nitrosodiethylamine
Estimation of volatile N-nitrosamines by high-performance LC (83) 471
N-Nitrosodimethylamine
Estimation of volatile N-nitrosamines by high-performance LC (83) 471
N-Nitrosomethylaniline
An investigation into hydrogen bonding in GLC (63) 249
Nitrosonaphthol
Studies on ligand-exchange chromatography. III. Separation of --- isomers (59) 383
N-Nitrosopyrrolidine
Estimation of volatile N-nitrosamines by high-performance LC (83) 471
Nitrotoluenes
Continuous TNT process studies. III. TLC analysis of oxidation products from nitration (64) 123
Nitrotoluenes
Steric factor in GLC retention (87) 29
Nitrous oxide
Measurement of atmospheric --- using an electron capture detector in conjunction with GC (79) 322
Nitroxylenols
GLC of nitrophenols and methyl derivatives (65) 487
Noise in photodensitometers
Recent advances in the photodensitometric evaluation of thin-media chromatograms (63) 87
Non-aminated organic acids
A study of the utility of planimetric determinations in the quantification of --- separated by TLC (68) 275
Non-aqueous solvent chromatography
---. II. Separation of benzene derivatives in the anion-exchange and *n*-butyl alcohol system (72) 187
Non-aqueous solvent chromatography
---. III. Complex chromatography between the metal ion of a cation-exchange resin and organic compounds in organic solvents (78) 424
Non-aqueous solvent chromatography
---. IV. Effects of solvents and ion-exchange resins on adsorption mechanisms and their application in high-speed LC (88) 87
Non-branched C_9 and C_{10} olefins
Correlation of the boiling points of --- with the GC retention indices (65) 93
Non-donor solvents and solutes
Solvent selectivity in adsorption chromatography on alumina. --- (63) 15
Nonenes
Correlation of the boiling points of non-branched C_9 and C_{10} olefins with the GC retention indices (65) 93
Non-equilibrium effects
--- in the branched-chain peak broadening phenomenon in GC on Porapak P (84) 7
Non-equilibrium in gas chromatography
Effect of --- (87) 1
Non-fluorinated tetradentate β-ketoamines
--- as derivatizing ligands for the GC analysis of Cu(II), Ni(II) and Pd(II) (99) 309
Non-linear chromatography
Effect of sorption on retention times in --- (84) 1
Non-linear chromatography
Moments analysis in ---. I. The first moment (63) 193
Non-linear chromatography
Resolution in --- (69) 87
Non-linearity parameter
Moments analysis in non-linear chromatography. III. The third moment (67) 13
Non-polar adsorbates
New method for the determination of simultaneous adsorption isotherms in gas–solid systems by means of GC (71) 173
Non-polar compounds
Gel chromatography: interactions between gel matrix, solvent and solute (80) 187

Non-polarizable electrodes
Design of a high-resolution detection system for use in isotachophoresis (64) 196
Non-protein amino acids
Detection of --- in the presence of protein amino acids. II. (64) 178
Non-protein amino acids
Quantitative GLC of --- in the presence of the twenty protein amino acids (73) 35
Non-volatile matrices
Quantitative determination of volatiles in --- (99) 709
Non-volatile solutes
Gas–liquid partition detector. A new principle for indirect non-destructive detection of --- (70) 25
Noracetylmethadol
GLC method for the quantitative determination of acetylmethadol and its metabolites in human urine (82) 315
Noradrenaline
Direct quantitative evaluation of thin-layer chromatograms by remission- and fluorescence measurements. Part 6. Determination of adrenaline, --- and dopamine from urine (56) 271
Noradrenaline
Isolation, separation and determination of isopropyl--- and its O-methyl derivative in blood serum and tissue homogenate (53) 575
Noradrenaline
TLC and GC separation of 4-hydroxy-3-methoxy- and 3-hydroxy-4-methoxy-mandelic acid (84) 187
Norapomorphine
Analysis of apomorphine and --- in urine by TLC fluorescence quenching (87) 294
Norcyclazocine
Quantitation of cyclazocine and its metabolites in human urine by use of GLC (100) 63
Norepinephrine
Quantitative TLC estimation of labelled dopamine and ---, their precursors and metabolites (52) 305
Norepinephrine
Separation of --- and its five major metabolites by PC (67) 129
Normalization chromatography
Effect of analysis time on optimum column length in time --- (91) 39
Normetanephrine
Selective GC–MS methods for the quantitation of ---, metanephrine and vanillylmandelic acid (90) 163
Normetanephrine
Separation of norepinephrine and its five major metabolites by PC (67) 129
Normethadol
A GLC method for the quantitative determination of acetylmethadol and its metabolites in human urine (82) 315
Norpethidine
A quantitative GLC method for the determination of pethidine and its metabolites, --- and pethidine N-oxide in human biological fluids (89) 169
Norpropoxyphene
The simultaneous determination of propoxyphene and --- in human biofluids using GLC (75) 195
Norstictic acid
Improved conditions and new data for the identification of lichen products by a standardized TLC method (72) 113
Nortriptyline
GC method for the quantitative determination of --- and some of its metabolites in human plasma and urine (68) 77
Nortriptyline
Separation of cyclobenzaprine from biological samples and its determination by TLC followed by densitometry (74) 85
Nortriptyline
Simultaneous determination of amitriptyline and --- in *post mortem* blood and urine using GLC (88) 403
Nortriptyline
Thin-layer method for the determination of amitriptyline and --- in plasma (100) 55
Noscapine
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, ---, diphenhydramine hydrochloride, phenylephrine hydrochloride, caffeine, etofyllin, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143

Novobiocin
High-pressure LC analysis of ––– (94) 245
Nuclear magnetic resonance spectroscopy
The combination of GC and ––– (69) 194
Nucleic acids
Absence of pseudouridylic acid in the total ribonucleic acid extracts of wheat leaves (75) 133
Nucleic acids
Automatic quantitative spotter for TLC and PC (73) 265
Nucleic acids
Chromatography of DNA on wool cortical cell protein (56) 147
Nucleic acids
Determination of the base composition of RNA by high-pressure cation-exchange chromatography (51) 183
Nucleic acids
Effects of ultrasonics on the resolution of DNA in gel filtration (51) 539
Nucleic acids
Fractionation of DNA on a metal ion equilibrated cation exchanger. I. Chromatographic profiles of DNA on an IR-120 Al^{3+} column (52) 119
Nucleic acids
Fractionation of ––– from mammalian cells in culture by polylysine–Kieselguhr CC (85) 162
Nucleic acids
Fractionation of rapidly-labelled ––– from *Rhodospirillum rubrum* using polylysine kieselguhr CC (58) 235
Nucleic acids
Fractionation of yeast tRNA and proteins on nucleoside derivatives of cellulose (82) 349
Nucleic acids
GC determination of phosphorus in ––– and nucleotides as tris(trimethylsilyl) phosphate (91) 459
Nucleic acids
GLC of the purine and pyrimidine bases (61) 45
Nucleic acids
Ion-exchange chromatography of dinucleoside-3′→5′-phosphates on chitosan-impregnated cellulose thin layers (56) 378
Nucleic acids
Isolation procedure for bacterial DNA based on GPC on a Sepharose column (91) 451
Nucleic acids
Rapid and sensitive measurement of 7-methylguanosine and N^6-isopentenyl derivatives of adenosine by cation-exchange chromatography (59) 188
Nucleic acids
Separation of ––– on basic polyamino acid–kieselguhr columns (52) 158
Nucleic acids
Separation of polysaccharides and ––– by chromatography on hydroxyapatite (59) 71
Nucleic acids
Simple electrophoretic procedure for separation of RNA on mixed agarose–acrylamide gel columns (56) 79
Nucleic acids
Simple ion-exchange chromatographic procedure for the analysis of the major ribo- and deoxyribonucleotides (76) 337
Nucleic acids
Simplified methylalbumin–Kieselguhr CC of aminoacyl-tRNA (56) 154
Nucleic acids
Some aspects of fractionation of DNA on IR-120 Al^{3+} column. IV. Effect of protein association on the chromatographic profiles of DNA (56) 151
Nucleic acids
Some aspects of the fractionation of DNA on an IR-120 Al^{3+} column. V. The effect of RNA contamination on the chromatographic profiles of DNA (57) 83
Nucleic acids
Study of extraction columns for aqueous polymer two-phase systems (73) 125
Nucleic acid bases
Separation of –––, nucleosides and nucleotides on Dowex 50 type resin-coated chromatoplates (84) 208
Nucleic acid hydrolyzates
Criteria for resolution by TLC and PC. I. Spot size, migration and R_F values: examples from analysis of ––– (89) 343
Nucleic bases
Cation-exchange chromatography of nucleotides, nucleosides and ––– (53) 584

Nucleobases
Partition coefficients of amino acids, ---, nucleosides and nucleotides in a saline solvent system (78) 381
Nucleoproteins
Purification of potato virus X, white clover mosaic virus, tobacco mosaic virus and ribosomes by CC (75) 235
Nucleosides
Analysis of purine and pyrimidine bases and their --- by high-pressure LC (99) 587
Nucleoside
Application of GC–chemical ionization mass fragmentography in the evaluation of bases and --- analogues used in cancer chemotherapy (99) 519
Nucleosides
Cation-exchange chromatography of nucleotides, --- and nucleic bases (53) 584
Nucleosides
Chromatography of diribonucleoside monophosphates on a Bio-Gel P-4 column (56) 143
Nucleosides
Determination of acid-soluble --- and bases in myocardium by thin-layer methods (79) 360
Nucleoside
Fractionation of yeast tRNA and proteins on --- derivatives of cellulose (82) 349
Nucleosides
Further studies of the chromatographic behaviour of dinucleoside monophosphates (79) 139
Nucleosides
High-pressure LC of modified purine mononucleotides and --- (83) 395
Nucleosides
LC analysis of ---, purine base-modified adenosine derivatives and 3',5'-cyclic AMP (76) 477
Nucleosides
Partition coefficients of amino acids, nucleobases, --- and nucleotides in a saline solvent system (78) 381
Nucleosides
Separation of anomeric pyrimidine --- by TLC (79) 353
Nucleosides
Separation of 2'-5'-dinucleoside monophosphates from the corresponding 3'-5' isomers on DEAE-Sephadex A-25 column (71) 275
Nucleosides
Separation of nucleic acid bases, --- and nucleotides on Dowex 50 type resin-coated chromatoplates (84) 208
Nucleosides
Separation of purine and pyrimidine bases and --- by TLC on Sephadex–cellulose and Sephadex–silica gel layers (70) 182
Nucleosides
TLC of --- (76) 407
3'-Nucleoside phosphates
Separation of --- by ion-exchange TLC (79) 357
Nucleoside phosphorylase
Determination of the activity of purine --- from rat brain using separation on cation exchangers (56) 365
Nucleotides
Affinity chromatography on immobilized oligonucleotides. I. Synthesis and application of oligodeoxythymidine 5'-phosphate–DEAE-cellulose (96) 79
Nucleotides
Analysis of ribo--- and deoxyribo--- using high-pressure liquid CC (51) 203
Nucleotides
Automated system for ion-exchange chromatography of acid-soluble --- at the nanomole level (51) 195
Nucleotides
Cation-exchange chromatography of ---, nucleosides and nucleic bases (53) 584
Nucleotides
CC of --- on the anion exchanger DEAE-Sephadex A-25 (76) 248
Nucleotides
CC of 5'--- on the anion-exchanger Sephadex A-25 with a linear gradient of ammonium hydrogen carbonate and ammonium carbamate (97) 273
Nucleotides
CC of --- on QAE-Sephadex (57) 275
Nucleotides
Contributions of anion-exchange TLC to the study of free --- in tissues (71) 127
Nucleotides
Determination of myocardial acid-soluble adenine --- on anion-exchange thin layers (64) 378

Nucleotides
Effect of flow rates and the slope of the linear concentration gradient on peak areas in high pressure LC (57) 383
Nucleotides
Fractionation of synthetic deoxyribo-poly--- on silica gel thin-layer plates (85) 159
Nucleotides
GC determination of phosphorus in nucleic acids and --- as tris(trimethylsilyl) phosphate (91) 459
Nucleotides
High-pressure LC of modified purine mono--- and nucleosides (83) 395
Nucleotides
Oligonucleotide separations by high-pressure LC on a weak anion exchanger (80) 263
Nucleotides
Partition coefficients of amino acids, nucleobases, nucleosides and --- in a saline solvent system (78) 381
Nucleotides
Quantitative determination of beef heart mitochondria --- using a liquid chromatograph (69) 317
Nucleotides
Quantitative determination of oxidized pyridine --- by a PC technique (66) 111
Nucleotides
Rapid separation of --- in cell extracts using high-pressure LC (52) 257
Nucleotides
Rapid separation of tissue --- on conventional anion-exchange resins at low pressures (97) 277
Nucleotides
Separation of nucleic acid bases, nucleosides and --- on Dowex 50 type resin-coated chromatoplates (84) 208
Nucleotides
Separation of --- by isotachophoresis (71) 380
Nucleotides
Template chromatography: Application of the principles of molecular biology for the selective separation of --- and peptides. A progress report (99) 31
Nucleotides
TLC of oligodeoxyribo--- (72) 217
Nucleotides
Use of micro-bead anion-exchange resin for direct estimation of flavour --- in complex solutions (81) 156
Nucleotide sulphates
Rapid chromatographic method for the separation of --- (69) 426
Nutmeg
Chromatographic comparison of the constituents of --- and mace (*Myristica fragrans* Houtt.) with those of marihuana and hashish (*Cannabis sativa* L.) (89) 113
Nylon
Causes of skewed molecular weight distributions in gel permeation separation of --- resins (55) 193
Nylon
GC measurement of the permeability of PTFE, PVC, polyethylene and --- tubing towards oxygen and nitrogen (77) 406

O

Obituary
--- to the memory of Prof. Domenico Marrotta (1886–1974) (97) 1
Obituary
--- to the memory of Jan Rosmus (1935–1972) (74) 1
Obituary
--- to the memory of Arne Tiselius (1902–1971) (65) 345
Octadecane
GC on some self-associating --- derivatives (51) 65
n-Octane
Non-equilibrium effects in the branched-chain peak broadening phenomenon in GC on Porapak P (84) 7
Oestetrol
The measurement by GC–MS of oestra-1,3,5-triene-3,15α,16α,17β-tetrol (---) in pregnancy urine (54) 345
17β-Oestradiol
Chromatographic separation of oestrone, --- and oestriol on Sephadex G-10 (58) 227
Oestradiol
Separation of --- and oestriol epimers (69) 395
Oestradiol
TLC and elution of picogram amounts of --- (59) 452
Oestradiol
TLC of pg amounts of --- (90) 402
Oestradiol
Thin-layer separation and detection of free estrogens (61) 187
Oestra-1,3,5-triene-3,15α,16α,17β-tetrol
The measurement by GC–MS of --- (oestetrol) in pregnancy urine (54) 345
Oestriol
The analysis of estrogenic steroids in urine by high-speed LC (83) 421
Oestriols
Chromatographic properties of the epimeric --- (59) 121
Oestriol
Chromatographic separation of oestrone, 17β-oestradiol and --- on Sephadex G-10 (58) 227
Oestriol
Quantitative analysis of trace amounts of oestrogenic steroids in pregnancy urine by column liquid–liquid chromatography with UV detection (62) 79
Oestriol
Separation of oestradiol and --- epimers (69) 395
Oestrogenic steroids
Quantitative analysis of trace amounts of --- in pregnancy urine by column liquid–liquid chromatography with UV detection (62) 79
Oestrogens
The analysis of estrogenic steroids in urine by high-speed LC (83) 421
Oestrogens
Chromatographic properties of the epimeric oestriols (59) 121
Oestrogens
The chromatographic separation of oestrone and equilin (61) 193
Oestrogens
Determination of steroids by densitometry of derivatives. I. Assay of --- as azobenzene-4-sulphonates (51) 322
Oestrogens
Determination of steroids by densitometry of derivatives. II. Direct fluorometry of Dansyl --- (51) 325
Oestrogens
Determination of steroids by densitometry of derivatives. III. Micro-assay of --- as Dansyl derivatives (74) 359
Oestrogens
The monochloroacetylation of --- prior to GLC with electron capture detection (69) 373
Oestrogens
A new method for preventing oxidative decomposition of catechol --- during chromatography (71) 465
Oestrogens
Quantitative TLC. Assay of drug mixtures

by scanning of remission peaks (63) 121
Oestrogens
Sensitive detection of --- using an automatic conductivity detector after TLC (53) 391
Oestrogens
Simultaneous separation of common mammalian Δ^4-3-oxosteroids and --- using two-dimensional TLC (66) 177
Oestrogens
Stability of --- to oxygen during exposure on silica gel (71) 161
Oestrogens
TLC of Dansyl --- (52) 505
Oestrogens
TLC identification of --- and progestogens in oral contraceptives (51) 517
Oestrogens
Thin-layer separation and detection of free --- (61) 187
Oestrogens
TLC separation of equine --- on silica gel H–silver nitrate plates (62) 158
Oestrogens
TLC of ---, their derivatives and cholesterol (89) 374
Oestrogens
TLC separation of conjugated --- on Silica Gel G–silver nitrate plates (69) 419
Oestrone
The chromatographic separation of --- and equilin (61) 193
Oestrone
Chromatographic separation of ---, 17β-oestradiol and oestriol on Sephadex G-10 (58) 227
Oestrone
Thin-layer separation and detection of free estrogens (61) 187
Oils
Advances in TLC (63) 3
Oils
The analysis of --- and fats by GC. Part IX. Separation factors of non-methylene-interrupted polyolefinic esters (61) 346
Oils
Analysis of inhibitors in edible fats and --- by gel chromatography (71) 576
Oil
Analysis of non-ionic surfactants of the alkylphenol type in the presence of mineral --- by means of LC (91) 549
Oils
Colour reactions of some aromatic ethers found in essential --- (65) 439
Oils
Detection of mustard seed, soya bean and safflower seed --- in groundnut oil by TLC (100) 243
Oils
Frontal elution LC of a "total artefacts" peak in frying --- (79) 329
Oils
Gel chromatographic separation of unsaponifiable fractions in fats and --- (84) 319
Oils
Identification and characterization of petroleum and petroleum products by GPC with multiple detectors (74) 233
Oils
Investigation of heated and oxidized --- and fats by gradient elution LC (83) 461
Oil
Laser pyrolysis of --- shales (56) 348
Oils
A rapid method for detecting groundnut oil in castor oil (86) 261
Oils
TLC examination of various seed --- (95) 235
Oils
Use of TLC for the analysis of additives in new and used ---. I. Application in the analysis of dithiophosphates (97) 213
Olefins
Chromatography of organic compounds. III. Improved procedure for the TLC of --- on silver ion–silica gel layers (92) 450
Olefins
Complex-forming stationary phases in high-speed LC (83) 91
Olefins
Contribution to the theory of the retention index system. IV. Retention index and molecular structure. Calculation of retention indices of ---, cyclic hydrocarbons and homologues of benzene hydrocarbons on the basis of their molecular structures (67) 203
Olefins
Correlation of the boiling points of non-

branched C_9 and C_{10} --- with the GC retention indices (65) 93
Olefins
An improved column for depentanizer and isoprene feed stream analysis (92) 69
Olefins
TLC of sulphonic acid esters (53) 395
Olefins
Use of ---$-Ag^+$ complexes for chromatographic separations of higher --- in liquid–solid systems (53) 525
Olefins
Use of graphitized carbon black in environmental analysis (99) 661
α-Olefin sulphonates
Separation and determination of --- by salting-out chromatography (62) 467
Oleic acid
Composition of the hydrogen peroxide mixture of the oxidized --- methyl ester in dependence with the oxidation temperature (92) 196
Oligodeoxyribonucleotides
TLC of --- (72) 217
Oligomeric aldonic acids
Separation of --- by anion-exchange chromatography (83) 45
Oligomers
Calculation of the weight and number functions of molecular weight distribution for --- from the gel permeation chromatography data (53) 109
Oligomers
Recycle GPC analysis of --- and polymer additives (83) 279
Oligomers
TLC of the linear --- of ethylene terephthalate (62) 109
Oligonucleotides
Affinity chromatography on immobilized ---. I. Synthesis and application of oligodeoxythymidine 5′-phosphate–DEAE-cellulose (96) 79
Oligonucleotides
Fractionation of synthetic deoxyribopolynucleotides on silica gel thin-layer plates (85) 159
Oligonucleotide
--- separations by high-pressure LC on a weak anion exchanger (80) 263
Oligonucleotides
Template chromatography: Application of the principles of molecular biology for the selective separation of nucleotides and peptides. A progress report (99) 31
Oligopeptides
Separation of --- and amino acids by chromatography on the ion-exchange resin, Chelex X-100 (54) 231
Oligopeptides
Separation of neutral amino acids, dipeptides and --- into classes. Application to urine (66) 261
Oligopeptides
Use of neutral polystyrene resin for rapid desalting and fractionation of non-polar amino acids and non-polar --- (61) 81
Oligophenylenes
Gel chromatography: the effect of temperature on partitioning (87) 17
Oligoribonucleotides
Partition coefficients of --- in saline solvent systems (67) 277
Oligosaccharides
CC separation and quantitation of α-linked glucose --- (96) 255
Oligosaccharides
Gel filtration of --- on cross-linked starch and cellulose (59) 79
Oligosaccharides
An improved method for the TLC separation of mono- and --- (61) 169
Oligosaccharides
The influence of solvent and temperature in dextran gel chromatography (59) 335
Oligosaccharides
Microdetermination of molar ratios of neutral sugars on thin layers of borohydride-reduced cellulose (51) 316
Oligosaccharides
A modified solvent system and multiple detection technique for the separation and identification of mono- and --- on cellulose thin layers (60) 203
Oligosaccharides
The PC separation of naturally acetylated, formylated and pyruvylated --- (59) 476
Oligosaccharides
TLC separation of --- isolated from sucrose–enzyme mixtures (72) 212
Oligosaccharides
TLC of --- with tungstic or molybdic acid as impregnant (63) 329
Olives
Quantitative analysis of phenolic compounds after TLC separation (77) 369

On-column catalysis
Advances in the application of GC to the study of heterogeneous catalysis (99) 281
On-line data handling
Polymer molecular weight distribution analysis at very high speed using --- (99) 425
On-line liquid chromatography–mass spectroscopy
Interface for --- analysis (99) 395
Open columns
Chromatography by discontinuous recycling in open systems (59) 343
Open-hole glass tubular columns
Direct coupling of high-resolution --- to a mass spectrometer for biochemical applications (91) 385
Open-pore polyurethane columns
Highly permeable --- for LC (99) 123
Open tubular capillary chromatography
Gas phase analytical methods for the study of human metabolites. Metabolic profiles obtained by --- (91) 367
Open tubular columns
Efficiency, resolution and speed of --- as compared to packed columns (91) 5
Opoen-tubular columns
Preparation of high-capacity high-resolution --- (97) 151
Open tubular column GC
The applicability of the linear free energy relationships for the identification of some alkyl aromatic hydrocarbons by --- (51) 119
Open tubular gas chromatography
Effect of temperature on the separation of the esters of fatty acids by --- (65) 323
Operational temperature
The effect of coating parameters on the quality of stationary phase films in glass capillary columns (65) 39
Opium
Quantitative GC determination of the major alkaloids in gum --- (89) 76
Opium alkaloids
A chromatographic method of urine analysis for the diagnosis of heroin consumption (72) 127
Opium alkaloids
Separation of morphine alkaloids, heroin, methadone and other drugs by ion-exchange chromatography (82) 398
Opium alkaloids
Separation of thebaine, some of its metabolites and congeners on glass fibre sheets (71) 554
Optical noise
Recent advances in the photo-densitometric evaluation of thin-media chromatograms (63) 87
Optically active mesophases
Direct GC resolution of enantiomers on ---. I. Smectic carbonyl-bis-(D-leucine isopropyl ester) (87) 243
Optically active mesophases
Direct GC resolution of enantiomers on ---. II. Effects of stationary phase structure on selectivity (88) 41
Orange Dextran
--- as a void volume marker in thin-layer gel chromatography (74) 355
Orange vesicles
Preparative argentation CC for separation of sterols from --- (79) 147
Order–diorder in poly(vinyl chloride)
Inverse GLC for detection of --- (67) 153
Organic acids
Identification by TLC of --- which have previously been quantitatively separated on a column of silica gel (74) 346
Organic acids
Industrial analytical applications of rapid ion-exchange separations of weak --- (55) 309
Organic acids
A mixed silica gel–cellulose support for TLC of non-volatile --- (56) 330
Organic acids
Quantitative determination of --- in plant extracts. Improvement in the analysis by partition chromatography on a silica gel column (87) 425
Organic acids
Simultaneous methylation and elution of --- from thin-layer chromatograms (92) 177
Organic acids
A study of the utility of planimetric determinations in the quantification of non-aminated --- separated by TLC (68) 275

Organic acids
Theoretical and experimental study of an elution gradient for the partition chromatography of --- (56) 231
Organic anions
Fluorescent colouration of --- with pinacryptol yellow on cellulose layers (67) 113
Organic compounds
Automatic LC of ---. II. Adsorption chromatography of benzene derivatives on styrene-based cation-exchange resin (59) 373
Organic compounds
Chemical constitution and chromatographic behavior. Influence of isomeric and stereoisomeric constitutions on the chromatographic migration (63) 9
Organic compounds
A new fluorimetric procedure for the detection and quantitation of --- in TLC (99) 643
Organic compounds
Hydrogenation and ozonolysis of submicrogram quantities of unsaturated --- eluted from GC columns (87) 387
Organic compounds
Identification of ---. LXXVII. PC and TLC of azo pigments (66) 179
Organic compounds
An investigation of flavones as fluorigenic spray reagents for --- on a cellulose matrix. Part III. Quantitation of the method (60) 213
Organic compounds
Ionic species of --- observed in mobility spectra by plasma chromatography (93) 129
Organic constituents present in drinking water
Analysis of --- (76) 45
Organic contaminants
Use of macroreticular resins in the analysis of water for trace --- (99) 745
Organic counterions
The separation and quantitation of carbohydrates on cation-exchange resin columns having --- (72) 311
Organic functional groups
The characterisation of --- in GC eluates at the microgram and submicrogram levels by means of colour reactions (71) 251
Organic gels
CC of polycyclic aromatic hydrocarbons. Separation on --- in protic solvents (80) 266
Organic liquids
Thin-layer gel chromatography in --- (74) 352
Organic mixtures
The use of high-efficiency packed columns for GSC. IV. The GC–MS analysis of complex --- (76) 1
Organic mixtures in water
Use of high-efficiency packed columns for GSC. V. Micropacked columns (90) 239
Organic peroxides
Determination of --- by GC (74) 118
Organic pollution
Use of Bentone 34-coated supports in CC and their potential application in the field of --- analysis (99) 721
Organics
Determination of hetero-element content in --- by alkali flame-GLC (63) 237
Organic substances
Identification of --- by means of direct coupling of GC with elementary analysis. I. Analysis of hydrocarbons (65) 47
Organic sulphur compounds
A study of the desulphurization of --- on Raney nickel by means of reaction GC (65) 179
Organic sulphur compounds
TLC of --- by the mixed fluorescent material method. I. Detection of various classes of compounds (96) 195
Organic sulphur compounds
TLC of --- by the mixed fluorescent material method. II. Separation and quantitation of disulphides, thiurams, xanthates, thioureas and other --- (96) 211
Organic sulphur compounds
Use of heavy metal salts in the analysis of --- (69) 79
Organic volatiles
Concentration and analysis of --- in Skylab IV (99) 673
Organochlorine insecticides
TLC–enzymatic identification and the mode of action of chlorinated hydrocarbon insecticides. III. Identification by inhibition of phosphatase (61) 279

Organochlorine pesticides
Determination of BHC isomers in soils by GLC and TLC after extraction with light petroleum (89) 177
Organochlorine pesticides
Effects of pesticide-grade hexanes on the silicic acid chromatography of polychlorinated biphenyls and --- (59) 444
Organochlorine pesticides
The estimation of polychlorobiphenyls (71) 443
Organochlorine pesticides
An observation on the multiple development of DDT and some metabolites on aluminium oxide thin-layer chromatograms (57) 444
Organochlorine pesticides
A screening method for --- and -phosphorus pesticide residues in vegetables using TLC (55) 385
Organochlorine pesticides
Use of Amberlite XAD-4 for extraction and recovery of chlorinated insecticides and polychlorinated biphenyls from water (89) 185
Organochlorine pesticide residues
Removal of interfering substances from vegetable extracts prior to the determination of --- (67) 173
Organochlorines
The use of support-bonded silicones for the extraction of --- of interest from water (73) 99
Organomercurials
Perhalobenzenesulfinates as reagents in the determination of inorganic mercury in various media by GLC (87) 215
Organomercury compounds
GLC–MS of --- (76) 471
Organomercury compounds
TLC detection of --- (72) 153
Organometallic compounds
GC investigation of --- and their carbon analogues. I. Determination, calculation and correlation of Kováts' retention indices for tetraalkoxysilanes (88) 295
Organometallic compounds
GC investigation of --- and their carbon analogues. II. Improved method for calculating retention indices of tetraalkoxysilanes (88) 311
Organometallic compounds
GC investigation of --- and their carbon analogues. III. A study of Kováts retention indices for tetraalkoxysilanes containing branched alkoxy groups (90) 35
Organometallic compounds
GC investigation of --- and their carbon analogues. IV. Determination, calculation and correlation of Kováts retention indices for tetraalkylsilanes (90) 41
Organometallic compounds
GC investigation of --- and their carbon analogues. V. Use of refractive index in conjunction with Kováts' retention index for the identification of organosilicon compounds (93) 383
Organometallics
Selective detection of --- in GC effluents by flame photometry (74) 311
Organometallic compounds
Response of the alkali flame ionisation detector to silicon, tin and lead compounds (59) 429
Organometallic compounds
The use of the electron capture detector for the analysis of volatile inorganic and --- (66) 361
Organophosphates
An investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Organo-phosphorus
An investigation of flavones as fluorigenic spray reagents for organic compounds on a cellulose matrix. Part III. Quantitation of the method (60) 213
Organophosphorus compounds
Comparative GC response of --- containing nitrogen and nitrogen compounds with alkali flame and electrolytic conductivity detectors (70) 37
Organophosphorus compounds
GC separation of diastereoisomeric alkyl methylphosphonofluoridates and related compounds (54) 151
Organophosphorus compounds
Relations between solute, solvent and adsorbent in TLC. I. Relations between the molecular structure of compounds and their adsorption affinity – Application to --- (56) 264

Organophosphorus compounds
Relationships between solute, solvenf and adsorbent in TLC. II. Relationships between the molecular structure of compounds and their adsorption affinity. Respective contributions of inductive steric effects in neutral --- (68) 143
Organophosphorus compounds
Relationships between the solute, solvent and adsorbent in TLC. III. Relationship between the molecular structure of the solvent and the migration of solute on the layer. Application to the chromatography of neutral --- (76) 381
Organophosphorus insecticides
Clean-up of --- residues in vegetable extracts by gel chromatography on Sephadex LH-20 (93) 457
Organophosphorus insecticides
Routine method for the determination of --- by TLC (58) 247
Organophosphorous pesticides
Detection of --- by *in situ* fluorometry on TLC (80) 117
Organophosphorous pesticides
Enzymatic and polarographic determination of Metation and its analogues after separation on silica gel thin layers (59) 446
Organophosphorus pesticides
A screening method for organochlorine and --- residues in vegetables using TLC (55) 385
Organophosphorus pesticides
The separation of fifty pesticides and related compounds and polychlorobiphenyls into four groups by silica gel microcolumn chromatography (62) 63
Organosilicon compounds
GC investigation of organometallic compounds and their carbon analogues. V. Use of refractive index in conjunction with Kováts' retention index for the identification of --- (93) 383
Organosilicon compounds
Quantitative TLC with the aid of reaction GC (78) 123
Organosilicon compounds
The systematic analysis of --- by chromatographic methods. II. (67) 37
Organosilicon materials
GC. V. The relationship between retention data and molar volumes (70) 1
Organosiloxanes
A search for organics in hydrolysates of lunar fines (54) 169
Organosulfur compounds
A new spray reagent for --- (97) 83
Organothiophosphorus pesticides
Flavones as fluorogenic spray reagents for --- on silica gel layers (59) 135
Ornithine
The determination of lysine and --- using acid ninhydrin (71) 564
Orthophenylphenol
Determination of biphenyl and --- in citrus fruits by GC (77) 331
Orthophosphate
High-pressure chromatographic separation of glycerophosphorylcholine, phosphorylcholine, glycerophosphate and --- (88) 183
Osmium(III)
The qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Ovarian dermoid cyst lipids
Chromatographic separation of --- and prostaglandins (63) 321
Overlapping peaks
A practical quantitative method for unresolved GC peaks. I. Two --- (66) 9
Overlapping peaks
A practical quantitative method for unresolved GC peaks. II. Three --- (70) 31
Oxalate
Detection of tartrate and --- by TLC (84) 412
Oxalates
GC study of the thermal decomposition of --- (88) 407
Oxalic acid
Amino acid analysis: The humin problem (68) 123
Oxalates
GC study of the thermal decomposition of --- (88) 407
Oxalate
Detection of tartrate and --- by TLC (84) 412
Oxalates
GC study of the thermal decomposition of --- (88) 407

Oxalic acid
Amino acid analysis: The humin problem (68) 123
Oxalic acid
An application of the ligand exchange method to the separation of some aliphatic carboxylic acids (95) 127
Oxalic acid
GC determination of ---, malonic acid and succinic acid from biological material (92) 431
Oxalic acid
A rapid GLC method for determining --- in biological materials (76) 242
Oxalic acid
The sensitivity of the FID for dicarboxylic acid esters (77) 175
1,4-Oxathiins
Sodium azide–iodine reagent for the detection of --- derivatives by TLC (100) 247
Oxazolidinones
Derivatization of amino acids with 1,3-dichlorotetrafluoroacetone and its use in GC (91) 475
Oxazolidinones
GC behaviour of amino acid ---. Response to flame ionization and electron capture detectors (91) 483
Oxazolin-5-one derivatives
GLC separation of --- of an amino acid (69) 366
Oxidation products from nitration
Continuous TNT process studies. III. TLC analysis of --- (64) 123
Oxidation reactions
Elucidation of GC fractions in hydrogenation and --- (69) 37
Oxidative decomposition
A new method for preventing --- of catechol oestrogens during chromatography (71) 465
N-Oxides of tertiary bases
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Oxidipropionitrile
Characteristics of retention in GLC (67) 213
Oxime esters
Solution behaviour of liquid crystal phases in capillary GC. I. Solution properties of nematic --- (100) 101
Oximes
Chromatography of some quaternary drugs on columns of Sephadex G-10 (60) 185
Oxiranes
Preparation of adsorbents for biospecific affinity chromatography. I. Attachment of group-containing ligands to insoluble polymers by means of bifunctional --- (90) 87
Oxo acids of phosphorus
Gel chromatographic behaviour of the --- (52) 469
3-Oxoacrylic acid ester
GC investigation of carbon suboxide (77) 323
Δ^4-3-Oxosteroids
Simultaneous separation of common mammalian --- and oestrogens using two-dimensional TLC (66) 177
Oxprenolol
Determination of low levels of --- in blood or plasma by GLC (88) 173
Oxycarboxin
Silver nitrate–bromophenol blue and potassium permanganate–sulphuric acid as chromogenic reagents for the detection of carboxin and --- in TLC (87) 283
Oxyethylated alkyl sulfate surfactants
A systematic study of the variables involved in the reverse-phase TLC of --- (82) 37
Oxygen
Analysis of traces of contaminants in breathing --- with a helium detector and an electron capture detector (58) 117
Oxygen
Determination of adsorption isotherms of the components of binary gas mixtures by GC (79) 1
Oxygen
Effect of --- on electron capture detection (71) 1
Oxygen
Simultaneous carbon and --- determination by fluorine combustion GC (69) 355
Oxygen-containing compounds
Salting-in and salting-out of --- in GC. Entropy and enthalpy aspects (68) 59
Oxygen-containing compounds
Stepwise extraction of --- by boric

acid and lithium aluminium hydride (69) 47

C_{17} Oxygenated aliphatic compounds
Qualitative and quantitative estimation by TLC and GC of a series of --- in the avocado (*Persea americana*) (86) 239

11-Oxygenated cholesterols
TLC and GLC of some ---, 20-iso-cholesterols, and related compounds (70) 194

Oxygen determination
Elucidation of GC fractions in hydrogenation and oxidation reactions (69) 37

Oxygen–nitrogen separation on Cr_2O_3 gel --- (52) 486

Oxygen
A solid electrolyte detector for the determination of trace amounts of --- in the presence of argon and other gases (52) 367

Oxyphenbutazone
Analysis of phenylbutazone in plasma by high-speed LC (89) 23

Oxyphenbutazone
The assay of phenylbutazone in human plasma by a specific and sensitive GLC procedure (89) 17

Oxypurines
Rapid determination of some plasma --- using high-pressure LC (81) 85

Oxypurines
Separation of --- by ligand-exchange chromatography and determination of caffeine in beverages and pharmaceuticals (62) 148

Oxytetracycline
The chromatography of antibiotics on SP-Sephadex (86) 139

Oxytetracycline
A method for the determination of mixtures of chlorotetracycline and --- in refatted milk (72) 426

Ozonolysis
GLC identification of --- fragments as a basis for micro-scale structure determinations (60) 157

Ozonolysis
Reaction GC of microgram and sub-microgram samples using sealed glass capillaries (75) 304

P

Packed beds
Comparison of equations describing mass transfer in --- (73) 1
Packings, *see also* Supports
Packings
Characteristics of a novel GC phase (88) 7
Packings
Chemically bonded stationary phases with variable selectivity (83) 25
Packings
Column --- for GLC by coating the stationary liquid on the solid support in the vapour phase (88) 347
Packings
Considerations of small particles in different modes of LC (99) 407
Packings
Critical operating parameters of the fluid grading method (84) 225
Packings
Dependence of HETP upon resin particle size and solution flow-rate in high-speed ion-exchange chromatography (83) 195
Packings
Determination of the amount of stationary phase in --- for GLC (93) 369
Packings
Grading of chromatographic supports and --- according to particle size by the fluid method (75) 1
Packing
High-performance GPC with a new type of silica --- material (99) 435
Packings
Performance of --- in high-speed LC. III. Chemically bonded pellicular materials (83) 181
Packings
Porous silica microsphere column --- for high-speed LSC (83) 149
Packings
Practical implications of modern LC column performance (83) 169
Palladium(II)
Non-fluorinated tetradentate β-keto-amines as derivatizing ligands for the GC analysis of Cu(II), Ni(II) and --- (99) 309
Palladium(II)
Qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Palladium(II)
Radiochromatographic and high-frequency titration studies on ethylthiourea complexes of --- and platinum(II) (92) 419
Palladium(II)
Radiochromatographic, conductometric and high-frequency titration studies on the thiourea complexes of --- and platinum(II) (70) 117
Palladium catalyst
Hydrogenolysis of terpenes in the injection port of a gas chromatograph (66) 229
Palmitic acid
Micromethod for the quantitative determination of lipids by use of TLC, photodensitometry and an internal standard (68) 153
PAM
Chromatography of some quaternary drugs on columns of Sephadex G-10 (60) 185
Papain
Isolation of chymo--- (84) 423
Papain
Sorption equilibria between proteins and cation exchangers (89) 239
Papaverine
Quantitative GC determination of the major alkaloids in gum opium (89) 76
Paper chromatography
Apparatus for washing chromatography paper (61) 325
Paper chromatography
Computerised scanner for bidimensional radiochromatograms (53) 293

Paper chromatography
Distortion of spots by mutual effect of sample constituents in --- separations (78) 453
Paper chromatography
Fully automatic sample applicator for TLC and --- (71) 101
Paper chromatography
Improved method for the recovery of compounds from paper chromatograms (65) 458
Paper chromatography
Improved technique for obtaining reproducibility of R_F values in impregnated --- (85) 144
Paper chromatography
Peak broadening in --- and related techniques. VII. The contribution of the macroscopic mobile phase velocity profile to peak broadening in PC and TLC (53) 469
Paper chromatography
Peak broadening in --- and related techniques. VIII. Peak broadening in thin-layer electrophoresis (71) 307
Paper electrophoresis
Apparatus and methods for horizontal high-voltage --- on paper with unilateral cooling, operating up to 170 $V \cdot cm^{-1}$ and 0.6 $W \cdot cm^{-2}$ (87) 73
Paper electrophoresis
High-voltage --- at various proportions of liquid and solid phases (60) 150
Paper electrophoresis
Use of Teflon film in quantitative analysis by enclosed-strip ---. The separation and determination of the valence states of iron (53) 616
Paper tape reading control system
A --- for programming sample collection intervals in CC (69) 385
Paracetamol
GLC of N-acetyl-*p*-aminophenol (---) in plasma and urine (59) 289
Paradols
Natural pungent compounds. IV. Examination of the gingerols, shogaols, --- and related compounds by TLC and GC (67) 29
Paraffins
Chromatography of chlorinated --- on alumina and silica columns (81) 152
n-Paraffins, C_{10}–C_{18}
Determination of small amounts of hydrocarbon impurities in C_{10}–C_{18} paraffinic fractions (65) 165
n-Paraffins, C_9–C_{14}
Direct GC determination of --- in kerosene fractions (65) 155
Paraffins
Evaluation of the properties of "Apiezon" greases as stationary phases in GLC (66) 213
Paraffins
GC study of thin films of --- on graphite supports (77) 289
Paraffins
Method for the identification of branched-chain --- by calculation of their retention index values on the basis of molecular structure and physical properties (76) 31
Paraffins
Temperature dependence of the retention indices of branched-chain --- on non-polar stationary phases. A method for its calculation on the basis of molecular structure (79) 23
Parpanit
GLC of Caramiphen hydrochloride and its analogues (52) 138
Particle diameter
Study of the pertinency of pressure in LC. I. Theoretical analysis (99) 357
Particle size
Influence of the --- (5–35 μm) of spherical silica on column efficiencies in high-pressure LC (99) 377
Particle size distribution
Achievement of reproducible separations by the application of standardized sorbents in specified systems (78) 77
Partition
Investigations of the retention mechanism in --- GLC (91) 67
Pasteur vaccine
Analysis of β-propiolactone by GLC. I. Investigation of a residue of β-propiolactone in the antirabic ---. II. Study of the hydrolysis curve of β-propiolactone at pH 7.4 (70) 128
Patulin
GC method for the mycotoxin penicillic acid (65) 501
Patulin
N-Methylbenzthiazolone-(2)-hydrazone

(Besthorn's hydrazone) as a sensitive spray reagent for --- (86) 190
PCB's, *see* Polychlorinated biphenyls
PCNB
Rapid analysis of dichloran, lindane, --- and TCNB residues in lettuce by automated GLC (93) 91
$PdCl_2$-N-methylacetamide stationary phase
Thermodynamics of interactions of hexenes with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Peaks
Guidelines for the development of a computer scheme to identify chromatographic --- (99) 243
Peaks
Hermite polynomial representation of chromatography elution curves (88) 1
Peaks
Practical quantitative method for unresolved GC ---. II. Three overlapping peaks (70) 31
Peaks
Vacant --- in LC (91) 161
Peak analysis
Application of numerical Laplace transformation to chromatographic --- (92) 213
Peak area
Study of precision in modern LC using a dedicated computer (83) 289
Peak broadening in paper chromatography
--- and related techniques. VIII. Peak broadening in thin-layer electrophoresis (71) 307
Peak cutting technique
Trace determination of dibutyl phosphoric acid by GC (87) 57
Peak height
A study of precision in modern LC using a dedicated computer (83) 289
Peak maximum
Effect of non-equilibrium in GC (87) 1
Peak measurement
Study of the effects of instrument variables on accuracy and precision in GC. I. Contribution of the method of --- (92) 257
Peak shapes
Dependence of chromatographic --- on column and experimental parameters (83) 205
Peak skewness
Elution profile in a linear chromatographic system (88) 197
Peak skewness
Non-linear fitting method for recorded chromatographic peaks (95) 147
Peak variance
Moments analysis in non-linear chromatography. II. The second moment (67) 1
Pectic acid
Chromatographic resolution of racemates on natural optically active ion exchangers. IV. Influence of the solvent on the optical resolution of racemic bases on sunflower --- (72) 192
Pectin lyase
Detection of polygalacturonase and --- isoenzymes in polyacrylamide gels (96) 245
Peganone
Quantitative determination of ethotoin --- in serum by GC (92) 157
Pelargonidin glycosides
Cellulose TLC separation of *Rubus* fruit anthocyanins (75) 151
Peltier unit
Use of a --- as a solid state heat of sorption detector (97) 74
Penicillic acid
Fluorodensitometric assay of --- (51) 511
Penicillic acid
GC method for the mycotoxin --- (65) 501
Penicillins
Chromatography of antibiotics on SP-Sephadex (86) 139
Penicillins
Detection of --- with chloroplatinic acid on thin-layer chromatoplates (77) 458
Penicillins
Influence of pH in buffered reversed-phase TLC of --- and cephalosporins (51) 548
Penicillins
Reversed-phase TLC and partition coefficients of --- (63) 313
Penicillins
Separation and detection of degradation products of --- and cephalosporins by means of TLC (71) 141

Penicillins
Separation of --- of closely related structure by partition chromatography on paper and cellulose thin-layer plates (79) 251
Penicillin G
Analysis of potassium --- and its degradation products by TLC (76) 512
Penicillin G
Quantitative determination of potassium --- by thin-layer spectrodensitometry (85) 177
Pentachlorophenol
Artefact in the GC determination of impurities in --- (67) 247
Pentachlorophenol
Computer-controlled mass fragmentography with digital signal processing (81) 47
Pentachlorophenol
Contributive error from analytical reagents in the analysis of chlorophenoxy acids and --- by electron capture GC (61) 147
Pentachlorophenol
TLC–enzymatic identification of some lindane- and possible DDT-metabolites as well as --- (67) 343
n-Pentadecenes
Capillary GC of linear alkenes on squalane. Separation and identification of --- and *n*-hexadecenes (91) 613
3-Pentadecylphenol
Separation and identification of methylol derivatives of --- by TLC (62) 473
Pentaerythritol
Quantitative determination of --- in aqueous solution (91) 741
Pentaerythritol nitrates
GC separation and detection of --- and other organic nitrate esters (57) 345
Pentafluorobenzaldehyde
Perfluorobenzene derivatives as derivatising agents for the GC of primary and secondary amines using electron capture detection (66) 255
Pentagastrin
Miniature TLC: a rapid technique with optional spot evaluation by densitometry (73) 161
Pentanal
Polyvinyl acetate as a stationary phase in TLC (52) 429
2,4-Pentanedione
GLC of Schiff bases of amino acid methyl esters (76) 236
Pentapeptide
Solid phase synthesis and purification of a --- (63) 167
Pentapiperide methylsulphate
Indirect GC determination of the diastereoisomeric composition of --- (57) 413
Pentazocine
Determination of blood levels of --- by GC with a nitrogen detector (78) 417
Pentazocine
GC determination of --- in human plasma by means of electron-capture detection (78) 293
Pentazocine
Separation and quantitative analysis of some benzomorphane derivatives by TLC (61) 361
Pentobarbital
Quantitative TLC. Assay of drug mixtures by scanning of remission peaks (63) 121
Pentobarbital
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Pentoses
The separation of some monosaccharides by capillary column GC (65) 295
Peptides
Adsorption on neutral polystyrene resin. A simple method for extraction of 2,4-dinitrophenyl derivatives from aqueous solution and for decoloration of protein hydrolysates (54) 215
Peptide
Application of thin-layer electrophoresis and chromatoelectrophoresis on Sephadex G-25 to the analysis of amino acid and --- composition of biological fluids (53) 329
Peptides
Chromatographic methods in the analysis of protein structure. Methods for identification of N-terminal amino acids in --- and proteins. Part B (70) 221 (review)
Peptides
Chromatographic separation of aldehyde-containing compounds from bovine elastin (78) 371
Peptides
Chromatography of cysteine and

glutathione derivatives on a Dowex-1/Sephadex mixed-bed column (59) 181
Peptides
Chromatography of plant constituents on cross-linked dextrans in phenol–acetic acid–water mixtures (54) 433
Peptides
Convenient gel chromatography method for determining the molecular weight distributions and averages of synthetic poly--- collagen models (67) 157
Peptides
Degradation of Sephadex G-150 by 50% formic and acetic acids (58) 285
Peptides
Determination of branched-chain N-methylamino acids (84) 361
Peptides
5-Di-*n*-butylaminonaphthalene-1-sulphonyl chloride – a new reagent for fluorescence labelling of amines, amino acids and --- (84) 95
Peptides
Effect of ionic strength on poly(D-Asp-L-Lys) in Sephadex gel filtration (51) 543
Peptides
GC of permethylated --- (70) 146
Peptides
Gel chromatography of structural-isomeric --- on Sephadex G-10 (53) 385
Peptides
Gel chromatography of tyrosine--- and tryptophan--- on Sephadex G-10 and G-15 (60) 139
Peptides
Gel filtration of proteins and --- in the presence of 6 *M* guanidine hydrochloride (63) 267
Peptide
GLC separation of di--- derivatives (93) 229
Peptides
Identification of polymyxin B sulphate (52) 154
Peptides
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. Part VIII. The characterization of leucyl and isoleucyl dipeptides by TLC and ion-exchange chromatography (79) 187
Peptides
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. The characterization of small --- by TLC and ion-exchange chromatography (65) 397
Peptides
Improvement of the starch–iodide method for detection of imides and other NH-containing compounds on thin-layer chromatograms (54) 284
Peptides
Influence of --- on the analysis of amino acids by TLC and ion-exchange chromatography (78) 181
Peptides
Modified pyridine–formic acid gradient for automated CC of amino acids and small --- (59) 434
Peptides
New highly sensitive detection system for --- and proteins in column effluents (66) 145
Peptides
Partition chromatography of glucagon and secretin on Sephadex (63) 423
Peptides
Preparation of pure --- from a mixture of gramicidins and of tyrocidines by droplet countercurrent chromatography (92) 147
Peptides
Rapid analytical gel chromatography of proteins and --- on Sephadex microbore columns (64) 77
Peptides
Rapid staining of proteins and --- in starch gels by chlorination (55) 424
Peptides
Removal of chymotrypsin activity from crystalline trypsin and its investigation (57) 450
Peptides
Separation of dansylated products of L-seryltyrosine and their identification (53) 598
Peptides
Separation of histidyl--- by TLC and microspectrofluorometric characterization of their *o*-phthalaldehyde-induced fluorescence (67) 81
Peptides
Separation of neutral amino acids, di--- and oligo--- into classes. Application to urine (66) 261

Peptides
Separation of --- and amino acids in urine (51) 491
Peptides
Separation of --- from amino acids by ligand-exchange chromatography (87) 513
Peptides
Simple ultra-micro method for the separation and identification of di--- in mixtures obtained during polypeptide sequence determination with dipeptidyl-aminopeptidase I (85) 154
Peptides
Solid phase synthesis and purification of a pentapeptide (63) 167
Peptides
Study of the relationship between the chromatographic mobilities of --- and their constituent amino acids on paper and thin layers of cellulose (64) 305
Peptides
Template chromatography: Application of the principles of molecular biology for the selective separation of nucleotides and ---. A progress report (99) 31
Peptides
Tetrazole analogues of amino acids and ---. II. PC and TLC of tetrazole analogues of amino acids (51) 310
Peptides
Theoretical study of the paper electrophoretic separation of low molecular weight substances. I. Application to amino acids and --- (59) 401
Peptides
TLC of amino acid hydantoins (80) 199
Peptides
Use of neutral polystyrene resin for rapid desalting and fractionation of non-polar amino acids and non-polar oligopeptides (61) 81
Peptide detection
Rapid analytical gel chromatography. II. Sensitivity of protein detection by UV absorbance at 220 nm (71) 573
Peptide sequencing
GC of some dipeptide derivatives (100) 117
Perbromate ion
Analytical reactions of the ---. II. Spot tests, partition and ion-exchange TLC (79) 311
Perbromate ion
Chromatography and electrophoresis of the --- (60) 275
Perchlorates
Analysis of base composition of RNA and DNA hydrolysates by GLC (62) 347
"Perchlorate effect"
Ion-exchange PC of inorganic ions. XIX. Further results on the --- (79) 305
Perchlorate effect
Ion-exchange PC of inorganic ions. Part XXVIII. Some investigations of the --- (77) 135
Perfluorobenzene derivatives
--- as derivatising agents for the GC of primary and secondary amines using electron capture detection (66) 255
Perhalo acids
Analytical reactions of the perbromate ion. II. Spot tests, partition and ion-exchange TLC (79) 311
Perhalobenzenesulfinates
--- as reagents in the determination of inorganic mercury in various media by GLC (87) 215
Permaphase
The performance of packings in high-speed LC. III. Chemically bonded pellicular materials (83) 181
Permeability of polymers
GC measurement of the permeability of PTFE, PVC, polyethylene and nylon tubing towards oxygen and nitrogen (77) 406
Permethylated peptides
GC of --- (70) 146
Peroxidases
Polyacrylamide electrophoresis of --- on microscope slides and evaluation with the aid of reflecting light (65) 583
Peroxidase
Simple method for the detection of --- using CC (56) 158
Peroxidase
Starch gel electrophoresis of the --- isozymes of the tea leaf (65) 587
Peroxidase isozymes
Starch gel electrophoresis of the --- of the tea leaf (65) 587
Peroxides
Determination of organic --- by GC (74) 118

Peroxy compounds
Determination of organic ---. V. The mechanism of the chromatographic separation of symmetrically substituted dibenzoyl peroxides on various sorbents (66) 321
Perpendicular drop method
Efficacy of the corrections applied in the resolution of overlapping chromatographic peaks by the --- (55) 221
Persea americana
Qualitative and quantitative estimation by TLC and GC of a series of C_{17} oxygenated aliphatic compounds in the avocado (---) (86) 239
Pesticides
Agricultural fungicides. I. Identification of systemic fungicides using TLC (81) 174
Pesticides
Agricultural fungicides. II. Detection and identification of systemic benzimidazole fungicides on citrus fruit (87) 585
Pesticides
Analysis of triazine herbicides by combined TLC and fluorimetry (100) 175
Pesticide aerosols
Analytical studies of pyrethrin formulations by GC. II. Isolation of the pyrethrins from water-based formulations (72) 51
Pesticides
Analytical studies of pyrethrin formulations by GC. III. Analytical results on insecticidally active components of pyrethrins from various world sources (90) 119
Pesticides
Approximation of electron capture response factors for highly electrophilic compounds (87) 9
Pesticides
Artefact in the GC determination of impurities in pentachlorophenol (67) 247
Pesticides
Chromogenic agent for the detection of phenoxyacetic herbicides on thin-layer plates (61) 173
Pesticides
Clean-up of organophosphorus insecticide residues in vegetable extracts by gel chromatography on Sephadex LH-20 (93) 457
Pesticides
Comparative GC response of organophosphorus compounds containing nitrogen and nitrogen compounds with alkali flame and electrolytic conductivity detectors (70) 37
Pesticides
Contribution to the determination of environmental contaminants by carbon-skeleton chromatography (88) 65
Pesticides
Degradation of [^{14}C]DDT on Silica Gel G chromatograms under laboratory conditions (67) 179
Pesticides
Design of a column for the GC analysis of chlorinated hydrocarbon --- (52) 141
Pesticides
Detection and determination of 2,3,7,8-tetrachloro-dibenzo-*p*-dioxin in chloro-substituted phenoxyalkane acids (64) 39
Pesticides
Detection and determination of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin in chloro-substituted phenoxyalkane acids (90) 382
Pesticides
Detection of naturally fluorescent --- on silica gel layers (79) 217
Pesticides
Detection of organophosphorous --- by *in situ* fluorometry on TLC (80) 117
Pesticides
Determination of ametrine and atrazine residues in soil by TLC (80) 137
Pesticides
Determination of BHC isomers in soils by GLC and TLC after extraction with light petroleum (89) 177
Pesticides
Determination of biphenyl and ortho-phenylphenol in citrus fruits by GC (77) 331
Pesticides
Determination of picloram in fescue by GLC (53) 367
Pesticides
Determination of residues of BAY 94337 (4-amino-3-methylthio-6-*tert.*-butyl-1,2,4-triazin-5-one) (56) 345
Pesticides
Determination of residues of 2,4,5-tri-

chlorophenoxyacetic acid in soil by GC of the *n*-butyl ester (69) 204
Pesticides
Determination of sulphur- and chlorine-containing --- with an electrolytic conductivity detector (75) 207
Pesticides
Determination of 2,3,7,8-tetrachlorodibenzo-1,4-dioxin at parts per billion levels in technical-grade 2,4,5-trichlorophenoxyacetic acid, in 2,4,5-T alkyl ester and 2,4,5-T amine salt herbicide formulations by quadrupole mass fragmentography (90) 71
Pesticides
Effects of pesticide-grade hexanes on the silicic acid chromatography of polychlorinated biphenyls and organochlorine --- (59) 444
Pesticides
Effect of some operating parameters on the response of the Coulson conductivity detector (87) 333
Pesticides
Electrolytic conductivity detection of some nitrogen-containing herbicides (63) 364
Pesticides
Elimination pattern of Aroclor 1254 components in the bobwhite (75) 219
Pesticides
Enzymatic and polarographic determination of Metation and its analogues after separation on silica gel thin layers (59) 446
Pesticides
Estimation of polychlorobiphenyls (71) 443
Pesticides
Ether derivatives for the determination of phenols and phenol-generating --- by electron capture GC (73) 89
Pesticides
Evaluation of Porochrom I as a support in the GLC of --- (91) 347
Pesticides
Extraction and recovery of chlorinated insecticides and polychlorinated biphenyls from water using porous polyurethane foams (100) 83
Pesticides
Flavones as fluorogenic spray reagents for organothiophosphorus --- on silica gel layers (59) 135
Pesticides
Fluorescence of --- by treatment with heat, acid or base (95) 243
Pesticides
Fluorigenic labelling in high-speed LC (83) 321
Pesticides
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174
Pesticides
Fluorigenic labelling of carbamate with dansyl chloride. IV. *In situ* quantitation on N-methyl carbamate insecticides on thin-layer chromatograms (67) 87
Pesticides
Fluorimetric derivatization for pesticide residue analysis (98) 253 (review)
Pesticides
Further studies on impurities in chlorophenols (89) 325
Pesticides
GC data for polychlorinated biphenyl components in six Aroclors® (72) 275
Pesticides
GC determination of cholinesterase inhibition (100) 171
Pesticides
GC method of quantitating DDT in the presence of interfering polychlorinated biphenyl (84) 67
Pesticides
GLC determination of 2-hydroxy-*s*-triazines (52) 487
Pesticides
Identification of chlorinated naphthalenes in Halowaxes 1031, 1000, 1001 and 1099 (84) 59
Pesticides
Identification of hexachlorobenzene residues by GLC (69) 198
Pesticides
Improved quantitative GC method for the analysis of small amounts of chlorinated hydrocarbon --- in human plasma (74) 21
Pesticides
Investigation and determination of 4,6-dinitro-*o*-cresol in water (87) 287
Pesticides
Investigation of flavones as fluorogenic spray reagents for organic compounds on

a cellulose matrix. Part I. General discussion of the method (54) 251
Pesticides
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of --- (56) 69
Pesticides
Investigation of flavones as fluorigenic spray reagents for organic compounds on a cellulose matrix. Part III. Quantitation of the method (60) 213
Pesticides
Investigation of fluorigenic labelling of chlorophenols with dansyl chloride (84) 214
Pesticides
Metabolism of phenylureas. I. TLC separation and identification of aliphatic hydroxylamines in the presence of aliphatic amines (84) 117
Pesticides
Method for the determination of Venzar (3-cyclohexyl-5,6-trimethyluracil) on silica gel layers (74) 366
Pesticides
Modified detection of triazine herbicide residues and their hydroxy derivatives on thin-layer chromatograms (53) 589
Pesticides
Observation on the multiple development of DDT and some metabolites on aluminium oxide thin-layer chromatograms (57) 444
Pesticide
Potential problems with the use of distilled water in --- residue analysis (60) 45
Pesticides
Potential use of high-performance LC in residue analysis (83) 439
Pesticides
Preparation and use of surface-modified adsorbents in clean-up techniques for --- residue analysis (90) 198
Pesticide
Problems in water analysis for --- residues (54) 71
Pesticides
Purification and characterization of pesticidal synergists. I. Piperonyl butoxide (65) 521
Pesticides
Quantitative determination of the γ-isomer of BHC in technical products and formulations (60) 251
Pesticides
Quantitative determination of the methyl ester of 2-chloro-3-(4-chlorophenyl)-propionic acid in technical products and formulations by GC (69) 305
Pesticides
Rapid analysis of dichloran, lindane, PCNB and TCNB residues in lettuce by automated GLC (93) 91
Pesticide
Removal of interfering substances from vegetable extracts prior to the determination of organochlorine --- residues (67) 173
Pesticides
Reversed-phase LC of some --- and related compounds. Solubility–retention relationships (94) 151
Pesticide
Routine method for identification of --- residues triazine, carbamate, urea, and uracil type compounds by TLC (65) 533
Pesticides
Routine method for the determination of organophosphorus insecticides by TLC (58) 247
Pesticide
Screening method for organochlorine and -phosphorus --- residues in vegetables using TLC (55) 385
Pesticides
Separation and detection of carbamates and related compounds on polyamide layers (52) 453
Pesticides
Separation and determination of some systemic fungicides and their metabolites by TLC (72) 410
Pesticides
Separation and identification of DDT analogues in the presence of polychlorinated biphenyl compounds by two-dimensional TLC (57) 397
Pesticides
Separation of fifty --- and related compounds and polychlorobiphenyls into four groups by silica gel microcolumn chromatography (62) 63

Pesticides
Separation of Planavin® herbicide and some related compounds by two-dimensional TLC (53) 397
Pesticides
Separation of SAN-6706 and some related compounds by TLC (66) 386
Pesticides
Silver nitrate–bromophenol blue and potassium permanganate–sulphuric acid as chromogenic reagents for the detection of carboxin and oxycarboxin in TLC (87) 283
Pesticides
Simple automatic venting valve for Coulson electrolytic conductivity detectors and microcoulometric GC detectors (84) 387
Pesticides
Simple differentiation of polychlorobiphenyls from chlorinated naphthalenes (71) 562
Pesticides
Sodium azide–iodine reagent for the detection of 1,4-oxathiin derivatives by TLC (100) 247
Pesticides
Spectral response of the alkali flame detector (61) 35
Pesticides
TLC and GLC of derivatives of isomeric chlorophenols. Chlorophenyl fluorosulphonyl-benzenesulphonates and related compounds (51) 219
Pesticides
TLC detection of organomercury compounds (72) 153
Pesticides
TLC–enzymatic and GC determination of 4,4'-dichlorobenzophenone and its decomposition products (54) 282
Pesticides
TLC–enzymatic identification of carbamates. I. Identification of carbamate insecticides with bovine liver esterase (53) 269
Pesticides
TLC–enzymatic identification of carbamates. II. Identification of carbamate herbicides with bovine liver esterase (58) 257
Pesticides
TLC–enzymatic detection of carbamates. III. Detection of insecticidal and herbicidal carbamates with phosphate (64) 383
Pesticides
TLC–enzymatic detection of some --- by inhibition of amylases (63) 343
Pesticides
TLC–enzymatic identification and the mode of action of chlorinated hydrocarbon insecticides. II. Identification by inhibition of trypsin (52) 447
Pesticides
TLC–enzymatic identification and the mode of action of chlorinated hydrocarbon insecticides. III. Identification by inhibition of phosphatase (61) 279
Pesticides
TLC for quantitative polychlorinated biphenyl analysis (77) 377
Pesticides
TLC in the detection of poisoning by --- (95) 181
Pesticides
TLC procedure for the detection in soils and waters of herbicide residues commonly used in Saskatchewan (57) 303
Pesticides
TLC screening test for the detection of inhibiting properties of phenylurea herbicides on certain enzymes (87) 199
Pesticides
Ultratrace analysis (below p.p.b.) by coupling centripetal TLC and GC (78) 127
Pesticides
Use of Amberlite XAD-4 for extraction and recovery of chlorinated insecticides and polychlorinated biphenyls from water (89) 185
Pesticides
Use of an electron capture detector for the determination of --- in water (91) 545
Pesticides
Use of support-bonded silicones for the extraction of organochlorines of interest from water (73) 99
Pesticides
Utilization of promethium-147 as an ionization source in electron-capture detectors (62) 53
Pesticides
Utilization of the inhibition of some

enzymes by phenoxyalkane carboxylic acid herbicides for their TLC–enzymatic identification (72) 333
Pesticides
Vacuum UV atomic emission detector. Quantitative and qualitative chromatographic analysis of typical C, N, and S containing compounds (55) 237
Pesticides, chlorinated
Detection and quantitative determination of certain ––– by micro-TLC (62) 479
Pesticides, chlorinated
GC separation of hexachlorobenzene and the α-, β-, γ- and δ-isomers of hexachlorocyclohexane (71) 340
Pesticides, chlorinated
TLC of DDT and some related compounds on aluminum oxide chromatoplates (64) 135
Pesticides, halogenated
Simple and inexpensive method for the visual detection of sub-microgram amounts of halogenated substances present in GC effluents (75) 298
Pethidine
Quantitative GLC method for the determination of ––– and its metabolites, norpethidine and pethidine N-oxide in human biological fluids (89) 169
Pethidine
Ultra rapid method for the extraction of drugs from biological fluids (63) 303
Pethidine N-oxide
Quantitative GLC method for the determination of pethidine and its metabolites, norpethidine and ––– in human biological fluids (89) 169
Petrochemical analysis
––– problems. III. GC control of acetate ester production using porous polymer bead columns (93) 413
Petrochemical plant
Difficulties in setting-up industrial chromatographs. Application to the continuous analysis of water in a dimethylsulfoxide solution on the aromatic extraction unit of Feyzin (77) 29
Petrochemistry
Application of GC in ––– and petroleum refining (91) 559
Petrochemistry
Application of GC in research and control of petrochemical processes (91) 583
Petroleum
Combination of rectification and GC for separation of multicomponent mixtures of compounds according to boiling points (87) 401
Petroleum
Gel chromatographic separation characteristics of vinyl acetate gel for hydrocarbons and ––– (53) 241
Petroleum
Identification and characterization of ––– and petroleum products by GPC with multiple detectors (74) 233
Petroleum chemistry
Applications of GC in ––– (65) 85
Petroleum chemistry
Potentialities of micro-packed columns. Some applications in ––– (65) 29
Petroleum resins
Application of TLC to hydrocarbon-type analysis (51) 227
Pevikon
Rapid micromethod for electrophoresis in ––– on thin-layer plates (61) 352
Phalaris tuberosa
Separation of some indolylalkylamines from their metho cation derivatives using neutral polystyrene resin. Application to the alkaloids of ––– (*Gramineae*) (87) 187
Phallacidin
Quantitative chromatographic analysis of toxins in single mushrooms of *Amanita phalloides* (79) 257
Phallisin
Quantitative chromatographic analysis of toxins in single mushrooms of *Amanita phalloides* (79) 257
Phalloidin
Chromatographic analysis of toxins from *Amanita phalloides* (53) 545
Phalloidin
Quantitative chromatographic analysis of toxins in single mushrooms of *Amanita phalloides* (79) 257
Phalloin
Quantitative chromatographic analysis of toxins in single mushrooms of *Amanita phalloides* (79) 257
Pharmaceuticals
High-efficiency LC in ––– analysis (83) 431

Pharmaceuticals
Liquid–solid extraction of lyophilized biological materials for forensic analysis. II. Application to bile samples for the detection of drugs (66) 63
Pharmaceuticals
PC of ^{113m}In-labelled radio---: [^{113m}In]DTPA (84) 417
Pharmaceuticals
Potential use of high-performance LC in residue analysis (83) 439
Pharmaceuticals
Rapid chromatographic procedure for the detection of some diuretics in --- and biological fluids (53) 408
Pharmaceuticals
Separation of oxypurines by ligand-exchange chromatography and determination of caffeine in beverages and --- (62) 148
Pharmacokinetics
Application of GC–chemical ionization mass fragmentography in the evaluation of bases and nucleoside analogues in cancer chemotherapy (99) 519
Phases, liquid crystal
Solution behaviour of --- in capillary GC. I. Solution properties of nematic oxime esters (100) 101
Phenanthrene
Evaluation of the separation of ---, anthracene and carbazole in pure tar products by GSC (65) 341
Phenazines
TLC studies of some new 5,10-dihydro--- (60) 433
Phenethicillin
Reversed-phase TLC and partition coefficients of penicillins (63) 313
β-Phenethylamines
Cactus alkaloids. XVII. TLC of Dansylated non-phenolic --- (73) 277
Phenformin hydrochloride
GC behavior of buformin hydrochloride, --- and phenylbiguanide. The pyrolytic formation of substituted 2,4,6-tri-amino-1,3,5-triazines from biguanides (71) 265
Phenmetrazine
A GC study of the metabolism of tarugan (84) 419
Phenobarbital
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, noscapine, diphenhydramine hydrochloride, phenylephrine hydrochloride, caffeine, etofyllin, --- and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
Phenobarbital
Quantitative analysis of --- with trimethylanilinium hydroxide (88) 157
Phenobarbital
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Phenobarbitone
Quantitative analysis of tropane alkaloids in pharmaceutical preparations (55) 417
Phenols
Analysis of dihydric --- by GC (57) 132
Phenols
Analysis of --- by gas–liquid–solid chromatography (80) 69
Phenols
Antioxidants and stabilizers. XLVII. Behaviour of amine antioxidants and antiozonants and model compounds in GPC (88) 99
Phenols
Chromatographic separation of --- using an acrylic resin (79) 107
Phenols
Chromatography of aromatic acids and aldehydes and --- on cross-linked polyvinylpyrrolidone (93) 189
Phenols
Comparison of GLSC with capillary-column GLC for the analysis of --- (93) 375
Phenols
Derivatisation of --- for GC using electron capture detection (78) 303
Phenol
Determination of trace --- and isomeric hydroxybenzoic acids in aqueous benzoic acid solutions by aqueous LC (89) 348
Phenols
Effect of temperature on the interaction of --- with Sephadex gels (51) 307
Phenols
Ether derivatives for the determination of --- and phenol-generating pesticides by electron capture GC (73) 89
Phenols
Further studies on impurities in chloro--- (89) 325

Phenols
GC separation of methylphenols on tricresylphosphates using open tubular columns (54) 277
Phenols
Gel chromatographic behaviour of mononuclear aromatic hydrocarbons and --- (95) 103
Phenols
Gel chromatographic separation of hydrocarbons, amines and --- on a polystyrene gel column. Preparative fractionation of cigarette smoke condensate for biological experiments (67) 299
Phenols
GLC of simple --- for urinalysis (94) 169
Phenols
Highly sensitive technique for the LC analysis of --- and other environmental pollutants (99) 731
Phenol
High-speed LC of glucuronide and sulphate conjugates (55) 409
Phenols
Identification and quantitation of amines by TLC (63) 97
Phenols
Identification of organic compounds. LXXXI. A contribution to the chromatography of --- as antipyrine dyes (88) 364
Phenols
Identification of some polymers by the combined GC and TLC analysis of --- formed by their pyrolysis (79) 91
Phenols
Investigations on the mechanism and selectivity of chromatography on thin layers of polyamide. I. Systems of the type cyclohexane + polar solvent–polyamide (81) 99
Phenols
Investigations on the mechanism and selectivity of chromatography on thin layers of polyamide. II. Comparison of polyamides and cellulose impregnated with formamide using moderately polar developing solvents (94) 219
Phenols
Investigations on the mechanism and selectivity of chromatography on thin layers of polyamide. III. Mobile phases consisting of a combination of polar solvents (94) 229
Phenols
Investigations on the relationship between molecular structure and chromatographic parameters. VII. Partition of --- in systems of the type cyclohexane + polar solvent–formamide (96) 163
Phenols
Ion-exchange chromatography of sulphur compounds, ---, phosphorus compounds and esters of carboxylic acids (86) 423 (review)
Phenols
Ion-pair chromatography of organic compounds (83) 99
Phenols
Lower limits of molecular weights of compounds excluded from Sephadex G-25 eluted with aqueous acetone mixtures. Application of the results to the separation of the components of tannic acid (52) 285
Phenols
Phytochemistry of the *Salicaceae*. III. A GLC procedure for the identification of plant --- (71) 427
Phenols
Quantitative determination of --- by an anodic oxidation wave using a mercury pool electrode during chromatography (64) 390
Phenols
Separation and identification of methylol derivatives of 3-pentadecylphenol by TLC (62) 473
Phenols
Separation and identification of --- in the form of *p*-(N,N-dimethylamino)-benzene *p'*-azobenzoates by means of PC and TLC (67) 97
Phenols
Separation of monohydric alkyl--- by GC (89) 309
Phenols
Study of substituent effects by means of GC in some aromatic systems (65) 129
Phenols
TLC of 2,4-dinitrobenzenediazonium coupling products with malonitrile and some analogues (84) 414

Phenols
Use of ethylenediaminetetraacetic acid in the chromatography of plant poly--- (81) 194
Phenols
Use of R_C values for structural studies in the PC of --- (52) 131
Phenol derivatives
Fourth supplement for the PC separation and identification of --- and related compounds of biochemical interest, using a "Reference System" (68) 183
Phenol derivatives
PC separation and identification of --- and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Phenolics
Oxidation–liquid scintillation radioassay of --- from cellulose TLC plates (90) 275
Phenolic acids
GC of sulphonyl trimethyl silyl ester derivatives of --- (70) 67
Phenolic acids
Identification of --- by GC–MS (71) 149
Phenolic acids
Quantitative analysis of --- by means of partition chromatography on silica gel (100) 206
Phenolic acids
Quantitative autoanalysis of --- by LC on a Polyclar column and UV spectrophotometry (80) 173
Phenolic acids
Separation of --- and indolic acids from untreated urine (54) 442
Phenolic acid esters
Improved conditions and new data for the identification of lichen products by a standardized TLC method (72) 113
Phenolic amines
Revised method for PC study of urinary --- (61) 197
Phenolic antioxidants
GC of --- (77) 11
Phenolic compounds
Chromatographic behaviour of --- in plants on polyamide (87) 280
Phenolic compounds
Chromatographic separation of --- on Amberlite IR-45 (88) 381
Phenolic compounds
General spray reagent for --- on thin-layer plates (62) 471
Phenolic compounds
Metaperiodate – a new structure-specific locating reagent for --- (86) 222
Phenolic compounds
New chromogenic reagent for the detection of --- on thin-layer plates (79) 350
Phenolic compounds
Quantitative analysis of --- after TLC separation (77) 369
Phenolic compounds
Recycling gel chromatography of --- (78) 233
Phenolic compounds
Use of poly-N-vinylpyrrolidone as the adsorbent for the chromatographic separation of chlorogenic acids and other --- (94) 261
Phenolic compounds
Useful spray reagent to differentiate common --- on thin-layer plates and paper chromatograms (87) 290
Phenolic glycosides
Phytochemistry of the *Salicaceae*. III. A GLC procedure for the identification of plant phenols (71) 427
Phenolic glycosides
Phytochemistry of the *Salicaceae*. IV. Investigation of the bark of *Salix petiolaris* Sm (71) 435
Phenolic glycosides
Phytochemistry of the *Salicaceae*. V. The use of a GLC screening test to detect phytochemical variations in *Populus deltoides* Marsh. (84) 309
Phenolic glycosides
Phytochemistry of the *Salicaceae*. VI. The use of a GLC screening test for the chemotaxonomy of *Populus* species (84) 315
Phenolic metabolites
TLC determination of simple phenols in microbial extracts (95) 247
Phenolic substances
Cellulose TLC of --- (67) 105
Phenothiazine
Characterisation of drugs containing tertiary amine groups by application of the Hofmann degradation reaction and GLC (73) 73

Phenothiazine
Differentiation of --- derivatives by locating agent on TLC plates (53) 413
Phenothiazine
GLC analysis of fluphenazine and fluphenazine sulfoxide in the urine of chronic schizophrenic patients (75) 294
Phenothiazine
GLC of --- derivatives and related compounds (77) 339
Phenothiazine
Sensitive TLC technique for determining morphine in urine (71) 135
Phenothiazines
Separation of --- on pH-gradient layers (56) 159
Phenothiazines
Specific GC determination of --- and barbiturate tranquillizers with the nitrogen flame ionization detector (92) 55
Phenothiazines
TLC of chlorpromazine metabolites. Attempt to identify each of the metabolites appearing in blood, urine and feces of chronically medicated schizophrenics (75) 277
Phenothiazine
TLC of --- derivatives and analogues (75) 79
Phenothiazine and related drugs
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of --- (74) 35
Phenothiazine derivatives
Use of electron-acceptor reagents for the non-destructive detection of some --- on thin layers (75) 156
Phenoxyacetic herbicides
Chromogenic agent for the detection of --- on thin-layer plates (61) 173
Phenoxyalkane acids
Detection and determination of 2,3,7,8-tetrachloro-dibenzo-*p*-dioxin in chloro-substituted --- (64) 39
Phenoxyalkane acids
Detection and determination of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin in chloro-substituted --- (90) 382
Phenoxyalkane carboxylic acid herbicides
Utilization of the inhibition of some enzymes by --- for their TLC–enzymatic identification (72) 333
Phenprocoumon
GLC of coumarin anticoagulants and their trimethylsilyl ethers (64) 355
Phenylacetic acid
Combined GC–MS in the determination of urinary anthranilic acid (70) 53
Phenylalanine
Rapid chromatographic determination of --- and tyrosine for phenylketonuria screening (67) 49
Phenylalanyl-tRNA
Purification and characterization of isoaccepting species of phenylalanyl-transfer ribonucleic acid from rat liver (97) 193
2-Phenylbenzimidazole
Chromatography of benzimidazoles (78) 323
Phenylbiguanide
GC behavior of buformin hydrochloride, phenformin hydrochloride and ---. The pyrolytic formation of substituted 2,4,6-triamino-1,3,5-triazines from biguanides (71) 265
Phenylbutazone
Analysis of --- in plasma by high-speed LC (89) 23
Phenylbutazone
Assay of --- in human plasma by a specific and sensitive GLC procedure (89) 17
Phenylbutazone
GC assay of --- in biological fluids (54) 280
Phenylbutazone
Purity of --- raw material and solid dosage forms as monitored by GLC (76) 141
Phenylcyclopentane
Application of stationary phases in preparative-scale GC (77) 41
Phenyldodecanes
Petrochemical analytical problems. II. GLC–MS investigation of industrial dodecylbenzenes (78) 309
1,4-Phenylenediamine
Thin-layer and high-speed LC of the derivatives of --- (93) 447
p-Phenylenediamine derivatives
Behaviour of *p*-phenylenediamine protecting agents in TLC (88) 391
Phenylephrine hydrochloride
Application of quantitative TLC in drug assay and stability testing. Determination

of codeine phosphate, noscapine, diphenhydramine hydrochloride, ---, caffeine, etofyllin, phenobarbital and thiamine hydrochloride by *in situ* reflectance spectroscopy (82) 143
β-Phenylethylamine
Separation, detection and quantitative analysis of urinary --- (57) 287
Phenylethylamine
Studies of the isopropylation of amino acids and amines by GC–MS (78) 343
Phenylfuran derivatives
GLC of 2-substituted 3-(5-phenyl-2-furyl)-acrylonitriles (64) 358
3-(5-Phenyl-2-furyl) acrylonitriles
GLC of 2-substituted --- (64) 358
Phenyl glycol
Quantitative determination of 4-hydroxy-3-methoxy--- and its conjugates in cerebrospinal fluid by mass fragmentography (87) 147
Phenylindandione
Separation of some therapeutically important coumarins and related compounds by TLC (57) 319
1-Phenylisopropylamines
Stereochemical separation and configurational assignment by GLC of N-trifluoroacetyl-L-prolyl amides of asymmetric --- (69) 285
Phenylketonuria
Mass fragmentography of dopamine and 6-hydroxydopamine. Application to the determination of dopamine in human brain biopsies from the caudate nucleus (99) 529
Phenylketonuria
Rapid chromatographic determination of phenylalanine and tyrosine for --- screening (67) 49
2-Phenylquinolines
Chromatographic separation of --- analogues (90) 396
Phenylthiohydantoins
Acetylation of --- of amino acids (86) 117
Phenylthiohydantoins
Identification of --- of amino acids by TLC (79) 344
Phenylthiohydantoins
Subnanomole detection of --- of amino acids after TLC (97) 289
Phenylthiohydantoin amino acids
Analysis of acetylated and trifluoroacetylated --- by GC (63) 386
Phenylthiohydantoin amino acids
Chromatographic methods in the analysis of protein structure. Methods for identification of N-terminal amino acids in peptides and proteins. Part B (70) 221 (review)
Phenylthiohydantoin amino acids
Miniature TLC of ---. Application of automatic Edman degradation (80) 140
Phenylureas
GC of substituted --- by flash-heater methylation with trimethylanilinium hydroxide (87) 85
Phenylureas
Metabolism of ---. I. TLC separation and identification of aliphatic hydroxylamines in the presence of aliphatic amines (84) 117
Phenylurea herbicides
TLC screening test for the detection of inhibiting properties of --- on certain enzymes (87) 199
Pheophorbides
Evaluation of reversed phase partition for TLC identification of chlorophylls and derivatives (70) 87
Pheophorbides
Reversed-phase TLC of chlorophyll derivatives (76) 175
Pheophorbides
Separation of chloroplast pigments on Sephadex LH-20 (59) 440
Pheophorbides
TLC identification of zinc and copper complexes of pheophytins and --- in mixtures with chlorophylls and derivatives (70) 206
Pheophytins
Evaluation of reversed phase partition for TLC identification of chlorophylls and derivatives (70) 87
Pheophytins
Reversed-phase TLC of chlorophyll derivatives (76) 175
Pheophytin
Separation of chloroplast pigments on Sephadex LH-20 (59) 440
Pheophytins
Thin-layer assay of chlorophylls and analogous dry-column separation with effluent fluorometry (88) 419

Pheophytins
TLC identification of zinc and copper complexes of --- and pheophorbides in mixtures with chlorophylls and derivatives (70) 206
Pheromones
TLC analysis of radioactively labelled insect ---. Metabolites of [^{3}H]bombykol (92) 401
Phloroglucinol
Specificity of acidic --- reagents (94) 321
Phorbol
Rapid separation of tumor-promoting agents, --- and phorbol myristate acetate (12-O-tetradecanoylphorbol-13-acetate) by high-pressure LC (96) 151
Phorbol myristate acetate
Rapid separation of tumor-promoting agents, phorbol and --- (12-O-tetradecanoylphorbol-13-acetate) by high-pressure LC (96) 151
Phosphates
Analysis of base composition of RNA and DNA hydrolysates by GLC (62) 347
Phosphates
Anion-exchange TLC of condensed --- (56) 373
Phosphates
Chromatographic behaviour and structural units of condensed ---. II. Influences of developing solvents (54) 413
Phosphates
Chromatographic separation of cyclic --- by means of an anion-exchange dextran gel (56) 111
Phosphates
Determination of parameters in dextran gel filtration (74) 59
Phosphates
Gel chromatographic behaviour of linear --- (52) 481
Phosphates
Gel chromatography of exo-trimethyl-enenorbornyl-2-exo--- on Sephadex LH-20 (60) 430
Phosphates
Ion-exchange chromatography of dinucleoside-3′→5′-phosphates on chitosan-impregnated cellulose thin layers (56) 378
Phosphate
Separation of carbamyl phosphate and --- by PC (70) 210
Phosphate
Simple method for determination of --- from TLC plates (62) 485
Phosphate esters
Purification of --- on DEAE-cellulose (62) 391
Phosphate ions
Mechanism of isotopic exchange in a heterogeneous system (69) 261
Phosphates, organic
Versatile and sensitive method for the detection of organic acids and organic phosphates on paper chromatograms (94) 294
Phosphatidylcholines
High-pressure chromatographic separation of glycerophosphorylcholine, phosphoryl-choline, glycerophosphate and ortho-phosphate (88) 183
Phosphatidyl choline
Simultaneous fluorometric analysis of five lipid classes on TLC (60) 111
Phosphatidylethanolamine
Chromatographic resolution of molecular species of --- as N-acyl-O-methyl derivatives (80) 233
Phosphatidylinositol
Silica gel CC of acidic phospholipids. Effects of metal ions of adsorbent and phospholipid on the elution profiles (89) 259
Phosphatidylinositol
Silica gel TLC of acidic phospholipids. I. Effect of metal ions of the adsorbent and phospholipid on the chromatographic mobility of cardiolipin and --- (89) 275
3′-Phosphoadenylyl sulphate
A rapid chromatographic method for the separation of nucleotide sulphates (69) 426
Phosphofructokinase
Affinity chromatography of --- using Cibacron blue F3G-A (69) 209
Phospholipids
Analysis of --- by TLC and X-ray emission spectrometry (66) 303
Phospholipids
Chromatographic resolution of molecular species of phosphatidylethanolamine as N-acyl-O-methyl derivatives (80) 233

Phospholipids
Detection of fatty acids, fatty aldehydes, ---, glycolipids and cholesterol on thin-layer chromatograms stained with malachite green (88) 425
Phospholipids
Direct fluorometric microdetermination of --- on thin-layer chromatograms (68) 285
Phospholipids
Do lyso--- really exist in *Tetrahymena pyriformis*? (87) 193
Phospholipids
Influence of Silica Gel G on the quantitative analysis of lipid phosphorus (78) 89
Phospholipids
New method for the *in situ* determination of --- after thin-layer separation. The --- content of Ca-ATPase and Na-,K-ATPase from human erythrocyte in comparison with the --- content of human erythrocytes (82) 15
Phospholipids
Novel method for the separation and identification of bile acids and --- of bile on thin-layer chromatograms (89) 87
Phospholipid
--- analysis on a micro scale (53) 595
Phospholipid
--- spray reagents (65) 451
Phospholipids
Preparation of lipophilic anion exchangers from chlorohydroxypropylated Sephadex and cellulose (59) 45
Phospholipids
Quantitative liquid scintillation radioassay of --- from thin-layer chromatograms (67) 75
Phospholipids
Recovery of lipids from TLC for radioassay (52) 498
Phospholipids
Separation of diphosphoinositide and triphosphoinositide on oxalate-impregnated silica gel columns (87) 267
Phospholipids
Silica gel CC of acidic ---. Effects of metal ions of adsorbent and --- on the elution profiles (89) 259
Phospholipids
Silica gel TLC of acidic ---. I. Effect of metal ions of the adsorbent and --- on the chromatographic mobility of cardiolipin and phosphatidylinositol (89) 275
Phospholipids
TLC behavior of glycerolipid analogs containing ether, ester, hydroxyl, and ketone groupings (82) 7
Phospholipids
TLC of bacterial lipids on sodium acetate-impregnated silica gel (63) 452
Phosphonic acids
Chromatographic and electrophoretic behaviour of amino--- on layers of cation exchangers (52) 421
Phosphonic acids
Chromatographic behaviour of amino--- on layers of anion and cation exchangers (95) 113
Phosphonic acids
Chromatographic separation of N-substituted amino--- (87) 179
Phosphonic acid esters
GC of (1-hydroxy-2,2,2-trichloroethyl)--- (82) 285
Phosphonic amino acids
PC of metal complexes of some --- (77) 239
Phosphonitrilic dichloride polymers
Quantitative GC analysis of --- $[PNCl_2]_n$, for $n = 3–8$ (57) 131
Phosphonolipids
Preparative isolation of --- by ascending dry-CC (75) 227
Phosphonomycin
Characterisation of --- by microchromatographic and related techniques (52) 111
Phosphoproteins
Chromatographic separation of β-methyldiaminopropionic acid in hydrolysates of modified --- in an amino acid analyzer (70) 162
Phosphoramides
TLC behaviour of --- and thiophosphoramides (76) 496
Phosphoric acid
New reagent for detecting tryptophan, indole, and indole-3-acetic acid in TLC (67) 371
Phosphoric acid
--- as a subtracting agent for nitrogen bases in reaction GC (67) 366

Phosphoric acids
Qualitative and quantitative determinations of mono- and dialkyl--- and their salts by GC (78) 281
Phosphoric acid
TLC of diesters and some monoesters of --- (54) 77
Phosphoric acid
Trace determination of dibutyl --- by GC (87) 57
Phosphoric esters
Application of TLC and GLC to qualitative and quantitative analysis of --- and phosphorous esters (75) 261
Phosphoric monoacids
TLC of ---. Relationships between the chromatographic behaviour of acids, their molecular structure and the composition of the solvent system (88) 109
Phosphorothioic acid
TLC of diesters and some monoesters of phosphoric acid (54) 77
Phosphorous esters
Application of TLC and GLC to qualitative and quantitative analysis of phosphoric and --- (75) 261
Phosphorus
GC determination of --- in nucleic acids and nucleotides as tris(trimethylsilyl) phosphate (91) 459
Phosphorus
Gel chromatographic behaviour of the oxo acids of --- (52) 469
Phosphorus
Gel chromatography of soil organic --- (60) 75
Phosphorus
Influence of Silica Gel G on the quantitative analysis of lipid --- (78) 89
Phosphorus acids
TLC separation of ---, pyroacids, amidic acids and diamides (92) 207
Phosphorus compounds
Derivatives for the characterization of alkyl- and aminoalkylphosphonates by GC and GC–MS (79) 65
Phosphorus compounds
Ion-exchange chromatography of sulphur compounds, phenols, --- and esters of carboxylic acids (86) 423 (review)
Phosphorus-containing compounds
GC of derivatives of heterocyclic ---
Detection of small amounts of alcohols with the thermionic detector (82) 279
Phosphorylase
Determination of the activity of purine nucleoside --- from rat brain using separation on cation exchangers (56) 365
Phosphorylcholine
High-pressure chromatographic separation of glycerophosphorylcholine, ---, glycerophosphate and orthophosphate (88) 183
Phosphorylethanolamine
Separation of ciliatine and --- (59) 185
Photodensitometric evaluation
Recent advances in the --- of thin-media chromatograms (63) 87
Photographic quantitation
--- of flat-bed chromatograms using various exposure times (78) 161
Photometer
Miniaturised UV flow --- for use in LC systems (51) 175
Photometric detector
Response of a filter-less flame --- to hetero-organics (87) 232
Photometric evaluation of thin layers
--- by visual and IR light diode emitters (87) 67
Photometric methods
Computer applications in quantitative thin-media chromatography (63) 145
Photometry
On the standardization of direct spectrophotometric evaluation of chromatograms. II. A new function for --- (69) 399
o-Phthalaldehyde
Separation of histidyl-peptides by TLC and microspectrofluorometric characterization of their ---induced fluorescence (67) 81
Phthalate
Determination of di(ethylhexyl) --- in human plasma and plasma proteins by electron capture GC (100) 153
Phthalate diesters
Identification of the metabolites of simple --- in rat urine (94) 209
Phthalate esters
Chromatographic and biological aspects of the --- (70) 365 (review)
Phthalate esters
Metabolism of diethylhexyl phthalate by

rats. Isolation and characterization of the urinary metabolites (76) 321
Phthalic acids
The plasma chromatograph as a qualitative detector for GC (99) 257
Phthalic acid isomers
Evaluation of new phases for the GC of dibasic acids (82) 377
Phthalic esters
Application of TLC and GLC to qualitative and quantitative analysis of --- (72) 35
Physico-chemical index
Temperature coefficient of the --- (74) 165
Physicochemical indices
Corrected --- of mono- and dialkyl aromatic hydrocarbons on squalane (91) 691
Physiologic fluids
Use of sequential columns of microreticular and pellicular ion-exchange resins in the high-resolution separation of complex biochemical mixtures (83) 383
Physiological fluids
Improved CC determination of N^{ϵ}-methylated lysine in --- (76) 252
Physiological fluids
Rapid chromatographic technique for the determination of ε-aminocaproic acid in --- (86) 173
Physostigmine
The determination of --- by TLC and UV spectrophotometry (87) 125
Phytol
Analysis of straight-chain terpene alcohols by GC (88) 15
Phytosterols
Evaluation of several solvent systems in the TLC separation of cardiotonic aglycones and glycosides from cholesterol, --- and their esters (73) 279
Picloram
Determination of --- in fescue by GLC (53) 367
Piezoelectric crystal detector
Analytical performance of the --- (89) 31
Pigments
Chromatography of leaf --- on silica gel and aluminium hydroxide loaded papers (61) 202
Pigments
Polyvinylpyrrolidone CC of strawberry, rhubarb, and raspberry anthocyanins (55) 405
Pigments
Separation of chloroplast --- on Sephadex LH-20 (59) 440
Pigments
Separation of theaflavins on Sephadex LH-20 (54) 133
Pinacryptol yellow
Fluorescent colouration of organic anions with --- on cellulose layers (67) 113
Pipecolic acid
GLC of the N(O)-heptafluorobutyrates of the isoamyl esters of amino acids. I. Separation and quantitative determination of the constituent amino acids of proteins (76) 91
2,6-Pipecoloxylidide
Quantitative micro-determination of --- by GLC (90) 191
Piperazine
Separation of polythiadioxo --- antibiotics by TLC (53) 592
Piperonyl butoxide
Purification and characterization of pesticidal synergists. I. (65) 521
Piribedil
Determination of --- in biological materials by GLC–mass fragmentography (93) 441
Planavin®
Separation of --- herbicide and some related compounds by two-dimensional TLC (53) 397
Plane chromatography
On the densitometric estimation of R_F values in --- (75) 124
Planimetric determinations
A study of the utility of --- in the quantification of non-aminated organic acids separated by TLC (68) 275
Plant amines
TLC of the 2,4-dinitrophenyl derivatives of simple steam volatile amines and its application to the separation of --- (71) 119
Plant constituents
Chromatography of --- on cross-linked dextrans in phenol–acetic acid–water mixtures (54) 433
Plant extracts
Purification of --- for ion-exchange

chromatography of free amino acids (87) 169
Plant extracts
Quantitative determination of organic acids in ---. Improvement in the analysis by partition chromatography on a silica gel column (87) 425
Plant hormones
Partition chromatography of gibberellins and related diterpenes on columns of Sephadex LH-20 (87) 271
Plant hormones
Simultaneous methylation and elution of organic acids from thin-layer chromatograms (92) 177
Plant phenolic compounds
Chromatographic behaviour of phenolic compounds in plants on polyamide (87) 280
Plant phenols
Phytochemistry of the *Salicaceae*. I. A GLC procedure for the identification of --- (71) 427
Plant polyphenols
Use of ethylenediaminetetraacetic acid in the chromatography of --- (81) 194
Plant sterols
Evaluation of recent GLC liquid phases for resolution of acetylated --- (75) 187
Plant sugars
PC of --- (92) 454
Plasma
Chromatography of normal human serum and --- on hydroxyapatite; characterisation of their constituents (60) 424
Plasma
Effect of column length and column packing mesh size on the analysis of volatile fatty acids by GC using Chromosorb 101 (74) 13
Plasma
GC method for the determination of amantadine in human --- (74) 31
Plasma
GC method for the quantitative determination of nortriptyline and some of its metabolites in human --- and urine (68) 77
Plasma
Improved quantitative GC method for the analysis of small amounts of chlorinated hydrocarbon pesticides in human --- (74) 21
Plasma
New uses for molecular-size exclusion chromatography (83) 125
Plasma amino acids
Evaluation of the GC analysis of --- (55) 281
Plasma chromatograph
Analytical fluidic sampling systems (99) 267
Plasma chromatograph
--- as a qualitative detector for GC (99) 257
Plasma chromatography
Computer resolution of --- peaks (93) 123
Plasma chromatography
Detection of 2,4,6-trinitrotoluene vapours in air by --- (93) 141
Plasma chromatography
Ionic species of organic compounds observed in mobility spectra by --- (93) 129
Plasma chromatography
--- of the *n*-alkyl halides (87) 137
Plasma deproteination
Improved method of --- with sulphosalicylic acid for determining amino acids and related compounds (74) 255
Plasma, human
Analysis of trace volatile metabolites in serum and --- (91) 379
Plasma levels in humans
Method for the determination of imipramine in human plasma by GLC–mass fragmentography (74) 201
Plasma proteins
Group fractionation of --- on dipolar ion exchangers (51) 479
Plasma urea
Rapid determination of --- by GC (94) 302
Plasticisers
Application of TLC and GLC to qualitative and quantitative analysis of phthalic esters (72) 35
Plasticisers
Determination of di(ethylhexyl) phthalate in human plasma and plasma proteins by electron capture GC (100) 153
Plasticisers
GLC determination of nitrate esters, stabilizers and --- in notrocellulose-base propellants (71) 23

Plasticiser
GPC analysis of --- blends (55) 7
Plasticisers
Identification of epoxy --- using TLC (75) 271
Plasticisers
Identification of the metabolites of simple phthalate diesters in rat urine (94) 209
Plasticisers
TLC of epoxy --- (55) 422
Plastid pigments
Preparative separation of --- on polyamide columns (68) 264
Plate number
Influence of static and dynamic effects on the reproducibility of retention data in GLC (80) 25
Plates, theoretical
Determination of the density of --- and the mass effect in countercurrent electrophoresis (91) 853
Platinum(II)
Qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Platinum(II)
Radiochromatographic and high-frequency titration studies on ethylthiourea complexes of palladium(II) and --- (92) 419
Platinum(II)
Radiochromatographic, conductometric and high-frequency titration studies on the thiourea complexes of palladium(II) and --- (70) 117
^{147}Pm electron capture detector
A comparative study of the --- and ^{63}Ni electron capture detectors under identical geometrical conditions (76) 21
Pneumatic solvent pump
An inexpensive --- for high-pressure LC (72) 388
Polar adsorbates
New method for the determination of simultaneous adsorption isotherms in gas–solid systems by means of GC (71) 173
Polar compounds
Gel chromatography: interactions between gel matrix, solvent and solute (80) 187
Polar compounds
Methacrylate resins for the GC separation of strongly --- (91) 133
Polar compounds
Separation of isotopically substituted --- derived from hydrocarbons (77) 21
Polar compounds
Volatile fatty acids as solvents for the trimethylsilylation of --- (85) 1
Polar liquid phases
Additivity of retention data for ethylenic functions in aliphatic fatty acids. II. --- (86) 83
Polar multi-component solvent system
Application of R_F correction in TLC by means of two reference R_F values. II. Results obtained with a --- (71) 283
Polar organic compounds
Quantitative GC determination of --- after thin-layer separation followed by trimethylsilylation (85) 9
Polar substances
Preparative separation of --- of polycyclic aromatic hydrocarbons by gel partition chromatography. Fractionation of cigarette smoke condensate (67) 175
Polarity
Contribution to the theory of the retention index system. V. Characterization of --- of stationary phases. McReynolds system (73) 11
Polarity of liquid phases
Rohrschneider constants: a correction in the method of calculation (82) 366
Polarography
Small-volume solid-electrode flow-through electrochemical cells. Preliminary evaluation using pulse polarographic techniques (83) 331
Pollutants
Highly sensitive technique for the LC analysis of phenols and other environmental --- (99) 731
Polluted drinking water
Analysis of organic constituents present in drinking water (76) 45
Pollution
Use of Bentone 34-coated supports in CC and their potential application in the field of organic --- analysis (99) 721
Pollution of surface water
Separation of fifty pesticides and related compounds and polychlorobiphenyls into four groups by silica gel microcolumn chromatography (62) 63

Poly A-103
Use of the liquid phase --- in toxicology (86) 225
Polyacrylamide gels
Fluorescence properties of --- (79) 267
Polyacrylamide gels
Number of carboxyl groups in highly cross-linked gels and its influence on cation selectivity (71) 55
Polyacrylamide gels
Observations on molecular weight estimations in --- (87) 109
Polyacrylamide gels
Quantitative electrophoresis in --- of 2–40% (64) 147
Polyacrylamide gels
Studies on the polymerization of --- used for electrophoresis. I. Effect of several factors on the kinetics of the polymerization reaction (100) 11
Polyacrylamide gels
Studies on the polymerization of --- used for electrophoresis. II. Effect of several factors on the degree of polymerization and the sensitivity of gels to osmotic pressure (100) 19
Polyacrylamide gel electrophoresis
Microgel electrophoretic study of the stability of thyroid iodoproteins (74) 107
Polyacrylamide gel electrophoresis
Preparative --- (72) 165
Polyacrylic mixtures
Quantitative pyrolysis GC of some terepolymers and three-component --- (80) 75
Poly(acryloylmorpholines)
Characterisation of cross-linked --- as matrices for aqueous GPC (90) 249
Polyalkylimines
An evaluation of --- as specific carbonyl abstractors in GC (99) 319
Polyamides
GC analysis of some polycondensation polymers (94) 135
Polyamide
Investigations on the mechanism and selectivity of chromatography on thin layers of ---. I. Systems of the type cyclohexane + polar solvent–polyamide (81) 99
Polyamide
Investigations on the mechanism and selectivity of chromatography on thin layers of ---. II. Comparison of --- and cellulose impregnated with formamide using moderately polar developing solvents (94) 219
Polyamide
Investigations on the mechanism and selectivity of chromatography on thin layers of ---. III. Mobile phases consisting of a combination of polar solvents (94) 229
Polyamide
Standardized procedure for the preparation of --- for TLC (78) 432
Polyamide
Use of --- for TLC separation of steroids (70) 199
Polyamide columns
Separation of polycyclic aromatic hydrocarbons by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of coronene (83) 11
Polyamide thin layers
Chromatography of metal ions on --- (68) 237
Polyamines
Determination of --- in human urine by an automated ion-exchange method (89) 231
Polyamines
GC of higher --- on Tenax-GC columns (97) 77
Polyamines
GC of some --- on three porous polymer columns (88) 33
Polyamines
Ion-exchange chromatographic separation and fluorometric detection of urinary --- (90) 129
Polyamines
Micromethod for the quantitative estimation of putrescine in tissues (62) 121
Polyamines, aliphatic
Separation of fluorescamine derivatives of aliphatic diamines and --- by high-speed LC (96) 250
Polyaminoacetic acids
TLC separation of some --- (62) 476
Poly(α,4-benzyl)
Aromatic hydrocarbon stationary phases for GLC (86) 17

Polybutadienes
Characterisation of low-molecular-weight difunctional --- (55) 121
Polybutadiene
Use of GPC in the determination of the composition of two-polymer mixtures (64) 49
Polycarboxylic acids
TLC and gel chromatography of some aliphatic --- (88) 281
Polychlorinated biphenyls
Chromatographic and biological aspects of --- (68) 345 (review)
Polychlorinated biphenyls
Contribution to the determination of environmental contaminants by carbon-skeleton chromatography (88) 65
Polychlorinated biphenyls
Differentiation and characterization of isomeric --- by GLC coupled with electron impact and chemical ionization MS (93) 63
Polychlorinated biphenyls
Elimination pattern of Aroclor 1254 components in the bobwhite (75) 219
Polychlorinated biphenyls
Extraction and recovery of chlorinated insecticides and --- from water using porous polyurethane foams (100) 83
Polychlorinated biphenyl
GC method of quantitating DDT in the presence of interfering --- (84) 67
Polychlorinated biphenyls
Improved quantitative GC method for the analysis of small amounts of chlorinated hydrocarbon pesticides in human plasma (74) 21
Polychlorinated biphenyls
Quantitative and qualitative analysis of --- by GLC and flame ionization detection. I. One to three chlorine atoms (69) 273
Polychlorinated biphenyls
Reversed-phase LC of some pesticides and related compounds. Solubility–retention relationships (94) 151
Polychlorinated biphenyls
Simple and inexpensive method for the visual detection of sub-microgram amounts of halogenated substances present in GC effluents (75) 298
Polychlorinated biphenyls
TLC for quantitative --- analysis (77) 377
Polychlorinated biphenyls
TLC in the detection of poisoning by pesticides (95) 181
Polychlorinated biphenyls
Use of Amberlite XAD-4 for extraction and recovery of chlorinated insecticides and --- from water (89) 185
Polychlorinated biphenyl components
GC data for --- in six Aroclors® (72) 275
Polychlorinated biphenyl compounds
Separation and identification of DDT analogues in the presence of --- by two-dimensional TLC (57) 397
Polychlorinated compounds
Contribution to the determination of environmental contaminants by carbon-skeleton chromatography (88) 65
Polychlorinated naphthalenes
Identification of chlorinated naphthalenes in Halowaxes 1031, 1000, 1001 and 1099 (84) 59
Polychlorobiphenyls
Estimation of --- (71) 443
Polychlorobiphenyls
Separation of fifty pesticides and related compounds and --- into four groups by silica gel microcolumn chromatography (62) 63
Polychlorobiphenyls
Simple differentiation of --- from chlorinated naphthalenes (71) 562
Polycyclic aromatic hydrocarbons
CC of ---. Separation on organic gels in protic solvents (80) 266
Polycyclic aromatic hydrocarbons
Preparative separation of polar substances of --- by GPC. Fractionation of cigarette smoke condensate (67) 175
Polycyclic aromatic hydrocarbons
Separation of --- by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of coronene (83) 11
Polycyclic hydrocarbons
Study of the atmospheric ---. II. Application of the coupling of GC and TLC to the determination of polynucleic arenes (72) 202
Polyene
Separation of --- antifungal antibiotics by high-speed LC (99) 619

Polyesters
GC analysis of some polycondensation polymers (94) 135
Polyethers
Determination of polyethylene glycol in certain non-ionic surface active agents (64) 71
Polyethers
Effect of solvent on the separation of oligomer --- on Sephadex LH-20 (91) 237
Polyethylene
GC measurement of the permeability of PTFE, PVC, --- and nylon tubing towards oxygen and nitrogen (77) 406
Polyethylene
Thermal degradation of --- in a nitrogen atmosphere of low oxygen content. I. Changes in molecular weight distribution (53) 95
Polyethylene glycol
Adsorption of organic molecules on esterified silica gel. I. Heat of adsorption as a key to a model of adsorption (80) 1
Polyethylene glycol
Adsorption of organic molecules on esterified silica gel. II. Demonstration of the adsorption hypothesis by means of the surface model (80) 15
Polyethylene glycol
Comparison between CC and TLC in the determination of the molecular-weight distribution of --- derivatives (54) 373
Polyethylene glycol
Determination of --- in certain non-ionic surface active agents (64) 71
Polyethylene glycols
Effect of --- on the mobility of (±)-catechin on cellulose (78) 401
Polyethylene glycols
Effect of --- on the mobility of the polyphenolic constituents of wattle extract on cellulose (84) 129
Polyethylene glycols
Evaluation of the properties of --- as stationary phases in GLC (90) 291
Polyethylene glycol
Fractionation of --- by TLC. Studies on the choice of derivatives and eluent systems (66) 167
Polyethylene glycols
Unexpected behavior of a common GC phase (77) 299
Polyethylene glycol dimethacrylate gel
Chromatographic applications of the --- Merckogel® PGM 2000 under normal and high pressure (57) 77
Polyethyleneimine
An evaluation of polyalkylimines as specific carbonyl abstractors in GC (99) 319
Polyethylene layers
Non-extractable polymer coatings (modified supports) for chromatography (87) 49
Polyethylene oxides
Preparation of monodisperse --- by gel permeation chromatography of discontinuous polymer-homologous series (53) 51
Poly(ethylene terephthalate)
Chemical heterogeneity and composition of a modified --- (55) 5
Polyfluorobenzenes
Separation of selected --- by GLC (69) 363
Polygalacturonase
Detection of ---- and pectin lyase isoenzymes in polyacrylamide gels (96) 245
Polyglutamate
Use of amino acids as stationary phases in GC. II. --- (93) 233
Polyglycols
GLC determination of free --- in polyoxyethylated commercial stearic acid via their acetate esters (60) 411
Polyhydric alcohols
High-pressure LC of --- on silica gel columns (100) 233
Poly(2-hydroxyethyl) methacrylate
Membrane chromatography of cells on sponge-like --- (67) 362
Poly(2-hydroxyethyl) methacrylate membranes
New observations concerning the membrane chromatography of cells (76) 274
Polyhydroxylic gels
Effects of sorption and molecular size of solutes upon elution from --- (64) 263
Polyimides
The GC analysis of some polycondensation polymers (94) 135
Polyisobutylene
Use of GPC in the determination of the composition of two-polymer mixtures (64) 49

Polyisoprene
Pyrolysis GC of cyclopolyisoprene (71) 9
Polylysine–Kieselguhr column chromatography
Fractionation of nucleic acids from mammalian cells in culture by --- (85) 162
Polymers
Analysis of volatiles in --- by GC (65) 271
Polymers
Application of porous glasses for gel chromatography of --- (53) 77
Polymers
Application of preparative GPC to polyurethane foam technology (55) 173
Polymers
Causes of skewed molecular weight distributions in gel permeation separation of nylon resin (55) 193
Polymers
Characterisation of low-molecular-weight difunctional polybutadienes (55) 121
Polymers
Characterisation of polydisperse branched --- by means of gel permeation chromatography (53) 85
Polymers
Chemical heterogeneity and composition of a modified poly(ethylene terephthalate) (55) 5
Polymers
Comments on the theoretical basis of GPC of --- (56) 13
Polymers
Determination of the composition and structure of --- by pyrolysis GC (77) 61
Polymers
Determination of the instrumental spreading function in GPC (72) 1
Polymers
GC measurement of the permeability of PTFE, PVC, polyethylene and nylon tubing towards oxygen and nitrogen (77) 406
Polymers
GC of phenolic antioxidants (77) 11
Polymers
GPC analysis of poly(2-vinylpyridine) samples (74) 225
Polymer
GPC and --- additive systems (55) 15
Polymers
GPC calibration for --- making use of the universal calibration curve (55) 203
Polymers
GPC. Diffusional phenomena in dilute --- solutions flowing in capillaries (55) 145
Polymers
GPC in coiled columns (83) 223
Polymers
GPC investigation of irradiated copolymers (55) 45
Polymers
Identification of some --- by the combined GC and TLC analysis of phenols formed by their pyrolysis (79) 91
Polymers
Influence of the structure of macroporous glasses on the separation of --- by GPC (77) 149
Polymers
Molecular weight analysis of block copolymer by GPC (55) 67
Polymers
PC behaviour of homologous linear ---. The isomaltodextrin, maltodextrin, and cellodextrin series and their 1-(*m*-substituted phenyl)-flavazoles (70) 99
Polymer
--- molecular weight distribution analysis at very high speed using on-line data handling (99) 425
Polymers
Practical GPC column calibration for --- (55) 55
Polymers
Precision improvements in GPC determination of molecular weight averages and polydispersity of polymers (55) 185
Polymers
Quantitative GC analysis of phosphonitrilic dichloride polymers $[PNCl_2]_n$, for $n = 3-8$ (57) 131
Polymers
Quantitative pyrolysis GC of some tere--- and three-component polyacrylic mixtures (80) 75
Polymers
Recycle GPC analysis of oligomers and polymer additives (83) 279
Polymers
Some applications of a viscosimetric detector in GPC (83) 363

Polymers
Syntheses and properties of gel chromatography materials (53) 37
Polymers
TLC of ---. Introductory lecture (53) 3
Polymers
Use of GPC in the determination of the composition of two-polymer mixtures (64) 49
Polymer additives
Recycle GPC analysis of oligomers and --- (83) 279
Polymer bead columns
Variation of performance of porous --- in GC (51) 129
Polymer coatings
Non-extractable --- (modified supports) for chromatography (87) 49
Polymer compositions
Comparison of various pyrolyzers in the study of --- (69) 65
Polymer fractionation
Evaluation of the efficiency of --- by the column elution method (79) 121
Polymer layers
GC on modified supports (99) 45
Polymer size
Examination of --- parameters for universal calibration in GPC (55) 65
Polymer sorbents
Nitrogen- and phosphorus-containing porous --- (77) 51
Polymer systems
Use of combined chromatographic methods including TLC for the analysis of complex --- (77) 209
Polymer two-phase systems
A study of extraction columns for aqueous --- (73) 125
Polymeric materials
Laser pyrolysis–GC–MS analysis of --- (99) 301
Polymyxin B
Identification of --- sulphate (52) 154
Polynuclear arenes
Recent advances in the GC and LC of fluorescent compounds. I. A direct gas-phase isolation and injection system for the analysis of --- in air particulates by GLC (99) 697
Polynuclear aromatics
GC on modified supports (99) 45
Polynuclear hydrocarbons
Use of Bentone 34-coated supports in CC and their potential application in the field of organic pollution analysis (99) 721
Polynuclear hydrocarbons
Use of pressure-assisted LC in the separation of --- (78) 203
Polynucleic arenes
Study of the atmospheric polycyclic hydrocarbons. II. Application of the coupling of GC and TLC to the determination of --- (72) 202
Polyols
Ion-exchange chromatography of aldehydes, ketones, ethers, alcohols, --- and saccharides (98) 55 (review)
Polyolefinic compounds
Magnesium hydroxide as a TLC adsorbent. III. Application to separations of vitamin A and related carotenoids (69) 215
Polyolefinic esters
The analysis of oils and fats by GC. Part IX. Separation factors of non-methylene-interrupted --- (61) 346
Polypeptides
Anomalies in the electrophoretic molecular-weight determination of collagen denaturation products (84) 147
Polypeptides
Logarithmic sample slot former for sodium dodecyl sulfate electrophoresis (64) 190
Polypeptides
Partition chromatography of glucagon and secretin on Sephadex (63) 423
Polypeptide collagen models
Convenient gel chromatography method for determining the molecular weight distributions and averages of synthetic --- (67) 157
Polyphenols
Chromatography of tea --- on Sephadex columns as a method of estimation of molecular size (87) 250
Polyphenols
Separation of condensed tannins on Sephadex G-25 eluted with 50% aqueous acetone (71) 570
Polyphenolic constituents
Effect of polyethylene glycols on the mobility of the --- of wattle extract on cellulose (84) 129

Polyphenyl ether sulfones
---. Thermally stable polar phases for GC (99) 51
Polypropylene
Antioxidants and stabilizers. XXXIII. Analysis of stabilizers of isotactic ---: application of GPC (65) 279
Polypropylene
Characterisation of --- by pyrolysis GC (51) 59
Polypropylene glycol sebacate
GC of C_1 to C_5 fatty acids in rumen fluid and fermentation media (80) 250
Polypropyleneimine
Evaluation of polyalkylimines as specific carbonyl abstractors in GC (99) 319
Polysaccharides
Analysis of the --- of some soil bacteria of GC (91) 469
Polysaccharides
Cellulose acetate electrophoresis of heparin (64) 193
Polysaccharides
Chromatography of acidic glycosaminoglycans on DEAE-cellulose (71) 83
Polysaccharides
Comments on GLC and MS of methylated alditol acetates (72) 13
Polysaccharides
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. II. Combined CC separation method (62) 409
Polysaccharides
GC determination of neutral sugars from glycoproteins and acid muco--- as aldonitrile acetates (86) 205
Polysaccharides
High-pressure LC of carbohydrates (97) 25
Polysaccharides
Polyacrylamide gel electrophoresis and gel filtration of dyed --- (52) 165
Polysaccharides
Preparation of mannodextrins and their separation by gel chromatography (66) 370
Polysaccharides
Quantitative separation of starch components on a cellulose column (84) 75
Polysaccharides
Separation of aldononitrile acetates of neutral sugars by GLC and its application to --- (77) 222
Polysaccharides
Separation of --- and nucleic acids by chromatography on hydroxyapatite (59) 71
Polysaccharides
Separation of some methyl-O-methyl-D-xylofuranosides by GC (58) 209
Polysiloxane
Effect of temperature on the retention behaviour and polarity of several --- stationary phases (84) 231
Polysiloxane
--- stationary phases (73) 419 (review)
Polysiloxane layers
Non-extractable polymer coatings (modified supports) for chromatography (87) 49
Polystyrene
Aromatic hydrocarbon stationary phases for GLC (86) 17
Polystyrene
Comparative study of Borasil and Styragel as column supports for GPC (55) 99
Polysulphanedisulphonates
High-voltage ionophoretic separation of --- on thin-layer foils in a temperature-controlled chamber (84) 137
Polythiadioxopiperazine
Separation of --- antibiotics by TLC (53) 592
Polythionates
Electrophoresis and TLC of organic base --- (53) 337
Polyunsaturated fatty acid esters
Separation of --- by argentation CC on silicic acid (69) 207
Polyurethane
Application of preparative GPC to --- foam technology (55) 173
Polyurethane columns
Highly permeable open-pore --- for LC (99) 123
Polyurethane foams
Extraction and recovery of chlorinated insecticides and polychlorinated biphenyls from water using porous --- (100) 83
Polyvalent ions
Ion-exchange TLC of --- on sodium carboxymethylcellulose and Dowex 50 X4(Na^+) (70) 212

Polyvinyl acetate
--- as a stationary phase in TLC (52) 429
Polyvinyl alcohol
Template chromatography: Application of the principles of molecular biology for the selective separation of nucleotides and peptides. A progress report (99) 31
Polyvinylchloride
Comparative study of Porasil and Styragel as column supports for GPC (55) 99
Poly(vinyl chloride)
Identification of epoxy plasticizers using TLC (75) 271
Poly-(2-vinylpyridine) samples
GPC analysis of --- (74) 225
Polyvinylpyrrolidone
Chromatography of five cytokinins on an insoluble --- column (75) 122
Polyvinylpyrrolidone
Separation and determination of the synthetic epimeric corticosteroids, dexamethasone and betamethasone, in mixtures by TLC on insoluble --- (78) 165
Poly-N-vinylpyrrolidone
Use of --- as the adsorbent for the chromatographic separation of chlorogenic acids and other phenolic compounds (94) 261
Ponceau 6R
Separation and identification of food dyes. V. Examination of --- dyes: extraction of dyes from confectionery products (cakes, cake mixtures and pastries) (84) 195
Populus deltoides Marsh
Phytochemistry of the *Salicaceae*. V. The use of a GLC screening test to detect phytochemical variations in --- (84) 309
Populus species
Phytochemistry of the *Salicaceae*. VI. The use of a GLC screening test for the chemotaxonomy of --- (84) 315
Porapak
Effect of the carrier gas velocity on the retention volume in GC on --- sorbents (91) 59
Porapak
Mass transfer coefficients in GC on porous polymers of the --- type (91) 51
Porapak
Reproducibility of retention data on porous polystyrene polymers (---) (59) 423
Porapak P
Chromatographic behaviour of isomeric hydrocarbons on --- (65) 261
Porapak P
Non-equilibrium effects in the branched-chain peak broadening phenomenon in GC on --- (84) 7
Porapak Q and T
Physico-chemical fundamentals of GC retention on porous polymer columns, --- (51) 37
Porapak R
Interaction of --- with water and methanol (65) 255
Porapak S
Adsorption studies on --- at various temperatures by GC and static methods (59) 1
Porasil
Comparative study of --- and Styragel as column supports for GPC (55) 99
μPorasil®
Considerations of small particles in different modes of LC (99) 407
Porasil
Mechanism of GPC: Distribution coefficient (83) 111
Porasils
Study of sorption properties and structure of --- over a wide temperature range (91) 321
Porasil
Study of the sorption properties of the "spherosils" (65) 249
Pore distribution
Achievement of reproducible separations by the application of standardized sorbents in selected systems (78) 77
Pore structure
Preparation of porous silica spheres for column LC (83) 5
Porochrom I
Evaluation of --- as a support in the GLC of pesticides (91) 347
Porous glasses
Influence of the structure of macro--- on the separation of polymers by GPC (77) 149
Porous layers
Mass transfer terms in --- and particles (68) 1

Porous media
Observations on molecular weight discrimination by filtration through --- (69) 325
Porous particles
Mass transfer terms in porous layers and particles (68) 1
Porous polymer bead GC columns
Water adsorption by --- (68) 31
Porphyrias
---. Separation and identification by high-voltage electrophoresis (63) 185
Porphyrins
GC analysis of pyrrolic acid esters from the potassium permanganate oxidation of bile pigments (59) 29
Porphyrins
Porphyrias. Separation and identification by high-voltage electrophoresis (63) 185
Porphyrins
Quantitative TLC of --- by *in situ* fluorescence measurements (63) 113
Porphyrins
Separation of free dicarboxylic acid --- using TLC and PC (53) 279
Porphyrin biosynthesis
Porphyrias. Separation and identification by high-voltage electrophoresis (63) 185
Porphyrin methyl esters
Separation of --- by two-dimensional TLC (59) 234
Post mortem tissues
Determination of ethanol in fresh and putrefied --- (87) 455
Potable water
Organic substances in --- and in its precursor. Part I. Methods for their determination by GLC (84) 255
Potassium penicillin G
Analysis of --- and its degradation products by TLC (76) 512
Potassium penicillin G
Quantitative determination of --- by thin-layer spectrodensitometry (85) 177
Potassium trifluoroacetate
Separation of N-α-trifluoroacetyl-DL-lysine from --- by LC (68) 262
Potato leaves
Chromatographic purification of cytoplasmic ribosomes from --- (87) 277
Potato virus X
Purification of ---, white clover mosaic virus, tobacco mosaic virus and ribosomes by CC (75) 235
Prealbumin
Use of simple concentration gradients for the fractionation of human serum proteins on DEAE-cellulose, with especial reference to the isolation of albumin, ---, haemopexin and transferrin (84) 87
Precalciferol
High-efficiency LC separation of vitamin D from --- (74) 43
Precision
A study of --- in modern LC using a dedicated computer (83) 289
Precision in GC
Study of the effects of instrument variables on accuracy and ---. I. Contribution of the method of peak measurement (92) 257
Precision in GC
Study of the effects of instrument variables on accuracy and ---. II. Errors associated with the injection of liquid samples by microlitre syringes (97) 115
Precoated plates
Variations in R_F sequence in TLC on --- (86) 211
Predioxins
Further studies on impurities in chlorophenols (89) 325
Prednisolone
A method for the estimation of some synthetic glucocorticosteroids in rat muscle (77) 161
Pregnanediols
Separation of urinary androstanediol and --- isomers by a combined GLC–TLC method (93) 149
Pre-loading
Layer --- in partition TLC of amino acids (82) 53
Preparative columns
--- in high-speed LC (83) 233
Preparative cylindrical thin-layer chromatography
---. II. (63) 442
Preparative gas chromatography
GC with linear solvent concentration gradient (89) 153
Preparative layer chromatography
Device for --- (64) 297
Preparative scale gas chromatography
A model for --- (65) 19

Preparative-scale GC
Improvement of the productivity of a --- unit by flow-rate programming and column switching (86) 25
Preservatives
GC determination of --- in food (63) 429
Preservatives
Modified TLC separation of --- (63) 433
Pressure
Programming of --- and temperature in high-pressure LC. I. Programming of inlet --- (91) 141
Pressure
Study of the pertinency of --- in LC. I. Theoretical analysis (99) 357
Primary aliphatic amines
Separation and identification of --- and secondary aliphatic amines as *p*-(N,N-dimethylamino)-benzene-*p'*-azobenzamides by PC and TLC (72) 145
Primary amines
Perfluorobenzene derivatives as derivatising agents for the GC of secondary and --- amines using electron capture detection (66) 255
Primidone
Determination of --- and its metabolites in biological fluids by GC (87) 559
Primidone
Quantitative analysis of phenobarbital with trimethylanilinium hydroxide (88) 157
Proban
An investigation of flavones as fluorigenic spray reagents for organic compounds on a cellulose matrix. Part III. Quantitation of the method (60) 213
Procaine
Assay of cocaine in the presence of --- and quinine by CC (52) 107
Procaine
Rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211
Profile of the mobile phase
--- in thin-film chromatography – the hammer effect (69) 135
Progesterone
Determination of --- in plasma by thin-layer densitometry (86) 151
Progesterone
Preparative columns in high-speed LC (83) 233
Progesterone
TLC of steroid derivatives for radioimmunoassay (69) 151
Progestogens
TLC identification of oestrogens and --- in oral contraceptives (51) 517
Programmable electronic calculator
Interfacing a --- with an automatic amino acid analyzer (86) 37
Programmed multiple development
---. Spot behavior during solvent advance; a mathematical treatment (99) 231
Programmed pressure
GC using linear ---. Method for calculation of the solute retention time. Influence of parameters (96) 15
Programmed-temperature GC
A simple relationship between retention parameters in isothermal and --- (88) 165
Prolines
Chromatographic procedures for the identification of isomeric methyl--- (85) 167
Proline
Improved quantification of imino acids poorly resolved by automated amino acid methods (61) 152
Proline
Ligand-exchange chromatography of racemates. Influence of temperature and concentration of eluent on ligand-exchange chromatography (93) 363
Proline
Molecular interactions in a unique solvent–solute system (71) 193
Prolylhydroxyproline
Unexpected occurrence of --- during the analysis of collagen-bound carbohydrates by GLC (64) 211
Promazine
Influence of alkalinity in TLC systems for the separation of impurities in chlorpromazine, --- and promethazine (97) 223
Promazine
Method for the determination of imipramine in human plasma by GLC–mass fragmentography (74) 201

Promethasone
Separation and determination of the synthetic epimeric corticosteroids, dexamethasone and betamethasone, in mixtures by TLC on insoluble polyvinylpyrrolidone (78) 165
Promethazine
Influence of alkalinity in TLC systems for the separation of impurities in chlorpromazine, promazine and --- (97) 223
Promethium
The isolation of --- by displacement chromatography due to complex formation (59) 415
Promethium-147
The utilization of --- as an ionization source in electron-capture detectors (62) 53
Propellants
GLC determination of nitrate esters, stabilizers and plasticizers in nitrocellulose-base --- (71) 23
Propellents
GC–MS method for analysis of the contents of aerosol irritant projectors (80) 155
Propenylbenzene derivatives
Metabolism of naturally occurring ---. II. Separation and identification of tertiary aminopropiophenones by combined GLC and chemical ionization MS (73) 43
β-Propiolactone
Analysis of --- by GLC. I. Investigation of a residue of β-propiolactone in the antirabic Pasteur vaccine. II. Study of the hydrolysis curve of β-propiolactone at pH 7.4 (70) 128
Propionic acid
GC separation and detection of C_1 to C_3 monocarboxylic acids as the *p*-substituted benzyl esters (52) 63
Propoxyphene
Simultaneous determination of --- and norpropoxyphene in human biofluids using GLC (75) 195
α-*d*-Propoxyphene
Re-examination of the GC determination of --- (77) 413
Propanolol
A sensitive GC method for the determination of --- in human plasma (84) 347
Propyl isome
Detection of naturally fluorescent pesticides on silica gel layers (79) 217
S-*n*-Propyl N-monoalkyl dithiocarbamates
GLC and mass fragmentography of --- (99) 291
Propylamine
Hydrogen-treated graphitized carbon blacks. Adsorption of acetic acid and --- by GC (77) 277
Prostaglandins
N-Butylboronate derivatives of the F ---. Resolution of prostaglandins of the E and F series by GLC (56) 129
Prostaglandins
Characterization of --- by combined GLC and chemical ionization MS (93) 47
Prostaglandins
Chromatographic separation of ovarian dermoid cyst lipids and --- (63) 321
Prostaglandins
Complex-forming stationary phases in high-speed LC (83) 91
Prostaglandins
Determination of --- $F_{1\alpha}$ and $F_{2\alpha}$ by GLC (90) 169
Prostaglandins
Separation of --- diastereomers by countercurrent distribution (79) 368
Protamine
A quantitative --- assay by diffusion in agarose gels containing DNA (59) 200
Protecting agents in vulcanizates
Behaviour of *p*-phenylenediamine protecting agents in TLC (88) 391
Protein
Adsorption on neutral polystyrene resin. A simple method for extraction of 2,4-dinitrophenyl derivatives from aqueous solution and for decoloration of --- hydrolysates (54) 215
Proteins
Agar derivatives for chromatography, electrophoresis and gel-bound enzymes. II. Charge-free agar (66) 347
Proteins
Analytical chromatography of myosin on hydroxyapatite (65) 387
Proteins
Anomalies in the electrophoretic molecular-weight determination of collagen denaturation products (84) 147

Proteins
Application of thin-layer gel filtration in the microanalysis of radioiodinated ––– (93) 475
Proteins
Chromatographic methods in the analysis of protein structure. Methods for identification of N-terminal amino acids in peptides and –––. Part B (70) 221 (review)
Proteins
Chromatography of plant constituents on cross-linked dextrans in phenol–acetic acid–water mixtures (54) 433
Proteins
Column dialysis (68) 273
Proteins
Comparative biochemistry and pharmacology of salivary gland secretions. I. Electrophoretic analysis of the ––– in the secretions from human parotid and reptilian parotid (Duvernoy's) glands (56) 368
Proteins
Comparative biochemistry and pharmacology of salivary gland secretions. II. Chromatographic separation of the basic ––– from some North American rattlesnake venoms (56) 253
Protein
Detection of several non-protein amino acids in the presence of ––– amino acids (54) 428
Proteins
Determination of di(ethylhexyl) phthalate in human plasma and plasma ––– by electron capture GC (100) 153
Proteins
Determination of dinitrophenylene amino acids in structural ––– by chromatography on nylon powder columns (61) 263
Proteins
Determination of metabolites of tyrosine and of tryptophan and related compounds by GLC (55) 297
Proteins
Determination of tryptophan oxidation products using an amino acid analyzer (65) 565
Proteins
Effect of ionic strength on poly(D-Asp-L-Lys) in Sephadex gel filtration (51) 543
Proteins
Electrophoretic and chromatographic characterization of sulphur-rich ––– from wool (69) 341
Proteins
Electrophoretic heterogeneity of crystalline insulin: A comparison of methods (55) 430
Proteins
Estimation of molecular weights of basic ––– (histones) by gel filtration in 6 *M* guanidine hydrochloride solution (77) 442
Proteins
Experimental study of amino acid degradation under open flask hydrolytic conditions (52) 405
Proteins
Formation of artifacts in electrofocussing on acrylamide gel with ampholines (87) 311
Proteins
Fractionation of the whey ––– and casein of cow's milk on Sephadex DEAE A-50 and A-25 (75) 117
Proteins
Fractionation of yeast tRNA and ––– on nucleoside derivatives of cellulose (82) 349
Proteins
Gel filtration of ABH blood group substances. I. Fractionation of ABH substances of human saliva (55) 337
Proteins
Gel filtration of ––– and peptides in the presence of 6 *M* guanidine hydrochloride (63) 267
Proteins
Gel filtration of thyroxine-binding –––. Identification of rat plasma protein fractions separated on Sephadex G-200 (79) 340
Proteins
Gel filtration of thyroxine-binding –––. Systematic study of rat liver (77) 439
Protein
GLC and MS of amino acid thiohydantoins and their use in ––– sequencing (87) 499
Proteins
Group fractionation of plasma ––– on dipolar ion exchangers (51) 479
Protein
Heterogeneity of ––– fractions isolated

by preparative electrophoresis of human saliva (61) 380
Proteins
Hydrolysis of --- (52) 393
Proteins
Identification of the five main histone fractions by comparative electrophoresis in polyacrylamide gel (55) 429
Proteins
Improved automatic lipid extraction and thin-layer spot application system (63) 59
Proteins
Intracellular thyroxine-binding --- in rabbit muscle and liver (92) 119
Proteins
Ion-exclusion effects on the chromatography of acetylcholinesterase and other --- on agarose columns at low ionic strength (92) 127
Proteins
Isoelectric focusing of insulins in polyacrylamide gel (76) 263
Proteins
Isoelectric focusing of lens crystallins in thin-layer polyacrylamide gels. A method for detection of soluble --- in eye lens extracts (60) 225
Proteins
Limitations of the detergent–polyacrylamide gel electrophoresis method for molecular weight determination of --- (57) 121
Proteins
Method for determining the N-terminal residue of --- fixed in polyacrylamide gels (62) 115
Proteins
Methods for extraction and purification of free amino acids and --- of vegetable tissues (61) 349
Proteins
Microgel electrophoretic analysis of the --- in single rat thyroid follicles. III. Incorporation of [^{3}H]leucine into the large iodoproteins of the colloid (73) 292
Proteins
Micro-method for the determination of hydroxylysine and its glycosylated derivatives (51) 277
Protein
Micro-scale --- separation by electrophoresis in continuous polyacrylamide concentration gradients (71) 499
Proteins
Modification of the electrophoretic properties of certain jack beans --- by chromatography on tanned gelatin (66) 377
Protein
Modified agarose derivative for affinity chromatography. Application to purification of human α-feto--- (87) 239
Proteins
Modified gradient elution procedure for single column modified amino acid analysis (54) 425
Proteins
Molecular filtration on Sepharose 6B. Empiric relationships between the distribution coefficient and the Stokes radius on one hand and the molecular weight on the other of --- of different degrees of asymmetry (89) 251
Proteins
New highly sensitive detection system for peptides and --- in column effluents (66) 145
Proteins
Observations on molecular weight discrimination by filtration through porous media (69) 325
Proteins
Observations on molecular weight estimations in polyacrylamide gels (87) 109
Proteins
Phosphocellulose chromatography of human hemoglobins (63) 414
Protein
Preparative polyacrylamide gel electrophoresis (72) 165
Protein
Preparative separation of --- mixtures using Sephadex gel filtration with simultaneous application of continuous current (electroretardation-filtration) (56) 241
Protein
Purification of human serum hemopexin by chromatography on DEAE-cellulose (72) 198
Proteins
Purification of *Pseudomonas aeruginosa*

endotoxin by gel filtration on Sepharose 4B (57) 148
Proteins
Rapid analytical gel chromatography of --- and peptides on Sephadex micro-bore columns (64) 77
Proteins
Rapid and simple microscale separation of --- after radioiodination (57) 145
Proteins
Rapid staining of --- and peptides in starch gels by chlorination (55) 424
Proteins
Retardation of certain --- during chromatography on tanned gelatin (53) 381
Proteins
Simple separation of iodide from radio-iodinated --- by ion-exchange chromatography–centrifugation (93) 471
Protein
Single equation relating molecular weight, pore-size, and elution coefficient in the controlled pore glass chromatography of ---–sodium dodecyl sulfate complexes (85) 129
Proteins
Sorption equilibria between --- and cation exchangers (89) 239
Proteins
Studies on the high-sulphur --- of reduced Merino wool. The chromatography of group IIIA on cellulose phosphate (78) 363
Proteins
Study of extraction columns for aqueous polymer two-phase systems (73) 125
Proteins
Submicro-determination of amino acids by a single-column analysis in a 4-hour run using automatic buffer gradient mixing (85) 35
Proteins
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. I. The case when virtually all molecules are adsorbed on to a single type of crystal site through a single type of adsorption group (93) 313
Proteins
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. II. The case when molecules can be adsorbed on to both of C and P crystal sites through carboxyl and basic groups (93) 337
Proteins
TLC and elution of picogram amounts of estradiol (59) 452
Proteins
TLC of amino acid hydantoins (80) 199
Proteins
Use of acrylamide–agarose gel beads in the study of serum --- (92) 137
Protein
Use of bacterial L-amino acid decarboxylase for the control of the degree of racemisation of amino acid mixtures obtained from --- hydrolysates (54) 225
Proteins
Use of quaternary ammonium ethyl cellulose in the fractionation of tyrosine-rich --- from wool (72) 319
Proteins
Use of simple concentration gradients for the fractionation of human serum --- on DEAE-cellulose, with especial reference to the isolation of albumin, prealbumin, haemopexin and transferrin (84) 87
Proteins
Utilisation of 1-dimethylaminonaphthalene-5-sulphonyl chloride for quantitative determination of free amino acids and partial analysis of primary structure of --- (51) 441
Proteins
UV scanning of --- on ordinary glass plates in thin-layer isoelectric focusing (61) 365
Protein
Zone precipitation on porous glass with $(NH_4)_2SO_4$. A simple high capacity fractionation procedure for crude --- mixtures (60) 137
Protein amino acids
Complete GLC separation of the twenty --- (57) 209
Protein amino acids
Detection of non-protein amino acids in the presence of ---. II. (64) 178
Protein amino acids
GLC analysis of tryptophan in proteins (76) 77

Protein amino acids
GLC of the N(O)-heptafluorobutyrates of the isoamyl esters of amino acids. I. Separation and quantitative determination of the constituent amino acids of proteins (76) 91
Protein amino acids
GLC of twenty --- on a single column (60) 134
Protein amino acid
GLC resolution of several --- enantiomers on a packed column (75) 13
Protein amino acids
GLC studies on the twenty ---: a single column separation (76) 63
Protein amino acids
Trimethylsilylation of amino acids. Derivatization and chromatography (57) 219
Protein components
Immunoreactive precipitation of --- after isoelectric focusing (86) 219
Protein detection
Rapid analytical gel chromatography. II. Sensitivity of --- by UV absorbance at 220 nm (71) 573
Proteins from human teeth
Gel chromatography of --- (96) 258
Protein hydrolysates
A simple apparatus for derivatizing amino acids to their corresponding N-trifluoroacetyl *n*-butyl esters (62) 138
Protein molecular weights
A logarithmic sample slot former for sodium dodecyl sulfate electrophoresis (64) 190
Protein preparations
On the efficiency of gel electrophoresis (66) 19
Proteins, radioactive
Measurement of specific activity of --- in starch gels (62) 165
Proteins (serum)
Laurell electrophoresis on cellulose acetate (75) 165
Proteins, serum
A method for the rapid elution of proteins from "mashed gel" after starch gel electrophoresis (94) 107
Protein–sodium dodecyl sulfate
A single equation relating molecular weight, pore-size, and elution coefficient in the controlled pore glass chromatography of --- complexes (85) 129
Proteins, steroid-binding
The use of an Enzacryl AA derivative for affinity chromatography of sex hormone binding globulin (97) 57
Proteolytic enzymes
Rapid assay of --- on film material (93) 487
Protic solvents
CC of polycyclic aromatic hydrocarbons. Separation on organic gels in --- (80) 266
Provitamin D
The separation of the photochemical isomers of ergosterol by TLC (59) 226
Pseudomonas aeruginosa
Purification of --- endotoxin by gel filtration on Sepharose 4B (57) 148
Pseudouridylic acid
Absence of --- in the total ribonucleic acid extracts of wheat leaves (75) 133
Psychotropic agents
A sensitive TLC technique for determining morphine in urine (71) 135
Psychotropic drugs
Evaluation of liquid–liquid systems for the chromatographic separation of the psychotropic drug thioridazine and its metabolites (83) 405
Pteridines
Quantitative analysis of --- in biological extracts by direct fluorimetry on thin layers (79) 370
Pteroylglutamates
TLC of --- and related compounds. Application to transport and metabolism of reduced folates in blood (79) 195
PTFE
GC measurement of the permeability of ---, PVC, polyethylene and nylon tubing towards oxygen and nitrogen (77) 406
Pulse chromatograph technique
A contribution to the measurement of adsorption isotherms by the --- (81) 9
Pulse method
Application of circulation techniques for studying the kinetics of chemical reactions by means of reaction GC (69) 25
Pulse poisoning
Pulse chromatographic method for the investigation of catalytic reactions (69) 3
Puncture sampling
Improved preparative dry-CC. Analysis of resolution by --- (71) 353

Pungent compounds
Natural ---. IV. Examination of the gingerols, shogaols, paradols and related compounds by TLC and GC (67) 29
Purines
Automatic quantitative spotter for TLC and PC (73) 265
Purines
Chromatographic and electrophoretic behavior of --- and pyrimidines on layers of weak and strong cation exchangers (64) 271
Purine
GLC of the --- and pyrimidine bases (61) 45
Purine
Relation between structure and gel chromatographic behaviour of pyrimidine compounds (71) 67
Purines
Sensitive method for the detection of adenine compounds separated by PC or TLC (55) 413
Purines
Separation and determination of nanomole amounts of some ---, uric acid and uric acid riboside by two-dimensional PC (100) 95
Purines
Separation of oxypurines by ligand-exchange chromatography and determination of caffeine in beverages and pharmaceuticals (62) 148
Purine
Separation of --- derivatives by TLC on silica gel plates suitable for metabolic studies (66) 175
Purines
Studies on the mechanism of adsorption of --- in Sephadex G-10 chromatography (59) 349
Purine
TLC of --- and pyrimidine analogues of bases and deoxyribonucleosides (66) 388
Purines
TLC of some 2,6-dioxopyrimidines and ---- (81) 178
Purine bases
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Purine bases
Application of GC–chemical ionization mass fragmentography in the evaluation of bases and nucleoside analogues used in cancer chemotherapy (99) 519
Purine bases
Determination of --- by means of chromatovoltammetry (90) 259
Purine bases
Separation of methylated bases of ribonucleic acid by two-dimensional TLC (76) 401
Purine bases
Separation of --- and pyrimidine bases and nucleosides by TLC on Sephadex–cellulose and Sephadex–silica gel layers (70) 182
Purine compounds
Factors which influence the separation of pyrimidine and --- on Sephadex G-10 (73) 135
Purine-containing compounds
Phosphorescence detection method for --- on thin-layer chromatograms (90) 390
Purine mononucleotides
High-pressure LC of modified --- and nucleosides (83) 395
Purine nucleosides
High-pressure LC of modified purine mononucleotides and nucleosides (83) 395
Purine nucleoside phosphorylase
Determination of the activity of --- from rat brain using separation on cation exchangers (56) 365
Putrescine
Determination of polyamines in human urine by an automated ion-exchange method (89) 231
Putrescine
Ion-exchange chromatographic separation and fluorometric detection of urinary polyamines (90) 129
Putrescine
Micro method for the quantitative estimation of --- in tissues (62) 121
Putrescine
PC resolution of aliphatic guanidino amines, diamines and polyamines (86) 214
PVC
GC measurement of the permeability of PTFE, ---, polyethylene and nylon

tubing towards oxygen and nitrogen (77) 406
Pyrazinoic acid
Method for the esterification of carboxylic acids in GC analysis (82) 291
Pyrazole
Determination and identification of --- derivatives by GC–MS (64) 170
Pyrazole
Reversed-phase extraction chromatography using a tetra-substituted --- as stationary phase (84) 407
Pyrenes
Determination of air-borne polycyclic hydrocarbons by PC (91) 531
Pyrenes
GLC and TLC of some 3- and 3,X-substituted --- (80) 259
Pyrethrin
Analytical studies of --- formulations by GC. II. Isolation of the pyrethrins from water-based formulations (72) 51
Pyrethrins
Analytical studies of pyrethrin formulations by GC. III. Analytical results on insecticidally active components of --- from various world sources (90) 119
Pyrethrins
Preparative scale separation of --- by liquid–liquid partition chromatography (66) 356
Pyrethrum
Preparative columns in high-speed LC (83) 233
Pyrethrum extract
Preparative scale separation of pyrethrins by liquid–liquid partition chromatography (66) 356
Pyridazinones
Separation of SAN-6706 and some related compounds by TLC (66) 386
Pyridine
Argentation TLC with silver oxide. I. Separation of --- homologues (51) 334
Pyridine
GC of some nitrogen and sulphur heterocycles by means of silicone and Bentone–silicone phases (51) 433
Pyridines
Relative retentions of C_1–C_{15} alkyl- and alkenylpyridines over different columns and at various temperatures (64) 1
Pyridine
Separation and identification of some --- derivatives (90) 368
Pyridines
Study of interactions of substituted --- with 2,3,5-triiodobenzoic acid by means of GC (89) 131
Pyridine bases
Separation of --- of coal tar light oil by means of capillary GC (91) 723
Pyridine nucleotides
Quantitative determination of oxidized --- by a PC technique (66) 111
Pyridinium oximes
Chromatography of some quaternary drugs on columns of Sephadex G-10 (60) 185
Pyridoxine hydrochloride
Quantitative analysis of water-soluble vitamins in multicomponent pharmaceutical forms. Determination of tablets and granules (77) 389
Pyridoxol–boric acid
Elucidation of the structure of --- complexes (51) 330
Pyrimidines
Automatic quantitative spotter for TLC and PC (73) 265
Pyrimidines
Chromatographic and electrophoretic behavior of purines and --- on layers of weak and strong cation exchangers (64) 271
Pyrimidine
GLC of the purine and --- bases (61) 45
Pyrimidine
Relation between structure and gel chromatographic behaviour of --- compounds (71) 67
Pyrimidine
TLC of purine and --- analogues of bases and deoxyribonucleosides (66) 388
Pyrimidines
TLC of some 2,6-dioxo--- and -purines (81) 178
Pyrimidine bases
Analysis of purine and --- and their nucleosides by high-pressure LC (99) 587
Pyrimidine bases
Application of GC–chemical ionization mass fragmentography in the evaluation

of bases and nucleoside analogues used in cancer chemotherapy (99) 519
Pyrimidine bases
Separation of methylated bases of ribonucleic acid by two-dimensional TLC (76) 401
Pyrimidine bases
Separation of purine and --- and nucleosides by TLC on Sephadex–cellulose and Sephadex–silica gel layers (70) 182
Pyrimidine compounds
Factors which influence the separation of purine and --- on Sephadex G-10 (73) 135
Pyrimidine derivatives
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Pyrimidine nucleosides
Separation of anomeric --- by TLC (79) 353
Pyroacids
TLC separation of phosphorus acids, ---, amidic acids and diamides (92) 207
Pyrocatechol
The use of R_C values for structural studies in the PC of phenols (52) 131
Pyrolysis
Determination of the composition and structure of polymers by --- GC (77) 61
Pyrolysis GC
Characterisation of polypropylene by --- (51) 59
Pyrolysis methylation GC
The decomposition of trimethylanilinium hydroxide during --- (97) 267
"Pyrolysis resin"
GC of the products formed by thermal decomposition of --- (51) 83
Pyrolytic fragmentation
--- and MS fragmentation of aliphatic side-chains in alkylresorcinols (69) 59
Pyrolyzers
Comparison of various --- in the study of polymer compositions (69) 65
Pyrroles
pH-Dependent elution volume of some --- chromatographed on Sephadex G-15 (81) 160
Pyrroles
Separation of carboxymethyl--- by TLC (65) 580
Pyrrolic acid esters
GC analysis of --- from the potassium permanganate oxidation of bile pigments (59) 29
Pyruvate
Analytical isotachophoresis in capillary tubes. Transformation of --- to succinate by calf heart mitochondrial enzymes (82) 407

Q

Quantification
Direct --- of micro thin-layer chromatograms (71) 297
Quantitative analysis
TLC --- (82) 101
Quantitative spotter
Automatic --- for TLC and PC (73) 265
Quantum yields
New method for the determination of --- by the combined application of TLC and radioisotopes (73) 287
Quartz, optically active
TLC of an optically active complex (75) 314
Quaternary ammonium salts
TLC of --- on alumina layers (74) 297
Quercetin
Rapid electron capture determination of caffeic acid and --- moieties in plants (52) 385
Quinine
Assay of cocaine in the presence of procaine and --- by CC (52) 107
Quinine
Isolation and identification of morphine from *postmorteum* tissues (65) 507
Quinine
Necessity of elution and identification of drugs indicated by TLC (54) 245
Quinine
Routine identification of drugs of abuse in human urine. II. Development and application of the XAD-2 resin column method (63) 289
Quinoline
GC of some nitrogen and sulphur heterocycles by means of silicone and Bentone–silicone phases (51) 433
Quinoline alkaloids
TLC separation of --- (100) 218
Quinoline-3-carboxylic acids
Method for detection of transesterification in solutions of esters of --- (57) 441
Quinomethionate
Detection of naturally fluorescent pesticides on silica gel layers (79) 217
Quinones
Chromatographic studies of some halogenated ---. I. TLC of some chlorinated derivatives of *p*-benzoquinone (53) 587
Quinones
Identification reactions after chromatography of quinoidal compounds (52) 180
Quinones
Sensitive non-destructive visualization of isoprenoid --- on reversed-phase thin-layer chromatograms (74) 357
Quinone DNPHs
TLC of mono- and dinitrophenylazoalkylphenols (alkylquinone mono- and dinitrophenylhydrazones) (76) 487
Quintozene, *see* PCNB
Quinoxalinols
Characterization of α-keto acids as ---. Structure determination of silyl derivatives suitable for GC (81) 139

R

Rabbit aortas
Separation of arylamidases of normal and artherosclerotic ––– by CC (66) 67
Rabies virus
Treatment of controlled pore glass with poly(ethylene oxide) to prevent adsorption of ––– (56) 362
Racemates
Chromatographic resolution of ––– on natural optically active ion exchangers. IV. Influence of the solvent on the optical resolution of racemic bases on sunflower pectic acid (72) 192
Racemates
Chromatographic resolution of ––– on optically active ion-exchangers. VI. Partial resolution of racemates on DEAE-Sephadex, QAE-Sephadex and CM-Sephadex (87) 581
Racemates
Ligand-exchange chromatography of ––––. Influence of the degree of saturation of the asymmetric resin by metal ions on ligand exchange (82) 359
Racemates
Ligand-exchange chromatography of ––––. Influence of temperature and concentration of eluent on ligand-exchange chromatography (93) 363
Racemates
Ligand-exchange chromatography of ––––. Resolution of α-amino acids (91) 493
Racemic bases
Chromatographic resolution of racemates on natural optically active ion exchangers. IV. Influence of the solvent on the optical resolution of ––– on sunflower pectic acid (72) 192
Racemic $[Co(en)_3]^3$
TLC of an optically active complex (75) 314
Racemomycins
Chromatography of ––– on dextran gel (56) 360
Radial column chromatography
Chromatofuge, an apparatus for preparative rapid ––– (66) 365
Radioactive compounds
Detection of ––– during development on a thin layer (96) 239
Radioactive compounds
Improved preparative dry-CC. Analysis of resolution by puncture sampling (71) 353
Radioactive compounds
New technique for scanning tubular thin-layer chromatograms (96) 242
Radioactive compounds
Radio GC by collection of ––– issuing from a gas chromatograph on a moving strip of paper (73) 235
Radioactive detection
Semiconductographic determination of labelled substances in TLC (93) 399
Radioactive effluents
Continuous detection of ––– in LC by heterogeneous or homogeneous scintillation counting (72) 303
Radioactive effluents
Continuous detection of radioactive GC effluents by liquid scintillation (76) 13
Radioactive substances
Automation of chromatography of ––– (58) 5
Radioactively labelled compounds
New method for the analysis of ––– (82) 121
Radioactively labelled compounds
Use of the spark-chamber radio-scanner for rapid location and quantitation of ––– after one- and two-way separations (82) 75
Radioactivity
Improved method for collection and measurement of ––– in compounds separated by GLC (67) 221
Radioassay
Quantitative liquid scintillation ––– of phospholipids from thin-layer chromatograms (67) 75

Radiochemical analysis
Micro-chromatographic and ——— of glycopeptides (76) 345
Radiochromatograms
Computerized contour mapping applied to two-dimensional ——— (73) 183
Radiochromatographic studies
Conductometric, high-frequency titration, and ——— on the thiourea complexes of palladium(II) and platinum(II) (70) 117
Radiochromatography
Radiochromatographic and high-frequency titration studies on ethylthiourea complexes of palladium(II) and platinum(II) (92) 419
Radiochromatography
Two-dimensional scanner for radiochromatograms employing an electron multiplier detector *in vacuo* (59) 99
Radio-immunoassay
Disturbance factor in the ——— of aldosterone from urine (84) 165
Radioisotopes
——— Introduction. Detection and chromatographic resolution of labeled lipid intermediates formed in enzyme systems (78) 141
Radiolysis products
——— as reference substances in GC (52) 227
Radiopharmaceuticals
PC of ^{113m}In-labelled ———: [^{113m}In]DTPA (84) 417
Radio-scanner
Use of the spark-chamber ——— for rapid location and quantitation of labelled compounds after one- and two-way separations (82) 75
Radiotracer measurements
Stripping thin layers from chromatography plates for ——— (88) 25
Ragweed pollen
Subunits of the antigens of ——— (69) 391
Rapid column chromatography
TLC as a pilot technique for ——— (67) 261
Rare amino acids
Selective staining test for the sensitive detection of some ——— (74) 152
Rare earths
High-speed separation of the ——— by ion exchange. Part II (66) 129
Rare earths
Isolation of promethium by displacement chromatography due to complex formation (59) 415
Rare earths
Reversed-phase extraction chromatography of the ———, thorium, uranium and zirconium with a high-molecular-weight amine in sulphuric acid and ammonium sulphate media (85) 123
Rare earths
Reversed-phase extraction chromatography using a tetra-substituted pyrazole as stationary phase (84) 407
Rare earths
Reversed-phase partition chromatography of ——— with a mixture of organic extractants (74) 99
Rare earths
Reversed phase TLC behaviour of the ———, thorium, uranium and zirconium with a high molecular weight amine in sulphuric acid and ammonium sulphate systems (56) 95
Rare earths
——— separations by mixed ion-exchange columns (89) 346
Rare earths
Separation of ——— by ion-exchange chromatography. III. Analysis of erbium, thulium, ytterbium, and lutetium (75) 101
Rare earths
Separation of lanthanides by chromatography on ion-exchange paper SA-2. III. Separation of ——— of yttrium (70) 216
Rare earths
Separation of lanthanides using chromatography on SA-2 ion-exchange paper (57) 455
Rare earths
TLC separation of zirconium, hafnium, thorium, uranium and the ——— on DEAE-cellulose in sulphate media (88) 351
Rare earth chelates
Formation constants of protonated and lanthanon N′-methylethylenediamine-N,N,N′-triacetate species (87) 437
Rare earth complexes
Effect of resin cross-linking on the anion-exchange separation of ——— with DCTA (68) 131

Rare earth elements
Contribution to the separation of ––– by extraction chromatography with di(2-ethylhexyl)phosphoric acid. II. The behaviour of the matrix and its influence on the behaviour of microcomponents (87) 351
Rare earth elements
Elution behaviour of the ––– on a mixed ion-exchange column (76) 213
Rare earth elements
Elution behaviour of the ––– on single and mixed ion-exchange columns (87) 227
Rare earth ions
LC. IV. Effects of solvent velocity on separation using ion-exchange resin (71) 389
Rare earth metal ions
Paper electrophoresis of metal ions in EDTA–ligand buffer solutions. II. Some bivalent metal ions and ––– (72) 373
Rare earth metal mixtures
Paper electrophoresis of metal ions in EDTA ligand buffer solutions. III. Qualitative and quantitative analysis of ––– (74) 325
Rare earth metals
Reversed-phase extraction chromatographic separation of scandium from the rare earths, uranium and zirconium (96) 262
Rare earth separations
––– using cation-exchange CC. Comparison of α-hydroxyisobutyric acid and α-hydroxy-α-methylbutyric acid as eluants (79) 287
Raspberry
Polyvinylpyrrolidone CC of strawberry, rhubarb, and ––– anthocyanins (55) 405
Rat bone marrow cells
Adherence chromatography of ––– (67) 63
Rat brain amino acids
Comparative analysis of extraction procedures and chromatographic methods on ––– (69) 333
Rate profiles
Study of the shape of chromatographic bands in preparative GC columns (77) 97
Rat liver
Gel filtration of thyroxine-binding proteins. Systematic study of ––– (77) 439
Rat muscle
Method for the estimation of some synthetic glucocorticosteroids in ––– (77) 161
Rauwolfia alkaloids
Separation of ––– by TLC (80) 101
Reaction chromatography
Possibilities of ––– exemplified by the reaction-chromatographic detection of nitrazepam (Mogadan®) and its major metabolites (94) 159
Reaction gas chromatography
Introduction to the first symposium on ––– held in Tallinn (Estonia, U.S.S.R.) on 6–8th July, 1971 (69) 1
Reaction gas chromatography
––– of microgram and sub-microgram samples using sealed glass capillaries (75) 304
Reaction gas chromatography
Quantitative TLC with the aid of ––– (78) 123
Reaction paper chromatography
Identification of aromatic amides by ––– (86) 279
Reaction paper chromatography
Identification of aromatic nitriles by ––– (86) 159
Reactor
––– or automotive effluent collector for chromatographic sampling (72) 176
Rectification apparatus
Combination of rectification and GC for separation of multicomponent mixtures of compounds according to boiling points (87) 401
Recycle gel permeation chromatography
––– analysis of oligomers and polymer additives (83) 279
Redox indicators
Use of tetrazolium salts in bioautographic procedures (64) 182
Reflectance measurements
Influence on ––– of thin-layer chromatograms by technical factors. III. Factors influencing simultaneous measurements (82) 85
Reflectance measurements
Standardisation of the direct spectrophotometric quantitative analysis of chromatograms. I. Simultaneous transmittance and ––– (63) 211

Reflectance spectrophotometry
Application of --- to isolated spots for the quantitative evaluation of thin-layer chromatograms (78) 175
Reflectance spectroscopy
Critical study of some parameters in quantitative *in situ* investigations of TLC by light absorption methods (64) 285
Refractive index
GC investigation of organometallic compounds and their carbon analogues. V. Use of --- in conjunction with Kováts' retention index for the identification of organosilicon compounds (93) 383
Reinjection technique
Sample trapping and --- for use with GC (90) 57
Relative correction factors
Quantitation in isotachophoresis. The concept of --- (91) 829
Renal function
TLC in the examination of amino acid metabolism and --- (78) 193
Reproducibility of R_F values
An improved technique for obtaining --- in impregnated paper chromatography (85) 144
Residual solvents
Quantitative determination of --- in steroid hormones by means of GLC and solid injection (71) 542
Residue analysis
Potential use of high-performance LC in --- (83) 439
Resins
Dependence of HETP upon --- particle size and solution flow-rate in high-speed ion-exchange chromatography (83) 195
Resin
Study of furfuryl alcohol --- components by GPC (54) 33
Resins
Use of sequential columns of microreticular and pellicular ion-exchange --- in the high-resolution separation of complex biochemical mixtures (83) 383
Resin beads
Selectivity behavior of low-capacity, partially sulfonated, macroporous --- (90) 267
Resin cross-linking
Effect of --- on the anion-exchange separation of rare earth complexes with DCTA (68) 131
Resins, mixed
Elution behaviour of typical transition metals on single and mixed ion-exchange columns (94) 271
Resolution
--- and column efficiency in chromatography (69) 237
Resolution
Criteria for --- by TLC and PC. I. Spot size, migration and R_F values: examples from analysis of nucleic acid hydrolyzates (89) 343
Resolution
Efficiency, --- and speed of open tubular columns as compared to packed columns (91) 5
Resolution
Incremental gradient elution. Some factors that affect --- and analysis time (83) 257
Resolution
Influence of static and dynamic effects on the reproducibility of retention data in GLC (80) 25
Resorcinols
Pyrolytic and MS fragmentation of aliphatic side-chains in alkyl --- (69) 59
Response factors
Calculation of --- in GC (75) 173
Response factors
Calculation of --- in GC (85) 183
Retention
Characteristics of --- in GLC (67) 213
Retention
Dependence of chromatographic peak shapes on column and experimental parameters (83) 205
Retention
GC --- and molecular structure. An approach to systematic identification of functional groups and carbon number (99) 203
Retention
Study of precision in modern LC using a dedicated computer (83) 289
Retention
Transposition to columns of data obtained in liquid–solid TLC (97) 137
Retention behaviour
Influence of reference substances on

--- of homologous compounds on stationary phases of increasing polar character (99) 329
Retention–binary stationary phase
GC study of chemical interactions in solutions (69) 17
Retention characteristics
Gradient elution in LC. I. The influence of the composition of the mobile phase on the capacity ratio, retention volume, band width, and resolutions in isocratic elution theoretical considerations (91) 207
Retention characteristics
Gradient elution in LC. II. --- (retention volume, band width, resolution, plate number) in solvent-programmed chromatography – theoretical considerations (91) 223
Retention data
Additivity of --- for ethylenic functions in aliphatic fatty acids. I. Apiezon L (86) 73
Retention data
Additivity of --- for ethylenic functions in aliphatic fatty acids. II. Polar liquid phases (86) 83
Retention data
Behaviour of ethers. I. Working out a "Taft"-like equation based on --- of saturated ethers (90) 149
Retention data
Correlation of --- with the chemical structure of the solute molecules (65) 103
Retention data
GC. V. The relationship between --- and molar volumes (70) 1
Retention data
Influence of static and dynamic effects on the reproducibility of --- in GLC (80) 25
Retention data
Precision of GC --- in the manual processing of the chromatogram (51) 23
Retention increment
Discussion of the decrease in the homologous --- on raising the polarity of a stationary phase in GC (78) 269
Retention index
Contribution to the concept and method of Rohrschneider. II. (65) 121
Retention index
Determination of the temperature-dependence of the --- in GLC by computer (66) 205
Retention index
Generalization of the GC --- system (91) 79
Retention index
Sub-classification of hydrocarbons by the temperature coefficient of --- (71) 171
Retention index–structure
--- relationships for alcohols using factor analysis (69) 249
Retention index system
Advances in the utilization of the --- for characterizing hydrocarbons in complex mixtures by GC (99) 215
Retention index system
Contribution to the theory of the ---. IV. Retention index and molecular structure. Calculation of retention indices of olefins, cyclic hydrocarbons and homologues of benzene hydrocarbons on the basis of their molecular structures (67) 203
Retention index system
Contribution to the theory of the ---. V. Characterization of polarity of stationary phases. McReynolds system (73) 11
Retention index system
Contribution to the theory of the ---. VI. Calculation of the retention indices of compounds containing halogen atoms or hydroxyl groups, amines, ketones, esters, heterocyclic compounds, adamantanes, silanes and steroids on apolar and polar stationary phases in GLC (81) 1
Retention index values
Method for the identification of branched-chain paraffins by calculation of their --- on the basis of molecular structure and physical properties (76) 31
Retention indices
Analysis of some β-branched primary alcohols and α-branched carboxylic acids by combined GC and MS (91) 775
Retention indices
--- of biphenyls and diphenylalkanes (97) 3
Retention indices
Calculation and application of the --- in programmed-temperature GC (91) 89

Retention indices
Comparison of GLC ——— on support-coated open tubular columns and on packed columns for a series of central nervous stimulant drugs (84) 392
Retention indices
Comparison of isothermal and non-linear temperature programmed GC. The temperature dependence of the ——— of a number of hydrocarbons on squalane and SE-30 (57) 11
Retention indices
Correlation of the boiling points of non-branched C_9 and C_{10} olefins with the GC retention indices (65) 93
Retention indices
GC analysis of complex hydrocarbon mixtures (91) 633
Retention indices
GC investigation of organometallic compounds and their carbon analogues. I. Determination, calculation and correlation of Kováts' ——— for tetra-alkoxysilanes (88) 295
Retention indices
GC investigation of organometallic compounds and their carbon analogues. II. Improved method for calculating ——— of tetraalkoxysilanes (88) 311
Retention indices
GC separations of alkanes on urea inclusion compounds with *n*-alkanes as stationary phases (91) 303
Retention indices
Kováts ——— in the identification of alkylbenzene degradation products (91) 677
Retention indices
Major components influencing ——— in GC (80) 43
Retention indices
Molecular structure and retention behaviour. Retention behaviour of cycloaliphatic hydrocarbons in GSC and in GLC (91) 623
Retention indices
Separation and determination of GLC ——— of isothiocyanates (73) 231
Retention indices
Separation of pyridine bases of coal tar light oil by means of capillary GC (91) 723
Retention indices
System of standard ——— and its uses. The characterisation of stationary phases and the prediction of ——— (57) 1
Retention indices
Temperature dependence of the ——— of branched-chain paraffins on non-polar stationary phases. A method for its calculation on the basis of molecular structure (79) 23
Retention mechanism
Investigations of the ——— in partition GLC (91) 67
Retention parameters
Evaluation of errors in the determination of GC ——— and derivative quantities (77) 107
Retention parameters
Simple relationship between ——— in isothermal and programmed-temperature GC (88) 165
Retention, relative
Evaluation of the specificity of the stationary phase in GC (91) 105
Retention–structure relations
Identification of aliphatic saturated compounds by means of GC. I. Compounds developed in one direction (84) 275
Retention–structure relations
GC identification of saturated aliphatic compounds. II. Compounds developed in two directions (100) 73
Retention times
Effect of sorption on ——— in non-linear chromatograph[illegible] (91) 1
Retention time
Efficiency, resolution and speed of open tubular columns as compared to packed columns (91) 5
Retention time
GC using linear programmed pressure. Method for calculation of the solute ———. Influence of parameters (96) 15
Retention values, relative
Identification of GC zones in practical GLC. Influence of adsorption on relative retention (98) 477 (review)
Retention volumes
Correlations between ——— and the interfacial tension of the two phases in liquid–liquid chromatography (83) 77
Retention volume
Effect of the carrier gas velocity on the ——— in GC on Porapak sorbents (91) 59

Retention volumes
High precision measurements of specific ——— (51) 3
Retention volume
——— in high-pressure GC. I. Thermodynamics of the specific retention volume (95) 1
Retention volume
——— in high-pressure GC. II. Comparison of experimental data with the prediction of a pseudo-binary model (95) 13
Retention volume
Theory of GLC. The influence of the thickness of the stationary liquid film (80) 147
Reversed-phase chromatography
Apparatus for ——— on small scale thin-layer plates (64) 374
Reversed-phase chromatography
GC method with high resolving power, which can easily be automated: ——— with three collectors (72) 241
Reversed-phase columns
RNA fractionation on ——— (83) 289 (review)
Reversed-phase extraction chromatography
——— using a tetra-substituted pyrazole as stationary phase (84) 407
Reversed-phase extraction chromatography
——— using Br^--containing eluants (69) 181
R_F Correction
Application of ——— in TLC by means of two reference R_F values. II. Results obtained with a polar multi-component solvent system (71) 283
R_F sequence
Variations in ——— in TLC on precoated plates (86) 211
R_F values
Criteria for resolution by TLC and PC. I. Spot size, migration and ———: examples from analysis of nucleic acid hydrolyzates (89) 343
R_F values
Improved technique for obtaining reproducibility of ——— in impregnated paper chromatography (85) 144
R_F values
On the densitometric estimation of ——— in plane chromatography (75) 124
R_F values
Standardization of ——— in partition TLC (60) 265
R_F values
Transposition to columns of data obtained in liquid–solid TLC (97) 137
R_F value index (62) 173
Rhamnitols
GLC of some partially methylated alditols as their trimethylsilyl ethers (73) 29
Rhenium
Separation of the valency states of ——— in HCl solutions (51) 346
Rhizosphere soil
Analysis of the polysaccharides of some soil bacteria by GC (91) 469
Rhodamine 6 G
Sensitive non-destructive visualization of isoprenoid quinones on reversed-phase thin-layer chromatograms (74) 357
Rhodanines, 3-substituted
GC of isothiocyanates and ——— (62) 132
Rhodium
Gel chromatography of metal ions. The hydrolysis polymers of Cr(III) and Rh(III) (94) 338
Rhodium(III)
Qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Rhodospirillum rubrum
Fractionation of rapidly-labelled nucleic acids from ——— using polylysine kieselguhr CC (58) 235
Rhubarb
Polyvinylpyrrolidone CC of strawberry, ———, and raspberry anthocyanins (55) 405
Riboflavin
Recoveries and reproducibility in TLC fluorimetric determination of flavins by the elution method. Part VIII. Chromatography of ——— decomposition products (78) 105
Riboflavine
Application of LC in food analysis (83) 455
Riboflavine
Quantitative analysis of water-soluble vitamins in multicomponent pharmaceutical forms. Determination of tablets and granules (77) 389
Ribonuclease T_1
Purification of ——— on porous glass affinity adsorbents (97) 33

Ribonucleic acid
Absence of pseudouridylic acid in the total --- extracts of wheat leaves (75) 133
Ribonucleic acid
Analysis of base composition of -- and DNA hydrolysates by GLC (62) 347
Ribonucleic acid
Separation of methylated bases of --- by two-dimensional TLC (76) 401
Ribonucleic acid, *see* RNA
Ribonucleoside 3',5'-cyclic monophosphates
Separation of ---- by TLC on alumina (68) 296
Ribonucleotides
Simple ion-exchange chromatographic procedure for the analysis of the major ribo- and deoxyribonucleotides (76) 337
Ribosides
Differentiation of anomeric configuration and ring size in aryl --- by TLC and preparative layer chromatography (90) 399
Riboside
Separation and determination of nanomole amounts of some purines, uric acid and uric acid ---- by two-dimensional PC (100) 95
Ribosomes
Chromatographic purification of cytoplasmic --- from pea plants (53) 531
Ribosomes
Chromatographic purification of cytoplasmic --- from potato leaves (87) 277
Ribosomes
Purification of cytoplasmic ---- by column chromatography (87) 449
Ribosomes
Purification of potato virus X, white clover mosaic virus, tobacco mosaic virus and --- by CC (75) 235
Ribose degradation products
Analysis of base composition of RNA and DNA hydrolysates by GLC (62) 347
Ribulose-1,5-diphosphate
Isotachophoresis used alone or in two-dimensional combination with zone electrophoresis for the small-scale isolation of labelled ---- (71) 588
Rifampin
Simple TLC method for the separation and identification of ---- and its metabolites (68) 294
RIM test
Cannabis sativa L. (Marijuana). III. The ---: a reliable and useful procedure for the detection and identification of marijuana utilizing combined microscopy and TLC (82) 151
Riot-control agents
GC determination of ---- (68) 245
Rivotril
Quantitative determination of clonazepam and its metabolites in human plasma by GC (93) 113
R_M values
Relationship between PC ---- and Hansch's π parameters in dissociable compounds (92) 381
RNA
Analysis of --- and deoxyribonucleotides using high-pressure liquid CC (51) 203
RNA
Chemical post-labelling methods for the base composition and sequence analysis of ---- (82) 59
RNA
Determination of the base composition of -- by high-pressure cation-exchange chromatography (51) 183
RNA
Fractionation of rapidly-labelled nucleic acids from *Rhodospirillum rubrum* using polylysine kieselguhr CC (58) 235
RNA
Fractionation of --- on a metal ion equilibrated cation exchanger. I. Chromatographic profiles of --- on an Amberlite IR-120 (Al^{3+}) column (90) 99
RNA
Fractionation of --- on a metal ion equilibrated cation exchanger. II. Chromatographic behaviour of RNA, subjected to different treatments, on Amberlite IR-120 Al^{3+} columns (95) 65
tRNA
Fractionation of yeast ---- and proteins on nucleoside derivatives of cellulose (82) 349
RNA
GC determination of phosphorus in nucleic acids and nucleotides as tris(trimethylsilyl) phosphate (91) 459
tRNA
Purification and characterization of iso-

accepting species of phenylalanyl-transfer ribonucleic acid from rat liver (97) 193
RNA
Separation of nucleic acids on basic polyamino acid–kieselguhr columns (52) 158
RNA
Simple electrophoretic procedure for separation of ––– on mixed agarose–acrylamide gel columns (56) 79
RNA
Simplified methylalbumin–Kieselguhr CC of aminoacyl-tRNA (56) 154
RNA
Some aspects of the fractionation of DNA on an IR-120 Al^{3+} column. V. The effect of ––– contamination on the chromatographic profiles of DNA (57) 83
RNA fractionation
––– on hydroxyapatite columns (98) 449 (review)
RNA fractionation
––– on Kieselguhr columns (70) 341 (review)
RNA fractionation
––– on modified celluloses. I. ECTEOLA-, ECTHAM-, amino-ethyl-, nucleic acid-, and nitro-cellulose (73) 449 (review)
RNA fractionation
––– on modified celluloses. II. DEAE-cellulose (73) 463 (review)
RNA fractionation
––– on modified celluloses. III. BD-cellulose (73) 479 (review)
RNA fractionation
––– on reversed-phase columns (83) 289 (review)
RNase A
Sorption equilibria between proteins and cation exchangers (89) 239
Rohrschneider
Contribution to the concept and method of ––. I. (65) 115
Rohrschneider
Contribution to the concept and method of ––. II. (65) 121
Rohrschneider's classification scheme
Extension to the scheme of Rohrschneider. I. Use of alternative base stationary phases (92) 237
Rohrschneider constants
Calculation of ––– (92) 231
Rohrschneider constants
–––: Correction in the method of calculation (82) 366
Romashkino crude oil
Chromatographic analysis of primary light gasoline and Pbi-H fractions of ––– (51) 91
Routine analysis
Automated short column chromatography for high-speed ––– (85) 140
Rubbers
Antioxidants and stabilizers. XLVIII. Analysis of the components of stabilization and vulcanization mixtures for ––– by GPC and TLC methods (92) 361
Rubber
Detection of hexamethylenetetramine in vulcanizates (88) 423
Rubber
Method for distinguishing different types of processed ––– by GLC analysis of their volatile emanations (65) 560
Rumen fluid
GC of C_1 to C_5 fatty acids in ––– and fermentation media (80) 250
Rumen liquor fatty acids
Effect of carbon chain length upon extraction of volatile fatty acids from rumen liquor (63) 397
Ruthenium(III)
Qualitative chromatographic analysis of the platinum metals and gold on paper impregnated with Amberlite LA-1 hydrochloride (81) 129
Rutin
GC of flavonoids (79) 45
Rutine
Determination of steroids by densitometry of derivatives. III. Micro-assay of estrogens as DANSYL derivatives (74) 359

S

Saccharides
Analysis of monosaccharides by GLC of the O-methyl glycosides as trifluoroacetate derivatives. Application to glycoproteins and glycolipids (69) 291
Saccharides
Analysis of the poly- — of some soil bacteria of GC (91) 469
Saccharides
Chromatography of products found in the synthesis of mono- — from furans and thiophenes (91) 767
Saccharides
CC separation and quantitation of α-linked glucose oligo — (96) 255
Saccharides
Comparative studies on analytical methods for the separation of acidic mucopolysaccharides. I. CC techniques (62) 399
Saccharides
Effects of sorption and molecular size of solutes upon elution from polyhydroxylic gels (64) 263
Saccharides
Gel filtration of oligosaccharides on cross-linked starch and cellulose (59) 79
Saccharides
Improved method for the automated analysis of sugars by ion-exchange chromatography (59) 61
Saccharides
Improved method for the TLC separation of mono- and oligo — (61) 169
Saccharides
Ion-exchange chromatography of aldehydes, ketones, ethers, alcohols, polyols and — (98) 55 (review)
Saccharides
Modified solvent system and multiple detection technique for the separation and identification of mono- and oligo- — on cellulose thin layers (60) 203
Saccharides
Separation of some methyl-O-methyl-D-xylofuranosides by GC (58) 209
Saccharides
TLC of oligo- — with tungstic or molybdic acid as impregnant (63) 329
Saccharides
Two-dimensional TLC method for screening carbohydrate anomalies (95) 51
Saccharin
Application of CC and TLC to the detection of artificial sweeteners in foods (66) 283
Saccharin
Separation and detection of synthetic sweeteners by TLC (52) 173
Saccharides
Separation of polysaccharides and nucleic acids by chromatography on hydroxyapatite (59) 71
Safety system
Electronic — for high-voltage laboratory power supplies (77) 461
Safflower seed oils
Detection of mustard seed, soya bean and — in groundnut oil by TLC (100) 243
Safrole
Chemical lability of the tertiary aminopropiophenones of eugenol as characterized by combined GLC and chemical ionization MS (73) 59
Salicaceae
Phytochemistry of the —. III. A GLC procedure for the identification of plant phenols (71) 427
Salicaceae
Phytochemistry of the —. IV. Investigation of the bark of *Salix petiolaris* Sm (71) 435
Salicaceae
Phytochemistry of the —. V. The use of a GLC screening test to detect phytochemical variations in *Populus deltoides* Marsh (84) 309
Salicaceae
Phytochemistry of the —. VI. The use of a GLC screening test for the chemotaxonomy of *Populus* species (84) 315

Salicylamide
Analysis of aspirin and related compounds by LC (61) 253
Salicylates
Emergency toxicological screening for drugs commonly taken in overdose (80) 205
Salicylic acid
Non-aqueous solvent chromatography. III. Complex chromatography between the metal ion of a cation-exchange resin and organic compounds in organic solvents (78) 424
Saline solvent systems
Relation between the structure and the partition coefficient of yeast tRNA's in ——— (71) 203
Salix petiolaris Sm
Phytochemistry of the *Salicaceae*. IV. Investigation of the bark of ——— (71) 435
Salts
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of phenothiazine and related drugs (74) 35
Salting-out chromatography
Separation and analysis of mixtures of cationic surface-active agents by ——— (87) 117
Salting-out chromatography
Separation and determination of mixtures of anionic surface-active agents by ——— (77) 351
Salting-out chromatography
——— separation of hydroxybenzoic acid isomers (64) 95
Salting-out chromatography
Study of the separation mechanism of ionic surfactants in ———. Functions of alcohol and sodium chloride in the eluent (93) 467
Sample application
On the variation between individual operators and techniques in quantitative ——— in TLC (61) 157
Sample application
Semi-automatic device for multiple ——— to TLC plates (70) 174
Sample applicator
Fully automatic ——— for TLC and PC (71) 101
Sample applicator
New design for a continuous double ——— for LC (56) 357
Sample collection intervals
Paper tape reading control system for programming ——— in CC (69) 385
Sample loader
Automatic ——— for column chromatography (86) 178
Sample preparation
Amino acid analysis. Hydrolysis, ion-exchange cleanup, derivatization, and quantitation by GLC (94) 113
Sample preparation
Rapid ——— and spotting technique for TLC (82) 117
Sampling
Method of ——— by conventional syringes from moderately pressurized closed systems (60) 127
Sampling
Reactor or automotive effluent collector for chromatographic ——— (72) 176
Sampling systems
Analytical fluidic ——— (99) 267
Sampling system
——— and analysis of basic components of sprays by LC (65) 333
SAN-6706
Separation of ——— and some related compounds by TLC (66) 386
Sapogenin
GLC determination of the ratio of gitogenin and digitogenin in mixtures (54) 185
Sapogenin
Simultaneous estimation of sterol and steroidal ——— in plant extracts by densitometric TLC (95) 250
Saponins
Ion-exchange chromatography of soybean ——— (56) 281
Sapropelites
Application of chromatographic methods in biogeochemical investigations. Determination of the structures of ——— by thermal decomposition (91) 705
Saturated C_2–C_6 fatty acids
Capillary GC of free ——— (68) 55
Scandium
Reversed-phase extraction chromatographic separation of ——— from the rare earths, uranium and zirconium (96) 262

Scanner
Computerised --- for bidimensional radiochromatograms (53) 293
Scanner
Two-dimensional --- for radiochromatograms employing an electron multiplier detector *in vacuo* (59) 99
Schiff bases
GLC of --- of amino acid methyl esters (76) 236
Schizophrenics
GLC analysis of fluphenazine and fluphenazine sulfoxide in the urine of chronic --- (75) 294
Schizophrenics
TLC of chlorpromazine metabolites. Attempt to identify each of the metabolites appearing in blood, urine and feces of chronically medicated --- (75) 277
Scintillation counting
Continuous detection of radioactive effluents in LC by heterogeneous or homogeneous --- (72) 303
Scopolamine
Quantitative analysis of tropane alkaloids in pharmaceutical preparations (55) 417
Scraper
Computer-controlled --- for standard thin-layer plates (78) 159
Sea water
Determination of total hydrocarbons in --- at the microgram level with a flow calorimeter (90) 79
Secale cornutum
Photodensitometric *in situ* evaluation of --- alkaloids (72) 139
Secobarbital
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413
Secondary aliphatic alcohols
Chromatographic behaviour and the structure of --- (65) 311
Secondary aliphatic amines
Separation and identification of primary and --- as *p*-(N,N-dimethylamino)-benzene-*p'*-azobenzamides by PC and TLC (72) 145
Secondary amines
Perfluorobenzene derivatives as derivatising agents for the GC of primary and --- using electron capture detection (66) 255
Second moment
Moments analysis in non-linear chromatography. II. The --- (67) 1
Secretin
Partition chromatography of glucagon and --- on Sephadex (63) 423
Seekay Wax
Identification of chlorinated naphthalenes in Halowaxes 1031, 1000, 1001 and 1099 (84) 59
Selective purge
Device which permits selective purging of the solvent and other components from a GLC column (82) 263
Selectivity
Problems of --- and efficiency in LSC (91) 187
Selectivity behavior
--- of low-capacity, partially sulfonated, macroporous resin beads (90) 267
Selenium(IV)
Chromatography of a number of inorganic ions on DEAE-cellulose layers in formic acid media. A selective separation of --- (96) 223
Selenonicotinamide
Gel filtration behaviour of sulphur- and selenium-containing nicotinamide-analogues on Sephadex G-25 (51) 537
Sennosides
Quantitative assay for --- by fluorigenic derivatization on thin-layer chromatograms (79) 223
Sephadex G
Gel chromatographic study of trimethylsilyl derivatives of Sephadex with non-polar solvents (64) 61
Sephadex G-200
Simplified procedure for the preparation of --- for the separation of rat serum IgG and IgM (61) 156
Sephadex gels
Aqueous two-phase system of dextran/hydroxypropyldextran as a model in adsorption studies of --- (63) 420
Sephadex gels
Determination of the solvent regain of --- by CC (94) 267
Sephadex gels
Number of carboxyl groups in highly cross-linked gels and its influence on cation selectivity (71) 55
Sephadex LH-20
Gel filtration LC of fatty acids and other

fat samples using a Pye LC detector (71) 355
Sephadex LH-20
Hydroxyalicyclic derivates of --- for lipophilic gel chromatography (83) 39
Sephadex LH-20
Preparation and evaluation of a hydroxycyclohexyl derivative of --- (82) 337
Sephadex LH-20, chiral derivative of
Preparation and evaluation of a --- (75) 247
Sephadex LH-20 Modified Dextran
Effect of solvent change on the separation processes of --- (56) 225
Sepharose
Interactions between histone and DNA from calf and human tissues using activated --- CC (82) 343
Sepiolite
Selective adsorption properties of the surfaces of attapulgite and --- (77) 109
Sepiolite
Sieving effects of hormites in gas-adsorption chromatography (65) 349
Septumless liquid injection
--- for high-temperature GC on packed columns (68) 47
Serotonin
Quantitative analysis of catecholamine- and ---metabolites by fluorescent quenching on the thin layer (61) 162
Serotonin metabolites
Quantitative analysis of catecholamine and --- on thin-layer plates. II. Reflectance measurements after a specific photochemical reaction (74) 303
Serum
Chromatography of normal human --- and plasma on hydroxyapatite; characterisation of their constituents (60) 424
Serum
Effect of dextrans of different mean molecular weights on immunodiffusion reactions of --- fractions (77) 445
Serum albumin
Ion-exclusion effects on the chromatography of acetylcholinesterase and other proteins on agarose columns at low ionic strength (92) 127
Serum antibodies
Simplified procedure for the preparation of Sephadex G-200 for the separation of rat serum IgG and IgM (61) 156
Serum, human
Analysis of trace volatile metabolites in --- and plasma (91) 379
Serum lipids
Microanalytical quantitation of --- by TLC utilizing an automated applicator (63) 63
Serum proteins
Method for the rapid elution of proteins from "mashed gel" after starch gel electrophoresis (94) 107
Serum proteins
Use of acrylamide-agarose gel beads in the study of --- (92) 137
Serum tolbutamide
Determination of --- by GC (71) 421
L-Seryltyrosine
Separation of dansylated products of --- and their identification (53) 598
Sesquiterpenes
Analysis of spike oil by GC–MS (74) 195
Sesquiterpene lactones
Detection and TLC of --- from *Geigeria* species (94) 255
Sevin
Fluorigenic labelling of carbamates with dansyl chloride. I. Study of reaction conditions (61) 174
Sewage effluents
Determination of p.p.b. levels of citric and nitrilotriacetic acids in tap water and --- (72) 259
Shale
Investigation of hydrocarbon components of a Yugoslav --- "bitumen" (65) 147
Shellac
Chromatographic separation of the alkaline hydrolysis products of --- (84) 51
Shogaols
Natural pungent compounds. IV. Examination of the gingerols, ---, paradols and related compounds by TLC and GC (67) 29
Sialic acid
Densitometric method for the determination of gangliosides after their separation by TLC and detection with resorcinol reagent (86) 200
Signal processing
Computer-controlled mass fragmentography with digital --- (81) 47

Silanisation
Analysis of steroids by high resolution GLC. I. Preparation of apolar columns (74) 177
Silanisation
Influence of —— on adsorptive properties of supports in gas–liquid partition chromatography (72) 5
SILAR-5CP
Additivity of retention data for ethylenic functions in aliphatic fatty acids. II. Polar liquid phases (86) 83
Silica
Influence of the particle size (5–35 μm) of spherical —— on column efficiencies in high-pressure LC (99) 377
Silica gel
Characterization of —— by its pore system and activity (78) 63
Silica gels
Chromatographic characterization of surface-modified —— (87) 35
Silica gels
Effect of the geometrical structure and the surface chemistry of —— on separations in LSC (58) 11
Silica gel
GC properties of a modified, wide-pore —— (78) 228
Silica gel
Influence of the history of —— in TLC (97) 131
Silica gel
—— as an insoluble carrier for the preparation of selective chromatographic adsorbents. The preparation of 8-hydroxyquinoline substituted silica gel for the chelation chromatography of some trace metals (76) 455
Silica gel coated layers
TLC comparison of commercially available silica gel coated films and sheets with silica gel coated glass plates, demonstrated on toxicologically interesting substances (63) 67
Silica gel modified with ammonium bisulfate
The use of —— in TLC (66) 172
Silica gel plates
Variations in the manufacture of commercial —— (90) 388
Silica gel sintered plates
TLC on —— (74) 73
Silica gel thin layers
TLC of chlorinated anilines on zinc salt-impregnated —— (74) 142
Silica microsphere column packings
Porous —— for high-speed LSC (83) 149
Silica packing
High-performance GPC with a new type of —— material (99) 435
Silica spheres
Preparation of porous —— for column LC (83) 5
Siliceous supports
GC study of the existence and the physical state of monomolecular films of stationary phases in contact with ——
The apparent increase of the melting point of the film (68) 9
≡Si–N= bonded stationary phases
—— for LC (83) 15
Silicones
Distribution of support-bonded —— on Chromosorbs (56) 295
Silicone
In situ synthesis of —— liquid phases for chromatography (60) 329
Silicone
Response of the alkali flame ionisation detector to ——, tin and lead compounds (59) 429
Silicones
Surface-bonded —— from volatile monomers for chromatography (53) 487
Silicones
Use of support-bonded —— for the extraction of organochlorines of interest from water (73) 99
Silicones, support-bonded
Sampling of air pollutants with support-bonded chromatographic phases (62) 15
Silochrom
Problems of selectivity and efficiency in LSC (91) 187
Silochroms
—— as adsorbents and supports in LC (80) 167
Siloxanes
Application of stationary phases in preparative-scale GC (77) 41
Siloxanes
Search for organics in hydrolysates of lunar fines (54) 169
Silver
Isotachophoresis on paper. Part II. The

separation of Ag(I), Tl(I), Hg_2^{2+} and Pb(II) (79) 380
Silver
PC investigation of the thiourea complexes of copper(I), ——(I) and gold(I) (65) 425
Silver activation
Quantitative analysis of thin-layer chromatograms with low ^{14}C-activities by —— and mercury labeling of the autoradiograms (76) 191
Silver ions
Determination of complex association constants from GC data. II. Complexes of —— with substituted alkenes in ethylene glycol at 40 °C (76) 115
Silver-nitrate-impregnated thin layers
Stabilization of —— (79) 349
Silver(I)–styrene complexes
TLC determination of the stability of complexes of substituted styrenes on silver nitrate-impregnated silica (95) 175
Silylation
—— of microgram samples in a GC trap (82) 370
Silylation agents
High-boiling —— for GC trace analysis. I. Tetrakis-trimethylsilyl-α, ω-diaminoalkanes (74) 121
Simultaneous adsorption isotherms
New method for the determination of —— in gas–solid systems by means of GC (71) 173
Sineguan
GC determination of dopexin in human urine following therapeutic doses (61) 231
Single-ion monitoring
GLC and mass fragmentography of S-*n*-propyl N-monoalkyl dithiocarbamates (99) 291
Sintered glass–alumina plates
TLC on alumina–sintered glass plates (86) 57
Sintered plates
TLC on silica gel —— (74) 73
Sitosterol
Preparative argentation CC for separation of sterols from orange vesicles (79) 147
β-Sitosterol
Separation of —— and campesterol on hydrophobic hydroxylalkyl Sephadex LH-20 (67) 170
Skylab IV
Concentration and analysis of organic volatiles in —— (99) 673
Slimicides
Artefact in the GC determination of impurities in pentachlorophenol (67) 247
Slurries
Direct sampling of —— for the GC analysis of volatile compounds (91) 513
Small particles
Considerations of —— in different modes of LC (99) 407
Small surface areas
Disturbing phenomena in the measurement of —— by the dynamic desorption method (65) 71
Soap
Separation and determination of alkylsulfate and —— by salting-out chromatography (71) 93
Sodium antimonate
Synthesis and IR, X-ray and ion-exchange studies of some amorphous and semicrystalline phases of titanium antimonate. Separation of VO^{2+} from various metal ions (62) 431
Sodium dodecyl sulfate
Logarithmic sample slot former for —— electrophoresis (64) 190
Sodium fluorescein
Sensitive non-destructive visualization of isoprenoid quinones on reversed-phase thin-layer chromatograms (74) 357
Soil humic substances
Isotachophoresis and isoelectric focusing of —— in polyacrylamide gel (93) 248
Soil organic phosphorus
Gel chromatography of —— (60) 75
Solanesol
Analytical methods for tobacco lipids. I. A rapid method for the estimation of —— by thin-layer densitometry (61) 180
Solid-electrode flow-through electrochemical cells
Small-volume ——. Preliminary evaluation using pulse polarographic techniques (83) 331
Solid injection
New technique for —— in GLC. Analysis of barbiturates in urine (66) 136
Solid injection
Qualitative analysis of solvents in steroid hormones by means of GLC and —— (69) 370

Solid injection
Quantitative determination of residual solvents in steroid hormones by means of GLC and ––– (71) 542
Solid phase
GC method with high resolving power, which can easily be automated: reversed-phase chromatography with three collectors (72) 241
Solid sampling gas chromatography
Comments on ––– (90) 285
Solute
Gel chromatography: interactions between gel matrix, solvent and ––– (80) 187
Solute
Relationships between the –––, solvent and adsorbent in TLC. III. Relationship between the molecular structure of the solvent and the migration of ––– on the layer. Application to the chromatography of neutral organophosphorus compounds (76) 381
Solute diffusivities
A theoretical derivation of the axial diffusion coefficient in chromatography (87) 315
Solute molecules
Correlation of retention data with the chemical structure of the ––– (65) 103
Solution phenomena
Contribution of adsorption and ––– in gas–liquid partition chromatography systems in which infinite dilution of solute may be assumed (67) 21
Solvent
Gel chromatography: interactions between gel matrix, ––– and solute (80) 187
Solvents
Qualitative analysis of ––– in steroid hormones by means of GLC and solid injection (69) 370
Solvent
Relationships between the solute, ––– and adsorbent in TLC. III. Relationship between the molecular structure of the ––– and the migration of solute on the layer. Application to the chromatography of neutral organophosphorus compounds (76) 381
Solvent advance
Programmed multiple development. Spot behavior during –––; a mathematical treatment (99) 231
Solvent properties
Classification of the ––– of common liquids (92) 223
Solvent pump
Inexpensive pneumatic ––– for high-pressure LC (72) 388
Solvent regain
Determination of the ––– of Sephadex gels by CC (94) 267
Solvent selectivity
––– in adsorption chromatography on alumina. Non-donor solvents and solutes (63) 15
Solvent velocity
LC. IV. Effects of ––– on separation using ion-exchange resin (71) 389
Sorbents, *see also* Adsorbents
Sorbent
China clay – a ––– for TLC (60) 363
Sorbents
Elucidation of the decrease in the homologous retention increment on raising the polarity of a stationary phase in GC (78) 269
Sorbents
Evaluation of changes in the specific surface area of ––– based on the volume of stationary phase in GLC (78) 261
Sorbent
Rapid GC analysis on Spherosil (84) 21
Sorbent layer
Application of direct spectrophotometry to the analysis of chromatograms. II. Effects of ––– on the bathochromic shift of the absorption maximum of a compound in a thin layer (79) 173
Sorbic acid
Determination of ether-soluble food preservatives after direct extraction on paper (76) 199
Sorbic acid
Determination of the isomers of ––– by GC (60) 253
Sorbic acid
Studies on charge transfer complexes of some conjugated compounds with explosives (59) 457
Sorbofol®
Flat-bed separation of tar substances on ––– (78) 101
Sorbose
GC–MS study on TMS derivatives of –––, 2-keto-4-gulonic acid and ascorbic acid (63) 379

Sorption
Effect of ——— on retention times in non-linear chromatography (84) 1
Sorption
Thermodynamics of interactions of hexenes with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Sorption characteristics
——— of hydroxyethyl methacrylate gels (76) 159
Sorption conditions
Affinity chromatography (91) 261
Sorption equilibria
——— between proteins and cation exchangers (89) 239
Sorption mechanism
Mass transfer coefficients in GC on porous polymers of the Porapak type (91) 51
Sorption properties
Study of the ——— of the "spherosils" (65) 249
Sorption properties
Study of ——— and structure of Porasils over a wide temperature range (91) 321
Soups
Determination of creatinine in ——— and soup preparations by ion-exchange chromatography. II. Automatic apparatus (53) 517
Soybean
Detection of mustard seed, ——— and safflower seed oils in groundnut oil by TLC (100) 243
Soybeans
Pyrolysis of isopropyl 5-chloro-2-hydroxycarbanilate during GC (62) 29
Soybean saponins
Ion-exchange chromatography of ——— (56) 281
Specific retention volume
Retention volume in high-pressure GC. I. Thermodynamics of the ——— (95) 1
Specific retention volume
Retention volume in high-pressure GC. II. Comparison of experimental data with the prediction of a pseudo-binary model (95) 13
Spectrodensitometry
Use of silica gel modified with ammonium bisulfate in TLC (66) 172
Spectrofluorimetric detector
High-speed liquid chromatograph with a flow-——— and the ultramicro-determination of aromatic compounds (83) 373
Spectrophotometer
Scanning of acrylamide gels by an inexpensive accessory apparatus for a ——— (85) 147
Spectrophotometric evaluation of chromatograms
On the standardization of direct ———. II. A new function for photometry (69) 399
Spectrophotometric quantitative analysis
Standardisation of the direct ——— of chromatograms. I. Simultaneous transmittance and reflectance measurements (63) 211
Spectrophotometric quantitative analysis
Standardisation of the direct ——— of chromatograms. III. A linear detector system for quantitative TLC and its importance (73) 151
Spectrophotometry
Application of direct ——— to the analysis of chromatograms. II. Effects of sorbent layer on the bathochromic shift of the absorption maximum of a compound in a thin layer (79) 173
Spectrophotometry
Application of direct ——— to the analysis of chromatograms. III. A new micro thin-layer chromatoplate and its application to the analysis of tocopherols (79) 179
Spectrophotometry
Rapid-scanning ——— as a new detection system in chromatography (83) 357
Speed
Efficiency, resolution and ——— of open tubular columns as compared to packed columns (90) 5
Spermidine
Determination of polyamines in human urine by an automated ion-exchange method (89) 231
Spermidine
Ion-exchange chromatographic separation and fluorometric detection of urinary polyamines (90) 129
Spermidine
PC resolution of aliphatic guanidino amines, diamines and polyamines (86) 214
Spermine
Determination of polyamines in human urine by an automated ion-exchange method (89) 231
Spermine
Ion-exchange chromatographic separation

and fluorometric detection of urinary polyamines (90) 129
Spermine
PC resolution of aliphatic guanidino amines, diamines and polyamines (86) 214
Spherosil
Rapid GC analysis on ---- (84) 21
Spherosils
Study of the sorption properties of the "---" (65) 249
Sphingomyelin
Miniature TLC determination of the lecithin/---- ratio in amniotic fluid (89) 197
Sphingomyelin
Unequivocal identification of ---- in the lipids of *Tetrahymena pyriformis* (86) 250
Spike oil
Analysis of --- by GC–MS (74) 195
Spironolactone
GC determination of levels of aldadiene in human plasma and urine following therapeutic doses of --- (55) 249
Spots
Distortion of ---- by mutual effect of sample constituents in PC separations (78) 453
Spot behavior
Programmed multiple development. --- during solvent advance; a mathematical treatment (99) 231
Spot elution chromatography
Comparative study of certain aniline salts used in the determination of carbohydrates by --- (84) 220
Spot size
Criteria for resolution by TLC and PC. I. ----, migration and R_F values: examples from analysis of nucleic acid hydrolyzates (89) 343
Spotting/striping machine
Automatic continuous-flow --- (92) 87
Spotting technique
Rapid sample preparation and --- for TLC (82) 117
Sprays
Sampling system and analysis of basic components of --- by LC (65) 233
Spray device
Motorized --- for qualitative and quantitative TLC (72) 403
Spray reagent
Usage of fluorescamine as a --- for TLC (89) 361
Squalane
Characteristics of retention in GLC (67) 213
Squalane
Determination of activity coefficients and thermodynamic quantities by GLC (81) 19
Squalane
GLC study of the adsorption properties of a stationary phase containing a mixture of --- and Bentone 34 (89) 295
Squalane
Identification of straight-chain undecenes by capillary GC on --- (65) 137
Stabilizers
Antioxidants and ----. XXXIII. Analysis of --- of isotactic polypropylene: application of GPC (65) 279
Stabilizers
Antioxidants and ----. XLVII. Behaviour of amine-antioxidants and antiozonants and model compounds in GPC (88) 99
Stabilizers
Antioxidants and ---. XLVIII. Analysis of the components of stabilization and vulcanization mixtures for rubbers by GPC and TLC methods (92) 361
Stabilizers
GLC determination of nitrate esters, --- and plasticizers in nitrocellulose-base propellants (71) 23
Stahl's test dyes
TLC on silica gel sintered plates (74) 73
Staining test
Selective ---- for the sensitive detection of some rare amino acids (74) 152
Standard mixtures
Use of chemical methods for the preparation of --- for qualitative analysis by GC (98) 157 (review)
Stannic arsenate
Influence of temperature on the ion-exchange properties of ---. Separation of Pb^{2+}, UO_2^{2+} and Cr^{3+} from numerous metal ions (54) 269
Stannous ferrocyanide
Synthesis, ion-exchange behaviour and analytical applications of ---. Separation of Mg–Ca, Mg–Ba, Mn–Co, Mn–Ni and Y–Th (65) 547

Starch
Quantitative separation of ——— components on a cellulose column (84) 75
Starch gel
——— for gel filtration (97) 270
Starch gel
Use of cross-linked hydrolysed starch in gel electrophoresis (91) 873
Starting-point generating device
Simple, noise-free ——— for LC (74) 128
Stationary liquid
Column packings for GLC by coating the ——— on the solid support in the vapour phase (88) 347
Stationary liquid phases
Liquid crystals. III. 4,4'-Di-*n*-alkoxyazoxybenzenes and their mixtures as ——— in GLC (71) 233
Stationary phases, *see also* Supports
Stationary phases
Alkali metal salts of benzenesulphonic acid as ——— in GC (71) 534
Stationary phases
Application of ——— in preparative-scale GC (77) 41
Stationary phases
Aromatic hydrocarbon ——— for GLC (86) 17
Stationary phases
Behavior of *p*-(*p*-ethoxyphenylazo)phenyl undecylenate (EPAPU) liquid crystal as a chromatographic liquid phase coated on glass beads (99) 135
Stationary phases
Characteristic donor–acceptor properties of amines and cyclic nitrogen-containing substances determined by their retention on ——— of different types (95) 91
Stationary phases
Chemically bonded ——— on diatomite supports for use in high-performance LC (91) 201
Stationary phases
Chemically bonded ——— with variable selectivity (83) 25
Stationary phases
Chromatographic characterization of surface-modified silica gels (87) 35
Stationary phases
Complex-forming ——— in high-speed LC (83) 91
Stationary phases
Contribution to the concept and method of Rohrschneider. I. (65) 115
Stationary phases
Contribution to the concept and method of Rohrschneider. II. (65) 121
Stationary phases
Contribution to the separation of rare earths by extraction chromatography with di(2-ethylhexyl)phosphoric acid. II. The behaviour of the matrix and its influence on the behaviour of microcomponents (87) 351
Stationary phases
Contribution to the theory of the retention index system. V. Characterization of polarity of ———. McReynolds system (73) 11
Stationary phases
Contribution to the theory of the retention index system. VI. Calculation of the retention indices of compounds containing halogen atoms or hydroxyl groups, amines, ketones, esters, heterocyclic compounds, adamantanes, silanes and steroids on apolar and polar ——— in GLC (81) 1
Stationary phases
Correlation between physical properties of halogenated alkanes and their GC behaviour on polar and non-polar ———. II. Branched-chain chloro-, bromo- and iodoalkanes (79) 33
Stationary phases
Decomposition of fluorosilicone ——— in solution (70) 81
Stationary phase
Determination of the amount of ——— in packings for GLC (93) 369
Stationary phases
Direct GC resolution of enantiomers on optically active mesophases. I. Smectic carbonyl-bis-(D-leucine isopropyl ester) (87) 243
Stationary phase
Direct GC resolution of enantiomers on optically active mesophases. II. Effects of ——— structure on selectivity (88) 41
Stationary phases
Discussion of adsorptive properties of column packings in GC. I. Energy properties of the material supporting liquid ——— (61) 217
Stationary phases
Effect of temperature on the retention

behaviour and polarity of several polysiloxane --- (84) 231
Stationary phases
Evaluation of the properties of "Apiezon" greases as --- in GLC (66) 213
Stationary phases
Evaluation of the properties of polyethylene glycols as --- in GLC (90) 291
Stationary phases
Evaluation of the specificity of the --- in GC (91) 105
Stationary phases
Extension to the scheme of Rohrschneider. I. Use of alternative base --- (92) 237
Stationary phase
Free fatty acid phase high resolution capillary columns (61) 334
Stationary phase
GC method with high resolving power, which can easily be automated: reversed-phase chromatography with three collectors (72) 241
Stationary phases
GC on modified supports (99) 45
Stationary phases
GC retention and molecular structure. An approach to systematic identification of functional groups and carbon number (99) 203
Stationary phases
GC on some self-associating octadecane derivatives (51) 65
Stationary phases
GC study of the existence and the physical state of monomolecular films of --- in contact with siliceous supports. The apparent increase of the melting point of the film (68) 9
Stationary phases
GC study of a ternary liquid system (59) 151
Stationary phase
GLC study of electron-donor–acceptor systems. V. Solute adsorption at the gas–liquid interface (61) 1
Stationary phase
GLC studies of electron-donor–acceptor systems. VI. 2,4,7-Trinitrofluorenone as a complexing additive to the --- (61) 7
Stationary phase
GLC study of the adsorption properties of a --- containing a mixture of squalane and Bentone 34 (89) 295
Stationary phases
GSC on modified alumina ---. I. Behaviour of aromatic hydrocarbons (60) 406
Stationary phases
Influence of reference substances on retention behaviour of homologous compounds on --- of increasing polar character (99) 329
Stationary phases
Influence of surface tension on the homogeneity of the film of --- in glass capillary columns (79) 15
Stationary phases
Influence of temperature on the polarity of --- used in GLC (59) 21
Stationary phase
In situ synthesis of silicone liquid phases for chromatography (60) 329
Stationary phases
Interactions of polar solutes with non-polar --- in GLC (58) 81
Stationary phase
Mass transfer terms in porous layers and particles (68) 1
Stationary phase
Polyphenyl ether sulfones. Thermally stable polar phases for GC (99) 51
Stationary phases
Polysiloxane --- (73) 419 (review)
Stationary phases
Preparation, performance and special applications of glass capillary columns (99) 63
Stationary phase
Reversed-phase extraction chromatography using a tetra-substituted pyrazole as --- (84) 407
Stationary phases
≡Si–N= bonded --- for LC (83) 15
Stationary phases
Silochroms as adsorbents and supports in LC (80) 167
Stationary phases
Surface characteristics of treated glasses for the preparation of glass capillary columns in GLC (99) 81
Stationary phases
System of standard retention indices and its uses. The characterisation of --- and the prediction of retention indices (57) 1

Stationary phases
Temperature dependence of the retention indices of branched-chain paraffins on non-polar ---. A method for its calculation on the basis of molecular structure (79) 23
Stationary phase
Theory of GLC. The influence of the thickness of the stationary liquid film (80) 147
Stationary phases
Thermodynamics of interactions of hexenes with --- containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Stationary phases
Thermostable polar-phase open-tubular glass capillary columns (99) 103
Stationary phases
Use of amino acids as --- in GC. II. Polyglutamate (93) 233
Stationary phases
Use of thermodynamic solubility parameters for the characterization of liquid phases (99) 173
Stationary phase distribution
Cathodoluminescence and ---: experiments with diatomite supports (92) 267
Stationary phase films
Effect of coating parameters on the quality of --- in glass capillary columns (65) 39
Stationary phase volume
Specific surface area of GLC column packings as a function of --- (93) 251, 253
Stationary phase, polarity of
Elucidation of the decrease in the homologous retention increment on raising --- in GC (78) 269
Stationary phases, polyester
Improved columns for the separation of C_{14}–C_{20} fatty acids in the free form: (91) 119
Stationary phase, volume of
Evaluation of changes in the specific surface area of sorbents based on --- in GLC (78) 261
Statistical moments
--- in linear equilibrium chromatography (93) 1
Stearic acid
GLC determination of free polyglycols in polyoxyethylated commercial --- via their acetate esters (60) 411
Steric factor
--- in GLC retention (87) 29
Steric isomers
Selective adsorption properties of the surfaces of attapulgite and sepiolite (77) 109
Stereoisomeric constitutions
Chemical constitution and chromatographic behaviour. Influence of isomeric and --- on the chromatographic migration (63) 9
Steroids
Analysis of 5α-androstanediol monoacetates by TLC and GLC and MS (88) 271
Steroids
Analysis of estrogenic --- in urire by high-speed LC (83) 421
Steroids
Analysis of --- by high resolution GLC. I. Preparation of apolar columns (74) 177
Steroids
Analysis of --- by high-resolution GLC. II. Application to urinary samples (91) 393
Steroids
Analysis of ---. XXIII. Microdétermination of Δ^5-steroids after TLC separation (76) 502
Steroids
Analysis of --- mixtures by CC with continuous monitoring of the eluate by a flame ionisation detector (60) 179
Steroids
Analytical chemical studies on ---. Part L. Determination of urinary metabolites of 16α-chloroestrone methyl ether by GC (60) 418
Steroids
Analytical chemical studies on ---. LII. Studies on steroid conjugates. VII. GC of steroid N-acetylglucosaminides (62) 369
Steroids
Analytical chemical studies on ---. LIV. Studies on metabolism of 3-deoxy---. IX. Determination of urinary metabolites of androst-5-en-17-one by GC (64) 239
Steroids
---. I. Application of TLC to the separation of 2,4-dinitrophenylhydrazones

of the physiological important 17-keto-steroids (61) 183
Steroids
Ascorbic acid as an antioxidant in TLC of cortico--- (94) 291
Steroids
Behaviour of dehydroisoandrosterone, testosterone and their conjugates on DEAE-Sephadex (54) 431
Steroids
Capillary CC of ---: Evaluation of stationary phases (56) 353
Steroids
Chromatogram staining technique useful for 3-β-hydroxy-5-ene --- and certain steroid drugs (59) 216
Steroids
Chromatographic properties of the epimeric oestriols (59) 121
Steroids
Chromatographic separation of oestrone, 17β-oestradiol and oestriol on Sephadex G-10 (58) 227
Steroids
Chromatographic study of -- and methyl esters in nucleated erythrocytes (53) 217
Steroids
Chromatography of adrenocortical --- on silicic acid columns (53) 225
Steroids
Chromatography of --- on a thin layer of charcoal (78) 149
Steroids
Comparative GC studies of corticosteroid boronates (54) 193
Steroids
Convenient system for the separation of some --- on Sephadex LH-20 (92) 465
Steroids
Detection and quantitative measurement of fecal water pollution using a solid-injection GC technique and fecal --- as a chemical index (86) 107
Steroids
Determination of plasma testosterone by combined GC–MS (89) 215
Steroids
Determination of progesterone in plasma by thin-layer densitometry (86) 151
Steroids
Determination of small amounts of corticosterone in high-level lipid plasma by means of TLC (94) 287
Steroids
Determination of --- by densitometry of derivatives. I. Assay of oestrogens as azobenzene-4-sulphonates (51) 322
Steroids
Determination of --- by densitometry of derivatives. II. Direct fluorometry of Dansyl oestrogens (51) 325
Steroids
Determination of --- by densitometry of derivatives. III. Micro-assay of oestrogens as Dansyl derivatives (74) 359
Steroids
Determination of testosterone in human urine by means of horizontal TLC and GLC (58) 213
Steroids
Direct coupling of high-resolution open-hole glass tubular columns to a mass spectrometer for biochemical applications (91) 385
Steroids
Disturbance factor in the radio-immuno-assay of aldosterone from urine (84) 165
Steroids
Evaluation of a GLC method for the determination of urinary -- using high-resolution open-tubular glass capillary columns (96) 33
Steroids
Evaluation of several solvent systems in the TLC separation of cardiotonic aglycones and glycosides from cholesterol, phytosterols and their esters (73) 279
Steroids
GC analysis of fecal pollution sterols on a single combined packed column (53) 209
Steroids
GC determination of levels of aldadiene in human plasma and urine following therapeutic doses of spironolactone (55) 249
Steroids
GLC of keto- and hydroxyandrostanes (81) 144
Steroids
GLC studies of reactions and structural relationships of ---. Part I. Positions 3, 11 and 17 in the androstane series (96) 47
Steroids
Group separation of steroidal hormones

and stilbenes from biological material (95) 232
Steroids
High-efficiency LC in pharmaceutical analysis (83) 431
Steroids
High-pressure LC of corticosteroids (76) 244
Steroids
Hydroxyalicyclic derivatives of Sephadex LH-20 for lipophilic gel chromatography (83) 39
Steroids
Identification and quantitative determination of sterols (53) 537
Steroids
Manganous chloride spray reagent for cholesterol and bile acids on thin-layer chromatograms (53) 389
Steroids
Measurement by GC–MS of oestra-1,3,5-triene-3,15α,16α,17β-tetrol (oestetrol) in pregnancy urine (54) 345
Steroids
Measurement of plasma testosterone as the iodomethyldimethylsilyl ether by GLC (56) 37
Steroids
Method for the estimation of some synthetic glucocortico--- in rat muscle (77) 161
Steroids
New fluorometric determination of urinary testosterone by thin-layer densitometry (63) 349
Steroids
New method for preventing oxidative decomposition of catechol oestrogens during chromatography (71) 465
Steroids
New type of micro-analysis of --- hormones in biological materials by GC with flame ionisation and electron capture detection. I. The urinary profile (58) 277
Steroids
Potentiality of the coupling of column LC and field desorption MS (83) 315
Steroids
Precise and sensitive method for the analysis of --- in small urine samples by TLC and GLC (68) 67
Steroids
Preparation and assessment of fluorocarbonsilyl ethers as GC derivatives for --- (89) 225
Steroids
Preparation and evaluation of a hydroxycyclohexyl derivative of Sephadex LH-20 (82) 337
Steroids
Quantitative analysis of trace amounts of oestrogenic --- in pregnancy urine by column liquid–liquid chromatography with UV detection (62) 79
Steroids
Quantitative determination of cholesteryl 14-methylhexadecanoate by radio-GC (91) 505
Steroids
Quantitative determination of cortico--- from plasma by high-pressure LC (84) 396
Steroids
Quantitative evaluation of GC separated --- from the products of breakthrough time and peak height (62) 47
Steroids
Reagent for the non-destructive location of --- and some other lipophilic materials on silica gel thin-layer chromatograms (59) 220
Steroids
Retention indices of --- and their group increment with temperature (76) 133
Steroids
Sensitive detection of oestrogens using an automatic conductivity detector after TLC (53) 391
Steroids
Separation of photochemical isomers of ergosterol by TLC (59) 226
Steroids
Separation of rat cortico---- on Sephadex LH-20 (65) 568
Steroids
Separation of ---- and marker dyes on ion-exchange resins (57) 158
Steroids
Separation of C_{19}-16-unsaturated --- from C_{21} and other C_{19}-steroids by two-dimensional TLC (61) 358
Steroids
Separation of urinary androstanediol and pregnanediol isomers by a combined GLC–TLC method (93) 149

Steroids
Silochroms as adsorbents and supports in LC (80) 167
Steroids
Simple staining technique for the detection of —— on silica-gel thin-layer glass plates (65) 459
Steroids
Simple staining technique useful for distinguishing 3-hydroxy-4-ene from 3-hydroxy-5-ene ——— on silica gel thin layers, and for other purposes (67) 188
Steroids
Simultaneous estimation of sterol and steroidal sapogenin in plant extracts by densitometric TLC (95) 250
Steroids
Simultaneous separation of common mammalian Δ^4-3-oxo-——— and oestrogens using two-dimensional TLC (66) 177
Steroids
Standardization of direct spectrophotometric evaluation of chromatograms. II. A new function for photometry (69) 399
Steroids
———. II. Use of multiple development in the correlation of the chemical constitutions and the chromatographic migrations of some 17-keto-steroids and their 2,4-dinitrophenylhydrazones (71) 319
Steroids
TLC and elution of picogram amounts of estradiol (59) 452
Steroids
TLC and GC of some 11-oxygenated cholesterols, 20-isocholesterols, and related compounds (70) 194
Steroids
TLC and PC of steroidal β-D-glucopyranosides, β-D-glucopyranosiduronic acids, and derivatives (54) 97
Steroids
TLC identification of oestrogens and progestogens in oral contraceptives (51) 517
Steroids
TLC of oestrogens, their derivatives and cholesterol (89) 374
Steroids
TLC of pg amounts of oestradiol (90) 402
Steroids
TLC on silica gel sintered plates (74) 73
Steroids
TLC separation of equine oestrogens on silica gel H silver nitrate plates (62) 158
Steroids
Thin-layer partition chromatography of —— using volatile stationary phases (54) 91
Steroids
Use of different silylating agents for structure analyses of ——— (91) 407
Steroids
Use of polyamide for TLC separation of ——— (70) 199
C_{19}-Steroids
Correlation between the chemical structure and retention behaviour of ——— (71) 17
Steroid N-acetylglucosaminides
Analytical chemical studies on steroids. LII. Studies on steroid conjugates. VII. GC of ——— (62) 369
Steroidal glucosiduronic acids
Anionic liquid ion exchangers for chromatography of ——— and other polar compounds (66) 337
Steroid conjugates
TLC separation of conjugated oestrogens on Silica Gel G–silver nitrate plates (69) 419
Steroid derivatives
TLC of ——— for radioimmunoassay (69) 151
Steroid hormones
Lipophilic gel and gas-phase analysis of ———. Application to the human newborn (99) 485
Steroid hormones
Qualitative analysis of solvents in —— by means of GLC and solid injection (69) 370
Steroid hormones
Quantitative determination of residual solvents in ——— by means of GLC and solid injection (71) 542
Steroid number
Retention indices of steroids and their group increment with temperature (76) 133
Sterols
Evaluation of recent GLC liquid phases for resolution of acetylated plant ——— (75) 187
Sterols
GC analysis of fecal pollution ——— on a single combined packed column (53) 209

Sterols
Identification and quantitative determination of — (53) 537
Sterols
PC separation of sterol mixtures by a reversed-phase system (62) 161
Sterols
Polyphenyl ether sulfones. Thermally stable polar phases for GC (99) 51
Sterols
Preparative argentation CC for separation of — from orange vesicles (79) 147
Sterols
Separation of β-sitosterol and campesterol on hydrophobic hydroxylalkyl Sephadex LH-20 (67) 170
Sterol
Simultaneous estimation of — and steroidal sapogenin in plant extracts by densitometric TLC (95) 250
Sterol
Simultaneous fluorometric analysis of five lipid classes on TLC (60) 111
Sterols
— metabolism. XXII. GC differentiation among cholesterol hydroperoxides (75) 108
Sterol hydroperoxides
Detection of — on thin-layer chromatoplates by means of the Wurster dyes (66) 101
Stigmasterol
Preparative argentation CC for separation of sterols from orange vesicles (79) 147
Stilbenes
Group separation of steroidal hormones and — from biological material (95) 232
Stimulants
Extraction techniques for narcotics, barbiturates, and central nervous system — in a drug abuse urine screening program (60) 83
Stokes radius
Molecular filtration on Sepharose 6B. Empiric relationships between the distribution coefficient and the — on one hand and the molecular weight on the other of proteins of different degrees of asymmetry (89) 251
Straight-chain C_{12}-alkenes
Determination of the boiling points of — from their GC retention indices (71) 243
Straight-chain terpene alcohols
Analysis of — by GC (88) 15
Straight-chain undecenes
Identification of — by capillary GC on squalane (65) 137
Strawberry
Polyvinylpyrrolidone CC of —, rhubarb, and raspberry anthocyanins (55) 405
Street drugs
Rapid screening procedure for some — by TLC (64) 129
Streptose
Chromatography of products found in the synthesis of monosaccharides from furans and thiophenes (91) 767
Streptothricin
Chromatography of racemomycins on dextran gel (56) 360
Strophantus glycosides
A method for the identification and quantitative analysis of — (52) 313
Strychnos alkaloids
—. XXVII. Separation and characterisation of isostrychnine in *Strychnos nux vomica* L. seeds (88) 416
Styragel
Comparative study of Porasil and — as column supports for GPC (55) 99
μStyragel®
Considerations of small particles in different modes of LC (99) 407
Styrenes
TLC determination of the stability of complexes of substituted — on silver nitrate-impregnated silica (95) 175
Styrene divinylbenzene copolymers
Modification of the XAD-2 resin column method for the extraction of drugs of abuse from human urine (71) 549
Submicroliter volumes
Rapid quantitative spotting of — for TLC (71) 291
1-(*m*-Substituted phenyl)-flavazoles
PC behaviour of homologous linear polymers. The isomaltodextrin, maltodextrin, and cello-dextrin series and their — (70) 99
Subtracting agent
Phosphoric acid as a — for nitrogen bases in reaction GC (67) 366

Subtractor columns
Identification of peaks in GC by the use of ---. II. The action of free fatty acid phase on aldehydes (66) 249
Succinate
Analytical isotachophoresis in capillary tubes. Transformation of pyruvate to --- by calf heart mitochondrial enzymes (82) 407
Succinic acid
Application of the ligand exchange method to the separation of some aliphatic carboxylic acids (95) 127
Succinic acid
GC determination of oxalic acid, malonic acid and --- from biological material (92) 431
Succinic acid
Quantitative GC determination of β-hydroxybutyric acid with application to eggs (51) 423
Succinic acid
Sensitivity of the FID for dicarboxylic acid esters (77) 175
Sucrose
GC separation of α-lactose and -- as the trimethylsilyl derivatives (90) 345
Sucrose enzyme mixtures
TLC separation of oligosaccharides isolated from --- (72) 212
Sucrose esters
Analysis of --- of long-chain fatty acids on Sephadex LH-20 (54) 367
Sugars, *see also* Carbohydrates
Sugars
Chromatography of alcohols and --- on Fe(III)-loaded cation-exchange resin (68) 267
Sugars
Chromatography of -- in body fluids. I. Preparation of urine for PC analysis (60) 381
Sugars
CC of amino acids with fluorescence detection (83) 353
Sugars
Comments on GLC and MS of methylated alditol acetates (72) 13
Sugars
Densitometry of thin-layer chromatograms using polaroid projection film. Application to the analysis of monosaccharides (52) 437
Sugars
Detection of cerebrosides on thin-layer chromatograms with an anthrone spray reagent (85) 174
Sugars
Effects of sorption and molecular size of solutes upon elution from polyhydroxylic gels (64) 263
Sugars
GC determination of neutral --- from glycoproteins and acid mucopolysaccharides as aldononitrile acetates (86) 205
Sugars
GC separation of α-lactose and sucrose as the trimethylsilyl derivatives (90) 345
Sugars
GLC of some partially methylated alditols as their trimethylsilyl ethers (73) 29
Sugars
Identification of -- contained in plant extract and evaluation of their individual contents by chromatography and photodensitometry (59) 472
Sugars
Improved method for the automated analysis of -- by ion-exchange chromatography (59) 61
Sugar
Isotachophoretic analysis of the anionic products formed by the homogeneous oxidation of --- (65) 287
Sugars
Microdetermination of molar ratios of neutral -- on thin layers of borohydride-reduced cellulose (51) 316
Sugars
Modified *p*-anisidine for the detection and permanent recording of free and combined fructose on paper chromatograms (74) 369
Sugars
PC of plant --- (92) 454
Sugars
Partition chromatography of cyclitols on ion-exchange resins (85) 93
Sugars
Possibility for the identification of --- from small mixtures of glycosides or from sugar mixtures (61) 375
Sugars
Quantitative analysis of --- by densito-

metric inspection of thin-layer chromatograms: analysis of method (72) 359
Sugars
Quantitative estimation of — — in blood and urine by PC using direct densitometry (81) 109
Sugars
Rapid quantitative TLC separation of fucose from other neutral monosaccharides. An application to separate other — — of physiological interest (57) 391
Sugars
Selectivity of polyacrylamide gels for — — (53) 572
Sugars
Separation of aldononitrile acetates of neutral — — by GLC and its application to polysaccharides (77) 222
Sugars
Separation of — — by centrifugal microparticulate bed chromatography (62) 93
Sugars
Separation of — — from untreated urine (61) 378
Sugar
Sephadex G-25 TLC. Determination of coloring matter in cane syrup from burned and unburned cane (81) 187
Sugars
— — borate chromatography using refractometry for monitoring (57) 153
Sugars
TLC analysis of — — mixtures (57) 99
Sugars
TLC detection of glycolaldehyde using a fluorescence reaction with *o*-aminodiphenyl (66) 87
Sugars
TLC detection of glycolaldehyde using a fluorescence reaction with *o*-aminodiphenyl. II. An improved procedure (88) 356
Sugars
TLC separation of oligosaccharides isolated from sucrose–enzyme mixtures (72) 212
Sugars
TLC on silica gel sintered plates (74) 73
Sugars
Two-dimensional TLC method for screening carbohydrate anomalies (95) 51
Sugars, methylated
Micropreparative GLC of — —. I. Preparative separation of partial methylation products from methyl β-D-xylopyranoside (97) 99
Sugar phosphates
Purification of phosphate esters on DEAE-cellulose (62) 391
Sugar phosphates and related compounds
Characterization of the trimethylsilyl derivatives of — — by GC and GC–MS (76) 51
Sulphates
Determination of parameters in dextran gel filtration (74) 59
Sulphate conjugates
High-speed LC of glucuronide and — — (55) 409
Sulphated surface-active agents
Determination of the unsulphated material contents of — — by LC (67) 149
Sulphatides
Determination of cerebrosides and cerebral — using TLC (technique without preliminary elution) (57) 448
Sulphatides
Evaluation of a GC method for the quantitative estimation of hexoses from neutral glucolipids (92) 95
Sulphides
Dynamic adsorption of thiophenes, thiols and — — from *n*-heptane solutions on molecular sieve 13X (91) 715
Sulphides
GLC retention data of some aliphatic and alicyclic — — (52) 69
Sulphides
Use of heavy metal salts in the analysis of organic sulphur compounds (69) 79
Sulphinic acids
The estimation of inorganic mercury (at low concentrations) by GC (76) 285
Sulphobromophthalein
A method of assay for — — and other dyes in whole blood by a DEAE-cellulose column technique (100) 211
Sulphonamides
Chromatographic and electrophoretic behaviour of — — on thin layers of ion exchangers (93) 201
Sulphonamides
p-Dimethylaminocinnamaldehyde as a spray reagent for — — in combined Avicel–Kieselguhr TLC (93) 480

Sulphonamides
Detection of thiazide diuretics in urine. Column extraction and TLC (87) 570
Sulphonamides
Separation of aniline, N-heterocyclic and ——— derivatives on paper impregnated with strong acid exchange resin (87) 543
Sulphonamide drugs
PC separation and identification of phenol derivatives and related compounds of biochemical interest using a reference system. Fifth supplement (88) 119
Sulphonates
PC of monomeric and dimeric lignin-type ——— (63) 470
Sulphonates
Separation and determination of linear and branched chain alkylbenzene ——— by salting-out chromatography (51) 211
Sulphonates
Separation and determination of α-olefin ——— by salting-out chromatography (62) 467
Sulphonates
TLC and GLC of derivatives of isomeric chlorophenols. Chlorophenyl fluoro-sulphonyl-benzene- ——— and related compounds (51) 219
Sulphones
Furan derivatives. III. The GC of α,β-unsaturated ——— of the 5-nitro-furan series (90) 195
Sulphonic acids
Chromatographic behaviour of aromatic amino acids on thin layers of anion and cation exchangers (88) 331
Sulphonic acids, aromatic
Identification of ——— by reaction electrophoresis on paper (90) 341
Sulphonic acid esters
TLC of ——— (53) 395
Sulphonylamides
Separation of 1-dimethylamino-naphthalene-5- ——— by gel chromatography (59) 367
Sulphonyl trimethyl silyl ester derivatives
GC of ——— of phenolic acids (70) 67
Sulphosalicylic acid
Improved method of plasma deproteination with ——— for determining amino acids and related compounds (74) 255
Sulphoxides
Coupling of chromatographic techniques with micro-IR spectrometry for the determination of phenothiazine and related drugs (74) 35
Sulphur
Characteristics of S_2 emission intensity with a flame photometric detector (77) 309
Sulphur
Characterization for the selective detection of ——— compounds by flame photometry (85) 45
Sulphur
Coupling of the flame photometric detector and the free fatty acid phase (FFAP) capillary column in the trace analysis of ——— compounds (77) 317
Sulphur
Flame photometric detection of volatile ——— compounds in smoke from various types of cigarettes (57) 239
Sulphur
GC characterization of ——— compounds in the 93–162° gasoline cut from Romashkino crude oil using Kováts retention indices (65) 207
Sulphur
Ion-exchange chromatography of ——— compounds, phenols, phosphorus compounds and esters of carboxylic acids (86) 423 (review)
Sulphur
Methods of analysis of ——— compounds in hydrocarbon mixtures. The application of the molecular sieve 13X to the determination of low concentrations of sulphur compounds (65) 217
Sulphur
Methods for the quantitative analysis of ——— -containing compounds in physiological fluids (72) 105
Sulphur
Quantitative determination of ——— compounds in the gas phase of cigarette smoke (90) 63
Sulphur
Simultaneous GC separation of volatile organic ——— compounds and C_1–C_4 hydrocarbons (90) 218
Sulphur
Study of the desulphurization of organic ——— compounds on Raney nickel by means of reaction GC (65) 179

Sulphur
Systematic analysis of compounds containing ——— by reaction GC (65) 197
Sulphur
TLC of inorganic ——— compounds (51) 343
Sulphur
TLC of organic ——— compounds by the mixed fluorescent material method. I. Detection of various classes of compounds (96) 195
Sulphur
TLC of organic ——— compounds by the mixed fluorescent material method. II. Separation and quantitation of disulphides, thiurams, xanthates, thioureas and other organic ——— compounds (96) 211
Sulphur
Use of chloroplatinic acid as a chromatographic spray for ——— compounds (59) 448
Sulphur
Use of GLC for selecting extractive solvents for liquid extraction processes (77) 37
Sulphur
Use of graphitized carbon black in environmental analysis (99) 661
S_2 molecular emission
Interferences of ——— in a flame photometric detector (80) 61
Sulphur-containing hydrocarbons
Separation of aromatic and ——— on pure and dispersed chlorides and sulphates of a series of bivalent metals (91) 699
Sulphur-containing pesticides
Determination of ——— and chlorine-containing pesticides with an electrolytic conductivity detector (75) 207
Sulphur dioxide
Methods of analysis of sulphur compounds in hydrocarbon mixtures. The application of the molecular sieve 13X to the determination of low concentrations of sulphur compounds (65) 217
Sulphuric amino acids
Ion-exchange chromatography of physiological ——— on a highly cross-linked resin (72) 93
Sulphur proteins
Studies on the high——— of reduced Merino wool. The chromatography of group IIIA on cellulose phosphate (78) 363
Sulphur-rich proteins
Electrophoretic and chromatographic characterization of ——— from wool (69) 341
Sunflower pectic acid
Chromatographic resolution of racemates on natural optically active ion exchangers. IV. Influence of the solvent on the optical resolution of racemic bases on ——— (72) 192
Supercritical fluid chromatography
——— (68) 303 (review)
Supercritical fluid chromatography
Experimental results and physico-chemical aspects of ——— with carbon dioxide as the mobile phase (83) 135
Supercritical fluid chromatography
Temperature and pressure effects in ——— (61) 17
Supports, *see also* Packings
Support
Active surface sites and deactivation of Chromosorb 102 (60) 319
Supports
Adsorption studies on Porapak S at various temperatures by GC and static methods (59) 1
Supports
Chemically bonded stationary phases on diatomite ——— for use in high-performance LC (91) 201
Supports
Comparative study of Porasil and Styragel as column ——— for GPC (55) 99
Supports
Comparison of TLC adsorbents, ——— and developing units (52) 291
Supports
Complex-forming stationary phases in high-speed LC (83) 91
Supports
Correlations between retention volumes and the interfacial tension of the two phases in liquid–liquid chromatography (83) 77
Supports
Critical operating parameters of the fluid grading method (84) 225
Supports
GC on modified ——— (99) 45
Supports
GLC of N-trifluoroacetyl *n*-butyl esters of amino acids. A comparison of high-

performance and acid-washed Chromosorb W as the ––– material (90) 370
Supports
Grading of chromatographic ––– and packings according to particle size by the fluid method (75) 1
Supports
Heavily loaded columns in high-speed liquid chromatography (92) 33
Supports
Hydroxyalicyclic derivatives of Sephadex LH-20 for lipophilic gel chromatography (83) 39
Support
Inerton – a new ––– for GC (91) 333
Supports
Influence of silanization on adsorptive properties of ––– in gas–liquid partition chromatography (72) 5
Supports
Ion-exchange separations on mixed columns (83) 59
Supports
Mechanism of GPC: Distribution coefficient (83) 111
Supports
New uses for molecular-size exclusion chromatography (83) 125
Supports
Non-extractable polymer coatings (modified ––) for chromatography (87) 49
Supports
Novel, polymer-deactivated adsorbents as ––– in GLC (89) 369
Supports
Physico-chemical fundamentals of GC retention on porous polymer columns: Porapak Q and T (51) 37
Supports
Preparation and application of porous packing materials for liquid–liquid chromatography (57) 67
Supports
Preparation of porous silica spheres for column LC (83) 5
Supports
Properties of acid-washed and silanised Czechoslovak –––: Chromaton N and Chezasorb (51) 103
Supports
Reproducibility of retention data on porous polystyrene polymers (Porapaks) (59) 423
Supports
Reversed-phase chromatography of some aromatic hydrocarbons. Structure–retention relationships (83) 31
Supports
Separation of polycyclic aromatic hydrocarbons by high-pressure LC. Selective separation system for the quantitative determination of isomeric benzpyrenes and of coronene (83) 11
Supports
≡Si–N= bonded stationary phases for LC (83) 15
Supports
Silochroms as adsorbents and ––– in LC (80) 167
Support
Surface-modified alumina for hydrocarbon separations (65) 467
Supports
"Synachrom", a macroporous copolymer, as a sorption material for GC (51) 111
Supports
Use of gel-coated glass microspherical ––– for improved column performance and the rapid separation of isomeric compounds (81) 33
Supports
Use of high-efficiency packed columns for GSC. V. Micropacked columns (90) 239
Supports
Use of vanadium(II), manganese(II), and cobalt(II) chlorides as packings to separate alkanes, alkenes and alkynes by GC (59) 13
Supports
Variation of performance of porous polymer bead columns in GC (51) 129
Support-coated open tubular columns
Comparison of GLC retention indices on ––– and on packed columns for a series of central nervous stimulant drugs (84) 392
Support surface adsorption
On the mechanism of ––– in GLC systems (74) 3
Suprasterol$_2$
Separation of the photochemical isomers of ergosterol by TLC (59) 226
Surface-active agents
Analysis of steroids by high resolution GLC. I. Preparation of apolar columns (74) 177

Surface-active agents
Separation and analysis of mixtures of cationic ––– by salting-out chromatography (87) 117
Surface-active agents
Separation and determination of linear alkylbenzene and alkylsulphates by salting-out chromatography (66) 153
Surface-active agents
Separation and determination of mixtures of anionic ––– by salting-out chromatography (77) 351
Surface-active compounds
Isotachophoresis. Phenomena that occur when conductometric detection is applied (91) 809
Surface adsorption
On the mechanism of support ––– in GLC systems (74) 3
Surface area
Approach to the development of a simple and rapid GC method for the determination of ––– (74) 171
Surface area
Estimation of the ––– of adsorbents from the third gas–solid virial coefficient (72) 221
Surface area
Evaluation of changes in the specific ––– of sorbents based on the volume of stationary phase in GLC (78) 261
Surface area
Specific ––– of GLC column packings as a function of stationary phase volume (93) 251, 253
Surface characteristics
––– of treated glasses for the preparation of glass capillary columns in GLC (99) 81
Surface density
Adsorption of organic molecules on esterified silica gel. I. Heat of adsorption as a key to a model of adsorption (80) 1
Surface model
Adsorption of organic molecules on esterified silica gel. II. Demonstration of the adsorption hypothesis by means of the ––– (80) 15
Surface-modified silica gels
Chromatographic characterization of ––– (87) 35
Surface phenomena
Correlations of surface measurements with the chromatographic performance of chemically modified glass capillary columns (94) 35
Surface tension
Correlations between retention volumes and the interfacial tension of the two phases in liquid–liquid chromatography (83) 77
Surface tension
Effect of coating parameters on the quality of stationary phase films in glass capillary columns (65) 39
Surface tension
Influence of ––– on the homogeneity of the film of stationary phase in glass capillary columns (79) 15
Surfactants
Analysis of non-ionic ––– of the alkylphenol type in the presence of mineral oil by means of LC (91) 549
Surfactants
Study of the separation mechanism of ionic ––– in salting-out chromatography. Functions of alcohol and sodium chloride in the eluent (93) 467
Surfactants
Systematic study of the variables involved in the reverse-phase TLC of oxyethylated alkyl sulfate ––– (82) 37
Surfactant systems
Note on the TLC of mixed ––– (97) 297
Sweeteners
Application of CC and TLC to the detection of artificial ––– in foods (66) 283
Sweeteners
Chromatography of dihydrochalcone ––– and related compounds. A reagent for detecting dihydrochalcones (63) 467
Sweeteners
Detection and estimation of cyclamate by TLC (52) 354
Sweeteners
Separation and detection of synthetic ––– by TLC (52) 173
Switching valve
Column switching in high-pressure LC (83) 267
"Synachrom"
–––. Macroporous copolymer, as a sorption material for GC (51) 111
Synergists
Analytical studies of pyrethrin formula-

tions by GC. II. Isolation of the pyrethrins from water-based formulations (72) 51
Synkavit
Combined GLC/MS study of the bromine oxidation of ---- (2-methyl-naphthalene-1,4-diol diphosphate) in ^{18}O-enriched dimethylformamide (59) 169
Syringes
A method of sampling by conventional ---- from moderately pressurized closed systems (60) 127
Syringe holder, modification of
---- to the Hewlett-Packard 7671A Autosampler to allow the use of more robust syringes (97) 71

T

2,4,5-T, *see* 2,4,5-Trichlorophenoxyacetic acid

Tachysterol$_2$
Separation of the photochemical isomers of ergosterol by TLC (59) 226

Tailing
Effect of non-equilibrium in GC (87) 1

Tailing
Reduction of ---- due to aluminium tubing used for GC columns (80) 124

Tails, trimming
Hermite polynomial representation of chromatography elution curves (88) 1

Tallopol ZN
Qualitative and quantitative determinations of mono- and dialkylphosphoric acids and their salts by GC (78) 281

Tanned gelatin
Modification of the electrophoretic properties of certain jack bean proteins by chromatography on ---- (66) 377

Tannic acid
Lower limits of molecular weights of compounds excluded from Sephadex G-25 eluted with aqueous acetone mixtures. Application of the results to the separation of the components of ---- (52) 285

Tannins
Separation of condensed --- on Sephadex G-25 eluted with 50% aqueous acetone (71) 570

Tap water
Determination of p.p.b. levels of citric and nitrilotriacetic acids in --- and sewage effluents (72) 259

Tar products
Evaluation of the separation of phenanthrene, anthracene and carbazole in pure --- by GSC (65) 341

Tar substances
Flat-bed separation of --- on Sorbofol® (78) 101

Tartrate
Detection of --- and oxalate by TLC (84) 412

Tarugan
GC study of the metabolism of ---- (84) 419

TCDD, *see* 2,3,7,8-Tetrachlorodibenzo-1,4-dioxin

TCNB
Rapid analysis of dichloran, lindane, PCNB and ---- residues in lettuce by automated GLC (93) 91

Teaching
Use of the computer in --- the theory of chromatography (60) 313

Tea polyphenols
Chromatography of ---- on Sephadex columns as a method of estimation of molecular size (87) 250

Tear gas aerosols
Chromatographic characterization of lachrymatory agents in ---- (70) 151

Technetium
Effect of concentration upon the chromatographic behaviour of --- in concentrated hydrochloric acid (54) 123

Technicon system
Use of an external standard in the quantitative evaluation of amino acid chromatograms using the ---- (63) 402

Tecnazene, *see* TCNB

Teflon coils
Simple procedure for cleaning ---- in amino acid analyzers (71) 159

Telomers
GC properties of tetrafluoroethylene -- (90) 315

Temperature coefficient
--- of the physico-chemical index (74) 165

Temperature coefficient
Sub-classification of hydrocarbons by the ---- of retention index (71) 171

Temperature dependence
Determination of the --- of the retention index in GLC by computer (66) 205

Temperature dependence
---- of the retention indices of branched-chain paraffins on non-polar stationary

phases. A method for its calculation on the basis of molecular structure (79) 23
Temperature effects
TLC ——; application to quantitative measurements; correlations between structure and chromatographic behaviour (84) 241
Temperature gradient
LC with a dynamic —— (91) 151
Temperature profiles
Capillary isotachophoresis with electrolyte counter-flow temperature and concentration profiles of the zone boundary (91) 795
Temperature-programmed gas chromatography
—— with electron capture detection (82) 269
Temperature programming
Calculation and application of the retention indices in programmed-temperature GC (91) 89
Template chromatography
—— : Application of the principles of molecular biology for the selective separation of nucleotides and peptides. A progress report (99) 31
Terepolymers
Quantitative pyrolysis GC of some —— and three-component polyacrylic mixtures (80) 75
N-terminal residue of proteins
Method for determining the —— fixed in polyacrylamide gels (62) 115
Ternary mobile phases
Some problems in the use of —— in TLC (85) 136
Terpene acids
Chromatographic separation of the alkaline hydrolysis products of Sheilac (84) 51
Terpene alcohols
Analysis of straight-chain —— by GC (88) 15
Terpene alcohols
Derivatives of menthols and mentho-glycols for use in GC and MS (57) 55
Terpene ketones
Influence of the conformation on the chromatographic behaviour of some mono —— (100) 236
Terpenes
Detection and TLC of sequiterpene lactones from *Geigeria* species (94) 255
Terpenes
GLC identification of ozonolysis fragments as a basis for micro-scale structure determinations (60) 157
Terpenes
Hydrogenolysis of —— in the injection port of a gas chromatograph (66) 229
Terpenes
Non-destructive detection of mono-terpenes on thin-layer plates by a copying method (56) 338
Terpenes
Relative retention time changes with temperature for the GC identification of volatile oil components (53) 163
Terpenic components
Minor components of cannabis resin. IV. MS data and GC retention times of —— with retention times shorter than that of cannabidiol (96) 99
Terphenylquinone
Separation of some —— and tetronic acid derivatives by TLC (63) 457
Terphenyls
TLC for quantitative polychlorinated biphenyl analysis (77) 377
Tertiary-leucine derivatives
Complete resolution of enantiomeric —— by GLC (66) 141
Testosterone
Behaviour of dehydroisoandrosterone, —— and their conjugates on DEAE-Sephadex (54) 431
Testosterone
Determination of plasma —— by combined GC–MS (89) 215
Testosterone
Determination of —— in human urine by means of horizontal TLC and GLC (58) 213
Testosterone
Determination of urinary androstanediol and —— in normal men by GLC (66) 55
Testosterone
Measurement of plasma —— as the iodomethyldimethylsilyl ether by GLC (56) 37
Testosterone
New fluorometric determination of urinary —— by thin-layer densitometry (63) 349
Testosterone
TLC of steroid derivatives for radio-immunoassay (69) 151

Tetra-O-acetyl-D-glucopyranosides
TLC of anomeric aryl ---- (57) 161
Tetraalkoxysilanes
GC investigation of organometallic compounds and their carbon analogues. I. Determination, calculation and correlation of Kováts' retention indices for ---- (88) 295
Tetraalkoxysilanes
GC investigation of organometallic compounds and their carbon analogues. II. Improved method for calculating retention indices of ---- (88) 311
Tetraalkoxysilanes
GC investigation of organometallic compounds and their carbon analogues. III. A study of Kováts retention indices for ---- containing branched alkoxy groups (90) 35
Tetraalkylsilanes
GC investigation of organometallic compounds and their carbon analogues. IV. Determination, calculation and correlation of Kováts retention indices for ---- (90) 41
Tetracaine
Rapid screening procedure for some "street-drugs" by TLC. II. Cocaine, heroin, local anesthetics and mixtures (87) 211
2,3,7,8-Tetrachloro-dibenzo-*p*-dioxin
Detection and determination of ---- in chloro-substituted phenoxyalkane acids (64) 39
2,3,7,8-Tetrachlorodibenzo-1,4-dioxin
Detection and determination of ---- in chloro-substituted phenoxyalkane acids (90) 382
2,3,7,8-Tetrachlorodibenzo-1,4-dioxin
Determination of ---- at parts per billion levels in technical-grade 2,4,5-trichlorophenoxyacetic acid, in 2,4,5-T alkyl ester and 2,4,5-T amine salt herbicide formulations by quadrupole mass fragmentography (90) 71
Tetracyanoethylene
Interaction of ---- with indoles on silica gel and cellulose thin-layer plates (72) 343
Tetracycline
Direct densitometric determination of ---- in pharmaceutical preparations (57) 297
Tetracycline
Separation of ---- broad spectrum antibiotics by TLC (78) 445
Tetracycline
TLC limit test for the detection of anhydrotetracycline and 4-*epi*-anhydrotetracycline in ---- (53) 403
Tetracyclines
Chromatography of antibiotics on SP-Sephadex (86) 139
Tetracycline antibiotics
Automated LC method for the determination of ---- (65) 377
Tetraethylenepentamine
GC of higher polyamines on Tenax-GC columns (97) 77
Tetraethyllead
Hydrogen-rich flame ionization detector sensitive to metals (74) 319
Tetraethyllead
Selective detection of organometallics in GC effluents by flame photometry (74) 311
Tetraethyltin
Hydrogen-rich flame ionization detector sensitive to metals (74) 319
Tetraethyltin
Selective detection of organometallics in GC effluents by flame photometry (74) 311
Tetrafluoroethylene telomers
GC properties of ---- (90) 315
Δ^9-Tetrahydrocannabinol
Detection of ---- in saliva of men by means of TLC and MS (96) 189
Tetrahydrocannabinol
GC of cannabinoids. GC behaviour of *cis*- and *trans*- ---- and isotetrahydrocannabinol (79) 81
1,2-Tetrahydrocannabinol
GC of cannabis constituents and their synthetic derivatives (74) 209
Δ^1-Tetrahydrocannabinol
Rapid thermomicro/TLC procedure for the identification of cannabinoids in marihuana (87) 298
Tetrahydrofurans, halogen derivatives
Wire detector with an alkali flame ionization sensing element for LC (91) 181
Tetrahydropapaveroline
Identification of catecholamine-derived alkaloids in mammals by GC and MS (99) 567

Tetrahymena pyriformis
Chromatographic fractionation of the lipids of --- (75) 141
Tetrahymena pyriformis
Do lysophospholipids really exist in ---? (87) 193
Tetrahymena pyriformis W.
Preparative isolation of phosphonolipids by ascending dry-CC (75) 227
Tetrahymena pyriformis
Unequivocal identification of sphingomyelin in the lipids of --- (86) 250
Tetrakis-trimethylsilyl-α,ω-diaminoalkanes
High-boiling silylation agents for GC trace analysis. I. --- (74) 121
Tetraphenylcyclopentadienone
Analysis of antibiotics by GC. III. Griseofulvin (70) 73
Tetrazolium salts
Use of --- in bioautographic procedures (64) 182
Tetronic acid
Separation of some terphenylquinone and --- derivatives by TLC (63) 457
Thalictrum species alkaloids
TLC of --- (59) 222
Thallium(I)
Isotachophoresis on paper. Part II. The separation of Ag(I), Tl(I), Hg_2^{2+} and Pb(II) (79) 380
Thallium
Reaction for identification of Al^{3+}, Ga^{3+}, In^{3+}, Tl^{+} separated by PC (54) 289
Theaflavins
Estimation of --- in tea by GLC of their trimethylsilyl ethers (57) 19
Theaflavins
Separation of --- on Sephadex LH-20 (54) 133
L-Theanin
GC and MS studies on --- and its trimethylsilyl derivative (95) 39
Thebaine
Quantitative GC determination of the major alkaloids in gum opium (89) 76
Thebaine
Separation of ---, some of its metabolites and congeners on glass fibre sheets (71) 554
Thenoyltrifluoroacetonates
GLC of some --- (66) 121
Thenoyltrifluoroacetone
Reversed-phase partition chromatography of rare earths with a mixture of organic extractants (74) 99
Therapeutic drugs
GC analysis of the commonly prescribed barbiturates at therapeutic and overdose levels in plasma and urine (86) 89
Thermal conductivity detector
Combination of a UV and a --- in GC (96) 171
Thermal conductivity detector
Estimation of critical volumes from the response of the GC --- (73) 226
Thermal conductivity detector
Molecular property approach for the response prediction of the --- (63) 203
Thermal diffusion
Disturbing phenomena in the measurement of small surface areas by the dynamic desorption method (65) 71
Thermally stable polar phases
Polyphenyl ether sulfones. --- for GC (99) 51
Thermionic detector
Analytical performance of a novel nitrogen-sensitive detector and its applications with glass open tubular columns (99) 339
Thermionic detector
Detection of nitrogenous compounds using a --- (61) 329
Thermionic detector
Spectral response of the alkali flame detector (61) 35
Thermionic detector
Study of the stability of a nitrogen-selective --- (86) 65
Thermodynamic measurements
Modified gas chromatograph for --- by frontal chromatography (92) 47
Thermodynamic parameters
Thermodynamics of molecular association by GLC. σ-Donor molecules and dimeric 3-trifluoroacetylcamphorates of Mn(II), Co(II) and Ni(II) (99) 147
Thermodynamics
Retention volume in high-pressure GC. I. --- of the specific retention volume (95) 1
Thermodynamics of interactions
--- of hexenes with stationary phases containing $PdCl_2$ and $AgNO_3$ in GC (86) 1
Thermodynamic solubility parameters
Use of --- for the characterization of liquid phases (99) 173

Thermofractography
Identification of certain essential compounds in drugs by a modified --- method (91) 441
2-Thiaadamantane derivatives
GC characterization of --- (89) 319
Thiabendazole
Chromatography of benzimidazoles (78) 323
Thiamine
Application of LC in food analysis (83) 455
Thiamine
GC of --- and derivatives (76) 239
Thiamine hydrochloride
Application of quantitative TLC in drug assay and stability testing. Determination of codeine phosphate, noscapine, diphenhydramine hydrochloride, phenylephrine hydrochloride, caffeine, etofyllin, phenobarbital and --- by *in situ* reflectance spectroscopy (82) 143
Thiamine hydrochloride
Quantitative analysis of water-soluble vitamins in multicomponent pharmaceutical forms. Determination of tablets and granules (77) 389
Thiamphenicol
Rapid GC method for the determination of --- in body fluids and tissues (81) 71
Thiaselena-alkanes
Correlation of retention index data for dimethyl polysulphides, polyselenides and related --- (79) 318
Thiazide diuretics
TLC screening technique for --- in urine (70) 190
Thiazides
Detection of thiazide diuretics in urine. Column extraction and TLC (87) 570
Thiazine
TLC separation of methylene blue and related --- dyes (60) 119
Thiazoles
Application of TLC in the resolution of mixtures of isomeric mono- and di-aryl thioureas, --- and thiazolines (76) 493
Thiazoles
Separation of isomeric thioureas, --- and thiazolines by TLC (59) 461
Thiazolines
Application of TLC in the resolution of mixtures of isomeric mono- and di-aryl thioureas, thiazoles and --- (76) 493
Thiazolines
Separation of isomeric thioureas, thiazoles and --- by TLC (59) 461
Thiazolylazo dyes
Purity control of some *o*-hydroxy-substituted --- by TLC (67) 335
Thick-film glass capillary columns
Preparation of --- by the dynamic coating procedure (93) 405
Thick layers
New preparative TLC technique for using thicker layers (63) 45
Thienopyridine
GC of some nitrogen and sulphur heterocycles by means of silicone and Bentone–silicone phases (51) 433
Thin-layer absorbents
TLC on alumina sintered glass plates (86) 57
Thin-layer chromatograms
Colour photography of --- under Wood light (86) 192
Thin-layer chromatograms
Direct quantification of micro --- (71) 297
Thin-layer chromatograms
Direct quantification of --- by empirical methods. Mathematical analysis (96) 1
Thin-layer chromatograms
New technique for scanning tubular --- (96) 242
Thin-layer chromatograms
Xerox copying, a simple method for recording chromatograms (90) 208
Thin-layer chromatographic data
--- for inorganic substances (85) 187 (review)
Thin-layer chromatography
Advanced concepts in ---. A summary (63) 7
Thin-layer chromatography
Advances in --- (63) 3
Thin-layer chromatography
Arrangement for simultaneous elution of one --- plate with several solvents (52) 169
Thin-layer chromatography
Basic considerations for a rational application of quantitative --- (89) 39
Thin-layer chromatography
Beginnings of --- (73) 367 (review)

Thin-layer chromatography
Charge transfer --- and multiple site complexation (89) 49
Thin-layer chromatography
China clay – a sorbent for --- (60) 363
Thin-layer chromatography
Comparison of --- adsorbents, supports and developing units (52) 291
Thin-layer chromatography
Fully automatic sample applicator for --- and PC (71) 101
Thin-layer chromatography
Hammer effect in --- (summary) (78) 25
Thin-layer chromatography
Improved separation in --- using a single-component solvent in an unsaturated chamber. II. (61) 392
Thin-layer chromatography
Molecular sieve effects in --- (71) 473
Thin-layer chromatography
New detector systems for --- (61) 317
Thin-layer chromatography
On the variation between individual operators and techniques in quantitative sample application in --- (61) 157
Thin-layer chromatography
Peak broadening in PC and related techniques. VII. The contribution of the macroscopic mobile phase velocity profile to peak broadening in PC and --- (53) 469
Thin-layer chromatography
Photometric evaluation of thin layers by visual and IR light diode emitters (87) 67
Thin-layer chromatography
Preparative cylindrical --- (57) 427
Thin-layer chromatography
Quantitative analysis of thin-layer chromatograms with low ^{14}C-activities by silver activation and mercury labeling of the autoradiograms (76) 191
Thin-layer chromatography
Quantitative *in situ* evaluation of thin-layer chromatograms by transfer of calibration curves (62) 99
Thin-layer chromatography
Quantitative methods in --- (63) 73
Thin-layer chromatography
Rapid transfer in --- –IR spectroscopy (53) 387
Thin-layer chromatography
Reactions on aluminium oxides. IV. Conversions of acetophenone on aluminium oxide (74) 129
Thin-layer chromatography
Relations between solute, solvent and adsorbent in ---. I. Relations between the molecular structure of compounds and their adsorption affinity – Application to organophosphorus compounds (56) 264
Thin-layer chromatography
Scope of --- (82) 31
Thin-layer chromatography
Standardization of R_F values in partition --- (60) 265
Thin-layer chromatography
Standardized procedure for the preparation of polyamide for --- (78) 432
Thin-layer chromatography
--- as a pilot technique for rapid CC (Summary) (82) 5
Thin-layer chromatography
--- of an optically active complex (75) 314
Thin-layer chromatography
--- on silica gel sintered plates (74) 73
Thin-layer chromatography
--- quantitative analysis (82) 101
Thin-layer chromatography
Three dimensional --- on a single plate with constant thickness and unmodified adsorbent (60) 270
Thin-layer chromatography
TLC temperature effects; application to quantitative measurements; correlations between structure and chromatographic behaviour (84) 241
Thin-layer chromatography
Use of information theory for evaluating the quality of TLC separations (79) 157
Thin-layer chromatography
Use of silica gel modified with ammonium bisulfate in --- (66) 172
Thin-layer chromatography
Vapour pre-adsorption ---. Preliminary experiments (90) 203
Thin-layer chromatography
Variations in R_F sequence in --- on precoated plates (86) 211
Thin-layer chromatography
Very long Z-shaped --- and its application to the separation of dyes (58) 294

Thin-layer densitometry
Determination of progesterone in plasma by ——— (86) 151
Thin-layer electrophoresis
A few words on ——— (63) 152
Thin-layer electrophoresis
Peak broadening in PC and related techniques. VIII. Peak broadening in ——— (71) 307
Thin-layer partition chromatography
Standardization of R_F values in ——— (60) 265
Thin-layer scraper
——— Half-automatic scraper for pre-coated thin-layer plates (59) 393
Thin layers of polyamide
Investigations on the mechanism and selectivity of chromatography on ———. II. Comparison of polyamide and cellulose impregnated with formamide using moderately polar developing solvents (94) 219
Thin layers of polyamide
Investigations on the mechanism and selectivity of chromatography on ———. III. Mobile phases consisting of a combination of polar solvents (94) 229
Thin layers, stripping
Stripping thin layers from chromatography plates for radiotracer measurements (88) 25
Thin-layer zone electrophoresis
Free-flow electromigration separations (91) 867
Thin-media chromatograms
Concentration profile of substances separated on ——— (77) 245
Thin-media chromatography
On increasing the sensitivity of detection in ——— by decreasing the dimensions of the support medium (76) 393
Thin-media chromatograms
Quantitative assessment of fluorescence on ———. A theoretical study (72) 231
Thiocyanates
Determination of cyanides and ——— in water by GC (84) 37
Thiocyanate
Oxidation of thiosulphate during chromatography in the presence of copper or gold ions (66) 185
1-Thio-β-D-galactopyranosides
PC and TLC of ——— (79) 373
Thioglycollic acid
GLC analysis of tryptophan in proteins (76) 77
Thiohydantoins
GLC and MS of amino acid ——— and their use in protein sequencing (87) 499
Thiohydantoin derivatives
TLC separation of diphenylindonyl-substituted ——— of amino acids (75) 129
Thiols
Dynamic adsorption of thiophenes, ——— and sulphides from *n*-heptane solutions on molecular sieve 13X (91) 715
Thionicotinamide
Gel filtration behaviour of sulphur- and selenium-containing nicotinamide-analogues on Sephadex G-25 (51) 537
Thiophanate
Separation and determination of some systemic fungicides and their metabolites by TLC (72) 410
Thiophanate methyl
Separation and determination of some systemic fungicides and their metabolites by TLC (72) 410
Thiophene
GC behaviour of some isomeric derivatives of ——— and furane (52) 347
Thiophene
GC of some nitrogen and sulphur heterocycles by means of silicone and Bentone–silicone phases (51) 433
Thiophenes
Chromatography of products found in the synthesis of monosaccharides from furans and ——— (91) 767
Thiophenes
Dynamic adsorption of ———, thiols and sulphides from *n*-heptane solutions on molecular sieve 13X (91) 715
Thiophosphoramides
TLC behaviour of phosphoramides and ——— (76) 496
6-Thiopurine derivatives
Separation of ——— on DEAE-Sephadex columns and in the high-pressure liquid chromatograph (77) 181
Thioridazine
Evaluation of liquid–liquid systems for the chromatographic separation of the psychotropic drug ——— and its metabolites (83) 405

Thiosulphate
Oxidation of ––– during chromatography in the presence of copper or gold ions (66) 185
Thiourea
PC investigation of the ––– complexes of copper(I), silver(I) and gold(I) (65) 425
Thioureas
Separation of –––, thiazoles and thiazolines by TLC (59) 461
Thioureas
TLC of organic sulphur compounds by the mixed fluorescent material method. II. Separation and quantitation of disulphides, thiurams, xanthates, ––– and other organic sulphur compounds (96) 211
Thiourea complexes
Radiochromatographic, conductometric and high-frequency titration studies on the ––– of palladium(II) and platinum(II) (70) 117
Thioxanthenes
TLC of phenothiazine derivatives and analogues (75) 79
Third moment
Moments analysis in non-linear chromatography. III. The ––– (67) 13
Thiurams
TLC of organic sulphur compounds by the mixed fluorescent material method. II. Separation and quantitation of disulphides, –––, xanthates, thioureas and other organic sulphur compounds (96) 211
Thorin
Non-destructive chromatographic indicator for (and quantitative analysis in) the PC of carbohydrate compounds convertible to barium salts (63) 357
Thorium
Reversed-phase extraction chromatography of the rare earths, –––, uranium and zirconium with a high-molecular-weight amine in sulphuric acid and ammonium sulphate media (85) 123
Thorium
Reversed phase TLC behaviour of the rare earths, –––, uranium and zirconium with a high molecular weight amine in sulphuric acid and ammonium sulphate systems (56) 95
Thorium(IV)
Thin-layer gel chromatography of polymeric hydrolysis products of metal ions (76) 280
Thorium
TLC separation of zirconium, hafnium, –––, uranium and the rare earths on DEAE-cellulose in sulphate media (88) 351
allo-threonine
Specific method for the detection of threonine and ––– on thin-layer (and paper) chromatograms (68) 167
Threonine
Specific method for the detection of ––– and *allo*-threonine on thin-layer (and paper) chromatograms (68) 167
Thuja plicata Donn
Chromatography of the lignans of ––– (51) 553
Thulium
Separation of rare earths by ion-exchange chromatography. III. Analysis of erbium, –––, ytterbium, and lutetium (75) 101
Thymidine 5′-phosphate
Fractionation of synthetic deoxyribopolynucleotides on silica gel thin-layer plates (85) 159
Thymine
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Thymine
Chromatography on macroporous ion exchangers (52) 351
Thymine
GLC of the purine and pyrimidine bases (61) 45
Thymol
Derivatisation of phenols for GC using electron capture detection (78) 303
Thyroglobulin
Microgel electrophoretic study of the stability of thyroid iodoproteins (74) 107
Thyroidal iodo-compounds
Gel chromatography of ––– on Sephadex G-10. Separation of iodopeptides, iodide, 3-monoiodotyrosine, 3,5-diiodotyrosine and iodothyronines (92) 309
Thyroid follicles
Microgel electrophoretic analysis of the proteins in single rat –––. III. Incorpora-

tion of [^{3}H]leucine into the large iodoproteins of the colloid (73) 292
Thyroid hormone
GC trace analysis of — preparations and of drugs containing — (60) 51
Thyroid iodoproteins
Microgel electrophoretic study of the stability of — (74) 107
Thyroxine
Separation of iodo compounds in serum by chromatography on Sephadex columns (72) 83
Thyroxine
Use of material labelled with soft β-emitters in the Laurell immunoelectrophoretic technique (67) 382
Thyroxine-binding globulin
Use of material labelled with soft β-emitters in the Laurell immunoelectrophoretic technique (67) 382
Thyroxine-binding proteins
Gel filtration of —. Identification of rat plasma protein fractions separated on Sephadex G-200 (79) 340
Thyroxine-binding proteins
Intracellular — in rabbit muscle and liver (92) 119
Tigogenin
GLC determination of the ratio of gitogenin and digitogenin in mixtures (54) 185
Timethobenzamide
Necessity of elution and identification of drugs indicated by TLC (54) 245
Tin
Crystalline insoluble acid salts of tetravalent metals. XI. Synthesis and ion-exchange properties of —(IV) phosphate and — (IV) arsenate (51) 289
Tin
Response of the alkali flame ionisation detector to silicon, — and lead compounds (59) 429
Tin(IV) antimonate
Synthesis of — of high thermal and chemical stability. Separation of Mg^{2+} from Sr^{2+}, Cd^{2+}, Cu^{2+}, Al^{3+} and La^{3+} (67) 351
Tin compounds (organic)
Tin-sensitive hydrogen flame detector (70) 158
Tin(IV) hexacyanoferrate(II)
Synthesis, ion-exchange behaviour and composition of — (59) 141
Tissue analysis
Programs for use with the automatic amino acid analyser to identify, compute and correlate amino acid concentrations in biological samples (89) 61
Titanium(IV)
Thin-layer gel chromatography of polymeric hydrolysis products of metal ions (76) 280
Titanium antimonate
Synthesis and IR, X-ray and ion-exchange studies of some amorphous and semi-crystalline phases of —. Separation of VO^{2+} from various metal ions (62) 431
Titanium tungstate
Synthesis of a poorly crystalline —. Separation of Hf^{4+} from Zr^{4+} and of La^{3+} from Ce^{3+}, Pr^{3+}, Nd^{3+} and Sm^{3+} (62) 439
TLC chamber
Simple arrangement for the production of an unsaturated — (68) 280
TNT
Continuous — process studies. III. TLC analysis of oxidation products from nitration (64) 123
TNT
Determination of trace amounts of Eastman 910 adhesive in certain plastic-bonded explosives (51) 261
Tobacco alkaloids
Quantitative analysis of — by GC (73) 243
Tobacco constituents
Flame photometric detection of volatile sulphur compounds in smoke from various types of cigarettes (57) 239
Tobacco lipids
Analytical methods for —. I. A rapid method for the estimation of solanesol by thin-layer densitometry (61) 180
Tobacco mosaic virus
Purification of potato virus X, white clover mosaic virus, — and ribosomes by CC (75) 235
Tobramycin
PC of — and some related compounds (92) 457
Tocopherols
Application of direct spectrophotometry to the analysis of chromatograms. II. A new micro thin-layer chromatoplate and its application to the analysis of — (79) 179

Tocopherols
Separation of β- and γ- ---- in the presence of α- and δ-tocopherols and vitamin A acetate (78) 449
Tocopherols
Separation of individual ---- from human plasma and red blood cells by TLC and GLC (85) 81
Tolbutamide
Determination of serum -- - by GC (71) 421
Tolmetin
GLC method for the quantitative determination of ---- in plasma and ---- and its major metabolite in urine (94) 143
Toluenes
GLC of disubstituted benzene isomers. II. Separation and study of the halonitrobenzenes, anisoles and -- - (53) 151
Toluidine
Determination of formic acid in dilute aqueous solution and separation and determination of aniline and ---- isomers by GC of formanilide and formyl toluidides (51) 139
Topochemical processes
Application of GC in the study of kinetics of volatile products evolved in - - (69) 31
Topology-information relationship
-- between the structures of ketones and saturated aliphatic esters and their retention times in GC (77) 255
Topology-information relationship
--- between the structures of saturated aliphatic esters and their retention times in GC (68) 19
Toxicants
Importance of TLC for the identification in urgent toxicological analysis of 1,4-benzo[*f*]diazepines used in therapeutic treatment (62) 423
Toxicants
TLC comparison of commercially available silica gel coated films and sheets with silica gel coated glass plates, demonstrated on toxicologically interesting substances (63) 67
Toxic metabolites
Simultaneous detection of metabolites from several toxigenic fungi (80) 255
Toxicological screening
Emergency -- for drugs commonly taken in overdose (80) 205
Toxicology
Use of the liquid phase Poly A-103 in -- (86) 225
Toxin
Chromatography of amanita --. III. Detection of amantadine with phosphoric acid (76) 499
Toxins
Chromatographic analysis of --- from *Amanita phalloides* (53) 545
Toxins
Chromatography of Amanita toxins. II. New method for the identification of Amanita toxins by means of TLC (64) 317
Toxins
Fluorodensitometric assay of penicillic acid (51) 511
Toxins
Purification of *Pseudomonas aeruginosa* endotoxin by gel filtration on Sepharose 4B (57) 148
Toxins
Quantitative chromatographic analysis of -- in single mushrooms of *Amanita phalloides* (79) 257
Toxisterol I and II
Separation of the photochemical isomers of ergosterol by TLC (59) 226
Trace components
Effect of water vapour in the quantitation of -- concentrated by frontal GC on Tenax-GC® (99) 689
Trace components
GC of samples in dilute solution (96) 232
Trace constituents
Use of a molecular separator in the determination of --- by combined GC and MS (64) 201
Trace metals
Silica gel as an insoluble carrier for the preparation of selective chromatographic adsorbents. The preparation of 8-hydroxyquinoline substituted silica gel for the chelation chromatography of some -- (76) 455
Trace organic contaminants
Use of macroreticular resins in the analysis of water for -- (99) 745

Tranquilizers
Determination of clonazepam and flunitrazepam in blood by electron-capture GLC (99) 447
Tranquilizers
Determination of flurazepam (Dalmane®) and its major metabolites in blood by electron-capture GLC and in urine by differential pulse polarography (99) 461
Tranquilizers
Evaluation of liquid – liquid systems for the chromatographic separation of the psychotropic drug thioridazine and its metabolites (83) 405
Tranquilizers
Specific GC determination of phenothiazines and barbiturate — with the nitrogen flame ionization detector (92) 55
Transfer of calibration curves
Quantitative *in situ* evaluation of thin-layer chromatograms by — (62) 99
Transferrin
Use of simple concentration gradients for the fractionation of human serum proteins on DEAE-cellulose, with especial reference to the isolation of albumin, prealbumin, haemopexin and — (84) 87
Transition metals
TLC behaviour of a number of — on DEAE-cellulose in azide/chloride media (69) 223
Transition metal oxalates
GC study of the thermal decomposition of oxalates (88) 407
Transmittance spectroscopy
Critical study of some parameters in quantitative *in situ* investigations of TLC by light absorption methods (64) 285
Transphoresis
Isotachophoresis (displacement electrophoresis, —) theory. Structure of the ionic interface (95) 133
Transphoresis
Theory of isotachophoresis (displacement electrophoresis, —) (93) 7
Transport properties
GC measurement of — (98) 491 (review)
Tri-*n*-alkylamine oxide
Use of — and -arsine oxide in reversed-phase extraction chromatography (57) 173
Tri-*n*-alkylarsine oxide
Use of tri-*n*-alkylamine and -arsine oxide in reversed-phase extraction chromatography (57) 173
Triamcinolone
Method for the estimation of some synthetic glucocorticosteroids in rat muscle (77) 161
Triamcinolone acetonide
Method for the estimation of some synthetic glucocorticosteroids in rat muscle (77) 161
1,3,5-Triamino-2,4,6-trinitrobenzene
Identification of — impurities by two-dimensional TLC (71) 481
Triazine
Determination of residues of BAY 94337 (4-amino-3-methylthio-6-*tert.*-butyl-1,2,4-triazin-5-one) (56) 345
Triazines
GLC determination of 2-hydroxy-*s*- — (52) 487
s-Triazine
Identification of organic compounds. LXXV. PC and TLC of simple — derivatives (56) 342
s-Triazines
Investigation of flavones as fluorogenic spray reagents for organic compounds on a cellulose matrix. Part II. Detection of pesticides (56) 69
Triazine
Routine method for identification of pesticide residues, — carbamate, urea, and uracil type compounds by TLC (65) 533
s-Triazine herbicides
Analysis of triazine herbicides by combined TLC and fluorimetry (100) 175
Triazine herbicides
Determination of ametrine and atrazine residues in soil by TLC (80) 137
Triazine herbicides
Effect of some operating parameters on the response of the Coulson conductivity detector (87) 333
s-Triazine herbicides
Electrolytic conductivity detection of some nitrogen-containing herbicides (63) 364
Triazine herbicide
Modified detection of — residues and

their hydroxy derivatives on thin-layer chromatograms (53) 589
Trichloroacetic acid
Anomalous behaviour of amino acids on thin-layer chromatograms in the presence of trichloroacetic acid (64) 103
Trichloroacetic acid
GC determination of chloral hydrate, trichloroethanol and --- in blood and in urine employing head-space analysis (88) 55
1,3,5-Trichlorobenzene
Determination of impurities in --- (75) 39
Trichloroethanol
GC determination of chloral hydrate, --- and trichloroacetic acid in blood and in urine employing head-space analysis (88) 55
Trichloroethyl esters
--- as derivatives for GC with electron capture detection (61) 29
Trichlorofluoromethane
GC–MS method for analysis of the contents of aerosol irritant projectors (80) 155
2,4,5-Trichlorophenoxyacetic acid
Determination of residues of --- in soil by GC of the *n*-butyl ester (69) 204
2,4,5-Trichlorophenoxyacetic acid
Determination of 2,3,7,8-tetrachlorodibenzo-1,4-dioxin at parts per billion levels in technical-grade ---, in 2,4,5-T alkyl ester and 2,4,5-T amine salt herbicide formulations by quadrupole mass fragmentography (90) 71
1,3,5-Trichloro-2,4,6-trinitrobenzene
Simultaneous determination of 1,3-dinitro-2,4,6-trichlorobenzene and 1,3-dinitro-2,4,5,6-tetrachlorobenzene in --- (76) 331
Trichomonacidal agent
Determination of the urinary levels of a new --- and its main metabolites by GLC (57) 417
Trichomycin
Pyrolysis GC of polyene antifungal antibiotics. the nature of candicidin, levorin and --- (53) 566
Tricyclanes
GC behaviour of tricyclic saturated hydrocarbons. The relation between the retention indices and the stereochemical structure of the --- (52) 77
Tridepsides
Improved conditions and new data for the identification of lichen products by a standardized TLC method (72) 113
Triethylenetetramine
GC of higher polyamines on Tenax-GC columns (97) 77
Trifluoroacetate derivatives
Analysis of monosaccharides by GLC of the O-methyl glycosides as ---. Application to glycoproteins and glycolipids (69) 291
2-Trifluoroacetylaminoacetophenone
GC of urinary kynurenine (82) 331
N-trifluoroacetyl-D,L-amino acid isopropyl esters
N-trifluoroacetyl-L-norvalyl-L-norvaline cyclohexyl ester as a stationary phase and its interaction with asymmetric solutes (67) 227
Trifluoroacetylated amino acid methyl esters
GLC of ---. Determination of their molar responses with the flame ionization detector (71) 223
Trifluoroacetylation
Acylation with bis(acylamides). N-Methyl-bis(trifluoroacetamide) and bis(trifluoroacetamide), two new reagents for --- (78) 273
N-trifluoroacetyl *n*-butyl esters
Simple apparatus for derivatizing amino acids to their corresponding --- (62) 138
N-Trifluoroacetyl *n*-butyl esters of amino acids
GLC analysis of tryptophan in proteins (76) 77
N-Trifluoroacetyl *n*-butyl esters of amino acids
GLC studies on the twenty protein amino acids: a single column separation (76) 63
3-Trifluoroacetylcamphorates
Thermodynamics of molecular association by GLC. σ-Donor molecules and dimeric --- of Mn(II), Co(II) and Ni(II) (99) 147
Trifluoroacetyl derivatives
GLC of 2,5-diketopiperazines as their --- (64) 166
Trifluoroacetyl derivatives
Separation and identification of some isomeric alkylamines as their --- (82) 373

N-α-Trifluoroacetyl-DL-lysine
Separation of --- from potassium trifluoroacetate by LC (68) 262
N-trifluoroacetyl-L-norvalyl-L-norvaline cyclohexyl ester
--- as a stationary phase and its interaction with asymmetric solutes (67) 227
N-Trifluoroacetyl-L-prolyl amides
Stereochemical separation and configurational assignment by GLC of --- of asymmetric 1-phenylisopropylamines (69) 285
2-Trifluoromethyl-3,4-dihydro-4-quinazolone
GC of urinary anthranilamide (82) 323
Triglycerides
Analysis of human serum --- by high-temperature GC (66) 239
Triglycerides
Fluorometric determination of --- on thin-layer chromatograms (72) 405
Triglycerides
Frontal elution LC of a "total artefacts" peak in frying oils (79) 329
Triglycerides
Gel filtration LC of fatty acids and other fat samples using a Pye LC detector (71) 355
Triglycerides
Microanalytical quantitation of serum lipids by TLC utilizing an automated applicator (63) 63
Triglycerides
Quantitative TLC/GLC of human blood --- (78) 133
Triglyceride
Simultaneous fluorometric analysis of five lipid classes on TLC (60) 111
Triglycerides
TLC-enzymatic determination of mono-, di-, and --- in glyceride mixtures (64) 388
Triglycerides
TLC of epoxy plasticisers (55) 422
Trihexyphenidyl hydrochloride
Rapid GC method for the determination of benzhexol hydrochloride (57) 137
2,3,5-Triiodobenzoic acid
Study of interactions of substituted pyridines with --- by means of GC (89) 131
Trimeprimine
Identification of tricyclic antidepressants derived from imipramine by GC (59) 297
Trimethoprim
New fluorescence assay of --- and metabolites using quantitative TLC (80) 111
Trimethylanilinium hydroxide
Decomposition of --- during pyrolysis methylation GC (97) 267
1,1′-Trimethylene bis(4-aldoximinopyridinium) dibromide
Convenient chromatographic method to investigate the *in vivo* metabolism of --- by cation exchangers (66) 156
Trimethyl phosphate
Selective detection of organometallics in GC effluents by flame photometry (74) 311
Trimethylsilylation
Quantitative GC determination of polar organic compounds after thin-layer separation followed by --- (85) 9
Trimethylsilylation
Silylation of microgram samples in a GC trap (82) 370
Trimethylsilylation of polar compounds
Volatile fatty acids as solvents for the --- (85) 1
Trimethylsilyl derivatives
Characterization of the --- of sugar phosphates and related compounds by GC and GC–MS (76) 51
Trimethylsilyl derivatives
Gel chromatographic study of --- of Sephadex with non-polar solvents (64) 61
Trimethylsilyl derivatives of chloramphenicol
Preparation of --- for GLC (82) 297
Trinitrobenzene
Quantitative analysis of nitro compounds in the micro- to picogram range by a combination of TLC and vapour phase chromatography with the nickel-63 electron capture detector (51) 243
2,4,7-Trinitrofluorenone
GLC studies of electron-donor–acceptor systems. VI. --- as a complexing additive to the stationary phase (61) 7
2,4,6-Trinitrotoluene
Capillary decomposition of explosives and analysis by either vapor-phase chromatography or the combination of TLC and visible spectrometry (62) 417
Trinitrotoluene
Continuous --- process studies. IV.

Identification and determination of purification byproducts (67) 255
2,4,6-Trinitrotoluene
Detection of --- vapours in air by plasma chromatography (93) 141
Tri-*n*-octylamine
Separation of manganese, iron, cobalt, nickel, copper, zinc and cadmium by reversed-phase chromatography using --- as the stationary phase and applying a gradient elution technique (79) 275
Tri-*n*-octylphosphine oxide
Reversed-phase partition chromatography of rare earths with a mixture of organic extractants (74) 99
Triolein
Frontal elution LC of a "total artefacts" peak in frying oils (79) 329
Tripalmitins
Micromethod for the quantitative determination of lipids by use of TLC, photodensitometry and an internal standard (68) 153
Triphenylmethane
Study of substituent effects by means of GC in some aromatic systems (65) 129
Triphenylmethanol
Study of substituent effects by means of GC in some aromatic systems (65) 129
Triphosphoinositide
Separation of diphosphoinositide and --- on oxalate-impregnated silica gel columns (87) 267
Trisaccharides
Separation of sugars by centrifugal microparticulate bed chromatography (62) 93
Tris(acetylacetonato)chromium(III)
Distribution coefficients of acetylacetone and --- in the Merckogel OR-2000–chloroform system (92) 291
Trisethylenediaminecobalt(III) complex
Studies of TLC of inorganic salts. V. Resolution of the racemic --- by means of TLC on silica gel (53) 610
Triterpenes
Complex-forming stationary phases in high-speed LC (83) 91
Trivalent elements
Ion-exchange processes of some --- on amorphous zirconium phosphate up to 250°C (76) 221
Tropane alkaloids
Quantitative analysis of --- in pharmaceutical preparations (55) 417
Tropinone
Reaction TLC: the reduction of --- (57) 315
Tropocollagen
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. I. The case when virtually all molecules are adsorbed on to a single type of crystal site through a single type of adsorption group (93) 313
Tropocollagen
Theory of chromatography of rigid molecules on hydroxyapatite columns with small loads. II. The case when molecules can be adsorbed on to both of C and P crystal sites through carboxyl and basic groups (93) 337
Tropocollagen
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. I. The case of a single molecular species (82) 167
Tropocollagen
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. II. The case of several molecular species (82) 191
Tropocollagen
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. III. Microheterogeneous model of --- molecules (82) 219
Tropocollagen
Theory of chromatography of rigid rod-like macromolecules on hydroxyapatite columns. IV. Further theory of the microheterogeneous model of --- molecules (82) 237
Trypsin
Removal of chymotrypsin activity from crystalline --- and its investigation (57) 450
Trypsin
TLC–enzymatic identification and the mode of action of chlorinated hydrocarbon insecticides. II. Identification by inhibition of trypsin (52) 447
Tryptamine
Simple extraction of indole derivatives from aqueous solution by adsorption on neutral polystyrene resin (61) 95

Tryptamine
Studies of the isopropylation of amino acids and amines by GC–MS (78) 343
Tryptamines
–––. I. Chromatography of melatonin (61) 225
Tryptamine
Use of *o*-phthalaldehyde as a spray reagent for the TLC identification of bufotenin and 5-methoxy-N:N-dimethyltryptamine (57) 433
Tryptophan
Analysis of indolic ––– metabolites in human urine. TLC and *in situ* quantitation (94) 85
Tryptophan
Comparative TLC of indole-containing metabolites of ––– and their sulfur isosteres (75) 126
Tryptophan
Determination of metabolites of tyrosine and of ––– and related compounds by GLC (55) 297
Tryptophan
Determination of ––– oxidation products using an amino acid analyzer (65) 565
Tryptophan
Experimental study of amino acid degradation under open flask hydrolytic conditions (52) 405
Tryptophan
GC analysis of ––– metabolites (55) 291
Tryptophan
GC of urinary anthranilamide (82) 323
Tryptophan
GC of urinary anthranilic acid (64) 174
Tryptophan
GC of urinary kynurenine (82) 331
Tryptophan
GLC analysis of ––– in proteins (76) 77
Tryptophan
New reagent for detecting –––, indole, and indole-3-acetic acid in TLC (67) 371
Tryptophan
Simple extraction of indole derivatives from aqueous solution by adsorption on neutral polystyrene resin (61) 95
Tryptophan
TLC of kynurenin metabolites (79) 347
Tryptophan dipeptides
Spectrophotometric and chromatographic determination of ––– (63) 461
Tryptophan metabolites
Study of the chromatographic behaviour of ––– and related compounds by chromatography on thin layers of silica gel. Part I. Qualitative separation (66) 311
Tryptophan-peptides
Gel chromatography of tyrosine-peptides and ––– on Sephadex G-10 and G-15 (60) 139
Tryptophanyl-dipeptides
Gaseous formaldehyde: a sensitive chromatographic detection reagent for ––– (59) 209
Tswett
Investigation of the chloroplast pigments of higher plants, green algae and brown algae and their influence upon the invention, modifications, and applications of –––'s chromatographic method (73) 371 (review)
Tswett
Life and scientific works of Michael ––– (73) 303 (review)
Tswett
Revival of the chromatographic method of M. ––– in 1931 (73) 361 (review)
Tswett
––– and the Nobel prizes. (Inspired by the "conclusion générale" of C. Dhéré, 1943) (86) 283 (review)
Tumours
Aflatoxin detection by high-speed LC and mass spectrometry (84) 402
Tumours
Circular TLC for diagnosis and follow-up of neural crest ––– (82) 127
Tumour-promoting agents
Rapid separation of –––, phorbol and phorbol myristate acetate (12-O-tetradecanoylphorbol-13-acetate) by high-pressure LC (96) 151
Tung's equation
Use of fast, finite, Fourier transforms for the solution of –––. II. Theory and application (55) 175
Tungsten(VI)
Behaviour of ––– on molecular sieve materials (82) 249
Two-component mobile phases
Investigations on the adsorption process in TLC by using ––– (93) 167

Two-component solvent systems
--- in adsorption chromatography on silica gels with different specific surface areas (93) 177
Tylosin
TLC method for the detection of --- in biological materials and feeds (61) 125
Tyramine
Use of the spark-chamber radio-scanner for rapid location and quantitation of labelled compounds after one- and two-way separations (82) 75
Tyrocidines
Preparation of pure peptides from a mixture of gramicidins and of --- by droplet countercurrent chromatography (92) 147
Tyrosine
Determination of metabolites of --- and of tryptophan and related compounds by GLC (55) 297
Tyrosine
Rapid chromatographic determination of phenylalanine and --- for phenylketonuria screening (67) 49
Tyrosine-peptides
Gel chromatography of --- and tryptophan-peptides on Sephadex G-10 and G-15 (60) 139
Tyrosine-rich proteins
Use of quaternary ammonium ethyl cellulose in the fractionation of --- from wool (72) 319

U

Ultra trace analysis
GLC–MS investigation of C_6–C_{20} organic compounds in an urban atmosphere. An application of ––– on capillary columns (62) 1

Ultra trace analysis
––– (below p.p.b.) by coupling centripetal TLC and GC (78) 127

Ultraviolet detection system
New sensitive ––– for carbohydrates eluted during CC (64) 247

Ultraviolet detector
Combination of a UV and a thermal conductivity detector in GC (96) 171

n-Undecane
GC identification of the main aromatic hydrocarbons from the catalytic dehydrogenation of ––– (65) 143

Undecenes
Identification of straight-chain ––– by capillary GC on squalane (65) 137

Uniformity of adsorbent granules
Effect of grain diameter and ––– on the efficiency of GC columns of various diameters (92) 249

Unresolved gas chromatographic peaks
Practical quantitative method for –––. II. Three overlapping peaks (70) 31

Unsaturated TLC chamber
Simple arrangement for the production of an ––– (68) 280

Unsulphated material contents
Determination of the ––– of sulphated surface-active agents by LC (67) 149

Uracil
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587

Uracil
Chromatography on macroporous ion exchangers (52) 351

Uracil
GLC of the purine and pyrimidine bases (61) 45

Uracil
Relation between structure and gel chromatographic behaviour of pyrimidine compounds (71) 67

Uracil
Routine method for identification of pesticide residues, triazine, carbamate, urea, and ––– type compounds by TLC (65) 533

Uracil
TLC of some 2,6-dioxopyrimidines and -purines (81) 178

Uranium
Influence of temperature on the ion-exchange properties of stannic arsenate. Separation of Pb^{2+}, UO_2^{2+} and Cr^{3+} from numerous metal ions (54) 269

Uranium
Reversed-phase extraction chromatographic separation of scandium from the rare earths, ––– and zirconium (96) 262

Uranium
Reversed-phase extraction chromatography of the rare earths, thorium, ––– and zirconium with a high-molecular-weight amine in sulphuric acid and ammonium sulphate media (85) 123

Uranium
Reversed-phase TLC behaviour of the rare earths, thorium, ––– and zirconium with a high molecular weight amine in sulphuric acid and ammonium sulphate systems (56) 95

Uranium
TLC separation of zirconium, hafnium, thorium, ––– and the rare earths on DEAE-cellulose in sulphate media (88) 351

Uranium(VI)
Selective chromatographic separation of ––– on DEAE-cellulose layers in dilute acetic acid media (86) 167

Uranium isotopes
Elution requirements for ion-exchange separation of ––– (55) 395

Ureas
GC of substituted phenyl ––– by flash-heater methylation with trimethylanilinium hydroxide (87) 85

Urea
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. V. The quantitative determination of --- in urine (60) 103
Urea
Rapid determination of plasma --- by GC (94) 302
Urea
Routine method for identification of pesticide residues, triazine, carbamate, ---, and uracil type compounds by TLC (65) 533
Urea
Sensitive procedure for determining cyanate in --- solutions (66) 189
Ureas
Separation by GLC of mono- and symmetrically disubstituted --- as their trifluoroacetates (88) 398
Urea adducts
GC separations of alkanes on urea inclusion compounds with *n*-alkanes as stationary phases (91) 303
Urea clearance
Improved technique for the analysis of amino acids and related compounds on thin layers of cellulose. VII. A simple technique for the estimation of blood urea and of its clearance from plasma (67) 325
Ureide compounds
Specific GC determination of xanthines and barbiturates by flash-heater N-butylation (76) 467
Ureide ester–amide systems
Chromatographic resolution of enantiomers: ^{1}H and ^{13}C NMR studies of hydrogen bonding in chiral --- (71) 405
Urethanes
Functional group transformations in the GC derivatization of several carbamates and --- (87) 341
Uric acid
Determination of --- in foodstuffs by TLC (72) 408
Uric acid
Separation and determination of nanomole amounts of some purines, --- and uric acid riboside by two-dimensional PC (100) 95
Uric acid
Separation of the UV-absorbing constituents of urine by high-pressure LC (52) 97
Uridine
Contributions of anion-exchange TLC to the study of free nucleotides in tissues (71) 127
Urinalysis
Simplified multiple sample --- in support of a methadone clinic (71) 165
Urinary anthranilamide
GC of --- (82) 323
Urinary anthranilic acid
GC of --- (64) 174
Urinary aromatic acids
Use of GC–MS for the diagnosis and study of metabolic disorders. Screening and identification of --- (92) 435
Urinary kynurenine
GC of --- (82) 331
Urinary metabolites
Rapid computerized identification of compounds in complex biological mixtures by GC–MS (99) 507
Urinary metabolites
Studies of --- of 2-(4-isobutylphenyl)-propionic acid by GLC–MS (99) 541
Urinary 1,4-methylimidazoleacetic acid
Method for the GC determination of --- (82) 394
Urine
Apparatus for the quantitative analysis of volatile compounds in --- (85) 19
Urine
Chromatography of sugars in body fluids. I. Preparation of --- for PC analysis (60) 381
Urine
GC determination of 4-allyloxy-3-chlorophenylacetic acid (Alclofenac) and its metabolites (62) 135
Urine
GC method for the quantitative determination of nortriptyline and some of its metabolites in human plasma and --- (68) 77
Urine
GLC of simple phenols for urinalysis (94) 169
Urine
Identification of volatile compounds in human --- (85) 31
Urine
Improvements to drug screening with XAD-2 resin columns (77) 233

Urine
Method for the GC determination of urinary 1,4-methylimidazoleacetic acid (82) 394
Urine
Precise and sensitive method for the analysis of steroids in small --- samples by TLC and GLC (68) 67
Urine
Quantitative analysis of trace amounts of oestrogenic steroids in pregnancy --- by column liquid–liquid chromatography with UV detection (62) 79
Urine
Separation of neutral amino acids, dipeptides and oligopeptides into classes. Application to --- (66) 261
Urine
Separation of the UV-absorbing constituents of --- by high-pressure LC (52) 97
Urine
TLC separation of equine oestrogens on silica gel H–silver nitrate plates (62) 158
Urocanase
Activity stain for --- and histidase on polyacrylamide gel (54) 286
Uronates
Separation of methyl(methyl O-methyl-α-D-glucopyranosid)--- by GC (91) 463

V

Vaccine
Analysis of β-propiolactone by GLC. I. Investigation of a residue of β-propiolactone in the antirabic Pasteur ---. II. Study of the hydrolysis curve of β-propiolactone at pH 7.4 (70) 128

Vacuum distillation–gas chromatography
Quantitative determination of volatiles in non-volatile matrices (99) 709

Vacuum ultraviolet atomic emission detector
---. Quantitative and qualitative chromatographic analysis of typical C, N, and S containing compounds (55) 237

Valium
Use of stable isotopes in GC–MS studies of drug metabolism (91) 413

Vamidothion
Determination of technical and formulated --- by GLC (71) 557

Vanadium(II) chlorides
Use of ---, manganese(II), and cobalt(II) chlorides as packings to separate alkanes, alkenes and alkynes by GC (59) 13

Vanadium(V)
Behaviour of --- on dextran- and polyacrylamide gels (89) 287

Vanillin
Improved methods for the estimation by GLC of lignin degradation products from plants (54) 335

Vanillylmandelic acid
Selective GC–MS methods for the quantitation of normetanephrine, metanephrine and --- (90) 163

Vanillyl pelargonic amide
Study of the components of capsaicin. Quantitative GC determination of separate homologs and analogs of capsaicin mixtures from a natural source and of --- as adulteration (63) 281

Vaporisation enthalpy
Determination of activity coefficients and thermodynamic quantities by GLC (81) 19

Vasopressin
Solid phase synthesis and purification of a pentapeptide (63) 167

Vegetable extracts
Removal of interfering substances from --- prior to the determination of organochlorine pesticide residues (67) 173

Venom
Chromatographic separation of the --- of *Bungarus multicinctus* and characterization of its components (72) 71

Venting valve
Simple automatic --- for Coulson electrolytic conductivity and microcoulometric GC detectors (84) 387

Venzar
Method for the determination of Venzar (3-cyclohexyl-5,6-trimethyluracil) on silica gel layers (74) 366

Viburnum trilobum Marsh.
Growth-regulating substances from --- separated on Sephadex G-15 (76) 261

Vinyl acetate gels
Application of --- (53) 63

Virial coefficients
Determination of second-interaction --- by GLC (98) 511 (review)

Virial coefficient
Estimation of the surface area of adsorbents from the third gas–solid --- (72) 221

Virial coefficient
Study on the possibility of determining the third gas–solid --- in physical adsorption by GC (66) 1

Viruses
Purification of potato virus X, white clover mosaic virus, tobacco mosaic virus and ribosomes by CC (75) 235

Virus
Treatment of controlled pore glass with poly(ethylene oxide) to prevent adsorption of rabies --- (56) 362

Viscosimetric detector
Some applications of a --- in GPC (83) 363

Viscosity
Effect of coating parameters on the quality of stationary phase films in glass capillary columns (65) 39
Vitamins
Elucidation of the structure of pyridoxol–boric acid complexes (51) 330
Vitamins
High-speed liquid chromatograph with a flow-spectrofluorimetric detector and the ultramicro-determination of aromatic compounds (83) 373
Vitamins
Quantitative analysis of water-soluble ---- in multicomponent pharmaceutical forms. Determination of tablets and granules (77) 389
Vitamins, water-soluble
TLC on silica gel sintered plates (74) 73
Vitamin A
Application of high-pressure LC and GC to problems in --- analysis (83) 447
Vitamin A
Application of LC in food analysis (83) 455
Vitamin A
Magnesium hydroxide as a TLC adsorbent. III. Application to separations of --- and related carotenoids (69) 215
Vitamin A
Separation of β-apocarotenals and related compounds by reversed-phase PC and TLC (75) 146
Vitamin A
Separation of β- and γ-tocopherols in the presence of α- and δ-tocopherols and --- acetate (78) 449
Vitamin A
Studies on charge transfer complexes of some conjugated compounds with explosives (59) 457
Vitamin A_1 acetate
GLC of vitamin A_1 alcohol and --- (77) 410
Vitamin A_1 alcohol
GLC of --- and vitamin A_1 acetate (77) 410
Vitamin B_1
GC of thiamine and derivatives (76) 239
Vitamin B12
Separation and determination of cobalamin on an SP-Sephadex column (53) 577
Vitamin B_{12} deficiency
Rapid GC method for the quantitation of volatile fatty acids. Propionic acid excretion in --- (81) 65
Vitamin B_{12} derivatives
Electrophoretic separation of --- (88) 430
Vitamin D
GLC of --- as trimethylsilyl derivatives (65) 493
Vitamin D
High-efficiency LC separation of --- from precalciferol (74) 43
Vitamin D
Removal of cholesterol from serum extracts of --- by TLC (65) 571
Vitamin E
Separation of individual tocopherols from human plasma and red blood cells by TLC and GLC (85) 81
Violaxanthin
Carotenoid analysis by two-dimensional, two-adsorbent TLC (61) 133
Violaxanthin
Chromatography of leaf pigments on silica gel and aluminium hydroxide loaded papers (61) 202
Void volume marker
Orange Dextran as a --- in thin-layer gel chromatography (74) 355
Volatiles
Analysis of --- in polymers by GC (65) 271
Volatiles
Quantitative determination of --- in non-volatile matrices (99) 709
Volatile compounds
Apparatus for the quantitative analysis of --- in urine (85) 19
Volatile compounds
Identification of --- in human urine (85) 31
Volatile fatty acids
Effect of column length and column packing mesh size on the analysis of --- by GC using Chromosorb 101 (74) 13
Volatile fatty acids
Rapid GC method for the quantitation of --- in urine. Propionic acid excretion in vitamin B_{12} deficiency (81) 65
Volatile oils
Examination of --- by combined GLC/TLC (53) 375

Volatile oil
Relative retention time changes with temperature for the GC identification of ---- components (53) 163
Volatile substances
Use of an electron capture detector for monitoring in LC (62) 153
Vulcanizates
Behaviour of *p*-phenylenediamine protecting agents in TLC (88) 391
Vulcanizates
Detection of hexamethylenetetramine in --- (88) 423
Vulcanization accelerators
Antioxidants and stabilizers. XLVIII. Analysis of the components of stabilization and vulcanization mixtures for rubbers by GPC and TLC methods (92) 361

W

Warfarin
GLC of coumarin anticoagulants and their trimethylsilyl ethers (64) 355
Waste gases
GC analysis of --- from a formaldehyde plant (60) 422
Water
Determination of ^2H_2O in --- and biological fluids by GC (87) 246
Water
Difficulties in setting-up industrial chromatographs. Application to the continuous analysis of --- in a dimethylsulfoxide solution in the aromatic extraction unit of Feyzin (77) 29
Water
Problems in --- analysis for pesticide residues (54) 71
Water
Use of macroreticular resins in the analysis of --- for trace organic contaminants (99) 745
Water adsorption
--- by porous polymer bead GC columns (68) 31
Water content
Influence of the --- of the solvent on chromatographic separations (95) 27
Water pollutants
Organic substances in potable water and in its precursor. Part II. Applications in the area of Zürich (90) 303
Water pollution
Detection and quantitative measurement of fecal --- using a solid-injection GC technique and fecal steroids as a chemical index (86) 107
Water, potable
Organic substances in --- and in its precursor. Part II. Applications in the area of Zürich (90) 303
Water vapour
Effect of --- in the quantitation of trace components concentrated by frontal GC on Tenax-GC® (99) 689
Wattle extract
Effect of polyethylene glycols on the mobility of the polyphenolic constituents of --- on cellulose (84) 129
Wettability
Correlations of surface measurements with the chromatographic performance of chemically modified glass capillary columns (94) 35
Whey proteins
Fractionation of the --- and casein of cow's milk on Sephadex DEAE A-50 and A-25 (75) 117
White clover mosaic virus
Purification of potato virus X, ---, tobacco mosaic virus and ribosomes by CC (75) 235
Wire detector
--- with an alkali flame ionization sensing element for LC (91) 181
Wool
Electrophoretic and chromatographic characterization of sulphur-rich proteins from --- (69) 341
Wood light
Colour photography of thin-layer chromatograms under --- (86) 192
Wood preservatives
Investigation of fluorigenic labelling of chlorophenols with dansyl chloride (84) 214
Wurster dyes
Detection of sterol hydroperoxides on thin-layer chromatoplates by means of the --- (66) 101

X

Xanthates
TLC of organic sulphur compounds by the mixed fluorescent material method. II. Separation and quantitation of disulphides, thiurams, ---, thioureas and other organic sulphur compounds (96) 211
Xanthene dyes
Separation and identification of certain --- and other red basic dyes (77) 237
Xanthine
Analysis of purine and pyrimidine bases and their nucleosides by high-pressure LC (99) 587
Xanthines
Chromatography of fat-soluble chloroplast pigments on preformed kieselguhr (52) 177
Xanthines
LC of ---, analgesic drugs and coffee (87) 523
Xanthine
Rapid determination of some plasma oxypurines using high-pressure LC (81) 85
Xanthine
Separation and determination of nanomole amounts of some purines, uric acid and uric acid riboside by two-dimensional PC (100) 95
Xanthines
Specific GC determination of --- and barbiturates by flash-heater N-butylation (76) 467
Xanthines
TLC of caffeine and related methylxanthines (59) 214
Xanthine
TLC of some 2,6-dioxopyrimidines and -purines (81) 178
Xanthones
GLC of naturally occurring --- and related derivatives (57) 247
Xanthones
TLC and PC study of some naturally occurring --- (92) 467
Xanthophylls
Continuous flow separation of carotenoids by LC (55) 325
Xanthurenic acid
TLC of kynurenin metabolites (79) 347
Xenon fluorides
Analytical and preparative-scale GC of --- (89) 365
Xerox copying
---, a simple method for recording chromatograms (90) 208
Xylenols
GC separation of methylphenols on tricresylphosphates using open tubular columns (54) 277
Xylodextrins
Preparation of --- and their separation by gel chromatography (57) 255
Xylodextrins
Separation of --- by gel chromatography (67) 162
Xylofuranosides
Separation of some methyl-O-methyl-D--- by GC (58) 209
Xylonic acid
Separation of oligomeric aldonic acids by anion-exchange chromatography (83) 45
N-(2,3-Xylyl)anthranilic acid, *see* Mefenamic acid

Y

Yeast
Affinity chromatography in the purification of glutathione reductase (77) 191
Yeast antibodies
Affinity chromatography of --- on modified mannan (91) 293
Yeast tRNA
Fractionation of --- and proteins on nucleoside derivatives of cellulose (82) 349
Yeast tRNA's
Relation between the structure and the partition coefficient of --- in saline solvent systems (71) 203
Ytterbium
Separation of rare earths by ion-exchange chromatography. III. Analysis of erbium, thulium, ---, and lutetium (75) 101
Yttrium
Preparation and some properties of N,N'-diethylethylenediamine-N,N'-diacetic acid and N',N'-diethylethylenediamine-N,N-diacetic acid including ability of the former to associate with lanthanons and --- (76) 459
Yttrium
Separation of lanthanides by chromatography on ion-exchange paper SA-2. III. Separation of rare earths of --- (70) 216
Yttrium
Separation of --- from the lanthanides by ion exchange with diethylenetriaminepentaacetic acid as eluant. I. Separation of yttrium–erbium mixtures (62) 449

Z

Zeatin
Chromatography of five cytokinins on an insoluble polyvinylpyrrolidone column (75) 122

Zeatin riboside
Chromatography of five cytokinins on an insoluble polyvinylpyrrolidone column (75) 122

Zeaxanthin
Carotenoid analysis by two-dimensional, two-adsorbent TLC (61) 133

Zelec NE
Qualitative and quantitative determinations of mono- and dialkylphosphoric acids and their salts by GC (78) 281

Zeolites
Chromatographic properties of type X --- containing alkali metal cations (58) 47

Zeolites
Intermolecular interactions in GC separations on --- (58) 39

Zinc
Separation of manganese, iron, cobalt, nickel, copper, --- and cadmium by reversed-phase chromatography using tri-*n*-octylamine as the stationary phase and applying a gradient elution technique (79) 275

Zinc complexes
TLC identification of copper and --- of pheophytins and pheophorbides in mixtures with chlorophylls and derivatives (70) 206

Zinc salt-impregnated silica gel thin layers
TLC of chlorinated anilines on --- (74) 142

Zingiber officinale Roscoe
Contribution to the knowledge of Nigerian medicinal plants. III. Chromatographic studies on --- (93) 421

Zipax Permaphase ODS
Reversed-phase chromatography of some aromatic hydrocarbons. Structure–retention relationships (83) 31

Zipax SAX
Separation and determination of benzenepolycarboxylic acids by high-pressure elution LC. The use of elution programming (84) 285

Zirconium
Quantitative and rapid separation of Zr(IV) and Hf(IV) by TLC. Spectrophotometric determination of Hf(IV) with chloranilic acid (75) 93

Zirconium
Reversed-phase extraction chromatographic separation of scandium from the rare earths, uranium and --- (96) 262

Zirconium
Reversed-phase extraction chromatography of the rare earths, thorium, uranium and --- with a high-molecular-weight amine in sulphuric acid and ammonium sulphate media (85) 123

Zirconium
Reversed-phase TLC behaviour of the rare earths, thorium, uranium and --- with a high molecular weight amine in sulphuric acid and ammonium sulphate systems (56) 95

Zirconium
TLC separation of ---, hafnium, thorium, uranium and the rare earths on DEAE-cellulose in sulphate media (88) 351

Zirconium(IV)
Thin-layer gel chromatography of polymeric hydrolysis products of metal ions (76) 280

Zirconium phosphate
Ion-exchange processes of some trivalent elements on amorphous --- up to 250°C (76) 221

Zirconium phosphate
Mechanism of isotopic exchange in a heterogeneous system (69) 261

Zirconium phosphate
Temperature dependence of distribution coefficients of some cations on a crystalline --- over the range 25 to 80 °C (71) 538

Zirconium tellurate
---, an inorganic ion exchanger (53) 613
Zone electrophoresis
Isotachophoresis in two-dimensional combination with --- for the concentration and separation of glucose metabolites (73) 211
Zone electrophoresis
Quantitative determination of glucose metabolites separated by isotachophoresis in two-dimensional combination with --- (73) 219

METAL π-COMPLEXES

Vol. II: **Complexes with Mono-Olefinic Ligands**

Part 2: **Specific Aspects**

by MAX HERBERHOLD, Department of Inorganic Chemistry, Technische Universität Munich, Germany.

Translated from the German by J. A. Connor, Manchester.

1974. xvi + 508 pages. US$96.25 / Dfl. 250.00. ISBN 0-444-41061-9

This monograph has been written with the dual intention of providing a complete literature survey on mono-olefin π-complexes of transition metals for practicing research chemists, and a guidebook for those who want to join this rapidly expanding branch of organometallic chemistry.

CONTENTS: Spectroscopic studies. Structural studies. Stability of mono-olefin π-complexes. The metal-olefin bond. Application of mono-olefin π-complexes in industrial processes and related reactions. Author index. Subject index.

Previously Published:

Vol. II: **Complexes with Mono-Olefinic Ligands**

Part 1: **General Survey**

by MAX HERBERHOLD

1972. xvi + 643 pages. US$113.50 / Dfl. 295.00. ISBN 0-444-40899-1

CONTENTS: Introduction. Historical. General methods of preparation. Metal π-complexes with mono-olefin hydrocarbons. Metal π-complexes with mono-olefins containing functional groups. References. Appendix. Name index. Subject index.

"It contains a wealth of material, much of it in tabular form, and should provide a most useful reference work for the research worker." Nature

Vol. 1: **Complexes with Di- and Oligo-Olefinic Ligands**

by ERNST OTTO FISCHER, Technische Universität, Munich, and HELMUT WERNER, Department of Inorganic Chemistry, Technische Universität, Munich.

1966. x + 246 pages. US$19.25 / Dfl. 50.00. ISBN 0-444-40211-X

"It is a very valuable source-book, written by one with extensive practical experience in the field, and can be unreservedly recommended to anyone."
Chemistry and Industry

"this is an attractively produced volume, containing an authoritative, comprehensive, concise and accurate account of its subject." Chemistry in Britain

CHROMATOGRAPHY OF ENVIRONMENTAL HAZARDS

Volume III: Pesticides

by **LAWRENCE FISHBEIN,** Chemistry Division, National Center for Toxicological Research, Jefferson, Adjunct Professor of Chemistry, University of Arkansas, Little Rock, Arkansas, U.S.A.

1975. 830 pages. US $108.50/Dfl. 260.00. ISBN 0-444-41158-5

Pesticides represent a major area of increasing environmental concern both in terms of their potential ubiquity as well as toxicity. The main objective of this third volume in the series Chromatography of Environmental Hazards is to provide the analytical chemist with a practical text as well as a literature reference source of selected descriptive chromatographic procedures. Information is provided wherever possible concerning the basic equipment, operating parameters, sensitivity, and interferences encountered in the analysis of a particular pesticide and/or group of related contaminants.
The unique feature of the book is the blending of relevant information regarding the synthesis, areas of utility, degradation and metabolic fate of pesticide toxicants, thus presenting as thorough and cohesive a picture as possible of the specific environmental hazard.

CONTENTS: Introduction. DDT and metabolites. Cyclodienes: Dieldrin, Aldrin and Endrin. Chlordane, Heptachlor and Heptachlor epoxide. Miscellaneous organochlorine pesticides Perthane, Methoxychlor, Endosulfan and Toxaphene. Benzene hexachloride and hexachlorobenzene. Multiple organochlorine analyses. 2,4-D and its esters. Pentachlorophenol. Miscellaneous herbicides and acaricides (bipyridylium salts, Dinoseb, Trifluralin and Cycocel). Parathion, Methyl Parathion and Malathion. Bidrin, Azodrin, Diazinon, Dursban and Dasanit. Disyston, Dimethoate, Phorate. Multiple organophosphorus pesticide analysis. Carbamates. Ureas. Triazines. Pesticidal synergists. Index.

BIBLIOGRAPHY OF COLUMN CHROMATOGRAPHY 1967-1970

and Survey of Applications

edited by Z. DEYL, J. ROSMUS †, M. JUŘICOVÁ and J. KOPECKÝ.

Supplementary Volume No. 3, 1973
Published in conjunction with the Journal of Chromatography

1973. 1088 pages. Dfl. 180.00 (about US$69.20)

Price for subscribers to the Journal of Chromatography:

Dfl. 135.00 (about US$51.90)

Immediate access to information on the possibilities of liquid column chromatography is essential to the vast band of workers involved in chemical analysis and synthesis, who are frequently faced with the pertinent question of how to separate.

BIBLIOGRAPHY OF COLUMN CHROMATOGRAPHY provides this means by summarizing available knowledge of this technique, which has hitherto appeared in literature scattered throughout differently-orientated journals. Its list of compounds chromatographed gives an exhaustive survey of chemical individuals separated or isolated by liquid column chromatography from 1967 to 1970. Additional notices are supplied on sorbent and ion-exchange material used for a particular type of separation. The system of classification adopted extends that to be found in the bibliographical section of the Journal of Chromatography. Although there is more detailed information in this book, the similarity is an extremely useful feature as both sources can be read side by side. As such the BIBLIOGRAPHY will be welcomed as a reference "tool" for many years to come.

DESAGA

DESAGA Scraper
für Zonal (Profile) Scanning

Zonal Scanning, das Abschaben von Chromatogrammen in Form von 2,5 oder 5 mm breiten scharfen Zonen, erleichtert und verkürzt die Aufarbeitung des Schichtmaterials erheblich und steigert gleichzeitig die Analysengenauigkeit in der Dünnschicht-Chromatographie.
Der DESAGA DC-SCRAPER nach KASANG und GÖLDNER, das Grundgerät für ZONAL SCANNING, wurde im MPI für Verhaltensphysiologie entwickelt und ist an einer Reihe von MP- und Hochschulinstituten für den Routinebetrieb zu einem unentbehrlichen Instrument geworden.
Er ermöglicht, in einem Arbeitsgang wahlweise 1 bis 5 Zonen von 2,5 oder 5 mm Breite halbautomatisch abzutragen. Je nach Klingenbreite läßt sich innerhalb weniger Minuten die gesamte Schicht einer DC-Platte oder Folie in Form von 30-60 Fraktionen abkratzen.
Der DESAGA DC-SCRAPER ist geeignet für die Aufarbeitung:
a) sämtlicher im Handel erhältlicher Fertigplatten und -folien sowie selbstbeschichteter Platten und Folien aller Formate;
b) sämtlicher gängiger Schichtmaterialien;
c) sämtlicher üblicher Schichtdicken, also auch für die präparative DC.

Verlangen Sie die ausführliche Produkt-Information 179.
